ANNUAL REPORT 2019

The People's Bank today has refined and honed its 'frontier forging' and pioneering status in the banking industry in Sri Lanka. While leveraging on its rich legacy, the Bank has evolved and transformed into a technologically forward and innovative solutions provider which has won many prestigious awards and accolades both locally and internationally.

With an unrivalled branch network, and a portfolio of customers unlike any other, People's Bank remains ahead of changing times, constantly forging new frontiers in pursuit of pushing the boundaries of sustainable value creation and always having its customers at the forefront of its decision making. Not complacent with its successes, People's Bank is your Frontier Bank in Sri Lanka.

**PEOPLE'S
BANK**

ABOUT THE REPORT

HOW TO READ THE REPORT

This is our fifth Integrated Annual Report. It is a detailed discussion on the Bank's performance in the economic, environmental and social context we operate in. It builds on our previous Integrated Annual Report that we published in 2018.

With this Report, we aim to bridge the mandatory standards applicable to People's Bank for financial reporting with generally accepted frameworks and standards, such as those from the International Integrated Reporting Council (IIRC) and the Global Reporting Initiative (GRI).

The Report is presented in two parts.

Book 1

The Integrated Annual Report begins with the Letter from the Chairman followed by the review from the Chief Executive Officer/General Manager. The section "Business Model" sets out the integration of our six capitals into the business, our interactions with our key stakeholder groups, the context we operate in and the matters that are material to the Bank. This is followed by a comprehensive discussion on our strategy, its implementation and achievements. This sets the tone to the heart of the Report, the value creation story of the Bank in the short, medium and,

long term. The "Performance Reports" highlight the contribution of the business units to the strategic direction of the Bank, followed by a detailed review of the Bank's corporate governance and risk management practices. It is an overview of our governance structure, how we have embedded our policies on ethics and integrity and the manner in which we manage our risks.

Book 2

The financial reports and supplementary reports sections include the detailed financial performance of the Bank and the Group for the financial year and a snapshot of the financial position as at 31 December 2019, along with other ancillary information.

▼ GRI 102-51

Our most recent integrated report for the year ended 31 December 2018, as well as the reports for the past four years are available on our website: <https://www.peoplesbank.lk>

ABOUT THE REPORT

SIX CAPITALS

According to the The International <IR> Framework, we have defined our six capitals as Financial, Manufactured, Intellectual, Human, Social and Relationship, and Natural Capital. The icons below serve as an identifiable visual reference to these six capitals within this Report.

Financial Capital

Human Capital

Manufactured Capital

Social and Relationship Capital

Intellectual Capital

Natural Capital

STRATEGY

Our strategic themes have been developed in response to stakeholder engagement and are linked to the material topics that significantly impact our business and stakeholders. A review of how we have performed in respect of our Key Performance Indicators (KPIs) is given under the “Strategic Direction” section on page 55.

Our key strategic objectives are:

Delivering innovative market-leading client experiences

Maintaining a steady growth momentum and building resilience

Being operationally excellent in everything we do

Always do business the right way

SCOPE AND BOUNDARY

This Report covers the period 1 January 2019 to 31 December 2019, which coincides with our financial reporting cycle. The Report provides an overview of the entire operations of People’s Bank and two subsidiaries, People’s Leasing & Finance PLC and People’s Travels (Pvt) Ltd. These are collectively referred to as “Group” in this Annual Report and are included in the Consolidated Financial Statements. The human capital, environmental aspects, customer and infrastructure related aspects are discussed in the context of the Bank.

There were no significant changes from previous reporting periods in the scope and aspect boundaries, neither were there any restatements as compared to the Annual Report issued in the previous reporting year.

MATERIALITY

In determining materiality, we consider material issues to be those that have the potential to substantially impact our ability to create and sustain value for our stakeholders over the short, medium, and long term. In conformity with GRI Standards and The International <IR> Framework referred to in this section, we have defined the material themes for this Integrated Annual Report using input provided by our stakeholders, as well as based on the analysis of the external environment. The relevant details are given in the “Stakeholder Engagement” section on pages 60 to 62 and “Materiality” section on pages 50 to 54.

REPORTING FRAMEWORKS

In preparing this Report we drew on concepts, principles, and guidance from –

- The International Integrated Reporting Council (IIRC) Framework
- The Global Reporting Initiative (GRI) – (GRI Standards: In Accordance – Core option)
- The Institute of Chartered Accountants of Sri Lanka
- The Central Bank of Sri Lanka
- The United Nations Sustainable Development Goals (SDGs)

▼ GRI 102-11

PRECAUTIONARY PRINCIPLE

The precautionary principle is applied in relation to our social and environmental sustainability.

We understand that our operations exert a direct and an indirect impact on the society and the environment. Although, as a bank, our operations do not directly create a negative impact on the society and the environment, we have taken measures to reduce our carbon footprint through our initiatives to manage waste and reduce energy consumption.

We strive to avoid or minimise the negative indirect impact resulting from business activities of our customers to whom we lend, by credit policies, risk management, and dedicated green products. These are detailed under Community Capital and Natural Capital on pages 101 to 109.

▼ GRI 102-56

ASSURANCE

We value the accuracy and reliability of all information and data contained in this Report, both financial and non-financial. By adopting a combined assurance model, we have assessed and assured various aspects of our business operations.

Aspect	Internal assurance	External assurance
Financial Reporting	Board of Directors, Internal Audit	The Auditor General
Sustainability Reporting	Board of Directors, Internal Audit, Business Heads	Messrs KPMG
Corporate Governance	Board of Directors, Internal Audit	The Auditor General
Internal Control	Board of Directors, Internal Audit	The Auditor General

QUALITY ASSURANCE

Every effort has been taken by us to provide credible information using visual elements such as graphs, tables, and infography to facilitate clarity and comparability. We have incorporated performance of the current period and previous period to facilitate comparability. Through inbuilt internal controls that enable traceability and verifiability, assurance and consistency of the information has been facilitated. By the aid of visual elements, the readability and brevity of the Report have been enhanced. Completeness of the Report is assured by incorporating direct and indirect material impacts of the Bank. Finally, every effort has been taken to present a balanced review of material relevant information and we have assured the credibility and reliability of the information by obtaining external assurance.

FORWARD-LOOKING STATEMENTS

The statements relating to future events and the financial projections contained in the Report, are based on the current available information. People’s Bank does not give any assurance on the probabilities of achieving these future events due to the risk and uncertainty related to the circumstances on which these events depend on, especially the macroeconomic conditions. The Bank has not updated this information to reflect any changes that may be warranted, post-publication of this Report.

OUR BANK

PEOPLE'S BANK – SRI LANKA'S PREMIER DIGITAL FINANCIAL SERVICES PROVIDER

People's Bank is a premiere State bank with the largest footprint of 739 branches across Sri Lanka. Claiming an asset base of LKR 1.873 Tn. as at 31 December 2019, we are the second largest commercial bank in the island in terms of the volume of assets of the banking sector. Our dedicated staff counting close to 8,000 serves our large customer base of more than 14 million customers across the island.

Established as a licensed commercial bank under the People's Bank Act No. 29 of 1961, we are a systemically important bank in Sri Lanka. Serving the nation for nearly six decades, we have pioneered a host of banking solutions to customers from all walks of life, making us truly the "Bank of the People."

OUR DIGITALISATION DRIVE

To bring the benefits of digitalisation to the entire nation, we embarked on a digital transformation journey in 2015, by taking a pioneering role in digitisation and customer engagement. Since then a host of diversified digital banking solutions have been launched that deliver ease, speed, efficiency, and convenience to customers at every point in their interaction. We are the first and only Bank in Sri Lanka to be accredited the ISO/IEC 27001:2013 certification; the highest international accreditation for information, protection, and security.

Read more on pages 76 and 77.

OUR COMMITMENT TO SOCIAL RESPONSIBILITY AND SUSTAINABILITY

Recognising our efforts for taking responsibility for our operations and setting an example of good practices in the financial services industry, we were awarded with Carbon Conscious® certification by Sustainable Future Group (SFG), thereby making us, Asia's First State-owned bank to achieve this distinction. The "People's Green Pulse" showcases our commitment towards environmental sustainability and our pledge towards a green future.

Read more on pages 106 to 109.

HIGH RATING

We have received a high National Long-Term Rating of "AA+(lka)"; by Fitch Ratings Lanka Ltd. This stems from our high systemic importance, quasi-sovereign status, our role as one of the key lenders to the Government and full State-ownership.

CAPITALISATION

Capital adequacy is one of the key financial indicators which illustrate the soundness and the stability of the Bank. This measures the Bank's ability to withstand in an unexpected loss scenario due to various activities carried out by the Bank.

1961

People's Bank was inaugurated on 1 July 1961. The first branch was opened at Duke Street, Colombo. During the year, eight more branches were opened in Polonnaruwa, Hingurakgoda, Hambantota, Anuradhapura, Puttalam, Matale and Kandy in addition to the Foreign Branch in Colombo. The total number of employees stood at 169.

1962

The Head Office was relocated to Ratnam's Building in Union Place, Colombo 2 and 17 more branches were opened.

1963

The Bank commenced its pawning services.

1964

The Co-operative Rural Banking Scheme was inaugurated.

1965

Some departments of the Bank were relocated to the Government Clerical Service Union (GCSU) building in Sir Chittampalam A. Gardiner Mawatha, Colombo 2. The total number of branches increased to 48, including new branches in Horana, Kekirawa, Padaviya, Mannar, Embilipitiya, Kahatagasdigiliya, Ragala and Talawakelle.

1967

The Bank commenced a new Agriculture Credit Scheme becoming the pioneer lender to the small farm sector.

1970

The "Athamaru" loan scheme was introduced to finance economic activities of the informal sector. The Investment Savings Scheme, a credit linked savings scheme was launched to attract regular savers.

1971

The Bank's hundredth branch was opened at Marandagamula.

1973

A comprehensive rural credit scheme was launched to provide both production and consumption credit facilities.

The Bank initiated the "Ganu- Denu" practice, identifying itself with the traditions of the Sinhala and Tamil New Year and encouraging customers to transact with the Bank at the auspicious time.

1975

An aggressive branch expansion programme brought our total branch count to 158.

OUR JOURNEY

1977

Our 200th branch opened at Kollupitiya. The Head Office was relocated to a building in Fort. The total number of employees reached 5,000. The first fisheries bank was opened at Koralawella.

1981

Our branch network increased to 290. The Extended Minors' Savings Scheme was launched.

1982

The 300th branch of the Bank opened at Ingiriya. The total number of employees reached 10,000.

1984

The People's Merchant Bank, a subsidiary of the Bank, was established. Our branch at Slave Island was merged with the International Division and the Fort Foreign Branch.

1986

The process of computerisation began at our Head Office and selected city branches and a Black Light System was introduced. Customer turnaround time was thereby significantly reduced.

1987

Our Headquarters Branch became the Bank's first fully-automated branch. A special loan scheme for rural electrification was implemented in collaboration with the CEB.

1989

The Bank participated in a loan scheme sponsored by the Ministry of Labour to provide for housing against EPF balances. A scheme was launched in association with the Sri Lanka Foreign Employment Bureau to provide loans for job seekers abroad. The Bank participated

in a loan scheme launched by REPIA to provide credit to those affected by civil unrest in 1983. A *Janasaviya* associated loan scheme was introduced during the year. The Bank also commenced issuing Negotiable Savings Certificates during the year.

1990

An Endowment Savings Deposit Scheme was introduced. The People's Visa Card was introduced in association with Visa International and 24 branches were fully-computerised.

1991

The first ATM was installed at our Headquarters Branch.

1992

The Bank supported the Government's 200 Garment Factory Programme. "People's Automated Banking System" (PABS) a banking application developed in-house, commenced live operations.

1993

Three hundred and thirty bank branches were operating throughout the country and 35 main branches were fully automated. "*Vanitha Vasana*", a savings scheme for women was introduced.

1994

Eight new ATMs were installed and 160 branches were computerised under the automation programme.

1995

"*Gurusetha*", a new deposit mobilisation and loan scheme catering to Government teachers was launched with the co-operation of the Ministry of Education.

1996

"*Suwa Sevana*", a credit package for Government sector health personnel was launched. "*Sisu Udana*", a new deposit scheme for schoolchildren was introduced. The Bank participated in two ADB-funded credit schemes – the Tea Small Holdings Development Project and the Perennial Crops Development Project. The Bank's fully owned subsidiaries, People's Leasing Co. Ltd. and People's Travels (Pvt) Ltd., commenced operations. Zonal offices were opened to strengthen decentralised administration and to facilitate better customer service.

1997

The "*Surathura*" Loan Scheme was launched to assist self-employment projects. The Bank extended its credit facilities to small and medium scale enterprises and industries under the NDB-funded Small and Medium Enterprises Assistance Project (SMEAP).

1998

The total number of ATMs increased to 36, serving over 125,000 PET cardholders. One hundred and seventy-five branches were fully-automated and the number of pawning centres increased to 188. A special credit cum deposit scheme known as "*Videshika*" was introduced in collaboration with the Sri Lanka Foreign Employment Bureau to assist migrant workers.

2001

The Bank's Corporate Management team was strengthened by the recruitment of certain heads of divisions from the private banking sector. Restructuring of the Bank was initiated through the launch of a Strategic Plan. The total number of ATM machines grew to 90.

2002

The number of PABS automated branches increased to 218 and 119 branches were connected to the Central ATM Switch. A Treasury automation package was implemented.

2003

The 11th CEO/General Manager of the Bank, Mr Asoka de Silva assumed duties on 1 February 2003. The Young Executive Saver's (YES) Account was launched. The Bank signed up with Silver Lake System SDV BUD Malaysia to install a state-of-the-art core banking package and trade services solutions which will initially be operational in 60 selected branches including Head Office.

2004

The second phase of the restructuring plan for 2004-2008 launched and approved by the Government of Sri Lanka was based on the recapitalisation support of ADB. The Bank obtained the first ever public rating of BBB+ from Fitch Ratings Lanka. The core banking project was implemented successfully.

2005

The 15th Chairman of the Bank Dr P A Kiriwandeniya assumed duties at the beginning of December 2005. This was followed immediately thereafter with a receipt of LKR 2 Bn. as the first tranche of Equity Capital Investment in the Bank by the Government of Sri Lanka in keeping with the agreement signed between the Government, ADB and People's Bank. The core banking project was further extended across the branch network. The Bank was also a major intermediary in bringing Government-granted financial assistance for rebuilding, after the December 2004 tsunami.

2006

The Bank obtained an A-rating from Fitch Ratings Lanka Ltd., indicating progress from its earlier rating level. People's Bank was awarded the POP Award for 2006 in the banking and financial services sector by the Sri Lanka Institute of Marketing. The second tranche of capital of LKR 1 Bn. was received from the Government of Sri Lanka.

2007

The 16th Chairman of the Bank Mr. W. Karunajeewa assumed duties in May 2007. The rating level of A - from Fitch Ratings was maintained during the year. The Government of Sri Lanka injected the third capital tranche of LKR 1.5 Bn. into People's Bank. People's Bank won the People's Award for the Banking and Financial Services Brand of the Year for the second consecutive year. The Bank surpassed the LKR 300 Bn. mark in total deposits during the year 2007.

2008

Mr M Wickremasinghe assumed office as the 12th CEO/General Manager of the Bank. The Government of Sri Lanka released the fourth capital tranche of LKR 1.5 Bn. The Bank reached the Capital Adequacy Level of 10.5% by the end of the year. Further, the Bank's first Debenture issue of LKR 2.5 Bn. was made in the year. A notable advancement in the Bank's remittance service with the introduction of "People's e-remittance", a web-based remittance product supported by latest technology to remit money from overseas within minutes. Two new foreign currency deposit products were launched, viz., "Doo Daru Ethena Isura" a foreign currency deposit product for children and "Special Foreign Investment Deposit Account" [SFIDA].

1999

The Bank launched "Isuru Udana", a deposit scheme that encourages parents and guardians to save for the benefit of their young charges.

2000

The "Jana Jaya", savings cum loan scheme was launched. The newly introduced "Jaya Sri" draw offered attractive prizes for depositors. The ATM network expanded to 74 machines throughout the country. The Central ATM Switch was introduced to connect the PABS branches and the ATMs.

OUR JOURNEY

2009

The 13th CEO/General Manager of the Bank, Mr P V Pathirana assumed duties in January 2009. The Bank issued its second Debenture for LKR 2.5 Bn. during the year. 214 branches and 236 service centres were connected online. The Bank strategically placed over 300 ATMs island-wide. Total deposits reached LKR 400 Bn. The highest recorded profit before tax of LKR 6.1 Bn. was achieved. Received a SAFA (South Asian Federation of Accountants) Award for the 2008 Annual Report for the first time in the Bank's history.

2010

Mr H S Dharmasiri assumed office as the 14th CEO/General Manager of the Bank in October 2010. Branch network and service centres expanded to 679. ATMs increased to 330. People's International VISA Debit Card was launched in July 2010. The Bank obtained AA- from Fitch Ratings Lanka Ltd. and AAA from Ram Ratings. Total deposits surpassed LKR 462 Bn. during the year 2010. The highest recorded profit before tax of LKR 8.7 Bn. was achieved. The People's Bank Annual Report won two Gold Awards at the ARC Awards held in New York. The Bank received the SAFA (South Asian Federation of Accountants) Award, for the 1st Place in the Public Sector Category, for the 2009 Annual Report.

2011

Mr N Vasantha Kumar assumed office as the 15th CEO/General Manager of the Bank on 22 February 2011. The Bank celebrated the Golden Jubilee on 1 July 2011. Total branch network reached 714 whilst ATM locations increased to 382 covering almost all parts of the island. The Bank obtained an upgraded rating of AA (stable) from Fitch Ratings Lanka Ltd. The Bank's total assets, total deposits and total loans and receivables surpassed LKR 663 Bn., LKR 539 Bn. and LKR 478 Bn. respectively. The highest recorded profit before tax of LKR 15.3 Bn. and a profit after tax of LKR 10.2 Bn. were achieved. People's Bank won the SLIM-Nielsen People's Award for the Most Popular Bank in the Sri Lankan Banking

and Financial Services Sector, the SLIM-Nielsen People's Awards – Service Brand of the Year, and also won the Bronze Award for the Service Category at the SLIM Brand Excellence Awards 2011.

2012

The total branch network reached 728, whilst ATM locations increased to 420 covering almost all parts of the island. The Bank obtained an upgraded rating of AA + (stable) from Fitch Ratings Lanka Ltd. The Bank's total assets, total deposits and total loans and receivables surpassed LKR 873 Bn., LKR 683 Bn. and LKR 660 Bn. respectively. The Bank's 2011 Annual Report won one Grand Award and three Gold Awards in the National Category at the 2012 International ARC Awards.

2013

Mr Gamini S Senarath assumed duties as the 17th Chairman of the Bank in February 2013. Twenty-three SME centres were established across the island. Surpassed one million cards milestone during the year with access to over 30 million Visa accredited merchants globally. Corporate customers were provided with an on line real time payment facility for EPF, ETF and Customs Duty Payments. People's Bank became the first bank to be connected to the National Common ATM Switch. ATM locations increased to 460 with the branch network expanding to 735. LKR 5 Bn. worth Debentures issued during the year at the Bank's fourth Debenture issue.

2014

In 2014 the Bank's asset base crossed one trillion rupees, as the second largest bank in the industry. Bank garnered the triple accolades of "Bank of the Year 2014" at the European Global Banking and Finance Award-Sri Lanka 2014 as well as "Best Banking Group Sri Lanka" and "Most Sustainable Bank Sri Lanka" at the World Finance Banking Awards 2014.

2015

The Bank commenced an ambitious digitisation initiative with the objective of enhancing its customer value proposition, generating operational efficiencies and strengthening risk management capabilities. Accordingly, the Bank upgraded its ATM network to an enterprise strength hardware platform to increase security and reliability to customers. Investments were also made in upgrading the Core Banking System, data warehousing capabilities and POS infrastructure.

The Bank launched a Green Banking Concept in demonstrating its sustainability commitments. Successfully rolled out to the Bank's Strategic Plan for 2016-2020, which is expected to further fortify the Bank's market position and deliver long-term value to its stakeholders.

2016

The Group achieved the rupees one trillion milestones in both deposits and advances during the year, the only financial services group to achieve two trillion rupee feats in a single year. The Bank was awarded the "Best Banking Group in Sri Lanka" and the "Most Sustainable Bank in Sri Lanka" by World Finance Banking Awards for the third consecutive year. It was also adjudged the 387th largest Bank in Asia. In line with its digitisation drive, the Bank launched self-banking centres comprising cash deposit machines (CDM), ATMs and kiosks in seven locations in Colombo, effectively catering to customers' increasing demand for convenient financial solutions and seamless banking. The Bank launched a new logo to reflect the Bank's evolution in keeping pace with new global trends and catering to the fast changing aspirations of customers.

2017

The consolidated contribution towards national economic development via taxation, special levies and dividends over the last ten years surpassed the LKR 150.0 Bn. mark. Additionally, the Bank received a new capital infusion of LKR 5.0 Bn. for the first time in the past eight years.

The Bank witnessed many firsts in the Digital and Information Technology sphere, with the opening of Sri Lanka's first fully-digitalised branch in Colombo and receiving the prestigious ISO/IEC 27001:2013 quality certification for Information Security Management first for any State bank in the nation.

The 400th Largest Bank in Asia as per the Asian Banker Magazine and included in the World's Top 1000 Banks by the Banker Magazine (UK). Locally, People's Bank was crowned "Country's Best Bank in 2017" at the National Business Excellence Awards and was recognised as the second most valuable Sri Lankan brand by the global brand consulting agency, Inter-Brand. For the 11th consecutive year, the Bank was conferred the exclusive "People's Service Brand of the Year" and "People's Banking Service Provider of the Year" Awards at the SLIM-Nielson People's Awards in 2017.

2018

LKR 10.9 Bn. syndicated loan facility extended to Hayleys for the acquisition of Singer Sri Lanka which is the single largest transaction of a listed company in Sri Lanka in recent times.

Six alternative digital channels were launched during 2018 for the benefit and ease of our customers namely People's Wave-mobile banking app, People's Web-internet banking portal, People's Wiz-express banking, People's Wyn-internet banking and mobile app for corporate clients, RLOS-Retail Loan Origination System and CLOS-Corporate Loan Origination System. Among the many finance apps in the country, People's Wave has become the most downloaded finance app in Sri Lanka gaining an impressive 4.7 rating on Google play and is now regularly used by over 300,000 customers across the country.

For the 12th consecutive year, the Bank was awarded the "People's Banking Service Provider of the Year". The Bank also secured the top spot as "The Bank of the Year for Excellence in Customer Convenience" at the LankaPay Technnovation Awards 2018. Further, People's Bank won the "Excellence in Local Market Reach" Award at the National Business Excellence Awards.

On the global level, the Bank was once again ranked amongst the Top 1000 Banks in the World by the Banker Magazine, UK and, adjudged "The Best Bank in Sri Lanka" at the European Global Banking and Finance Awards 2018. Further, as a testament to our relentless commitment to excellence in digitalization, People's Bank clinched the "Best Branch Digitization Initiative Program Award" in Asia Pacific Region at the Asian Banker Business Achievement Awards 2018 for Financial Technology Innovation.

2019

The People's Bank (Amendment) Bill was passed in Parliament in September 2019, enabling the Bank to issue debentures with relative ease to augment its regulatory capital. Post amendment, the Bank successfully raised LKR 10.0 Bn. in Basel III, Tier II compliant Debentures. The rollout of self banking units (SBU's) was accelerated during the past two years to reach 239 at end 2019 – a feat achieved in just three years. People's Wave app surpassed most other similar financial apps in the country, to become one of the most downloaded finance apps in Sri Lanka, gaining an impressive ranking on Google Play Store. The success of the Bank in digital platform, is demonstrated through the numerous awards received internationally which include the Best Digital Bank 2019 by both the Asian Banker Magazine and Asia Money and being the recipient of the Best Mobile Banking Application by the Asian Banker Magazine for 2019. At the Asian Banker Financial Technology Innovation Awards 2018, People's Bank was awarded The Best Digitization Initiative Programme.

People's Bank is also the first and only bank in Sri Lanka to receive the highest international accreditation for information protection and security – the ISO/IEC 27001:2013 certification.

The Bank was recognised as the Best Retail Bank in Sri Lanka and the Most Improved Retail Bank in Asia Pacific, Middle East and Africa by the Asian Banker Magazine during 2019. The Asian Development Bank recognised People's Bank as the Leading Partner Bank in Sri Lanka, for its Trade Finance operations.

Setting the benchmark in raising funds from foreign banks, People's Bank signed the largest ever and the longest tenor bilateral funding facility secured by any commercial bank in Sri Lanka to date. This is a clear reflection of the global recognition and confidence placed in the Bank, its governance structure, expertise and impeccable track record relating to financing complex and nationally significant projects in our Nation.

LETTER FROM THE CHAIRMAN

“Whilst being fully aware of the challenges that lie ahead in a post COVID-19 era, we cautiously look to the future with a degree of hope and optimism. Our focus is to optimise on our unrivalled capabilities including our digital investments in order to deliver a superior customer experience whilst reducing structural costs and strengthening the overall resilience of the Bank”.

SUJEEWA RAJAPAKSE
Chairman

▼ GRI 102-14

On behalf of the Board of Directors, I am pleased to present to you the People's Bank Annual Report for the year 2019.

A YEAR OF CONSOLIDATION

Year 2019 was a year of consolidation for People's Bank, where important steps were taken to position the Bank for sustainable growth in the long-term. Our efforts during the year were focused on strengthening resilience through investments in risk management and compliance, augmenting the capital base and capitalising on our investments in digitalisation to deliver a differentiated customer experience, efficiency and quality earnings growth. The amendments relating to the People's Bank Act were finalised, enabling the Bank to augment its regulatory capital with relative ease and operate on a level playing field. Whilst positioning the Bank for sustained growth over the long-term, the momentum has paved the way to focus on credit growth especially in the non-state sector space.

BUILDING A SUSTAINABLE BANK

We made excellent progress in advancing our digitalisation strategy embarked three years ago to transition into the most digitalised and technologically advanced bank in Sri Lanka by 2020. Placing us on a par with some of the most renowned financial institutions in the world, the many recognitions garnered endorse our ambitious digital transformation plan, highlighting that our vision is judicious and our delivery on objectives and targets, timely. The many digital initiatives launched and setting up Sri Lanka's largest self-banking network within a short time span, have positioned us to meet the aspirations of multiple demographics, empowering and raising the bar in terms of tech knowledge and making our customers global citizens in a highly networked world. Our focus is to optimise our digital investments and capabilities to deliver better customer experiences while reducing structural costs; and strengthen the resilience of the Bank to improve outcomes for our stakeholders in the long-term.

Our Board and experienced management team is focused on ensuring that People's Bank remains the leading financial services provider in Sri Lanka; delivering excellent product innovation; and always offering standout customer experience. It's this focus, on the areas that matter most to our customers, that makes our Bank a clear market-leader and the choice for individuals who want the best banking experience.

CHARTING A CHALLENGING OPERATING ENVIRONMENT

The macroeconomic milieu was challenging, characterised by economic, social and, environmental pressures which were far beyond our control, creating an impact which was significant. The situation was further aggravated by the adverse consequences of the Easter Sunday terrorist attacks which had severe repercussions on almost all spheres of economic activity. Consequently, domestic economic activity remained subdued, especially with subpar growth in agriculture and industry related activities.

In such a setting it requires a delicate balance to control expenses while investing heavily in the technology and programmes that would generate future results. We achieved that balance commendably in 2019, and major investments to position the Bank for the future. Focusing on our proven ability to adapt and innovate, we navigated the difficult operating environment successfully. The success built over six decades is proof of our fundamental business agility, and our insights forged by experience which has enabled us to manage challenges and change, to drive and shape it – and to help our stakeholders do the same. We are not complacent with our successes as we believe there is more to be done. Our focus remains to consciously and very diligently challenge the boundaries of success going forward.

The dramatic spread of COVID-19 has disrupted lives, livelihoods, communities and, businesses presenting an unprecedented medical, economic and, human challenge across the world. Whilst being aware of the challenges that lie ahead in a post COVID-19 era, we look to the future with cautious optimism. The expertise we have built over 60 years, our digital investments, solid capital base and prudent cost management have strengthened the resilience of our Bank.

Going forward, the economy is expected to rebound from current levels supported by a subdued inflationary environment, low lending rates and improved investor sentiments.

A PERFORMANCE IN CONTEXT

For the financial year ended 31 December 2019, the Bank on a consolidated basis recorded a modest 9.7% growth in total revenue and a pre-tax profit of LKR 25.7 Bn., reflecting a decline of 17.7% YoY. This was attributable to, amongst other, to the

LETTER FROM THE CHAIRMAN

subdued macroeconomic conditions, decreasing net interest margins and, most notably, increases in impairment allowance reflective of the trend of deteriorating asset quality as also experienced across the industry.

With the increased pressure on customer delinquencies, industry NPL increased from 3.4% in 2018 to 4.7% in 2019. Despite an industry-wide increase, we maintained our NPL at 3.31%, well below the industry average. Compared to a growth of 5.6% in the banking industry, we recorded a growth of 3.1% as at 31 December 2019 much of which from the State sector. The consolidated balance sheet expanded by 7.4% to reach LKR 2,049.8 Bn. whilst shareholders' funds increased by 5.1% YoY to reach LKR 119.2 Bn.

These figures are commendable in the context of challenging and out of the ordinary circumstances which encompassed an economic slowdown, subdued investment and a volatile interest rate environment.

DELIVERING ENDEARING VALUE

Delivering value to all our key stakeholders is integral to our ethos and to our success. We continue to be economically viable, socially accountable and environmentally responsible through our industry leadership, stakeholder engagement and community investment activity.

Our people are at the heart of our commitment and their determination and commitment is behind People's Bank's ability to successfully manage, financial, social and environmental factors.

We have taken every reasonable effort to contribute to inclusive prosperity by enhancing the skills and meaningful employment opportunities for our people in local communities. We continued to invest in our team of employees, to empower the key enablers of our success.

By evaluating the environmental impacts in our lending and investment policy and integrating sustainability into our operations, we contribute towards addressing climate change and reducing our carbon footprint. To deliver an outstanding customer experience many initiatives were taken during the year to enhance customer convenience and meet their evolving financial needs in a proactive manner. Through our investments in digitalisation we have transformed customer experience to be more intuitive and personalised.

As Sri Lanka's premier State bank, we continued to support national development as a key financier to infrastructure development and a key lender to the State and State-owned enterprises. Total consolidated contribution in the form of taxes, dividends and, levies amounted to LKR 25.1 Bn. during the year under review whilst Group contribution over the past ten years amounted to a staggering LKR 181.7 Bn.

A BANK OF REPUTE

Underpinning the success of the Bank is your Board's commitment to having effective corporate governance. Through ongoing, active oversight, transparency and accountability we focused on balancing and protecting the interests of all our key stakeholders over the long-term. We have a strong culture of operating ethically, acting with integrity and effectively managing our risk. We will continue to strengthen our solid foundation in the form of structure and establishing stringent policies and procedures. Every reasonable effort is being made to ensure we comply with governance practices of an international standing. The support received from the Ministry of Finance in this connection is encouraging and noteworthy.

SHAPING A SUCCESSFUL FUTURE

Although the future remains challenging, we are cautiously optimistic that we would navigate the challenges to shape a successful future delivering increased value to all our stakeholders. We remain committed to being the undisputed market leader in financial services in Sri Lanka.

Inspired by that vision, we will continue to leverage our extensive physical and digital network, customer-relevant innovations, digital capabilities, our strong talent pool and strong balance sheet and capital position to generate consistent and sustained earnings growth. We have a second

to none customer reach through our largest branch network in the industry. This has been complimented with our digital capabilities. Going forward, we will capitalise on our extensive physical and digital platform to reach a wider customer base, drive deposit mobilisation, enhance credit growth and empower the lives of many through our services. Optimising the sizable investment on our digital capabilities, we will continue to cater to customers of varying demographic and socio-economic profiles and enterprises of varying nature, size and scope, to drive financial inclusion in Sri Lanka.

Our consistent and disciplined approach to managing risk, our unwavering commitment to regulatory compliance; strong employee engagement; a long-standing investment in recruiting; developing and retaining talented people; and a trusted brand will continue to anchor everything we do.

Greater focus will be given to enhancing credit quality and improving monitoring and collections. We will strengthen the risk management framework and nurture a risk conscious culture which would strengthen the resilience of the Bank further. We will develop cross-selling potential and harness the synergy between our business units and diverse customer segments and capitalise on collaborative working opportunities which exist both externally and within the Group to achieve growth.

By taking every reasonable effort and within our control we will improve the living standard of every Sri Lankan whilst supporting State endeavours of socio-economic development. Furthermore, by placing our customers always at the front and centre of our decision-making we will enhance the value of our services. We will continue to preserve honesty and integrity in every aspect of our conduct without exception.

Our employees are undoubtedly our strongest asset and core to our every success. Whilst nurturing a strong team culture, we will consciously and continuously enhance employee knowledge to improve our efficiency and effectiveness. Our people will be empowered to bring out their creativity through innovative products and services. Our ability to understand and cater to our diverse customers makes us simply stand out amongst our peers.

EXPRESSING APPRECIATION

In conclusion, I wish to express my sincere appreciation to His Excellency the President, the Honourable Prime Minister, the Secretary to the President, the Secretary to Treasury for their valued guidance and assistance and the officials at the Central Bank of Sri Lanka for their counsel on matters of a regulatory nature. I thank my colleagues on the Board for their unstinted support and advice at all times and the outgoing Board for their contributions made to the Institution over the years. Appreciation is also extended to our former Chief Executive Officer/General Manager – Mr Rasitha Gunawardana and our incumbent Acting Chief Executive Officer/General Manager Mr Bonniface Silva and the management team and all staff – who are undoubtedly our biggest asset – for their continued commitment and dedication which is the cornerstone of our success. I am deeply grateful to our customers, and other stakeholders for their unwavering loyalty and whose success is ultimately the Bank's success

We have great confidence in the long-term success of the Bank. We have laid a firm foundation. Our strategy is clear, employees are engaged and our capital position is sound. We have every reason to feel positive about the future as we continue to consolidate our position as Sri Lanka's Frontier Bank.

SUJEEVA RAJAPAKSE
Chairman

25 March 2020

CHIEF EXECUTIVE OFFICER/ GENERAL MANAGER'S REVIEW

“As the vanguard Bank in Sri Lanka with the largest customer base for any financial services provider, we continue to balance our dual role of supporting State endeavours and national socio-economic development whilst being competitively profitable”.

BONNIFACE SILVA

Acting Chief Executive Officer/General Manager

▼ GRI 102-14

Amidst a myriad of macroeconomic challenges, 2019 was a year of consolidation for People's Bank. Even as challenges present tremendous opportunities for sustained growth, we continued to deliver increased value to all our stakeholders with our strategy of growth. Holding steadfast to our philosophy of providing unparalleled customer experience and breaking new grounds in the banking industry, we refined our core organisational processes, revisited some of our decade old practices and strengthened our overall risk management framework including those relating to credit. Most importantly, we successfully addressed a long-standing issue inhibiting the Bank's growth – its inability to access debt markets for its regulatory capital purposes. Although the benefits of these improvements are not reflected in the numbers during the period under review, the sustainable tangible benefits will continue to accrue over the medium to longer-term.

A KEY SUCCESS

As the vanguard Bank in Sri Lanka with the largest customer base for any financial services provider, we continue to balance our dual role of supporting State endeavours and national socio-economic development whilst being competitively profitable.

Overcoming several obstacles, the People's Bank (Amendment) Bill was passed in Parliament in September 2019, enabling the Bank to issue debentures with relative ease to augment its regulatory capital. Since the amendment, the Bank has successfully raised LKR 10.0 Bn. in Basel III, Tier II compliant Debentures. Following this debenture issue, the Bank's total capital ratio at 31 December 2019 was comfortably above the Basel III minimum requirement.

OUR DIGITAL BANKING LEADERSHIP

Spearheading the digitalisation journey in the banking and financial services space in Sri Lanka, we have been on the vanguard of facilitating digital-financial services penetration into the rural hinterlands of the country having recorded notable success in supporting the Nation's evolution into a digital society. Our comprehensive digital implementation end to end across our many channels by offering an integrated experience has transformed the Bank's operations, giving customers an omni-channel experience with unparalleled convenience and speed. Whilst digitalisation has an underlying green ethos, it has improved our teller efficiency by over 50%, marketing campaigns and cross-selling by 30% and completely automated the Bank's risk management processes.

The rollout of self banking units (SBUs) was accelerated during the past two years reaching 239 at end 2019 – a feat achieved in just three years. These Units have increased efficiency levels significantly instigating around 70% over the counter transactions. I am happy to state that SBUs established in rural areas have shown commendable progress, implying that every demographic is maximising on our digital banking solutions. This is a noteworthy achievement

considering the fact that majority of our customers are low and middle income earners who are naturally tech shy. Our efforts in creating awareness and on boarding customers via digital channels are successful as reflected by one third of our rural customers now using alternate channels of banking. We aim to further increase the utilisation levels and strengthen our existing capabilities.

I am proud to state that our mobile app, "People's Wave" has surpassed most other similar financial apps in the country, to become one of the most downloaded finance apps in Sri Lanka, gaining an impressive ranking on Google Play Store.

Our successes in digital platform, is demonstrated through the numerous awards received internationally which include the Best Digital Bank 2019 by both the Asian Banker Magazine and Asia Money. In addition, the Bank was the recipient of the Best Mobile Banking Application by the Asian Banker Magazine for 2019.

A NOTEWORTHY PERFORMANCE IN A DIFFICULT MARKET ENVIRONMENT

The Bank's consolidated total operating income increased by 4.4% YoY to LKR 93.8 Bn. in 2019 and consolidated profit after tax for the year under review amounted to LKR 16.2 Bn., recording a 24.7% decline from 2018. The reduction was due to the impact of macroeconomic challenges, which curtailed organic growth opportunities, increased impairment charges and squeezed Group's overall net interest margins. The profits were further impacted by a 50% increase in other operating expenses due to a one-off item and substantial increase in debt repayment levy which amounted to LKR 2.7 Bn. in 2019.

At a Bank level, absolute non-performing loans (NPLs) increased during the year to LKR 43.6 Bn. compared to LKR 31.5 Bn. at end 2018. As a result, the Bank's impairment charges rose by 121% YoY. Our NPL coverage of over 60% is the highest in the banking industry and remains well above the industry average of 52.3%, attesting to our prudent provisioning policy.

Despite an industry-wide increase in NPLs during 2019, we maintained our Bank level NPL ratio at 3.3% which was well below industry average of 4.7% as at 31 December 2019. This is a strong testament of our stringent credit evaluation process, effective management of our customer portfolios and the risk conscious culture nurtured across our Organisation. Further, greater focus was given to managing NPLs by linking NPL management to staff performance appraisals and assigning a greater weight. We will continue to manage our NPLs more effectively as we understand that there is always scope for further improvement.

Loan growth slowed down to 3.1% YoY to reach LKR 1,460.2 Bn. in 2019 which had a negative impact on incremental earnings for the year. More emphasis was given to the qualitative aspect of lending and bulk of the loans were granted to State-owned enterprises

CHIEF EXECUTIVE OFFICER/ GENERAL MANAGER'S REVIEW

(SOEs). Excluding SOE loans, Bank's loan portfolio contracted by 0.8% YoY. Total assets base increased to LKR 2,049.8 Bn. and customer deposits swelled by 6.3% to LKR 1,588.9 Bn.

The Group's Current and Savings Account (CASA) ratio was 35.9% at 31 December 2019 which was below Bank's target. A number of initiatives were undertaken to improve the Bank's current accounts base which will continue to be an area of emphasis going forward. Improving CASA from current levels will continue to be a priority.

Our capital structure was strengthened during the year. Consolidated Tier I and Total Capital Adequacy Levels were 11.6% and 14.9% respectively at end 2019.

OPERATIONAL EXCELLENCE IN PURSUIT OF DELIVERING BETTER CUSTOMER EXPERIENCES

Our significant investments in technology and digitalisation are key drivers of value that facilitate better customer experiences and more efficient business processes. Across the Bank, we streamlined our support services with the help of new technology, and took a more frugal approach to discretionary spending delivering notable cost savings in 2019. Our headcount has remained flat over the decade amidst business growth, reflecting our improving productivity levels.

We have made banking easy and sync with our customers' choices and preferences, as evidenced by the increasing number of customers spanning diverse social and economic strata engaging in banking through our SBUs and direct digital channels, both web and mobile, than ever before. We continued to invest in technology and train our staff on Customer Relationship Management (CRM) to offer an exceptional customer experience, every time. The success of these efforts is reflected in our brand ratings, increased customer base and customer satisfaction scores. With the implementation of a CRM software in the ensuing this year, we expect to manage all our relationships and interactions with current and potential customers in a more effective manner.

EMPOWERING OUR STAFF

Overall, the Bank's successes can be accredited to progressive initiatives and our team of talented employees. We continue to believe that the best investment we can make is in our own people. Therefore, substantial investments were made on staff training during the year to support our workforce in acquiring the skills and know-how requisite to support the Bank's evolving requirements and future growth. Whilst improving the transparency in selecting employees for training opportunities, we have built an increasingly powerful combination of deep institutional knowledge and leading-edge capabilities across the People's Bank team, through continuous training. We are focused on being forward-looking in our succession planning in order to adapt with the ever-changing banking environment and to ensure we have the necessary pipeline and bench of capable

and experienced leaders. We continue to create a performance-orientated and inclusive work environment that enables the People's Bank team to reach their full potential.

SUPPORTING A SUSTAINABLE WORLD

We remain committed to corporate social responsibility and to integrating sound environmental, social and governance practices into our operations. We have a long history and strong culture of supporting the communities that we operate in.

We strongly believe that our business performance and our role in society are inextricably linked, and we continue to prioritise and support a number of CSR initiatives, particularly in uplifting education of under-privileged children and developing Sri Lanka's cultural heritage and religious development.

We extended our support to establish "Ayati" the National Centre for children with disabilities during the year. All utility payments done by customers through our SBUs to the Ceylon Electricity Board and the National Water Supply and Drainage Board continue to be free of charge.

By extending finance to promote social progress, creating job opportunities and skills development, we continue to elevate the standard of living of communities. For example to support commitment to the environment, we have launched several initiatives under the "People's Green Pulse" environmental sustainability policy. Over the past three years, we have been making investments in our branch network to make them more environmentally sustainable by decreasing our energy usage as well as our paper dependency. Our first fully environmentally friendly regional head office is being constructed in Jaffna. We have also launched a tree planting project in key areas of the country. Our investment in CSR swelled to LKR 34 Mn. during 2019.

RECOGNITIONS – SEVERAL FIRST'S FOR THE INSTITUTION

We are humbled by the high credentials we have received both locally and globally, which validates our retail and digital thrust which has brought us to the forefront of technology innovation in Sri Lanka. The prestigious awards recognise the achievements that

we've made through the creativity, hard work and commitment of our talented employees across the Bank.

In 2019, the Asian Banker Magazine - a prestigious regional banking and finance publication, recognised People's Bank as the Best Retail Bank in Sri Lanka, the Best Digital Bank in Sri Lanka and the Most Improved Retail Bank across Asia Pacific, Middle East and Africa for the year 2019. All of these for first's for People's Bank. In addition, it was also awarded the Best Mobile Banking Application and the Best Mobile Branding Initiatives in Sri Lanka for 2019.

The Asian Development Bank recognised People's Bank as the Leading Partner Bank in Sri Lanka, for its Trade Finance operations. The Global Banking & Finance Review Awards recognised People's Bank's Investment Banking arm as the Fastest Growing Investment Bank in Sri Lanka 2019 – an award received for the second year in succession.

We set the benchmark in raising funds from foreign banks, by signing the largest ever and the longest tenor bilateral funding facility secured by any commercial bank in Sri Lanka to date. This is a clear reflection of the global recognition and confidence placed in our Bank, our governance structure, expertise and impeccable track record relating to financing complex and nationally significant projects in our Nation.

Locally, for the 13th consecutive year, People's Bank was the recipient of the SLIM Nielson's People's Service Brand of the Year and the People's Banking Service Provider of the Year for 2019 – a feat none other can boast of. The Bank's brand value, as measured by one of world's leading independent brand valuation and strategy consultancy practices Brand Finance, swelled by LKR 10.2 Bn. to reach LKR 45.5 Bn. This was by far the highest mover for any Bank/Financial Services Provider for the said year under review.

OUR CULTURE - OUR PRIDE - OUR ACHIEVEMENT

I am extremely proud of our culture of strong discipline and loyalty towards the Organisation resulting in good business judgement, including strengths in risk management, governance and leadership - all of which reflect the sense of responsibility we have to our stakeholders. By having as shared vision and working as one team we have developed a culture where our people are engaged, motivated and, empowered.

WELL POSITIONED FOR THE FUTURE

We will continue to transform our Bank into a more resilient, agile enterprise that is well placed to deliver industry-leading innovations, drive sustained, profitable growth, and continue to earn the long-term trust of the stakeholders we serve.

We will do this by adopting a customer-centric culture, by deepening our customer relationships and delivering exemplary

customer experiences by capitalising on the growth opportunities in digital banking. We will focus on improving our organisational processes on an ongoing basis and enhance the efficiency of our business operations. Through investments in human resources we will focus on increasing productivity levels across the Bank. Effective management of NPL and growing the CASA base of the Bank will continue to be areas of priority. Measures will be implemented to develop our brand strength and image further.

We are living through a difficult time for society and our economies as the crisis around the COVID-19 pandemic has left no one untouched. We are confident that we will make a positive contribution in this crisis, thanks to our deep risk knowledge, close client relationships and digital investments. Whilst we have prioritised to maintain the safety of the workplace and protect the health of our employees and customers, we remain optimistic about the future.

We will embark on our next phase of growth by developing the Bank's Strategic Plan 2021-2027 focused on capitalising on our digital investments, increasing the non-fund based income and delivering increased value to the corporate sector.

A BIG THANK YOU

People's Bank is an institution with great Sri Lankan traditions and a brand of unparalleled trust. We benefit from an extensive geographic and digital footprint that is valued by our customers and are backed by a strong financial position, loyal employees and a compelling platform as the Bank of the People. I believe that our Bank is exceptionally well positioned for the future.

In closing, I wish to extend my gratitude to our Chairman and the Board of Directors for their invaluable guidance and conscientious stewardship of the Group at all times. My appreciation is extended to the officials of Public Enterprise Development, the Government Treasury and the Central Bank of Sri Lanka for their wise counsel on all matters of a related nature. I take the opportunity to especially mention our outgoing Chief Executive Officer/General Manager Mr Rasitha Gunawardena for his valued contributions to navigate the institution during a difficult 2019. A big thank you to corporate and executive members and all staff for their hard work and dedication and, most importantly, to our shareholder and customers for their continued trust and confidence placed in us.

We look to the future with great expectation than ever before as we consolidate our position as the Frontier Bank in Sri Lanka!

OUR VALUE CREATION MODEL

BUILDING A RESILIENT AND AGILE BANK

Our long-term success depends on our ability to generate value for our stakeholders by providing services that are relevant and useful to people and the communities in which we operate. Our value creation model is a simplified way of showing how we create value for our

OPERATING ENVIRONMENT

STRATEGIC PILLARS

Innovation

01

Growth and resilience

02

stakeholders using our resources, skills and interactions. Through our business model our inputs such as financial, human, manufactured, intellectual, and social and relationship, community, and natural capitals are transformed into various outputs through our business activities.

MISSION

▼ OUTPUTS AND OUTCOMES

FINANCIAL

We create financial value for our stakeholders. Based on our proposed final dividend, investors are to receive LKR 2.5 Bn. in returns for 2019. Employees receive salaries and other benefits amounting to LKR 19.2 Bn. in 2019. Creating financial value to society as a whole; we paid LKR 6.7 Bn. in corporate income tax in 2019 to support public services. By making a sustainable profit, we manage our capital position more effectively and reinvest in our business for the future

MANUFACTURED

Clients derive value from our services especially our self-banking units which have delivered an unparalleled customer experience.

INTELLECTUAL

We have increased our brand equity by 17.1% YoY and strengthened our corporate culture by embedding ethical values that drive transparency, integrity and, accountability.

HUMAN

By investing LKR 104 Mn. on employee development we have developed a skilled, well-trained workforce that drive value for the society. We have provided a conducive work environment and nurtured a motivated and highly engaged team of employees.

SOCIAL

Our services enable clients to manage their finances efficiently and conveniently. By funding business we help drive economic growth and create jobs for society. By collaborating with local and global partners we promote social and economic development and improve the communities that we impact.

NATURAL

We aim to limit the negative impact on the environment through our operations and create value – by providing more sustainable financing, incorporating environmental considerations into our lending and investment decisions and managing our energy and water consumption efficiently. Electricity consumption reduced by 4.6% YoY and energy consumption has remained stable over the past 3 years, irrespective of business growth.

OPERATING ENVIRONMENT

OUR MACRO-ECONOMIC OPERATING CONTEXT

We operate in a complex and dynamic environment, with economic impacts, demographic trends, technological advancements all influencing the global financial services industry. Therefore, our growth during the year under review must be assessed in the context of global economic activity which impacted our local economy and our business operations. The dynamic environment presents us with opportunities to increase our value creation over the longer term, through an innovative and agile strategic approach and effective risk management.

GLOBAL ECONOMY

	2019 (Projection)	2018	2020 (Projection)
World output	2.9	3.6	3.3
Advanced economies	1.7	2.2	1.6
United States	2.3	2.9	2.0
Euroarea	1.2	1.9	1.3
Japan	1.0	0.8	0.7

Emerging market and developing economies	3.7	4.5	4.4
Russia	1.1	2.3	1.9
China	6.1	6.6	6.0
India	4.8	6.8	5.8
ASEAN	4.7	5.2	4.8

Source: World Economic Outlook – January 2020

Global growth is forecast at 2.9% for 2019, the lowest level since 2008/09. The subdued growth is attributed to the sharp and geographically broad-based slowdown in manufacturing and global trade. This was driven by higher tariffs and prolonged uncertainty surrounding trade policy leading to dented investment and demand for heavily traded capital goods. The automobile industry contracted due to disruptions from new emission standards in the Euro area and China. In the United States, investment remained sluggish but employment and consumption continued to be robust, buoyed by policy stimulus. In the Euro area, weaker growth in foreign demand and a drawdown of inventories kept economic growth subdued since mid-2018 and growth in the United Kingdom weakened due to Brexit-related uncertainty. Growth in India, softened in 2019 as a result of corporate and environmental regulatory uncertainty, together with concerns about the health of the non-bank financial sector, weighing on demand.

Outlook

Global growth is projected to pick up to 3.3% in 2020 due to expected improvement in economic performance in several emerging markets in Latin America, the Middle East and emerging and developing Europe that are under macroeconomic strain. Growth is expected to moderate into 2020 and beyond for United States, Euro area, China, and Japan. Together these nations account for close to half of global GDP.

Growth in Emerging and Developing Asia, which is the main engine of the world economy, is softening gradually with the structural slowdown in China. Growth in China is projected to continue to slow gradually in coming years, reflecting a decline in the growth of the working-age population and gradual convergence in per capita incomes. Growth was downgraded Hong Kong Special Administrative Region, Korea, and Singapore, due to their exposure to slowing growth in China and spillovers from US-China trade tensions.

SRI LANKAN ECONOMY

The Sri Lankan economy faced a challenging year in 2019 with GDP growing by an estimated 3.0%. The spillover effects of the Easter Sunday attacks were felt across almost all spheres of economic activity, especially in the second quarter of the year. Below potential economic growth performance continued through 2019. Economic growth slowed down to 2.6% in the first half of 2019 compared to 3.9% growth recorded in the corresponding period of 2018 and accelerated to 2.7% in the third quarter of 2019.

Comparison of quarterly growth rates

	 AGRICULTURE, FISHERIES AND, FORESTRY		 INDUSTRY		 SERVICES	
	2019 %	2018 %	2019 %	2018 %	2019 %	2018 %
Q1	5.5	5.1	1.0	5.6	0.4	4.0
Q2	3.0	1.7	1.4	2.8	3.3	3.1
Q3	4.1	5.5	1.6	4.8	2.8	4.3

Growth in agriculture, fisheries and, forestry was buoyed by the substantial recovery in growing of oleaginous fruits such as coconut, king coconut and oil palm, and growth of rice. Services activities was mainly driven by the expansion in financial services, wholesale and retail trade activities and other personal services. Expansion in industry activities was primarily supported by the recovery in construction and mining and quarrying activities. Following the Easter Attacks, accommodation, food and, beverage service activities and, transportation services was affected substantially.

The Central Bank continued to maintain an accommodative monetary policy stance in view of subdued economic growth, muted inflationary pressures and rapidly slowing private sector credit amidst high nominal and real market interest rates. With the objective of providing adequate levels of liquidity to the domestic money market, the Central Bank reduced policy interest rates by a total of 100 basis points in two steps, first in May and then in August 2019. However, in spite of monetary policy easing, market interest rates remained high in both nominal and real terms and private sector credit growth decelerated sharply, particularly during the first half of 2019. Therefore, the Central Bank imposed caps on deposit interest rates of financial institutions. This was supported by eased liquidity conditions and the accommodative monetary policy stance, resulting in a notable decline in deposit rates. Accordingly, the average weighted new deposit rate (AWNDR) moderated notably by 284 basis points to 8.40% in August 2019 from 11.24% at end April 2019. In order to support the revival of economic growth, caps were imposed on lending rates, in September 2019. Consequently, most market interest rates declined, notably during the second half of 2019 increasing the credit flow.

The external sector recovered to a certain extent in 2019 from the significant pressures experienced in 2018. Trade deficit contracted with the rapid decline in imports, in response to measures undertaken in mid-2018 to curb non-essential imports, including personal motor vehicles and gold. Foreign direct investments (FDI) continued to be low whilst Sri Lanka successfully issued International Sovereign Bonds (ISBs) amounting to USD 4.4 Bn. during 2019. Following its significant depreciation in 2018, the Rupee indicated greater stability in foreign exchange markets. For the first time since 2010, a marginal appreciation was observed in 2019.

The Balance of Payments recorded a surplus of USD 789 Mn. for the first nine months of 2019, following the strengthening of financial account and a lower current account deficit. The net receipt from the two ISBs and the net absorption of USD 285 Mn. from the domestic foreign exchange market helped expand the overall balance during the period.

OPERATING ENVIRONMENT

On an annual average basis, NCPI based headline inflation was at 3.5% in December 2019 compared to 2.1% at end 2018. Central Bank continued to conduct monetary policy within an enhanced framework with the aim of stabilising inflation around mid-single digit levels over the medium term and thereby paving the way for a sustainable growth trajectory.

Outlook

The Sri Lankan economy is projected to grow by around 3.5% in real terms in 2020 contributed by all major economic activities. The agriculture sector is envisaged to rebound and industry related economic activities are expected to continue the positive momentum in 2020 based on improved investor confidence. Growth in manufacturing and construction activities are expected to drive industry growth benefiting from GSP+ concessions as well as the realisation of Government construction projects. Further, investor confidence, which was adversely affected by domestic uncertainties, is expected to improve, boosting private investments.

Services-related activities are expected to drive the growth supported by all major economic activities within this segment. Some of the services activities which were adversely affected by the Easter Sunday Attacks, are expected to rebound in 2020 such as accommodation, food and beverage service activities including hotels and restaurants. The private investment expenditure on large scale infrastructure projects, and the FDIs, are expected to provide an impetus for growth in total investment activities.

The growth momentum in exports is expected to be driven by establishment of trade relations with new trading partners, conducive trade policies, strong institutional support and more a competitive exchange rate. Withdrawal of the US-GSP facility from India is likely to have a positive impact on Sri Lankan exports.

However, the trade tensions between the USA and China are not expected to have a large impact on Sri Lanka's trade performance as most of the products, which are subject to higher tariffs, are not major export or import items of Sri Lanka. The possible slowdown in global trade and global growth could have a negative spillover effect on export earnings.

Receipts to the financial account are projected to improve in 2020 with the expected FDI inflows, particularly with the long-term development projects. The extension of the IMF-EFF programme is expected to improve investor confidence. Inflation is likely to be maintained at mid-single digit levels on a sustained basis, under the FIT.

Growth of credit to the private sector is expected to pick-up to around 12-13% by end 2020, which is sufficient to support a revival of economic activity. Market lending rates are expected to decline further in 2020 and the Central Bank expects a boost in the growth of credit and money supply with the envisaged further reduction in lending rates and the anticipated improvement in investor sentiments. Growth of broad money supply is likely to reach around 14% by end 2020 driven by the expected growth in private sector credit. The Central Bank expect to maintain inflation within a range of 4-6% through a transparent, coherent and accountable monetary policy framework, which would help improve economic prosperity of Sri Lanka.

Fiscal reforms are expected to widen the tax base, improve tax administration and compliance. Strengthening State-owned business enterprises through implementing essential reforms are expected to enhance Government revenues and reduce the fiscal burden to maintain such entities. Central Bank will continue to ensure adequate liquidity in the domestic money market is maintained.

Greater flexibility will be allowed in determining the exchange rate based on market forces. This will allow the exchange rate to act as the shock absorber in the envisaged monetary policy framework. The production economy will be strengthened, supported by availability of required infrastructure facilities, the prevalence of conducive policy measures, attraction of export-oriented FDIs, and the maintenance of appropriate fiscal and monetary conditions.

BANKING SECTOR

Despite challenging domestic and global conditions, the banking sector expanded modestly during 2019, exhibiting resilience by maintaining capital and liquidity levels well above the regulatory requirements.

Performance

Growth in assets of the banking sector moderated during the first eight months of 2019 to 2.4% compared to 7.3% in the corresponding period of 2018. The growth in the asset base was driven by the increase in investments, whilst the moderation in loans and advances hindered the expansion. The asset base was funded primarily through deposits and borrowings. Growth in loans and advances was mainly driven by increased lending by banks to the Central Government and State-owned Enterprises whilst lending to the private sector decelerated during this period.

Credit growth which reached 19.6% as at end 2018 dipped to 9.7% as at end August 2019 due to lower demand for credit owing to the adverse business environment that prevailed.

The deposit base of the banking sector grew by 4.0% during the first eight months of 2019 and primarily consisted of Rupee deposits. There was a notable shift in deposits from demand to term deposits and short-term savings, particularly in three month term deposits. The share of current and savings deposits as a percentage of total deposits (CASA Ratio) declined to 30.9% as at end August 2019, compared to 32.7% during the corresponding period in 2018.

Borrowings declined by LKR 142.0 Bn. reflecting a negative growth of 8.1% during the first eight months of 2019 when compared with the decline 3.7% in the corresponding period of 2018. There was a deterioration in asset quality as reflected by the increase in the NPL ratio to 4.9% by end August 2019 from 3.4% as at end December 2018.

The banking sector operated with an adequate liquidity buffer above the minimum regulatory requirement. As at end August 2019, the Statutory Liquid Assets Ratios (SLAR) of the Domestic Banking Unit (DBU) and the Off shore Banking Unit (OBU) were at 31.2% and 45.7%, respectively, well above the minimum statutory requirement of 20%. As at end August 2019, the Rupee and All Currency Liquidity Coverage Ratios of the banking industry stood at 202.8% and 169.5%, respectively, well above the regulatory minimum of 100%.

Capital gains on Treasury Bonds increase to LKR 3.4 Bn. during the first eight months of 2019 compared to LKR 1.8 Bn. reported during the corresponding period in 2018. This was due to the gradual downward movement in market interest rates during the period.

Profits after tax of the banking sector was LKR 74.8 Bn. for the first eight months of 2019 and LKR 125.9 Bn. for the year 2018. The decline in profits was due to subdued business activities, decreased lending, deterioration of assets quality, increased provisioning and increased taxes. Decrease in profits was reflected in profitability ratios, with Return on Assets (ROA) before tax dipping to 1.5% in August 2019 compared to 1.9% in August 2018. Similarly, Return on Equity (ROE) declined to 10.8% in August 2019 compared to 14.6% in August 2018.

Banking sector operated with adequate liquidity levels. By end June 2019, the banking sector operated with a common equity ratio of 13.3% and a total capital ratio of 16.5%, well above the Basel III requirements.

Strengthening the resilience of the banking sector

To improve system resilience, the Central Bank continued to strengthen the regulatory framework based on international regulations and best practices during 2019.

On 1 January 2019, the banking sector successfully completed the Basel III capital phase-in arrangement, to increase the minimum Capital Adequacy Ratio on a staggered basis. Continued measures were taken by the Central Bank to strengthen the payment and settlement infrastructure through modern technology. The Common Point-of-Sale Switch (CPS) commenced live operations in June 2019.

Measures were taken to improve efficiency of currency management and currency operations during the year, in particularly preserving the quality of currency notes in circulation through the clean note policy.

The Central Bank facilitated consistent adoption of Sri Lanka Financial Reporting Standard 9 on "Financial Instruments" (SLFRS 9) for the banking sector in Sri Lanka. To maintain integrity and quality

OPERATING ENVIRONMENT

of Financial Statements of licensed banks, eligibility criteria for the selection of auditors were strengthened in line with the changes in the banking sector landscape, changes in accounting and auditing professions, and introduction of Basel III requirements and SLFRS 9.

The regulatory and supervisory framework of licensed banks was strengthened by the new regulations introduced by the Central Bank. These covered areas such as appointment of expatriate officers for licensed banks in Sri Lanka, non-interest based incentive schemes for mobilising of interest bearing savings and time deposits and prudent market conduct and Treasury operations of licensed banks in line with international best practice.

Outlook

The resilience of the banking sector is expected to be maintained with the regulatory efforts to strengthen the capital and liquidity levels of banks, the expected improvements in risk management, information security and corporate governance and the stable macroeconomic fundamentals.

Capital levels of banks are expected to strengthen further due to enhanced capital requirements and other regulatory requirements which would improve the ability of the banking sector to absorb shocks arising from financial and economic stresses. The adoption of the Basel III Leverage Ratio and Sri Lanka Financial Reporting Standard 9 on Financial Instruments (SLFRS 9) would augment the capital level of banks to meet these regulatory requirements.

With the adoption of the Liquidity Coverage Ratio (LCR) and the Net Stable Funding Ratio (NSFR) under the Basel III Liquidity Standards, the liquidity positions of banks are expected to be maintained at healthy levels. The credit growth of the banking sector is expected to pick-up gradually in the near-term, with the prevailing monetary policy direction and the Banking Act Directions issued to enhance credit flows to the economy.

The regulatory and supervisory framework pertaining to licensed banks will be strengthened in line with the Basel Core Principles on Effective Banking Supervision and other international and regional best practices. The new Banking Act would strengthen the legal and regulatory framework of licensed banks further.

The Central Bank of Sri Lanka is developing a new supervisory rating model [Bank Sustainability Rating Indicator (BSRI)] to facilitate the risk based supervision framework of licensed banks and to enable early intervention and prompt corrective actions for licensed banks.

Further, banks are prompted to upgrade and strengthen their information systems and related technological platforms to cater to information requirements and to address technology risk. A regulatory and supervisory framework will be introduced with

respect to information technology and security of banks, in line with international standards and best practices.

The setting up of a task force with the participation of relevant stakeholders to introduce an appropriate cost reflective benchmark interest rate for pricing loan products, will lead to healthy competition among banks, while supporting efficient transmission of monetary policy measures.

To promote digital payment mechanisms to establish a less-cash society and reduce cash management costs, a FinTech Regulatory Sandbox will be implemented to provide a safe space in a controlled environment for innovators without the risk of infringing on regulatory requirements.

IMPACT OF COVID-19 PANDEMIC ON THE ECONOMY

The global impact

The entire world is affected by the pandemic caused by the novel coronavirus also known as COVID-19. Since it was first identified in December 2019 in Wuhan, the capital of Hubei Province in China, the outbreak has continued to spread across the globe. The governments across the world have resorted to varying levels of public health measures, including social distancing practices, nationwide curfews, travel bans and, border closures to tackle the pandemic. These measures are having a huge impact on people's lives, families and communities whilst having significant consequences on national economies and global trade. For the first time since the Great Depression, International Monetary Fund (IMF) cites that both advanced economies and emerging market and developing economies are in recession.

April 2020 World Economic Outlook of the IMF projects global growth in 2020 to fall to -3.0%, which is a downgrade of 6.3% from January 2020; a major revision over a very short period. This makes the Great Lockdown the worst recession since the Great Depression, and far worse than the Global Financial Crisis of 2008/09.

It is essential to have strong multilateral cooperation to overcome the effects of the pandemic, including measures to financially help constrained countries facing twin health and funding shocks, and for channelling aid to countries with weak health care systems. It is an urgent need for countries to work together to slow the spread of the virus and to develop a vaccine and therapies to counter the disease.

IMF projects, income per capita for over 170 countries to shrink. Both advanced economies and emerging market and developing economies are expected to recover partially in 2021. The COVID-19 pandemic is expected to severely impact growth across all regions.

Global growth projections

(Real GDP, annual percentage change)

	2019	2020 (Projection)	2021 (Projection)
World output	2.9	-3.0	5.8
Advances economies	1.7	-6.1	4.5
United States of America	2.3	-5.9	4.7
Euro area	1.2	-7.5	4.7
Japan	0.7	-5.2	3.0
China	6.1	1.2	9.2
India	4.2	1.9	7.4
Emerging markets and developing economies	3.7	-1.0	6.6

Source: IMF World Economic Outlook April 2020

Impact on the Sri Lankan economy

The potential impact from COVID-19 is unlike any other Sri Lanka has faced, and the economy is likely to face a contraction in 2020 due to many sectors being at a standstill.

Sri Lanka is largely dependent across several sectors on China to import raw materials. With the extended closure of China after the Chinese New Year to curb the spread of COVID-19, most Sri Lankan companies have seen their supply chains slowdown with switching countries not being a feasible option in most cases.

More deficit financing from the domestic market is expected, with higher spending and tighter global liquidity conditions. The requirement of the Government to provide support for public health services and financial support for households and businesses will add on to the spending pressures for the year.

The policy rates were reduced further bringing the SDFR and SLFR to 6.00% and 7.00% respectively. This was the second policy rate reduction post-COVID-19.

To promote a strong domestic agriculture sector and foster self-sufficiency, the Central Bank of Sri Lanka (CBSL) has limited all non-essential imports except medicine and fuel. Further, to ease the pressure to the Balance of Payments, all banks have been instructed to suspend facilitating importation of motor vehicles and certain non-essential goods while restricting the ability of banks to purchase Sri Lanka sovereign bonds. Foreign currency outflows in relation to any investments by local persons, outward remittances and repatriation of funds by emigrants for a period of three months has been suspended.

Foreign currency inflows will reduce with the significant decline in apparel exports and the tourism industry which has come to a standstill. Inward worker remittances will also decline as a result of the global economic slowdown. CBSL has lifted all restrictions to bring foreign exchange into the country for a period of three months.

Fitch Solutions forecasts Sri Lanka's real GDP to slow to 1.4% in 2020, compared to 3.5% previously, from 2.3% in 2019.

Impact on Sri Lanka's banking and finance sector

The decline in economic activity has threatened credit growth and the overall credit quality of Bank's portfolios.

CBSL has announced a range of policy measures to stimulate economic activity and support COVID-19 hit businesses and individuals. These include, a refinancing facility of LKR 50.0 Bn. for the banks, low interest working capital loans, moratoriums on loan repayments and several other concessions on personal loans.

Banks have been allowed a drawdown from their capital conservation buffers which is expected to increase the lending capacity of banks by LKR 400.0 Bn. Relaxation of certain NPL classification rules and deferring the requirement is expected to enhance the minimum capital.

The flat credit growth along with a low interest rate environment is expected to pressure the net interest margins of the sector. Banks who have made significant investment in digital banking are seeing their investment bear fruit. Social distancing has resulted in households using debit cards, internet banking and e-wallets.

MATERIALITY

An annual materiality assessment is conducted by us to determine the content of our review, with due consideration given to significant economic, environmental, and social impacts on our business and our stakeholders. The degree of materiality or importance a topic was assessed by its relevance to our Bank or our stakeholder and its significance. Its significance was as determined by the probability of occurrence and the magnitude of its impact.

The material topics are presented this year in relevance to our four strategic themes, encompassing all capitals for preparing this Report.

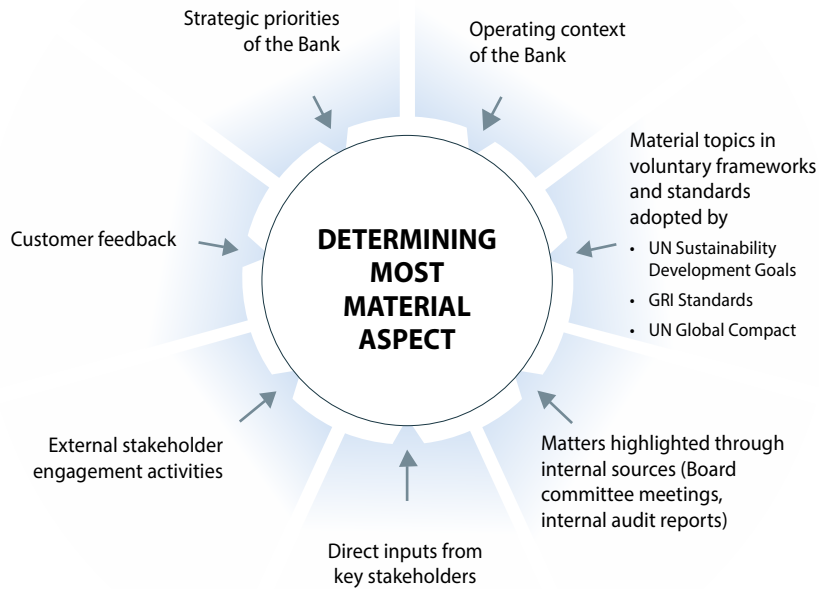

OUR APPROACH TO CREATE SHARED VALUE

At People's Bank, we focus on sustainable business by allocating our resources to deliver value to stakeholders just as much as we derive value from them. Our strategies and strategic imperatives are formulated based on the outcomes of our materiality analysis. All material topics are managed in alignment with our strategic priorities, with responsibilities assigned to the respective Business Unit Heads. We allocate resources based on the degree of risk and opportunities of the material topic. Our commitment to achieving our strategic objectives is reflected in measuring the performance of our employees and operations against a set of predefined Key Performance Indicators (KPIs).

The process of monitoring and review enables us to create value for our stakeholders while achieving our strategic objectives.

MATERIALITY ASSESSMENT PROCESS

Our material issues stem from the following aspects that guide us to prioritise the material topics to plan action:

▼ GRI 102-46, 102-47, 103-1, 103-2, 103-3

In defining report content, the Group sought to prioritise the material impacts based on their relative importance to internal and external stakeholders. This prioritisation and identification of material topics for reporting is shown below:

No.	Material GRI topic GRI 102-47	GRI standard No.	Reason for materiality GRI 103-1	Capital management/ strategic theme	Management approach GRI 103-2	Evaluation of the management approach GRI 103-3	Relevance to People's Bank	Materiality to stakeholders and topic boundary (GRI 102-46)					
								Internal			External		
								Employees	Customers	Shareholders	Suppliers	Community	Environment
1.	Financial performance	GRI 201	A strong financial performance strengthens the stability, resilience and growth capacity of the Bank whilst improving the brand equity	 	Grow the revenue from all business lines by leveraging on market opportunities whilst effectively managing costs to improve the bottom line. Manage risks strategically, reinforce capital position and strengthen Bank's balance sheet. RELEVANCE

- ✓ High: Considered a priority for action
- ✓ Moderate: Adequate action is required to control potential impacts
- ✓ Low: Adequate measures are already in place or the impact is beyond our control

MATERIALITY MATRIX

OUR STRATEGIC PLAN 2016-2020

In 2016, we unveiled our Strategic Plan 2016-2020 which would enable us to fulfill our vision for 2020. This Plan has four strategic pillars which are vital in making People's Bank, Sri Lanka's undisputed market leader in the financial services industry. The Plan also is focused on transitioning into the most digitalised and technologically advanced bank in the nation. The digitisation vision for People's Bank articulates the revolutionary journey into the digitised space, pushing boundaries and opening windows of opportunity that have showcased impressive results since embedding it into the Bank's strategic journey in 2015.

Digitisation process goes beyond meeting of a target but to one that infuses the benefits of digitisation to our customer base of over 10 million, spanning diverse social and economic strata. The contemporary conveniences we continue to introduce to our stakeholders while also reducing our carbon footprint and levels of energy consumption through digitisation is resultant of this technology drive.

For each of the pillars, Key Performance Indicators (KPIs) have been designed and set target values to be achieved by 2020. In this section, we give an update of the activities that we performed on each of the pillars and how we progressed on our objectives.

Delivering innovative market-leading client experiences

As the Bank of the people, we at People's Bank are constantly looking at avenues to reach customers and address their banking needs. We believe in financial inclusion and in making banking accessible to all citizens of the country. To this end we will develop digital products that offer unparalleled efficiency and service standards that deliver an exceptional user experience to customers.

Maintaining a steady growth momentum and building resilience

We play a pivotal role in the economic development of Sri Lanka, by continuing to be an economic driver and spearhead financial inclusivity by providing a wider segment of the population with access to high quality banking facilities and services. This includes managing the balance sheet and strengthening our capital base to support business growth.

Being operationally excellent in everything we do

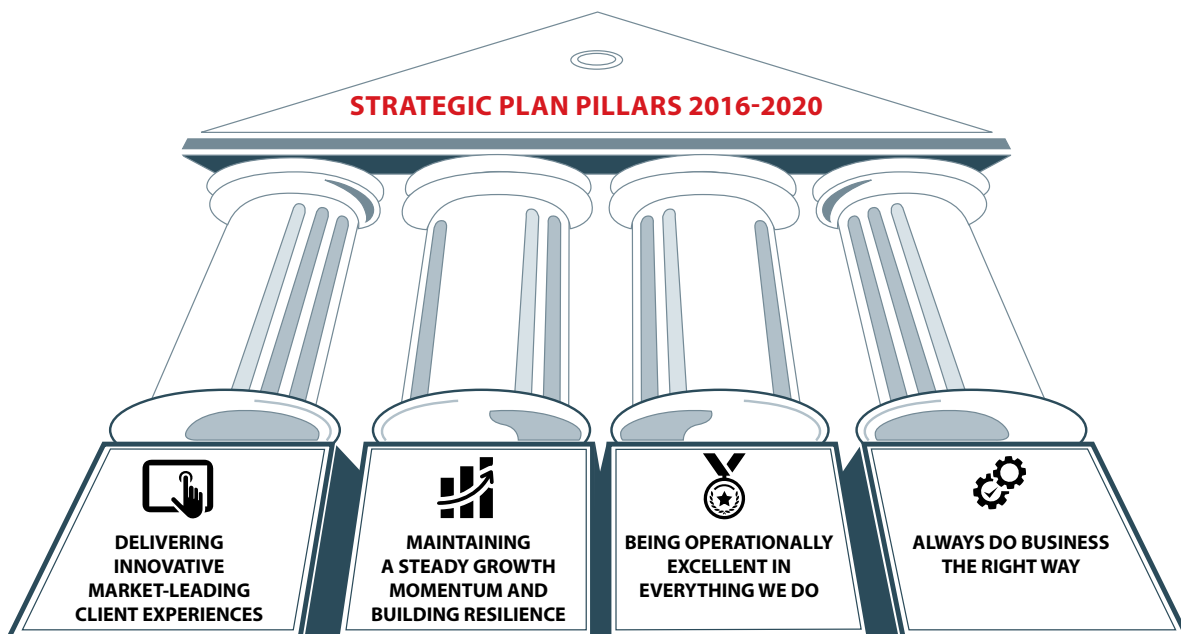

Create a more customer-centric and goal-orientated culture and implement a new culture of efficiency and service standards to deliver an exceptional user experience.

Always do business the right way

Give priority to corporate governance and ethics including transparency and accountability. Implement stringent audit and compliance processes to strengthen the risk management and governance structure of the Bank.

The progress of the Strategic Plan

The progress of our strategic vision to be recognised as Sri Lanka's undisputed market leader for financial services is reflected in our 8,000 strong team driving the Bank towards its objective of market leadership. Our 10+ million customer base has made it possible to achieve over LKR 1 Tn. deposit base, which speaks of the solid financial foundation the Bank has created. Governance and best practices remain top on the Bank's agenda, which is reflected through its AA+(lka) Fitch Rating. People's Bank has been recognised as one of the three most valuable brands by Brand Finance, resulting in a 29% growth in brand value to LKR 45.5 Bn. in 2019, and brand rating uplifted from AA to AA+.

CONTRIBUTION TO SDGs

The following section covers the progress made in implementing the strategic priorities to achieve the Bank's vision. We have identified relevant strategic priorities for each of the four strategic pillars to deliver value to our stakeholders. The Bank is also conscious of the responsibility of contributing towards the

Sustainable Development Goals whilst executing its strategic priorities. The strategies also maintain a close interaction between the six capitals – financial, manufactured, human, intellectual, natural, and social and relationship capital, which facilitate the value creation process of the Bank.

STAKEHOLDER ENGAGEMENT

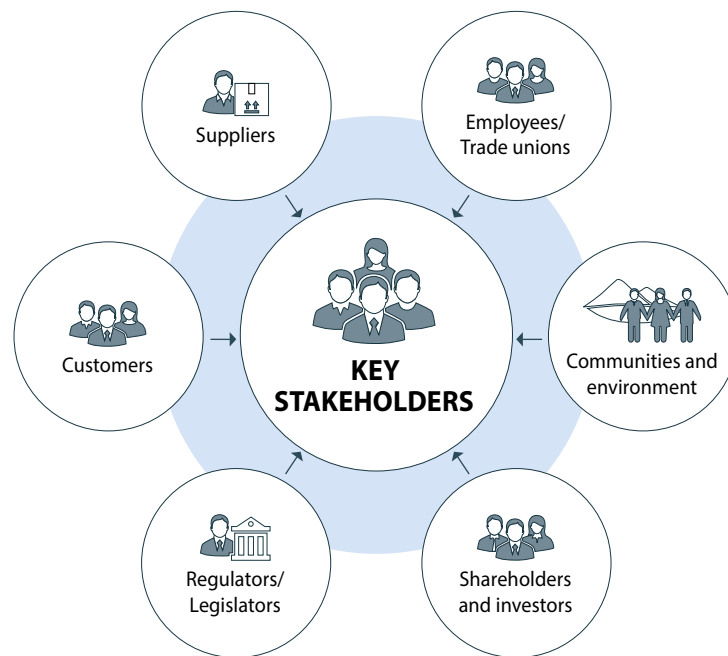

▼ GRI 102-40, 102-42, 102-43, 102-44

STAKEHOLDER ENGAGEMENT

Stakeholders provide us with essential resources that enable us to generate competitive sustainable value in the short, medium, and long-term. We are able to understand their viewpoints and their expectations and needs by engaging with these stakeholders. The feedback received from them is necessary for us to identify potential areas for improvement and opportunities for differentiation and develop effective strategies for value creation.

KEY STAKEHOLDERS

We have identified our key stakeholders based on the level of engagement, their impact on our business and involvement in the decision-making process.

The table below identifies our key stakeholders and how we engage with them:

	Shareholders and investors		Customers		Employees/Trade unions	
Why they matter to us	It is vital to have continued access to capital for the long-term performance of our business.		Creating a customer-centric culture is critical to the success of our business. We collaborate and innovate with our customers to enhance product performance and value.		By delivering to the expectations of our people, we support their well-being and enable them to make the right business decisions. This helps us to retain and develop the best talent.	
Key concerns/expectations	<ul style="list-style-type: none"> • Consistent economic performance • Ethical conduct, environmental, and social • Governance • Sustainable growth • Transparent corporate communications 		<ul style="list-style-type: none"> • Research and innovation • Quality of service • Relationship • Compliance • Affordably of services • Convenience and accessibility 		<ul style="list-style-type: none"> • Transparent, fair, and attractive remuneration • Employee development • Employee engagement • Talent pipeline and retention • Career opportunities • Diversity and inclusion

Our strategic response	We maintain good working relationships with government authorities through ongoing dialogue and timely submission of relevant information and reports.	We engage with them to build trusting relationships from which we can mutually benefit and to ensure they are performing to our standards and conducting business to our expectations.	We support communities and groups local and relevant to our operations, particularly educational outreach.																																																								

FINANCIAL CAPITAL

Financial capital which includes debt and equity finance is most critical to our business. We achieve sustainable growth and maintain our standing in the local banking industry by leveraging our financial capital. Increasing the value of financial capital enables us to deliver increased value to our stakeholders. Value of financial capital is increased by increasing our profit generation, managing costs and raising equity and debt.

HIGHLIGHTS

Consolidated gross income reached **LKR 235.5 Bn.**

Consolidated profit before tax recorded at **LKR 25.7 Bn.**

6.3% increase in consolidated customer deposits

Gross non-performing loan ratio maintained at **3.7%**

Consolidated gross loans and advances increased by **3.4%**

LKR 25.1 Bn. Total value created for the Government

INCOME STATEMENT ANALYSIS

Gross income

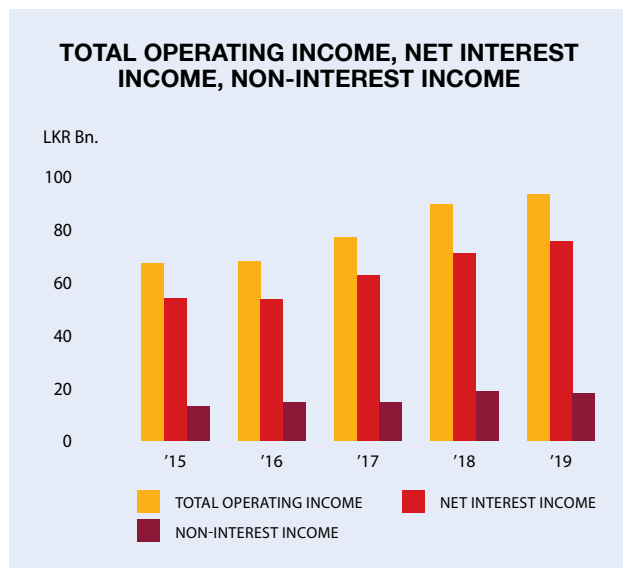

Consolidated gross income of Peoples' Bank reached LKR 235.5 Bn. in 2019, recording an year on year (YoY) increase of 9.7%. Interest income, fee and commission income and other non-funded income were the main contributors to the increase in gross income.

Total operating income

LKR Bn.	2019	2018	2017	2016	2015
Total operating income	93.8	89.8	77.5	68.4	67.6
– Net interest income	75.9	71.2	62.7	53.6	54.3
– Non-interest income	17.9	18.7	14.8	14.8	13.3
NIM – %	2019	2018	2017	2016	2015
– Consolidated	3.8	4.0	4.0	3.9	4.5
– Bank	3.2	3.5	3.5	3.5	4.0

Consolidated total operating income reached LKR 93.8 Bn. in 2019 recording a YoY growth of 4.4%, compared to LKR 89.8 Bn. recorded in 2018. The Bank's operating income accounted for 75.8% of Group operating income.

FINANCIAL CAPITAL

interest rates in Q3 of 2019 and moderation of the loan book due to the sluggish economic environment.

Net interest income

Net interest income which represents core operations of the Group, accounted for approximately 81.0% of total operating income. Net interest income grew by 6.7% YoY to LKR 75.9 Bn. in 2019, compared LKR 71.2 Bn. in 2018. Given below is an analysis of the constituents of net interest income.

Interest income

Interest income swelled by 11.1% to LKR 217.2 Bn. in the year under review. This was largely driven by the 38.6% increase in Government Securities measured at amortised cost and a 3.1% growth in net customer advances.

Customer advances accounted for 82% of total interest income, whilst other investments comprising Government Securities accounted for the balance.

Interest expenses

Interest expenses grew by 13.5% primarily due to the larger volumes of high-cost term deposits mobilised during 2019. Over 90% of the Group's term deposits have a maturity profile of less than one year. Deposit related expenses accounted for approximately 88% of total interest expenses, of which more than 70% accounted for term deposits. During 2019, the Group successfully mobilised LKR 93.6 Bn. new deposits on a net basis, of which Fixed deposits accounted for LKR 64.4 Bn.

The Group's net interest margin reduced to 3.8% in 2019 from 4.0% in 2018 due to the decreasing trend in advance rates. At Bank level, interest margin decreased to 3.2% in 2019 from 3.5% in 2018. This is mainly due to monetary policy measures imposed to reduce

Non-interest income

Non-interest income comprises fee and commission income, trading income and other operating income. This remains a key area of focus for further improvement across the Bank and Group.

The Group's net non-interest income decreased by 4.4% from LKR 18.7 Bn. in 2018 to LKR 17.9 Bn. in 2019. Of this, net fee and commission income, which accounted for more than one third of net non-interest income, increased by 9.6% to LKR 8.2 Bn. compared to LKR 7.4 Bn. in 2018. The growth was due to a combination of factors, including, improvement in internal processes resulting in the refinement of deposit related fees across both current and non-current deposits, high trade finance volumes, increased usage of Bank's ATMs and increasing popularity of self-banking channels during 2019.

Net gains, which accounted for 15% of total non-interest income, decreased by 40% to LKR 2.7 Bn. in 2019 from LKR 4.4 Bn. the previous financial year.

Other operating income increased by 3.7% to LKR 7.0 Bn. in 2019 from to LKR 6.8 Bn. in 2018. Other operating income consists of net earned premiums across the Group's insurance business and bad debt recoveries.

Impairment charges

Impairment charges increased by 117.8% YoY to LKR 9.0 Bn. in 2019 compared to LKR 4.1 Bn. in the previous financial year. The impairment charge in 2019 was relatively high due to the impact of adverse economic conditions that prevailed during the year and increasing non-performing advances.

At a bank level, asset quality measured by gross non-performing loans to total loans remained at 3.3% in 2019, and at Group level it increased to 3.7% from 2.7% recorded in 2018.

The provisioning policy of both at Bank and Group levels continued to be conservative, enabling coverage levels of 60.0% and 62.0%, respectively to be maintained at the end of the financial year 2019.

Cost management

Total operating costs increased by 5.5% to LKR 47.6 Bn. in 2019 from LKR 45.1 Bn. in 2018.

Personnel costs

Personnel costs which accounted for approximately 50% of total operating costs was maintained at the same level as 2018.

Other operating cost

Other operating costs increased by 11.4% to LKR 23.6 Bn. during the year under review from LKR 21.3 Bn. in 2018. Approximately, one third of the increase was attributable to the depreciation/ amortisation, IT system maintenance and marketing and promotional costs associated with the ongoing roll out of self-banking units across the country.

Accordingly, Group's cost to income ratio increased to 63.1% from 60.7% in 2018. At Bank level, cost to income ratio increased to 64.2% in 2019 from 61.3% in 2018.

Value added tax, NBT and DRL

The above taxes increased by 21.9% to LKR 11.5 Bn. in 2019 from LKR 9.4 Bn. in 2018.

Profitability

The Group's pre-tax profit decrease by 17.7% YoY from LKR 31.2 Bn. in 2018 to LKR 25.7 Bn. in 2019.

Meanwhile the Group's return on equity (ROE) dipped to 12.8% compared to 18.7% in 2018. At Bank level, this ratio was 13.9% in 2019 compared to 20.3% in the previous year.

Return on assets (ROA) as measured by pre-tax profits over average assets was maintained at 1.3% in 2019.

Profit after tax decreased by 24.7% to LKR 16.2 Bn. compared to LKR 21.4 Bn. in 2018.

BALANCE SHEET ANALYSIS

Deposit growth

Total	100.0%	100.0%	100.0%	100.0%	100.0%

FINANCIAL CAPITAL

The Group's customer deposits increased by 6.3% to LKR 1,588.9 Bn. as at end 2019 from LKR 1,495.3 Bn. at end 2018.

Deposits which account for approximately 78% of total Bank/ Group funding, reflects the strong deposit base which is supported by the industry's largest network spread across the country.

Meanwhile, CASA dropped to 35.9% in 2019 from 36.3% in 2018, prompting the Bank to implement measures to improve its CASA ratio in the upcoming year.

Local currency deposits accounted for 91.8% of total deposits and foreign currency deposits improved to 8.2% of total deposits.

Customer advances growth

LKR Bn.	2019	2018	2017	2016	2015
Total advances (gross)	1,541	1,490	1,209	1,076	933
By type					
Overdrafts	145	126	116	58	86

Others	475	450	438	357	282
Total	1,541	1,490	1,209	1,076	933

Gross loans grew by a controlled 3.4% to LKR 1,541 Bn. in 2019 compared to LKR 1,489.9 Bn. in the previous financial year. Much of the loan growth stemmed from credit extended to the State/State-owned Enterprises.

The sector wise exposures were diverse with construction accounting for 20.4% of the total customer advances in 2019. Meanwhile approximately, two thirds of construction exposures were housing loans backed by property mortgages.

Despite challenging market conditions, gross non-performing loan ratio was maintained at 3.7% which was below the industry average. In 2019 Bank's non-performing ratio was 3.3%.

Regulatory capital

Total Shareholders' Equity increased by 5.3% to LKR 130.0 Bn. in 2019 compared to LKR 123.5 Bn. in 2018.

Key performance measures

- Basel III Tier I and Total Capital Adequacy Levels were maintained well above the regulatory requirements at 11.6% and 14.9% respectively as at 31 December 2019. At end 2018, Tier I and Total Capital Adequacy Levels were 11.7% and 14.5% respectively. At Bank level, Tier I and Total Capital Adequacy Levels were 10.7% and 14.7%, respectively, whilst year end 2018 Tier I and Total Capital Adequacy Levels were 11.0% and 14.5% respectively.

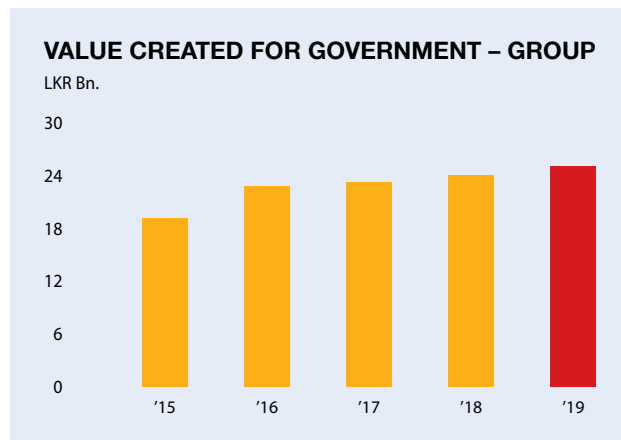

FINANCIAL CAPITAL

- Other Basel III measures
 - (a) Liquidity coverage ratio, measured by total High Quality Liquid Assets over 30 days Net Cash Outflow, was consistently maintained above the minimum requirement of 100% and reported as both rupee and all currency was 160.9% and 132.2% respectively.
 - (b) Leverage ratio, measured by Tier I over total gross exposures, was 4.0% as at 31 December 2019, reflecting the extent of controlled asset growth during the year. Minimum requirement was 3.0% from 1 January 2019 onwards.

Shareholder value creation

The Bank is a significant contributor to the Government revenue through the payment of direct and indirect taxes, dividends and special levies. Over the past 10 years, the Group has created value exceeding LKR 180 bn. to the Government.

During the year, the total value created for the Government, amounted to LKR 25.1 Bn. compared to LKR 24.1 Bn. in 2018. Of this, over 78% of the value was generated by the Bank.

MANUFACTURED CAPITAL

The Bank's manufactured capital consists of the physical assets that enable us to create value for our stakeholders. This includes our branch network, vehicles, IT equipment, and furniture as well as our digital infrastructure. The efficient use of manufactured capital enables us to be responsive to customer requirements and effective delivery of our products and services to customers. Particularly, digital infrastructure enables to reduce resource use, allowing our human resources to engage in activities that would enhance their knowledge and skills for credit analysis, advisory services and the like.

HIGHLIGHTS

Opened **first ever innovation centre** in Sri Lanka's banking sector

LKR 203 Mn. investment in Automated Teller Machines (ATMs)

LKR 2.6 Bn. investment in physical infrastructure

239 self-banking units across the nation

33.7% increase in investment in IT systems

Recognised as **"The Best Common ATM Acquirer of the Year"**

MANAGING OUR MANUFACTURED CAPITAL

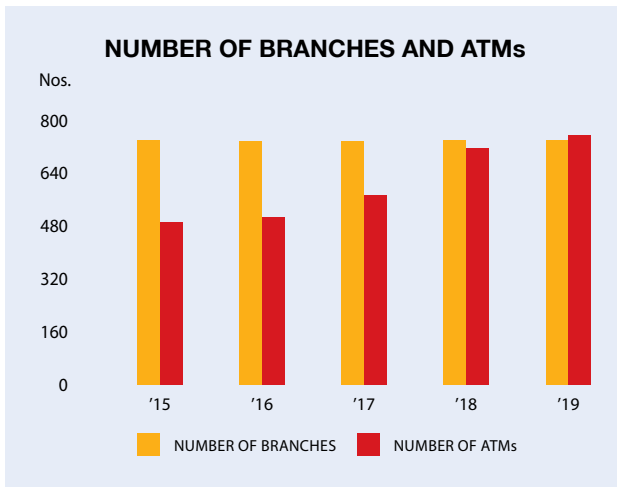

Investment in manufactured capital is a continuous and ongoing process to safeguard our ability to achieve our strategic vision "to be recognised as Sri Lanka's undisputed leader in financial services". Therefore, a conscious thought process goes into all investments in manufactured capital, to create a unique technologically superior asset base that also reflects our commitment to be a responsible corporate steward.

To offer an inclusive and convenient service to customers across the island, we continually invest in developing a high-quality asset base that provides a distinctive competitive advantage to our long-term growth prospects. We upgrade and maintain all our physical assets at optimum levels to ensure smooth operations, eliminate downtime and drive stakeholder value.

OUR CUSTOMER TOUCHPOINTS

We believe in financial inclusion and in making banking accessible to all citizens of the country. Our 17.7 million account relationships are served through the largest network of 739 branches connected to 755 ATMs across the island. A total of 348 branches were digitally enabled as of 31 December 2019.

As a State-owned bank, we have been on the vanguard of facilitating digital-financial services penetration into the rural hinterlands of the country and has recorded unmatched levels of success in supporting the nation's evolution into a digital society. Our ever expanding digital footprint includes, 239 self-banking units and 1,247 self-service automated machines offering real time access 24/7 and 365 days. In the financial year under review, we established 28 self-service kiosks, 39 ATMs, and 32 CDMs in several strategic locations island-wide. Our commitment towards environmental sustainability is reflected in our "People's Green Pulse" environmental sustainability policy.

In recognition of our efforts of directly facilitating the Bank and financial inclusivity to every individual across the nation, we were adjudged the "Bank of the Year for Financial Inclusivity" and "The Best Common ATM Acquirer of the Year" at the LankaPay Technnovation Awards 2019.

MANUFACTURED CAPITAL

INVESTMENT IN PROPERTY, PLANT AND EQUIPMENT

Our physical infrastructure was strengthened by investing LKR 2.6 Bn. to acquire property, plant and equipment in 2019. This includes freehold land, buildings, motor vehicles, furniture, machinery and equipment, and computers that supports the value creation process of our Bank.

Opening of the refurbished Headquarters Branch that coincided with the launch of a Cheque Deposit Kiosk and Cash Recycling Machine.

Commissioning of 'People's Elegance' a state-of-the-art bank branch to exclusively serve its premier customers.

Significant investments were also made to develop and upgrade our IT infrastructure in tandem with our dynamic digitalisation drive.

Buildings	495	729	850
Motor vehicles	45	84	143
Furniture	149	54	47
Plant and machinery	1,872	1,978	1,492

INFORMATION TECHNOLOGY

We have adopted the most advanced technology platform to implement our digitalisation process which is easy to upscale and capable of meeting future expansion capacity requirements of our Bank. The technology which is the first-of-its kind in Sri Lanka, have given us an unprecedented advantage in the banking sector. The digital platform facilitates a quick and easy digital banking experience in account opening, loan origination, mobile banking and internet banking, thereby transforming the entire banking operations to a higher level.

We continue to invest in our IT infrastructure to further expand coverage, improve reliability, convenience, and speed. This strong and differentiated network position enables us to provide our customers with an excellent user experience, with 85% of all transactions being conducted on digital channels. The host of world class digital banking facilities offered to our customers are detailed on page 76 of the Report.

A customer applying for a facility through the newly introduced Retail Loan Origination System.

FUTURE OUTLOOK

We want to be the most technologically forward financial services provider in Sri Lanka. Our aim is to offer all our customers world-class conveniences and help us systematically achieve operational excellence through our digitalisation drive.

We will continue to expand our digitalisation drive to bring the benefits of digital banking to our nation. Our ambitious digitalisation drive will empower us to deliver a seamless, integrated digital experience to customers and elevate Sri Lanka's banking and financial services to an international digital platform. In order to maintain our leadership position we will continue to enhance our network and deploy new market leading technologies.

INTELLECTUAL CAPITAL

At People's Bank we build our intellectual capital through the multiple synergies of our value creation process. These include our intangible assets; tacit knowledge, brand reputation, corporate culture, our awards and accolades, systems and processes that are unique to us and our business ethics.

HIGHLIGHTS

94% customer satisfaction

ALIGNMENT WITH SUSTAINABLE DEVELOPMENT GOALS (SDGs)

Strong governance, compliance, and ethical behaviour builds a strong institute

Promoting innovation and investing in digitalisation and infrastructure development

INTELLECTUAL CAPITAL

AWARDS AND ACCOLADES

We have received many accolades and obtained many accreditations which is a strong testimony to the value we have created through intellectual capital.

BRAND EQUITY

We have been a long-standing institution that has always remained close to the people and understood their pulse and needs.

With a remarkable track record of six decades, we have empowered segments encompassing multiple social strata and demographics in our nation with our financial services. We are the second largest commercial bank in Sri Lanka in terms of assets and the highest in terms of profitability as of 31 December 2019. Our widest network of 739 branches, over 755 ATMs and more than 200 Self-Banking Units operating 24/7, 365 days provides real-time access, to our

10 million loyal customer base contributing to the largest savings accounts base in the banking industry.

Our brand equity index notched up to 4.1 in 2019, and brand rating increased to AA+ reflecting strong customer loyalty, customer awareness, consideration, brand association, and perceived quality of the People's Bank brand. We are among the three most valuable brands as stated by Brand Finance – with brand value growing by 29% to LKR 45.5 Bn. in 2019. Further, the People's Bank brand strength increased from 71 to 75 in 2019.

People's Bank was ranked in the Top 3 Most Valuable Brands in Sri Lanka 2019 by Brand Finance.

The giant steps we have taken to introduce a host of diversified digital banking solutions to customers ranging from all walks of life have delivered unparalleled ease, speed, efficiency, and convenience at every point in their interaction with us.

BRAND PERFORMANCE

People's Bank brand has improved in all aspects in 2019.

Brand performance	2019	2018
Brand value (LKR Bn.)	45.5	35.3
Brand rating	AA+	AA
Brand equity index	4.1	3.5
Brand awareness (%)	98	32
Customer satisfaction (%)	94	91
Brand strength (%)	75	71

BRAND DEVELOPMENT

Our brand reputation is a reflection of our values and our differentiation strategy comprising of digitalisation leadership, innovation, good governance, customer service excellence, effective customer relationship management, strong market presence, and stability. We believe that trust, service, convenience, and technology play an important role in developing a strong brand. We offer all these aspects through our digital banking products and the fact that we are backed by the Government of Sri Lanka, elevates the trust in our Bank further.

Our customer satisfaction rating increased to a high 94% in 2019 reflecting the positive outcome of bringing digital banking experience to all customer segments, island-wide. Through comprehensive communication, customer awareness on digital banking was increased, resulting in most of our customers using digital channels in 2019. We keep a close tab of our brand health in terms of brand equity, awareness, and customer satisfaction by

conducting surveys periodically. Our communication media and advertising message is changed based on customer purchasing trends and media habits to enhance the quality of our customer communication.

CORPORATE CULTURE

As the "Bank of the People" we are rooted in a value based culture focused on creating consistent and sustainable value to our stakeholders. Our focus is on three main aspects of culture:

Corporate culture – open, transparent, accountable, customer-centric, goal-orientated, and team-oriented.

Knowledge culture – six decades of learning and expertise.

Innovation culture – bottom-up approach and a rewarding culture filled with opportunity and aspirations for all team members.

ORGANISATIONAL KNOWLEDGE

The knowledge base is dependent upon the level of expertise and experience accumulated by our employees during their service period at People's Bank. This is owned by our employees and is difficult to document and therefore, invaluable.

Over the 58 years of operations, we have collaborated with our employees to create the immense pool of expertise and experience we own today; a key factor in the strength of our intellectual capital.

Over 20% of our employees have worked at the Bank for over 20 years and they own a vast store of tacit, accumulated knowledge, including highly specialised expertise in banking. In order to make use of the knowledge in the work we do, we strive to document and share information in multiple ways through knowledge sharing sessions, extensive training and human capital management tools. The diversity of our employees in terms of their qualifications, knowledge and experience is an important asset. The diversity of the qualifications of employees is shown in the table below:

Qualification	Number of employees
MSc/MBA/Postgraduate	414
BA/BSc/BBA/BCOM/BIT	1,507
CIMA/CFA/CMA/ICASL/DBF/CIM	1,534
Qualifications in Law	82
Qualifications in IT	176
Diplomas and other	3,972
Total	7,685

INTELLECTUAL CAPITAL

Our employee retention rate of 96.5% illustrates our ability to retain experienced and knowledgeable people who are capable of delivering an outstanding service to customers.

▼ GRI 102-16

BUSINESS ETHICS

We embrace the highest standards of business ethics and integrity. The Board and Senior Management take the lead in establishing an environment where ethics, integrity, transparency, and accountability play a key role. Our employees take ownership towards their responsibilities and carrying out their functions in compliance, adhering to all applicable laws and regulations.

We've been through stringent audit and compliance processes, which is reflected in our ratings. Our comprehensive governance framework is detailed in the Corporate Governance Report on page 153.

INNOVATION

Innovation and IT have become key strengths in achieving our vision. As the bank of the people, we at People's Bank constantly look at avenues to reach customers and address their banking needs. We believe in financial inclusion and in making banking accessible to all citizens of Sri Lanka. By being proactive and aware of world trends, we have concentrated on developing our platforms, and designing pioneering product and service solutions to position our Bank on a par with other global banks, thereby empowering stakeholders to be internationally savvy banking citizens.

Innovation is a bottom-up approach and we work with small teams, encouraging even the youngest participant to incubate ideas. This assures innovation at every level, and creates a rewarding culture filled with opportunity and aspirations for all our team members.

Spearheading the digital drive in Sri Lanka's banking sector, we were the pioneers to launch Sri Lanka's first ever Innovation Centre, to further strengthen our innovation drive and digital initiatives.

Our digitalisation drive

We have accelerated our digitalisation drive to realise our vision to become the "Most Digitalised Bank by 2020". Today, we are at the forefront of digital innovation bringing the benefits of digitalisation to the entire nation which has placed us on a par with some of the most renowned financial institutions in the world.

In accelerating our digitalisation agenda, we launched our technically advanced and feature-rich mobile application in 2018, resulting in mobile transactions tripling in volume. Additionally,

we introduced a digital platform with features such as digital onboarding, internet banking, as well as mobile banking and loan origination systems for retail and corporate customers. Several branch and omni-channel digitalisation initiatives were launched, including a revamped internet banking, data warehousing, and an e-remittance solution.

Self-Banking Units (SBUs)

We are the pioneers to launch the SBUs, an unique concept consisting of ATMs, Cash Deposit Machines (CDMs) and Kiosk machines enabling customers to bank at their convenience 24x7x365. As of 31 December, we have established 239 SBUs across all regions in Sri Lanka, averaging a record breaking LKR 52.7 Bn. in ATM and LKR 82.3 Bn. in transactions monthly.

People's Wave

The revolutionary mobile app which has become the most downloaded finance app in Sri Lanka, gaining an impressive 4.3 rating on Google Play Store and over 570,000 downloads during the short period since its launch in 2018. People's Wave app has superseded all other similar financial apps in the country. Customers could conduct over 50 financial transactions such as fund transfers, loan repayments online, remit money up to LKR 10,000 to non-account holders of the Bank and many more.

This app has received international acclamation garnering several awards for its superlative features.

People's Wiz

The first ever digital customer on-boarding application in South East Asia, Africa and the Middle Eastern region. People's Wiz allows digital agents to on-board customers in less than ten minutes. Customers are enabled to open digital accounts and benefit by way of shorter processing times, with a straight-through approval and disbursement process. A host of facilities including a debit card activated on-line-real-time basis, internet banking access, mobile banking, SMS alerts, and money deposit services are enabled. People's Wiz Credit facilitates paperless retail loans.

Since its launch in 2017, over 500,000 customers have been on-boarded digitally through People's Wiz. This facility was rolled out to all 248 main branches during the year and will be launched to all our service centres in the ensuing year.

People's Wyn

This is a specially designed module for corporate clients, which is available as an internet banking portal and a mobile app. It provides great convenience, speed, flexibility and privacy for corporate clients to conduct their banking transactions. Over 3,500 customers use this module since its launch in July 2018.

People's Web

Our internet banking portal launch in May 2018 is synced with the People's Wave mobile app. With enhanced features that deliver an exceptional customer experience, the portal is used by over 350,000 Customers.

Adaptation of our digital channels are increasing rapidly –

Over 500,000 digital customers island-wide

Over 85% of the Bank's conventional banking transactions conducted from digital channels

25,000 monthly average People's Wave app downloads

Digital deposit base of over LKR 90 Bn. as of end December 2019
LKR 6 Bn. digital deposits monthly on average

Average of over 75,000 financial transactions on the mobile app, weekly

Retail Loan Origination System launched in 37 branches

FUTURE OUTLOOK

We are well on track to achieve market dominance by 2020 and is currently recognised as one of the largest and most financially exclusive banks in Sri Lanka. We will continue to strengthen our corporate brand and maintain a high brand equity whilst delivering increased value to our customers through products that contribute to people's quality of life and enterprise development via affordable, accessible and efficiently delivered solutions. We will continue with our digitalisation journey to position our Bank and customers for exponential growth. Our Corporate Loan Origination System will be launched in January 2020.

Our focus will be to solidify our position as Sri Lanka's undisputed market leader in the financial services industry and focus on transitioning into the most digitalised and technologically advanced bank in the nation that deliver increased value to our economy and all our stakeholders.

HUMAN CAPITAL

With 7,800+ employees, People’s Bank is one of the largest State sector employers in Sri Lanka. Our employees and services touch the lives of customers every day, providing banking solutions to meet their diverse and evolving needs. Our success is therefore underpinned by the way we attract, develop, and engage with our people and the culture and values that fashion the way we work and how we carry out our roles.

HIGHLIGHTS

7,836 employees

61% females

29.7% of employees have serviced the Bank for over 15 years

Profit per employee
LKR 1.6 Mn.

22 training hours per employee

Investment in training
LKR 104 Mn.

During the year, our main human resource (HR) objective was focused on ensuring that we have the skills, culture, organisational structure, and workforce profile necessary to meet the Bank’s strategic objectives.

MANAGING OUR HUMAN CAPITAL

Our diverse employees are our greatest asset. It is through our people that we fulfil our potential, achieve our vision and execute our strategy. We are committed to creating a conducive environment that can deliver value by empowering and supporting our employees who are the creators of value.

The HR function plays a pivotal role in supporting the Bank to achieve its strategic objectives. Our success is underpinned by the motivated and highly engaged team of employees who have a wealth of knowledge and expertise gathered over the years. To manage the People’s Bank team effectively, we have separate departments for each of the key HR functions such as HR planning, administration, maintenance, career progression, training and development, and employee welfare. We also remain committed to fostering an inclusive culture that supports and inspires our workforce.

CAPITAL LINKAGES AND TRADE-OFFS

-  Investment in capacity building through training and development negatively affects financial capital in the short-term
-  Increases financial capital in the long-term through enhanced employee productivity
-  Employees engaging in sustainability initiatives contributes towards a green environment
-  Creating conducive work environments by constructing green buildings contributes to a green environment
-  Investment in digitalisation and HR processes builds manufactured capital
-  Increase in tacit knowledge
-  Increased efficiency through training and development
-  Strong customer relationships
-  Enhanced customer service levels through training customer relationship management

ALIGNMENT WITH SUSTAINABLE DEVELOPMENT GOALS (SDGs)

-  Contributing towards eliminating poverty by provision of employment opportunities
-  Enhancing the quality of life of employees
-  Building capacity of employees through training and development
-  Nurturing a conducive work environment and increased participation of female employees

PEOPLE'S BANK TEAM

As at 31 December 2019, our staff strength was 7,836 compared to the previous year, the staff numbers have reduced as a result of the strategic change of our structure, our culture, our processes, and our people in transforming People's Bank to be the most digitalised Bank by 2020. This is nothing less than gearing ourselves up for success to meet the evolving customer needs.

RECRUITMENT

A strong pipeline of future talent and diverse experience is essential to our ongoing success. We follow a formal recruitment policy to hire the right candidate with the required skills and competencies to meet the human resource requirement of our Bank.

All recruitments are done in conformance to the regulations applicable to Government institutions. Our highly transparent recruitment process includes competency testing and a formal interview process. As a non-discriminatory employer, we are fully committed to diversity in the workplace. As such we hire qualified individuals who have potential for advancement and demonstrate the aptitude to handle increased responsibility.

HUMAN CAPITAL

▼ GRI 202-2

According to our recruitment strategy, a majority of recruitments are made at entry level, with mainly management trainees and customer service assistants recruited on a timely basis. Management trainees are groomed for managerial positions as per the succession plan of the Bank. The customer service assistants have the opportunity to rise up to the rank of officer grade based on the Bank's promotion policy. Meanwhile all recruitments for the Bank's Senior Management positions are citizens of Sri Lanka. No new recruitments were made during 2019.

▼ GRI 404-1, 404-2

EMPLOYEE TALENT MANAGEMENT

Training and development

Investing in people is a core component of our talent attraction and retention strategy. During 2019, we invested LKR 104 Mn. in employee learning and development, delivering over 171,045 hours of employee training. Building industry-leading capability is at the heart of our HR strategy. We strive to enable our employees to have the opportunity to flourish and grow so that they can contribute to the future success of the Bank.

Employee training is conducted according to the Bank's training calendar prepared at the beginning of every year, based on the training survey conducted to meet the strategic objectives of the Bank. Employee training hours are determined considering the skill gap of the employees. Appropriate training programmes, either internal or external are developed and resources are allocated based on the cost structures. A post-implementation evaluation in the form of employee feedback is conducted for all training programmes to ascertain the effectiveness. We strive to provide relevant training to all employees within a specific period either through internal, external, on-the-job, or foreign training programmes. Continuous emphasis was given to building the capacity of the workforce to support the digital transformation of the Bank. During the year, 12,152 hours of training was given to employees to enhance their knowledge on digital banking products and services.

In 2019, we identified talented leaders at different stages in their career who have the potential to operate in more senior and complex leadership roles in the future. The pools are designed to prepare and accelerate their readiness for succession to senior managerial roles over the short, medium and long-term. During the year, we conducted training for three batches of future leaders. We also conducted forensic training to build capacity in employees to identify and avert fraud.

PERFORMANCE APPRAISAL

All employees are appraised annually against a set of predetermined evaluation criteria. The performance of executives and corporate management are evaluated based on the KPIs set in collaboration with the respective employees and the superiors. The appraisals are conducted by the immediate supervisor of the employee. Employees are encouraged to obtain professional qualifications to enhance their career development process. These qualifications are taken into consideration when granting internal promotions.

PROMOTIONS AND TRANSFERS

All promotions and transfers are conducted according to a formal Promotion and Transfer Policy, in a transparent manner. There is an attractive promotion scheme for each grade. Our employees are encouraged to take on expanded roles as they grow with us

in particular, the transfer or promotion offers that would open up from time to time. Up to senior manager (Grade 11) level promotions are conducted through an exam and an interview process. All executive and corporate management promotions are conducted through an interview conducted by the Board of Directors. Generally, promotions are conducted for most of the grades, and for senior management level as and when the vacancies occur. Transfers are effected within the region and outside the regions. If an employee is dissatisfied with a transfer procedure, he/she can appeal to the Appeal Committee established under the transfer policy seeking redress.

DIVERSITY AND EQUAL OPPORTUNITY

We are committed to building an inclusive culture and diverse workforce. We believe that a culture of inclusion is vital to creating an environment where all our people can be at their best. As an equal opportunity employer, we foster a workforce diverse in terms of gender, ethnicity, race, faith, and age, bringing about innovative thinking while creating an enabling environment which promotes a productive workforce. We welcome and fully consider all applications irrespective of gender, race, ethnicity, religion, age, or any other factor.

This diversity has enriched our organisation culture. We pride in the fact that we have one of the highest female representation of 61% in the banking industry of Sri Lanka.

▼ GRI 405-2

RATIO OF BASIC SALARY AND REMUNERATION OF WOMEN TO MEN

We have maintained the ratio of basic salary and remuneration of women to men by employment category and significant locations of operation at our Bank as 1:1. There is no gender bias in our Bank and women are given equal treatment as men. However, this ratio may be changed different service periods of employees in the Bank and at a particular salary grade. This is exemplified by the fact that all female employees who availed themselves to maternity leave have returned to work after completion of leave.

Age category	Male	Female
Corporate Management	1	0.88
Executive Management 1	1	1.00
Officers (3 – III - Grade 1)	1	1.04
Staff assistants	1	0.76
Other categories	1	1.07

HUMAN CAPITAL

Returned to work (%)	100	100	100	100	100

▼ GRI 406-1

NON-DISCRIMINATION

We are committed to maintaining a workplace that is free from physical and verbal harassment and discrimination on the basis of race, religion, gender, age or social status. We follow a policy of non-discrimination on any of the above criteria which apply to employee recruitment, reward and recognition, and promotions. The fact that we have the highest number of female employees in the banking industry is a strong testament of the non-discriminatory culture within the Bank. During the year, there were no incidents of discrimination reported in our Bank.

▼ GRI 403-1

OCCUPATIONAL HEALTH AND SAFETY

We believe that a safe and healthy workplace is good for our people, our customers and our business and is integral to creating an environment where everyone can be at their best. As such, we ensure a safe working environment for all our employees, taking steps to ensure that health and safety concerns are prioritised and addressed across the Bank. We comply with all applicable safety standards across our network and make a concerted effort to promote a culture of safety. A separate department has been set up to handle fire safety and disaster recovery. A disaster recovery plan has been formulated for each department within the Bank. During the year, we raised awareness among employees and improved their preparedness in the event of an incident. There were no employee fatalities reported in 2019.

Expenses incurred in relation to health and safety in 2019

Health and safety expense	LKR Mn.
Medical expenses	1,802
Fire and safety	146
Total	1,948

EMPLOYEE SATISFACTION

Staff engagement survey

Our annual employee engagement survey helps provide a measure of success for our engagement activities and gauge the level of motivation and willingness to performing their tasks to achieve the Bank's strategic objectives.

In the year under review, randomly selected employees across the Bank participated in the survey, resulting in 80% staff engagement. The 2019 results highlighted strong belief in our Bank's vision and values and their willingness to perform.

Succession planning

We invest to build the next generation of leaders needed to deliver extraordinary results for our people and our customers. We have launched a bank-wide leadership training programme to strengthen the next level of leaders that would take People's Bank to the next level of growth. During the year, 394 Assistant Managers and Deputy Managers from across the Bank underwent leadership training.

▼ GRI 401-2

Remuneration and benefits

We maintain an impartial remuneration structure, rewarding employees based on their performance and retaining high performing employees. We adopt an equal pay policy towards male and female employees. Our employees are eligible for the Employees' Provident Fund (EPF) and the Employees' Trust Fund (ETF) contributions. We made a total contribution of LKR 1,124 Mn. to the ETF and LKR 281 Mn. to the EPF for the financial year under review.

All permanent employees are entitled to range of benefits based on employment category. The benefits given to employees include, annual bonuses, travelling allowances for certain grades, holiday bungalows, staff loans, medical benefits, death gratuity, personal accident insurance scheme, disability and invalidity cover, maternity leave, and retirement benefits.

Promoting employee well-being

We aim to create a work environment which is supportive of well-being, to remove barriers to healthy behaviour, and to motivate employees to lead healthy lifestyles and enhance their standing at work. We have a comprehensive range of support and initiatives implemented for our employees, to increase their physical fitness through yoga including a fully-equipped gym. We have provided opportunities for staff to participate in staff engagement activities organised through the Bank's Sports Club, Art Club, and other such organisations. We also have a state-of-the-art library for employees to enhance their knowledge and they are encouraged to obtain higher qualifications by way of reimbursing the exam fees on successful completion of an MBA and their professional subscriptions.

Additionally, a two-hour nursing interval and permission for early departure is given for mothers at work to nurse their babies. We don't encourage our employees to work beyond the standard working hours. Emotional support is also extended by way of stress management training and we have provided opportunities for staff to participate in staff engagement activities organised by the Bank.

STAFF ENGAGEMENT

Several staff engagement events are held annually to promote employee well-being and also enhance their level of motivation. The following activities were held during 2019:

Poson Bakthi Gee

Bank Quiz programme

Felicitation Ceremony for employees who have completed 25 years of service in the Bank.

Achievers award to reward and recognise super stars of People's Bank

Bank Anniversary Celebration

EMPLOYEE COMMUNICATION, ETHICS, AND INTEGRITY

▼ GRI 402-1

Employee communication

A variety of channels are available to communicate and engage with, and listen to, our employees. We encourage participation and engagement throughout the Bank through both formal and informal channels. Team briefings and employee forums enable employees to discuss key developments and business performance and to contribute their views.

Channel of communication	Content	Frequency
CEO - GMs core brief meeting	The Branch Manager briefs his team the message of the CEO/GM which includes, the Bank's performance, branch/employee achievements, and other important events	Monthly
Corporate Management meetings	The Corporate Management Members discuss strategic actions of the Organisation, operational issues etc.	Monthly
Regional Managers conference	Meeting during which business progress, recoveries, employee grievances, transfers, business target achievement, and information with regard to various circular instructions are discussed	Monthly
Intranet		As an when required
"Pulse" magazine	Newsletter that reaches every department of the Bank, to inform employees of the significant events, achievements, and performance of the Bank	Quarterly

Minimum notice period for operational changes

Employees are given adequate notice of any operational changes and their possible impacts. This contributes to significantly reducing any adverse impact on staff morale due to such changes.

Minimum notice periods to operational changes are as follows:

Type of change	Notice period
Transfers	2 weeks
Resignations	1 month
Retirements	3 months
Terminations	1-3 months

Grievance handling

A clear and transparent, Board approved grievance handling framework is in place to handle employee grievances which arise due to difficulties they face as a part of their working relationship. A course of action is provided to forward any complaints and to ensure all employees are treated fairly, reasonably, and in a timely manner.

In case of a grievance, the employee should report to the immediate supervisor. If the matter is unresolved it can be elevated to the Bank's HR Department. There is a mechanism to redress employee concerns/grievances by presenting them to the CEO/General Manager. The grievances/concerns are reviewed by a committee consisting of members of the Corporate Management. The CEO/General Manager redresses the grievance/concern based on the outcome of the review. During the year, corrective actions were taken for a total of 20 incidents of grievances which were presented.

HUMAN CAPITAL

▼ GRI 102-41

Collective bargaining

The Bank has formal collective bargaining agreements with employee unions and maintains an open door policy for employees to voice their grievances. Up to the category of Chief Managers are covered by collective agreements, reflecting 99% of the Bank's employees.

Employee union	Number of employees
The Ceylon Bank Employees' Union	6,659

▼ GRI 102-16, 102-17, 102-26, 205-2, 205-3

ANTI-CORRUPTION

A stringent anti-corruption culture is nurtured within our Bank, facilitated by a proactive Internal Audit Department, Investigations and Inquiries Department, and the Risk Management Unit. Investigations and Inquiries Department, and the Internal Audit Department train all employees on preventing and averting corruption and fraudulent behaviour.

The Board approved anti-corruption policy is communicated to all employees within the Bank. We have a zero tolerance approach to bribery and corruption and take strict disciplinary action in the event of a breach. During the year, all employees were given 14,520 hours of training on anti- corruption.

	Number	%
Total number and percentage of Governance body members that the Organisation's anti-corruption policies, and procedures have been communicated to	All	100
Total number and percentage of employees that the Organisation's anti-corruption policies and procedures have been communicated to	All	100
Total number and percentage of employees that have received training on anti-corruption	1,815	23.2
Total number and nature of confirmed incidents of corruption	93	N/A
Total number of confirmed incidents in which employees were dismissed or disciplined for corruption	237	N/A

We support our people to be at their best, conduct themselves with integrity and adhere to highest standards. The following policies have been established to enable them to do the right thing, make the right decisions, and working in the right way:

- **Code of Corporate Governance** – a formal document containing the values and conduct of the Group that sets the tone for all employees to ensure ethical behaviour and integrity within the Group.
- **Code of Conduct for Employees** – All employees of the Group are expected to abide by the Code of Conduct and are required to sign the code upon being employed by the Group.
- **Disciplinary Code** – A formal document that defines what is construed as misconduct and sets out the formal disciplinary procedure applicable in such instances.
- **Whistle-blower Policy** – A further measure against misconduct and corruption reflecting the Bank's zero tolerance approach towards corruption. An employee can report the following issues to the immediate supervisor or directly to the Board Audit Committee. The anonymity is guaranteed to safeguard the employee:
 - i. Breach of the Disciplinary Code
 - ii. Failure to comply with legal/regulatory obligation
 - iii. Miscarriage of Justice
 - iv. Financial malpractices

SOCIAL AND RELATIONSHIP CAPITAL

Social and relationship capital is one of our most valued assets. Our relationships with customers, business partners, investors and communities have been nurtured over decades as we built trust through fair play driving mutual growth.

MANAGING OUR SOCIAL AND RELATIONSHIP CAPITAL

We have the largest customer base in the banking industry. Our forte has been understanding customer needs and providing innovative solutions to address them. We continuously enhance our service capabilities across all segments through investments in our people, information technology, manufactured assets, and robust processes to deliver value to our diverse group of stakeholders. By combine our financial acumen with a deep understanding of our customers' needs, we design and deliver innovative, industry-leading products that enhance customer value. Through strong social governance and fair play, we ensure sustainability of products and services. We remain differentiated by our investment in customer relationships, innovation, digitalisation and operational and service excellence.

▶ CUSTOMER CAPITAL

HIGHLIGHTS

Over **14 million** customers across Sri Lanka

Over **600,000** new customers on-boarded in 2019

Close to **LKR 80 Bn.** value of transactions through mobile and internet banking

Close to **2,000** customer touchpoints

VALUE OF DEPOSITS AND LOANS AND ADVANCES

ALIGNMENT WITH SUSTAINABLE DEVELOPMENT GOALS (SDGS)

Ensure financial empowerment of all men and women and their rights to economic resources and financial services.

Promoted and empowered social and economic inclusion of all customers, irrespective of gender, age, disability, race, religion or economic status.

We reach our diverse customer base numbering 10+ million across the nation through our island-wide branch network and digital channels. Our customer base has been growing over the year, reflecting customer trust and loyalty towards our Bank and our strong brand reputation. Our diverse customer segments, cover all ages and all sectors of the economy.

SOCIAL AND RELATIONSHIP CAPITAL

CUSTOMERS BASED ON GEOGRAPHICAL DISPERSION – 2019

The geographical dispersion of customers brings out the fact that there is a favourable penetration outside the Western Province. The fact that three quarter of the customers are from the other provinces is commendable in view of the high concentration of income and wealth in the Western Province. Even relatively backward provinces are showing a very satisfactory share of customers.

▼ GRI 102.2, 206-1

OUR PRODUCT AND SERVICE OFFERING

Our product portfolio spans advances, deposits and other products such as cards. Through deep understanding of customer requirements, we offer products which are practical, innovative, flexible and, cost effective catering to every life stage of the customer. Being Sri Lanka's undisputed market leader for financial services, we provide an inclusive and dynamic range of products and services enriched by our unique blend of experiences, customer centricity and our exposure to technological advancements. The firm growth of our customer base is testament to the strength and relevance of our products.

We price our products in line with market trends and the country's monetary policy and we do not engage in anti-competitive, anti-trust and monopoly practices. No fines or penalties were incurred by us during the reporting year.

People's Bank rewards top students at Sisu Udana Vishishtayo Ceremony.

Celebration of International Women's Day

People's Bank marks International Youth Day with its power-packed YES account.

CUSTOMER EXPERIENCE MANAGEMENT

We aim to provide our customers with integrated, holistic solutions for all their financial needs, making their each and every interaction with us worthwhile and beyond their expectations.

We do this by, innovating our processes to provide best in class, sustainable products and services, complying with social and environmental governance standards. We continue towards improving our accessibility, not just through our extensive network of brick-and-mortar touchpoints, but also using virtual touchpoints that allow customers to transact 24/7, 365 days. By streamlining our internal processes we have reduced errors and delays, eliminated routine work and allowed our employees optimal time to spend on customer service. Authority was decentralised allowing greater autonomy at branch level facilitating an enhanced level of customer service. During the year, a designated Lobby Manager was appointed for each branch to enhance customer

service further and the Elegance Centre was opened to provide an exclusive service to our high net worth customers. Through palm top banking we go to the doorstep of the customers providing a personalised and value-added customer service.

▼ GRI 471-1, 417-2, 417-3

PRODUCT AND SERVICE LABELLING AND MARKETING COMMUNICATIONS

Respecting customers' rights to have fair and accurate information, we disseminate clear, accurate, timely and, relevant information about our products and services. This enables our customers to make informed decisions. The Bank's Customer Charter has been formulated in conformance to the requirements of the Central Bank of Sri Lanka. All terms and conditions applicable to our products and services are delivered simply and in an easily comprehensible manner. Information pertaining to interest rates on deposits and advances, exchange rates and other applicable charges are published on our corporate website and updated daily. Our brochures containing information about our products and relevant terms and conditions are printed in all three languages (Sinhala, Tamil and English) and are made available at all our branches. Furthermore, our call center provides necessary information about our products and services to customers.

All our marketing communications are designed according to the Bank's Corporate Communication Policy and are conducted in all three languages. We ensure we do not mislead the public through our marketing communications which are based on principles of ethical and responsible advertising according to Bank's branding guidelines. Prior to publication, all marketing communications are subject to strict scrutiny and a multi-level approval process.

During the year under review, there were no incidents of non-compliance pertaining to product and service labelling, marketing communications, or any voluntary codes or other guidelines.

GEOGRAPHICAL PRESENCE

We are able to serve the less developed and the less affluent sections of our society because of our extensive presence in every province. 73.7% of our customers are from provinces other than the Western Province. In addition to meeting customer needs through our product portfolio, we make a positive impact on the economy. Our products and services span key economic sectors and we support revenue generation for our customers and respective sectors through the facilities extended.

CUSTOMER USAGE OF OUR NETWORK

Ensuring our customers have easy access to our products and services is and always has been a key priority for us at People's Bank. In this respect, we have expanded our presence to 739 branches, 755 ATMs, 270 CDMs, and 222 Kiosks that span

the island. Annually, over 15 million number of transactions are done by non-People’s Bank customers using our ATM network.

The performance of our branches is monitored by the Channel Management Department based on KPIs and best performing branches are rewarded for their performance. The Bank’s Internal Audit Department ensures the effectiveness and efficiency of internal controls and risk management mechanism in place at each branch.

Refer manufactured capital on page 71 for the geographical presence of the customer touchpoints.

▼ GRI 203-2

INCLUSIVE BANKING

We are the first financial institution to open doors to the economically disadvantaged regions in Sri Lanka, as evidenced by our presence in the Northern and Eastern Provinces spanning over 57 years. Our staff serving in these regions are well conversant in all three languages to provide an inclusive service. And all marketing communications are conducted in all three languages as well. Branches provide convenient access and services to differently-abled customers.

In our focus of offering products to underserved customer segments in our nation, we pioneered specialised products for women and minors. Although, now, this is a highly competitive market segment, we still continue to hold a significant market share.

MULTICHANNEL BANKING

Moving our focus beyond a brick-and-mortar presence across the country, we have expanded through digital platforms such as mobile banking, internet banking, Facebook, Viber, Instagram and WhatsApp. Our website has been revamped to be more interactive and customer-friendly. These are ideal touchpoints for our constantly on-the-go customers.

For the year ended December 31	2019	2018	Change %
Mobile and internet banking customers	381,573	194,250	96.4
Facebook fan base	205,000	186,141	10.1
Number of visitors to People’s Web monthly	57,406	46,580	23.2

Significant efforts were taken during the year to direct customers towards self-banking channels. The look and feel our self-banking units were made more vibrant to attract more customers and the efficiency of the centres were elevated to the highest level, with the machine uptime reaching 99.9%, through close monitoring 24 hours a day. Highly sophisticated cheque deposit machines were installed with the shortest cheque clearing time. Furthermore, two counter-less branches were opened enabling customers to handle all transactions, except obtaining loan facilities. These branches have elevated customer experience to an unparalleled level.

ADOPTION OF DIGITAL BANKING CHANNELS

There has been a steady acceleration in the adoption of self-service channels among our customers with over 100% YoY increase in value of digital transactions in 2019. In particular, 70% of our rural customers have migrated to self- banking channels.

SOCIAL AND RELATIONSHIP CAPITAL

OUR CALL CENTRE

We continued to strengthen our customer service proposition by improving call quality during peak hours. Despite our increasing presence on digital channels, the value of our Call Centre remained high. Customers are able to reach us any time of the day, 365 days of the year.

During 2019, the average number of calls handled by the Call Centre was 3,094 calls per day and the average handling time was 2 minutes and 43 seconds.

CUSTOMER EDUCATION

Through structured customer education programmes and customer engagement initiatives, we bridge the social and digital barrier to banking. During the year, several multidisciplinary programmes were conducted to add value to over our customers across the island.

Customer education programmes conducted in 2019

Programme/ Initiative	Objective/ Description	Region/ District	Number of participants
Mawaka Mahima (Vanitha Vasana work shop)	Psychological retreat for expecting mothers	Kandy	250
		Anuradhapura	250
		Polonnaruwa	250
		Trincomalee	250

HANDLING CUSTOMER GRIEVANCES

To deliver an excellent customer experience, we strive to resolve customer complaints fairly, effectively and speedily. A structured customer complaint and grievance procedure is in place, which is communicated to all our customers via our branches and our corporate website. In the event, a customer is dissatisfied with our grievance resolution process, it can be elevated to the Financial Ombudsman, whose contact details are displayed at every branch.

In addition, our 24-hour customer service hotline and dedicated Customer Complaint Handling Unit ensures all grievances recorded and responded within a specific time period. The relevant regional manager is responsible for investigating and responding to the grievances. Recurring complaints and grievances pertaining to employees are directed to the Bank's Internal Investigations and Inquiries Department for review and action. Customer complaints are informed to the employees at the monthly branch managers' conferences and corrective action is recommended to avoid repetition.

The Central ATM Control Department monitors complaints pertaining to breakdown of ATMs. A robust mechanism has been initiated to ensure every breakdown is reported to the relevant branch and prompt action is taken within a reasonable time. This has resulted in a significant decline in the number of ATM breakdowns during the year.

1,361 staff members were trained on product knowledge to minimise customer complaints during the year.

DETAILS OF CUSTOMER COMPLAINTS RECEIVED IN 2019

Details	Numbers
Number of customer complaints received	316
Number of customer complaints resolved	204
Pending complaints	
Pending investigations	09
Pending legal cases	04
In progress	99

▼ GRI 416.1, 416.2

CUSTOMER HEALTH AND SAFETY

Maximum care has been taken to design our products and services to minimise any adverse impacts to health and safety of our customers, although the nature of such impact cannot be easily evaluated due to the nature of our business. All branches have fire exits, fire sirens and are protected by armed and non-armed security guards.

Furthermore, we have put in place all necessary safeguards to ensure that we provide a safe and secure environment for our customers to carry out their banking transactions, be it at our branches, ATMs, SBUs or through our online platforms. Our physical touchpoints are equipped with all necessary safeguards in conformity with national safety regulations. This is in addition to 24 hour CCTV monitoring.

FRAUD PREVENTION

To prevent fraud, we have implemented a dual control mechanism, where every transaction is checked and authorised by at least two independent managers. Every branch undergoes a strict audit process by their the respective in-house audit department and the Bank's Internal Audit Department, in addition to the annual external and Central Bank audit.

To monitor the growing number of online transactions, a separate audit function has been established with over 200 staff.

▼ GRI 418.1

CUSTOMER PRIVACY

We handle large volumes of sensitive information from a wide range of banking transactions. Therefore, we have implemented stringent measures to protect customer privacy and maintain a high standard of confidentiality. We continue to invest in strengthening our IT and cybersecurity framework to ensure that confidential customer data is safeguarded. Controls in place include regular IT vulnerability assessments, network upgrades, IT audits by third parties and ongoing employee training on IT security aspects. During the year in review, there were no incidents of non-compliance reported due to breaching of customer privacy.

SALE OF BANNED OR DISPUTED PRODUCTS

Operating in strict compliance to the CBSL customer charter, we do not sell or market products or services which are banned in the market or subject to stakeholder or public debate. We do not finance any illegal project which is documented as illegal in our credit policy. There were no incidents of non-compliance with the sale of banned or disputed products.

FUTURE OUTLOOK

We will continue our efforts to migrate all our customers to digital banking channels. As the bank with the largest customer base in Sri Lanka, we will empower our citizens to become financially aware and empowered by our digital technology backed financial solutions. We will raise the bar in customer service standards by delivering an exceptional customer experience every time.

ALIGNMENT WITH SUSTAINABLE DEVELOPMENT GOALS (SDGs)

	We provide opportunities for women to effectively participate in leadership at all levels of decision-making.
	We create conditions that allow people to have quality jobs that stimulate the economy without causing harm to the environment.
	We operate sustainable supply chains, involving all from producer to final consumer.
	We collaborate with diverse business partners to create shared value for our stakeholders.

▼ GRI 204-1

MANAGING OUR BUSINESS PARTNER CAPITAL

Business partners are vital for the smooth functioning of our business operations. Over the years, we have successfully nurtured long-term relationships with a range of business partners who play an important role in our value creation process. Through our rigorous adherence to all industry regulations, transparency of our operating procedures, ethical business practices and the discharging of our debt obligations in a timely manner, we continue to create shared value. During the year, we collaborated with over 355 business partners, and created value of an estimated LKR 12.2 Bn. Total value distributed to local suppliers during the year 2019 is LKR 11.0 Bn. and over 90% of the value created was for suppliers of local origin.

▼ GRI 102-9

SUPPLY CHAIN MANAGEMENT

We strive to maximise economy and efficiency of procurement through cost optimisation and maintaining a high quality standard. A formal Board approved tender procedure is followed in supplier selection. Each year, new suppliers are registered, by calling for public tenders followed by a stringent screening process which includes quality, reliability and compliance requirements. These include compliance to environmental certifications and Central Environmental Authority (CEA) regulations, risks of child labour and forced labour among others. During the year, we did not identify any supplier/operation which had a significant risk of child/ forced or compulsory labour.

Several enhancements were made to our supply chain during the year. A new fixed assets inventory system was implemented to manage all fixed assets including maintenance of machines. Our entire branch network is linked to this system, driving increased efficiency in fixed assets maintenance. A vehicle tracking system was implemented using GPRS technology to optimise transport usage.

The material topics identified are mapped on the matrix below, their position relative to the degree of stakeholder interest and potential business impact. These topics should not be viewed in isolation as they are interconnected and the changes in one can have an impact on others.

SOCIAL AND RELATIONSHIP CAPITAL

ETHICAL PRACTICES

We follow a transparent tender procedure for procurements, in accordance to our procurement manual in line with Government regulations. All information pertaining to our suppliers are treated with utmost confidentiality. Environmental and social concerns have been embedded into our procurement process. We also require our suppliers, contractors, and consultants to maintain highest standards of ethics and we also ensure our suppliers are paid on time.

FUTURE OUTLOOK

We will continue to strengthen the relationships with our business partners and follow ethical business practices. A decentralised stationery control system and a business continuity plan for property management will be introduced in the ensuring year. We also plan to revise our procurement manual to enhance the efficiency of the procurement process of the Bank. A suppliers' day will be convened to recognise and enhance our relationships with our suppliers.

MANAGING INVESTOR CAPITAL

Investors provide the necessary capital needed for Bank's value creation process and they are important stakeholders of the Bank. They expect optimal financial returns for their investment, and we continually strive to deliver increased returns by sustained and prudent growth. We also maintain a high level of integrity and transparency in our operations by presenting timely, relevant, and balanced view of the Bank's operational results, financial position and cash flows. This helps to boost investor confidence in our Bank.

SHAREHOLDER PROFILE

Our principal shareholder is the Government of Sri Lanka holding a 92.3% stake and the balance 7.7% is held by Corporate Societies.

During period 2005 to 2006 and in 2017, the General Treasury – Ministry of Finance infused an aggregate of LKR 12,152 Mn. in People's Bank as New Capital. These amounts were held in the Bank's Capital Pending Allotment/Assigned Capital Account pending conclusion of applicable formalities to issue new shares and to transfer to the paid in capital account. Upon conclusion thereto, the General Treasury, Ministry of Finance will own 99.97% in People's Bank whilst the Co-operative Societies will have 0.03%.

ECONOMIC VALUE ADDED (EVA)

EVA is the true economic profit exceeding the required return for the Company's shareholders. We are committed to delivering optimal value to our shareholders through efficient use of capital and higher profit generation. The EVA created in 2019 amounted to LKR 32.7 Bn.

ALIGNMENT WITH SUSTAINABLE DEVELOPMENT GOALS (SDGs)

	Supporting economic growth through inclusive financing, education, and creation of job opportunities
	Increasing agricultural productivity through the provision of inclusive finance for small scale farmers
	Enhance the health systems through efficient funding, and improving the health and well-being of communities through sports events
	Inculcating the reading habit amongst schoolchildren and supporting education by donation of school supplies and infrastructure development
	Directing customers towards renewable energy by providing low cost finance for solar and other sources of renewable energy
	Sharing knowledge, technology, expertise, and financial resources to achieve SDGs

▼ GRI 413-1

DIRECT COMMUNITY SUPPORT

We uplift communities around us through structured CSR programmes. During the year, LKR 35.7 Mn. was invested on welfare initiatives through the Bank's CSR budget. The initiatives were focused on uplifting arts and culture, education, health, and other social activities. The details are given in the table below.

SOCIAL AND RELATIONSHIP CAPITAL

Investment in CSR Projects in 2019 –

Category	Amount LKR '000
Art and culture	23,445
Education	7,275
Environment	1,167
Health and other social activities	3,795
Total	35,682

Art and culture

Main sponsor of the Kandy Esala Maha Perahera and Nawam Perahera.

We sponsored the fund raiser of the Lions Club International District 306 A1 – “Didulana Tharu Rathriyak” a cultural event of the Channa-Upuli Performing Arts Academy. The funds raised were channeled for 10 large scale community service projects across the nation, covering areas such as Sella Kataragama and Bandaragama.

Education

Contribution to Ayati Trust Sri Lanka conducted by University of Kelaniya.

Donated 200 Sisu Udana branded school bags to students of Bulankulama School in Anurdhapura, to commemorate the World Children's Day.

Launched an island-wide book donation campaign to provide underprivileged children the gift of reading.

Over 1,000 students of the Kumarapattiya Ambagasdoowa Rajakeeya Vidyalaya in Badulla were provided with books and stationery items under the “Pathumak Thagi Karamu” (Gift a wish) campaign.

Sponsored the literary festival, book exhibition and United Nations (UN) model day, organised by the Lions Clubs in Galle, in collaboration with the Education Department, Cultural Department, University of Ruhuna, Youth Council, and the UN. The programme was to encourage the reading habit of children and the public and create awareness about the activities of the UN amongst the children and the youth.

Several programmes were conducted for schoolchildren in Balapitiya, Ambalangoda and, Ahungalla in collaboration with the Department of Education to commemorate World's Children's Day.

Sponsored a student mentoring programme for 200 GCE Ordinary Level candidates and their parents. The programme was conducted by an eminent motivational and inspirational speaker, which was telecast on the *Shradha* Media Network.

People's Bank Buddhist Society carried out its Annual School Book Project during 2019. The Buddhist Society donated school books to 4,075 students islandwide including their teachers. This project was chaired under the patronage of the Regional Managers of each region and the selected schools were located in very remote areas of the island. The total project cost was LKR 3.6 Mn.

Sponsored the INSPIRE 2.0 Project. A programme conducted to enhance the knowledge of English of schoolchildren in rural areas. This was organised by the University of Sri Jayewardenepura.

Environment

People's ECO Park tree planting project at Welimada.

'Pathumak Thagi Karamu' campaign in celebration of literature month launched in the hope of bringing quality reading material closer to less privileged children.

Green generation beach clean-up in Mount Lavinia Beach.

SOCIAL AND RELATIONSHIP CAPITAL

Health

In commemoration of our 58th Anniversary, a blood donation camp was organised with the participation of our employees.

Water filter donation by Ragama branch staff members to the maternity ward of Ragama hospital.

Donation to Ratnapura main hospital with the participation of all staff from Ratnapura branch.

To support the health and well-being of communities, we sponsored a mega sports day with over 1,000 participants, approximately 200,000 spectators and over four million viewers over electronic and print media.

Sponsor to "Diriya Hala" fund raiser to support cancer patients.

Other social activities

"Nidahase Upatha" programme to celebrate 71 years of Independence with gifts for children born during the week of Independence.

Several workshops were conducted in Panadura and Matara in collaboration with the Ministry of Women's Affairs, to enhance the standard of living of women. These were conducted to commemorate International Women's Day.

Donation to victims of Easter Sunday Attack.

COMMUNITY-BASED DEVELOPMENT LENDING

▼ GRI 203-1

We provide financial assistance to specific industry sectors through refinance loan schemes by partnering Non-Governmental Organisations (NGOs) and Government organisations. These facilities are granted primarily through the Bank's SME Development Unit and the Micro Finance Units. During the year 2019, loans were extended to several industries, supporting employment generation, cottage industries, and developing Sri Lanka's agricultural sector. Approximately, 65% of the loans were extended to fund economic activities.

	As at 31.12.2019			
	Funded by the Bank		Funded through refinance scheme	
	Number of loans	Outstanding amount LKR Mn.	Number of loans	Outstanding amount LKR Mn.

FUTURE OUTLOOK

We will continue to sharpen our attention on fulfilling the needs of the local communities within which we operate, focusing on priority areas that are of strategic importance to our operations.

NATURAL CAPITAL

Natural capital includes all renewable and non-renewable resources sourced from the environment. A sound Natural Capital management strategy is vital for long-term and sustainable value creation. We remain committed to managing the short-term and long-term impacts of our business operations on the environment and promoting sustainable use of natural resources.

HIGHLIGHTS

First State bank in Asia to receive **Carbon Conscious Certification**

Opened **568,495** digital accounts

Introduced the **Green Building Policy**

Electricity consumption reduced by **79,806 units**

36,117 kgs of waste paper recycled

MANAGING OUR NATURAL CAPITAL

We have implemented a comprehensive management plan to mitigate our overall GHG (Green House Gas) impact. Reiterating our commitment to climate action, multiple measures have been introduced on better energy and waste management in an effort to mitigate our overall environmental footprint. We have also adopted the evaluation of environmental impacts in our lending and investment policy and implemented a dedicated “Green Banking” product line. We constantly look at innovative methods of conducting business that are less harmful to the environment. These efforts showcase our tireless commitment to integrating sustainability into our operations.

Our direct environmental impacts are limited to energy, water and paper consumption, and the effective management of waste.

CAPITAL LINKAGES AND TRADE-OFFS

- Installing renewable energy and implementing environmental sustainability measures contributes to reducing energy costs in the longer-term

- Corporate sustainability initiatives enhances employee engagement and the work-life balance of employees

- Building carbon neutral buildings and installing renewable energy contributes to manufactured capital

- Integrating environmental sustainability initiatives improves our brand reputation and trust and confidence in our Bank

- Focus on environmental sustainability builds customer confidence and compliance with applicable environmental regulations

ALIGNMENT WITH SUSTAINABLE DEVELOPMENT GOALS (SDGs)

▼ GRI 103-3

	Implementing water conservation measures and promoting responsible consumption across the network
	Building green branches and installing solar energy in branches
	Build sustainable cities and communities by integrating environmental sustainability into our operations
	Promoting paperless banking through digitalisation and paperless communication across the network through electronic communication and documentation
	Investing in green buildings, measuring and reducing our carbon footprint and, practicing responsible water, waste and energy management across the Organisation
	Promoting sustainable use of resources and implementing environmental conservation initiatives to support life below water
	Sustaining life on and by sustainable use of natural resources and implementing environmental conservation initiatives

“PEOPLE’S GREEN PULSE” ENVIRONMENTAL POLICY

Our environmental policy sets forth our commitment towards a greener future through focused environmental management initiatives by measuring, managing and mitigating our environmental impact. The policy communicates our corporate thinking towards becoming a more sustainable finance institution to our stakeholders and reinforces our commitment towards the Sustainable Development Goals. This includes our sustainability framework that spans across all divisions of the Bank, including the head office, regional offices and the entire branch network. It also includes the creation of sustainability teams across all key operational functions to manage the Bank’s environmental and social initiatives.

Buildings	Processes	Customers	Society	Employees
<ul style="list-style-type: none"> • Certifying selected branches as carbon neutral buildings • Introducing solar power generating systems to 100 buildings • Constructing new buildings according to LEED/GREENSL/CIOB guidelines • All building contractors to follow LEED/GREENSL/CIOB Green Mark Certification 	<p>Introduce paperless operations such as –</p> <ul style="list-style-type: none"> • Cash and Cheque Deposit Machines • Kiosk for utility bill payments • Widest ATM network in the country • Paperless accounts opening and e-statements for accounts • Loan processing in paperless environment • Internet, Mobile and Web-based banking systems • Debit and Credit Cards • 24/7 People's Call Centre 	<p>Promote Green banking concepts such as –</p> <ul style="list-style-type: none"> • Opening of accounts through Express Banking which is a paperless operation • Issuing E-statements to all account holders on request • Aggressively promoting SMS and Internet banking • Issuing of Debit Cards – cashless society • Rolling-out Express Banking for new customers • CDM-cash depositing, ATM-cash withdrawals • Kiosk-bill payments 	<p>Offering the benefits of operating as the most carbon conscious Bank/Green Bank in Sri Lanka to the society as a whole</p>	<ul style="list-style-type: none"> • Creating environmental sustainability awareness • Providing concessionary staff loan facilities to purchase solar power systems, hybrid cars and electric cars • Encouraging employees to practice electronic communication and documentation

NATURAL CAPITAL

OPENING GREEN BRANCHES

In our commitment to environmental sustainability, all our new branches are constructed as Green branches and all renovations and retrofits are guided by the Bank's Green Building Policy. As a Platinum Life Member of the Green Building Council of Sri Lanka (GBCSL), all our construction projects adopt the GreenSL® Rating System of GBCSL.

We are in the process of obtaining the Green certification for all three phases including construction, operation and, maintenance. We were awarded the Carbon Conscious Bank – 2019 by the Carbon Consultancy Company (CCC) and all our branches have obtained the Sri Lanka Accreditation Board (SLAB) Accreditation – ISO 14065 and GHG 002-01.

CARBON FOOTPRINT

Having concluded the final year of the three-year Carbon Management Programme launched in 2016, we were awarded with CarbonConscious® Certification by SFG, thereby making us Asia's first State-owned bank to achieve this distinction. As part of the requirements of this certification, we further implemented a comprehensive management plan to establish objectives and identify initiatives to mitigate our overall GHG impact.

Recognition by The Sustainable Future Group as Asia's first CarbonConscious® Certified State-owned bank.

PAPER RECYCLING

We have significantly reduced paper consumption by promoting paperless banking through our extensive self banking units, mobile and internet banking channels and converting all conventional branches to digital-enabled branches. Through extensive customer familiarisation, majority of the conventional transactions are conducted via digital channels, contributing to paperless transactions. Through the recycling points established across the network, 36,117 kilogrammes of paper was recycled in 2019.

WASTE MANAGEMENT

Understanding the severity of irresponsible disposal of solid waste and its circumstances on the biodiversity and human health, we have implemented a responsible waste management process across our network. We practice segregation of waste generated with the support of our employees, the respective Municipal/Urban Councils and Central Environmental Authority endorsed third party recycling service providers. Wastewater generated is discharged as per the guidelines of the National Water Supply and Drainage Board. ICT based e-waste which is a key hazardous waste generated during our operation is disposed responsibly through tender procedure for reuse.

WATER CONSERVATION

To optimise water consumption in the Bank, a wastewater treatment plant has been constructed to recycle wastewater for gardening and flushing purposes. We have introduced several measures to minimise water usage by installing dual flush cisterns, auto flush toilet systems and automatic faucets in the washrooms.

▼ GRI 302-1, 302-2, 302-3, 302-4

ENERGY CONSERVATION AND EFFICIENCY IMPROVEMENTS

We constantly seek ways to increase energy efficiency, reduce energy consumption and eliminate waste, even though our operations are not energy intensive. Our main consumption source is electricity followed by transportation through our fleet and business-related travel. Total energy consumption of Head Office building in 2018 is recorded as 1,805,370 kWh and in 2019, our energy consumption reduced by 79,806 kWh units contributing to a LKR 2.0 Mn. saving in electricity cost due to our commitment to conserve. Energy intensity ratio of the Head Office (electricity consumption per employee per annum) is amounted to 1,787 kWh.

During the year, our efforts were focused on increasing our reliance on renewable energy usage such solar energy by converting all branches to renewable energy by installing Solar PV systems in every branch.

Some of the initiatives implemented to reduce energy consumption –

- Giving due consideration to the "Energy Efficiency Ratio" of the machinery and electronic equipment we purchase, to optimise Bank's energy consumption
- Replacing all lighting fixtures in branches and Head Office with energy efficient LED lights
- Procuring IT equipment which have a star rating for energy efficiency

- Fixing energy efficient air conditioners with inverter technology in all buildings and carrying out preventive maintenance through on-time servicing and repairs
- Using environmental friendly refrigerators
- Installing fuel efficient, low particulate emission and sound proof generators with remote monitoring facility

ENERGY CONSUMPTION OF PEOPLE’S BANK – HEAD OFFICE

Energy source	Energy type	Consumption level (GJ)	
		2019	2018
Renewable	Electricity	6,499.3	6,786.6
Non-renewable	Fuel	5,888.0	5,559.2
Total		12,387.3	12,345.8
Energy intensity (per employee)		12.7	12.5

FUEL AND EMISSIONS MANAGEMENT

We have accounted for fuel consumption in transportation of our fleet and business-related travels under energy consumption. We adopt measures to reduce fuel usage by using effective route planning, green vehicles and bulk transportation of materials to reduce GHGs.

PROMOTING RESPONSIBLE FINANCE AND GREEN FINANCE

Giving due consideration to environmental impacts in our lending and investment policy enables to reap long-term advantages which extend beyond mere monetary benefits. We promote responsible lending by educating new recruits and employees on the ethics of responsible lending, which encompass the social and environmental impact of lending. Both these aspects are assessed before a lending decision is made. Accordingly, compliance to all relevant environmental regulations, including the CEA license of our clients and the impact on the environment from our business operations are assessed prior to approval.

We provide environment-friendly loan scheme to purchase solar power systems and vehicle loans to purchase Hybrid and electric cars. 403,242 new digital accounts were opened in 2019 featuring paperless banking.

PEOPLE’S ECO-PARK PROJECT

Under the Environmental Sustainability policy an eco-park development project was initiated in Welimada, by planting more than 200 trees to reduce the carbon footprint. The trees are being nurtured by a team of agricultural specialists. We aim to initiate two more eco-parks in Wilgamuwa and Polonnaruwa in the ensuing year.

COMPLIANCE

We have complied with all laws and regulations during the year and there have been no fines and non-monetary sanctions imposed for non-compliance with environmental laws and/or regulations.

FUTURE OUTLOOK

We will continue to adopt environmental-friendly initiatives to combat the ill-effects of climate change in order to secure a sustainable future. Through our green banking concept and the digital banking drive we will continue to promote environmental sustainability.

RISK MANAGEMENT

▼ GRI 102-15,102-30

Conservative and conventional business models of banks are being threatened by certain emerging mega trends – such as globalisation, digitalisation, exponential technologies like quantum computing, AI and robotics, unorthodox competition from TechFins and FinTechs and demographic changes. The growing regulatory developments and increasing capital requirements are challenging the profitability and attractiveness of banks. Further, the growing demand from Millennials for a high level of service and innovation and calling for equal emphasis on social and environmental aspects, besides economic performance have a profound impact on sustainability of banks today.

As the second largest commercial bank in Sri Lanka, People's Bank has a sound Integrated Risk Management Framework (IRMF) to identify, assess, measure, mitigate, monitor and report risks. Intelligent risk management is integral to create opportunities and to sustain our performance. Together with the highest standards for quality and integrity, this is essential to our brand and reputation and to make a lasting impact for our stakeholders. In our ever-changing market landscape, we actively pursue new business opportunities, invest in technology and manage risk and our reputation. Sustained progress has been made towards improving the resilience of the Bank's portfolios.

Accordingly, we continue to reposition the Bank's corporate portfolio, by managing the risk-return of our assets and liabilities

and remain alert to broader geopolitical uncertainties that have affected our operations. We continue to focus on early identification of emerging risks across all our portfolios to manage any areas of potential weakness on a proactive basis. The Bank's portfolio is well diversified across dimensions such as industries, geographies, and products.

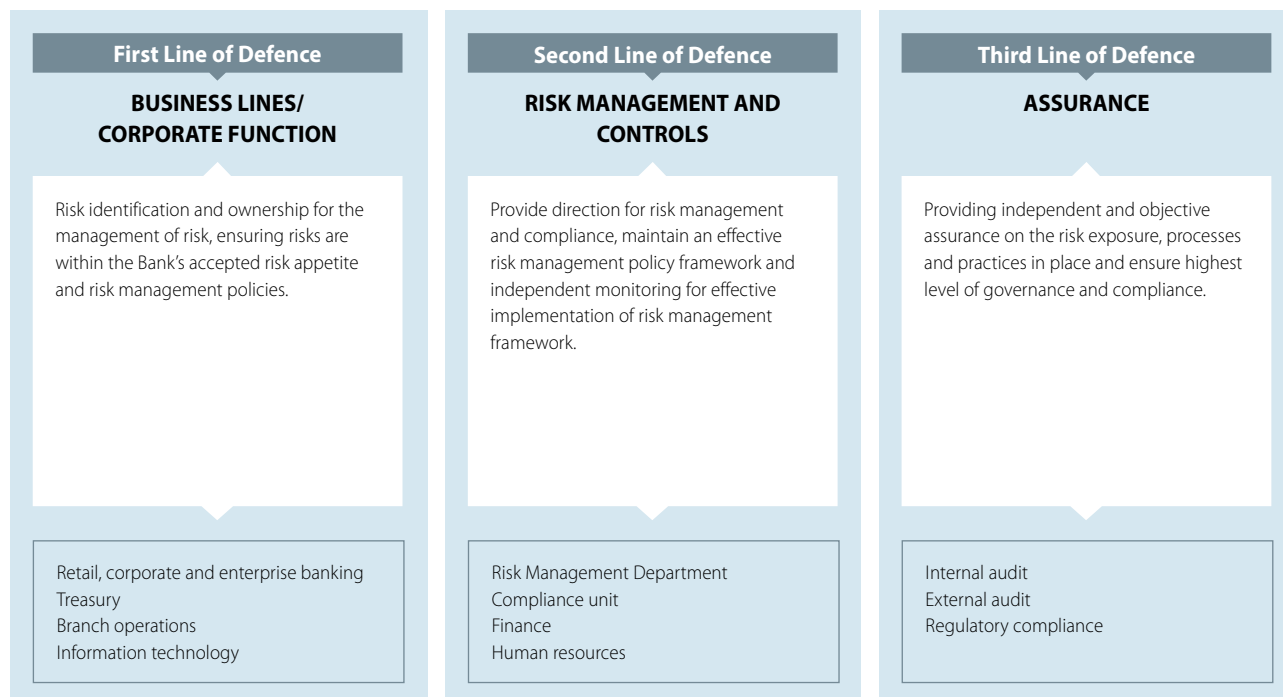

The objectives of the Integrated Risk Management Framework –

- Assess and appropriately manage risk exposures of the Bank
- Develop an effective system to monitor the Bank's risk exposures and relate them to the Bank's capital
- Establish a mechanism to monitor Bank's compliance with internal policies, particularly with regard to risk management
- Effectively communicate all relevant policies and procedures throughout the Bank
- Adopt and support strong internal controls
- Establish a strong risk culture within the Bank

BANK'S RISK MANAGEMENT FRAMEWORK

A robust risk management framework is in place based on the Three Lines of Defence Model, to ensure a structured mechanism to manage all risk exposures of the Bank. This is an interconnected and holistic system that effectively manages risks through three separate and clearly identified lines of defence.

THREE LINES OF DEFENCE

RISK APPETITE

Risk appetite is the aggregate level of risk the Group is willing to assume within its risk tolerance level in order to achieve its business objectives. Risk tolerance is the maximum level of risk the Group can assume before breaching regulatory constraints and its obligations to stakeholders. Risk appetite provides measurable

targets and tolerance thresholds across all material risk categories. This creates a framework to drive sustainable performance by evaluating optimal growth options alongside the risks involved. The Board reviews and approves the risk appetite annually to ensure alignment with the Group strategy, business environment, and stakeholder requirements.

The risk profile of People's Bank as at 31 December 2018 and 31 December 2019 compared to risk appetite is given below:

Credit risk	Credit risk appetite			Position as at	
	High risk	Medium risk	Low risk	31 December 2019	31 December 2018
NPL/Total advances (without pawning) %	>6	2.5 - 6	<2.5	3.72	2.76
Overdues %	>10	5 - 10	<5	8.64	11.88

Percentage of branch audits rated less than satisfactory	>15%	0 - 15%	Nil	26%	21%

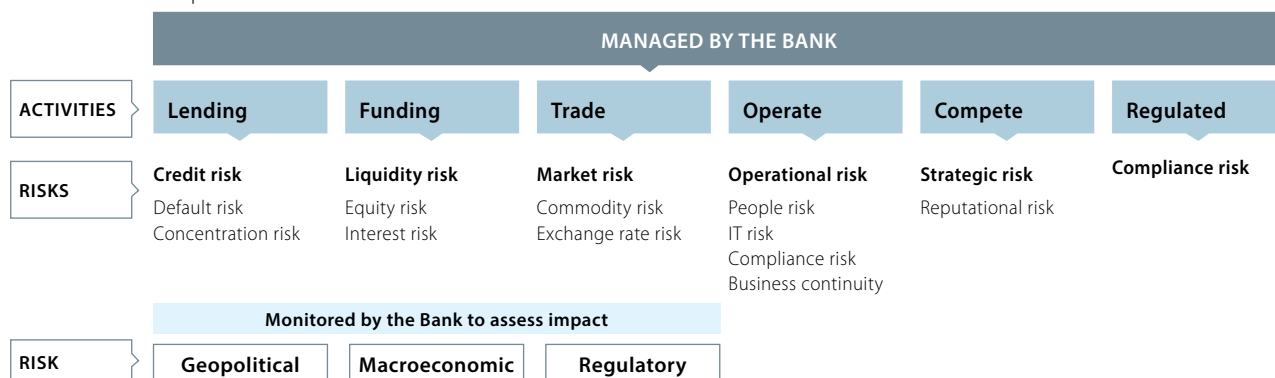

RISK CATEGORIES

People's Bank's main risk categories are credit risk, market risk, operational risk, liquidity risk, funding risk, compliance risk, reputational risk, legal risk, and strategic risk.

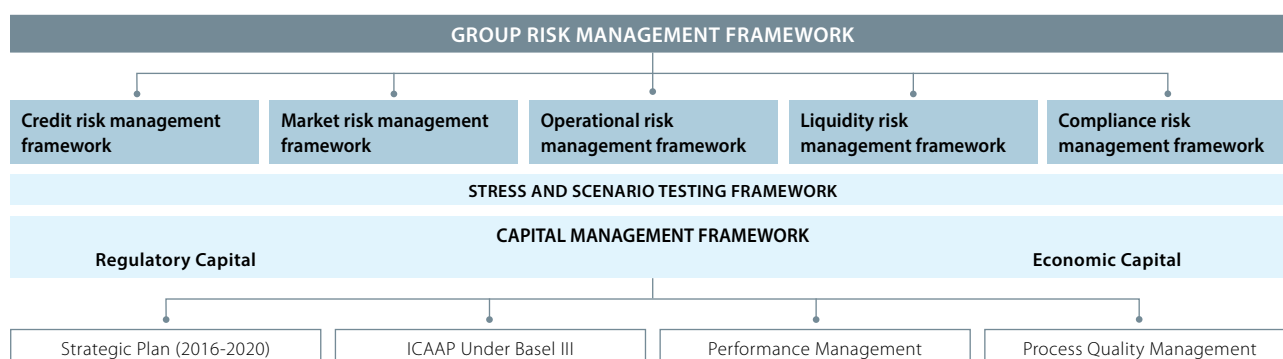

RISK UNIVERSE FOR PEOPLE'S BANK

The risk universe for People's Bank is composed of all risk categories across all its business lines, functions, geographical locations and legal entities.

Risk universe of People's Bank

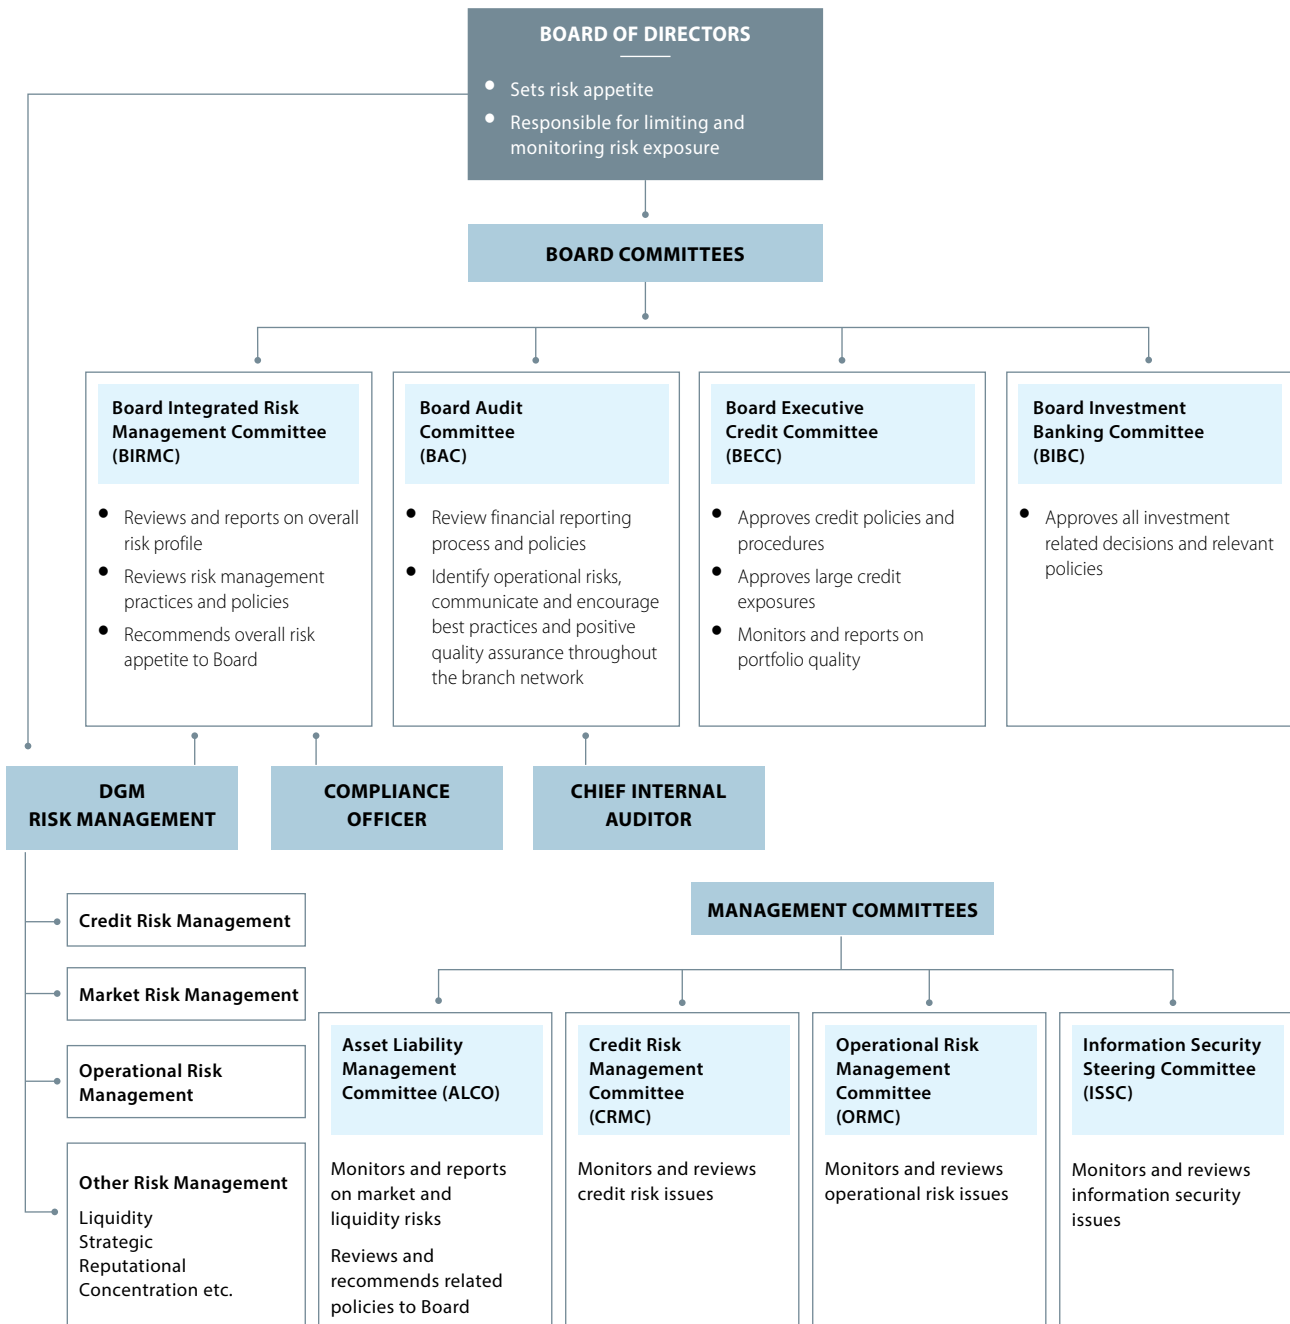

RISK APPETITE FRAMEWORK

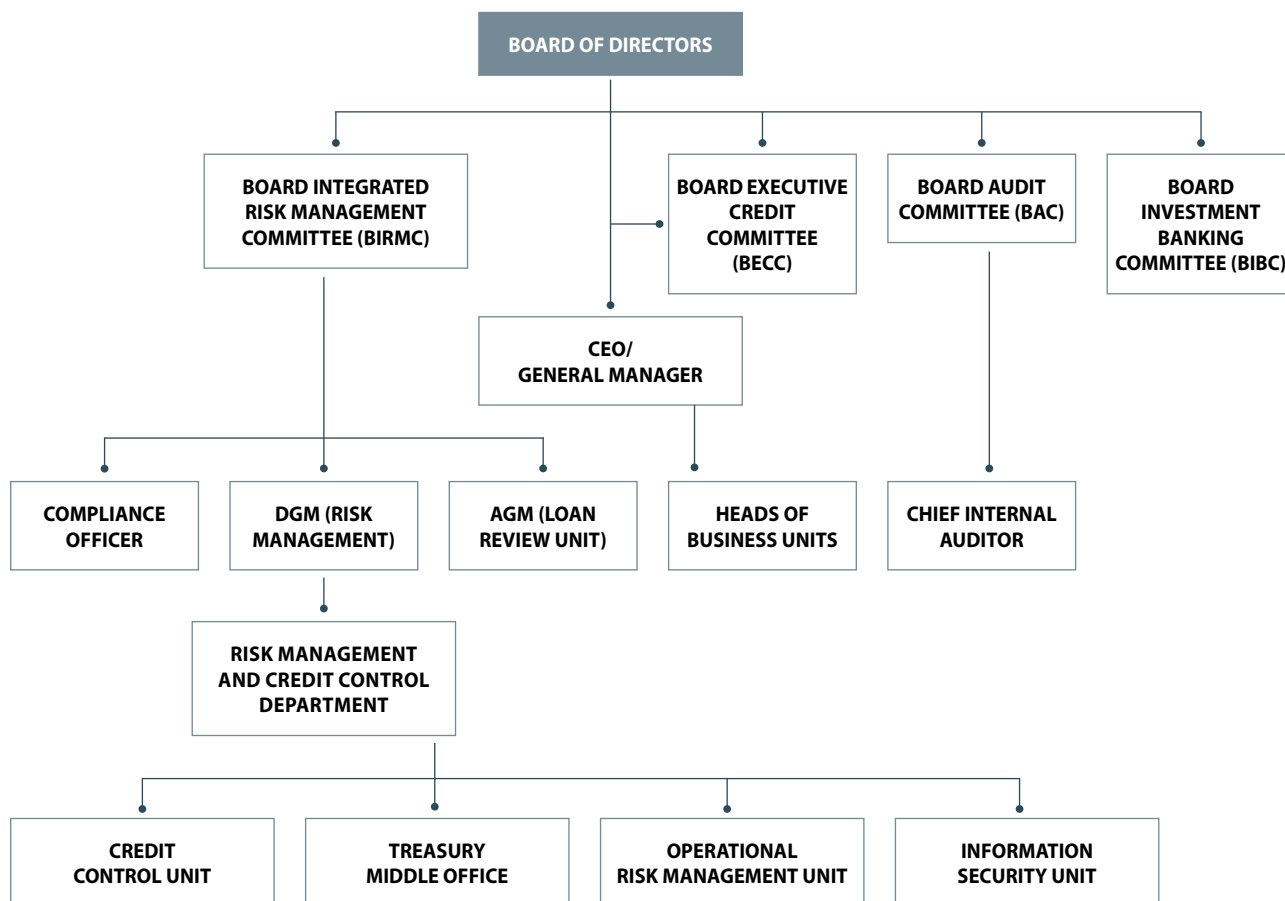

RISK GOVERNANCE

This is an essential element of the risk management framework, which is the application of the best practice in corporate governance to risk management. The apex responsibility for risk oversight is held by the Board of Directors, whose priorities include determining risk appetite levels, formulating risk policies and ensuring the effective management of risk exposures. The Board is assisted by several subcommittees and executive committees in the discharge of its duties related to risk management. This ensures Board level oversight and clear segregation of duties between risk origination and approval of risk exposures. The Board and the risk committees operate under the directions of their respective charters.

The risk governance framework of People's Bank is illustrated below:

FUNCTIONAL STRUCTURE OF THE INTEGRATED RISK MANAGEMENT FRAMEWORK OF THE BANK

RISK CULTURE

We seek to promote a strong risk culture throughout the Group to reinforce resilience by encouraging a holistic approach to the management of risk and return. Employees at all levels are responsible for the management and escalation of risks and they are expected to exhibit behaviours that support a strong risk culture. To develop a suitable risk culture, employees are trained regularly to enhance their level of risk awareness and provide the necessary skills and experience to manage risks related to their roles.

The principles that underpin the risk culture within the Group include:

- Defined risk appetites for risks taken by the Group
- Every risk should be approved within the risk management framework and should be adequately compensated
- Continuous monitoring and management of risks

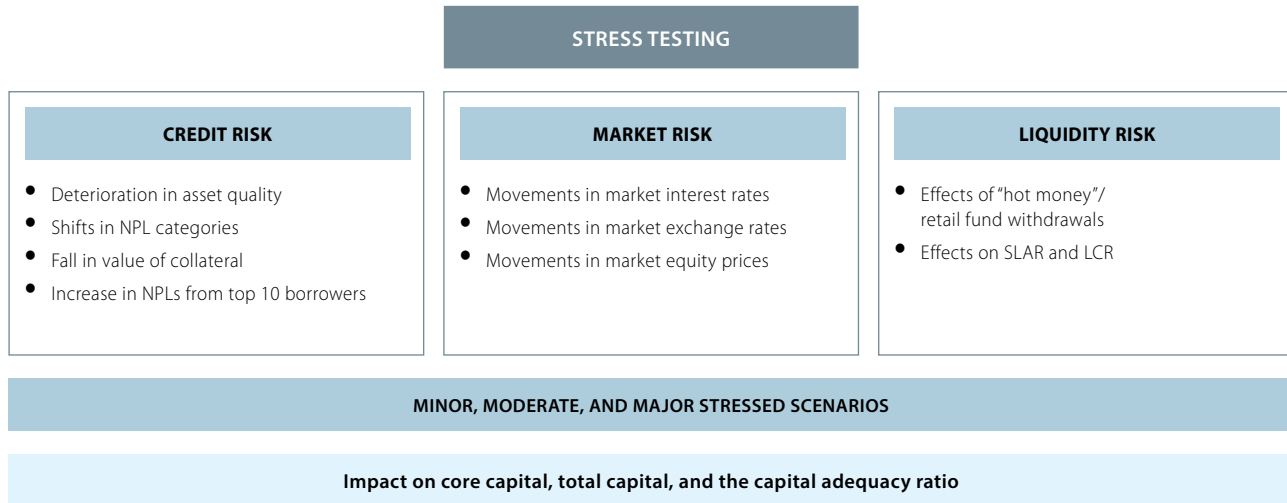

STRESS TESTING

Stress testing is a simulation technique adopted to determine the reaction of asset and liability portfolios to different financial situations. Stress testing is conducted periodically, to ensure that the Group has sufficient buffers of capital and liquidity to meet unexpected losses and contractual obligations.

Stress testing is an integral aspect of the Group's Internal Capital Adequacy Assessment Process (ICAAP). We assess the impact of macroeconomic and market variables on the Group's risk profile and financial position including the potential impacts on earnings, capital and liquidity. All material risk types are included in the stress testing exercise.

Board Integrated Risk Management Committee (BIRMC) conducts regular reviews on Group's stress testing outcomes and the major assumptions that underpin them. The outcomes of the stress testing process are vital inputs for capital planning for ICAAP, strategic planning, defining risk appetites, communicating with internal and external stakeholders and managing risk within defined parameters.

Given below is the stress testing process of the Group.

NEW DEVELOPMENTS IN RISK MANAGEMENT AT PEOPLE’S BANK

The following improvements were instituted to enhance the risk management framework of the Bank in 2019:

- People’s Bank Act was amended to facilitate the debenture issue to raise Tier II Capital that would enhance the Capital Adequacy Ratio (CAR) of the Bank.
- Credit Risk Management Committee (CRMC), a management level committee was formed to strengthen the credit risk management function
- Overdue loans and advances were brought down through intelligent management
- Baseline security standards of the branch network and departments were strengthened on an ongoing basis

Group’s preparedness was strengthened to deal with emerging risks which can surface without warning. The following measures were taken to deal with such emerging risks.

- Conducted the following security assessments as a preventive measure

Security assessment	Number of assessments conducted in 2019
External vulnerability assessments	4
Internal vulnerability assessments	2
Web application security assessments	1
Host discovery assessments	1
Wireless security assessments	1
Firewall security assessments	1

- Placed all critical live and disaster recovery servers in highly secured certified data centres.
- Conducted disaster recovery tests for all critical systems at regular intervals.
- Maintenance of ISO 27001:2013 Standard (Information Security Management System) for the third consecutive year.
- A risk dashboard was set up for all subsidiary companies to monitor the progress of the risk management process.
- The frequency of reporting to the BIRMC was brought down to monthly intervals from the quarterly intervals for better monitoring.

RISK MANAGEMENT

FOCUS FOR 2020

In 2020 we plan to further enhance the risk management framework of the Group, including giving more emphasis to emerging risks. We will launch a comprehensive training programme on the importance of risk management to branch staff and to promote a risk management culture within the Group. The credit evaluation process of the branches will be further strengthened as well.

Risk	Key controls (Governance bodies)	Change in risk level from 2018 (Increased/decreased/ static)	Focus for 2020
Credit risk	<ul style="list-style-type: none"> • Board of Directors • BIRMC • BECC • BIBC • ALCO • CRMC • Risk Management and Credit Control Department (RM&CC) • Loan Review Unit 	Increased	Better management of credit quality with enhanced corporate governance rule in credit lending practices to strengthen Bank's overall performance

Reputational risk	<ul style="list-style-type: none"> • Board of Directors • BIRMC 	Static	Enhance the brand reputation and increase market share

CREDIT RISK

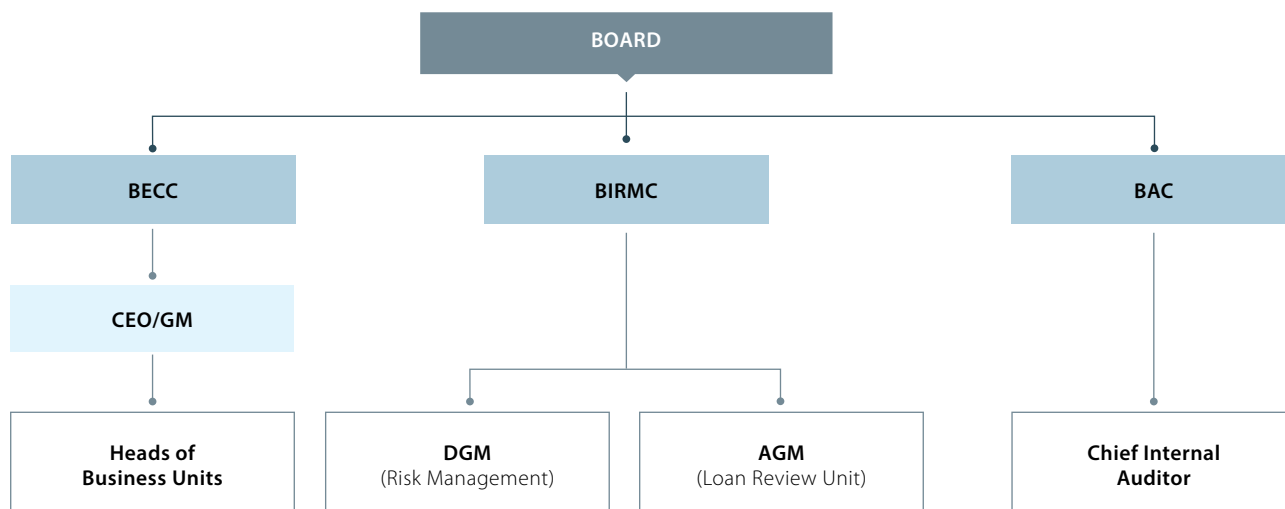

Credit risk is the risk of potential loss that arises from a customer or a counterparty failing to meet their contractual obligations to the Bank. This is one of the Group's key risk exposures, stemming from the loans and advances portfolio, financial guarantees, letters of credit and acceptances issued, and made on behalf of the customers. Credit risk can take the form of default risk and concentration risk of counterparties, business sectors or geographical regions.

Objectives of managing credit risk

- Maintain a well-diversified portfolio through prudent management of the risk asset portfolio
- Maximise returns and achieve an optimal risk-reward pay-off
- Minimise non-performing loans and maintain a high portfolio quality
- Pre-identification of potential credit risk with changing macroeconomic and industry factors.

RISK MANAGEMENT

Organisational structure for credit risk management

The responsibility for credit risk management and oversight has been assigned to the Board Executive Credit Committee (BECC). The responsibilities of the BECC include:

- Formulating and updating credit policies in consultation with the BIRMC and business units
- Establishing credit approval structures to effectively handle larger and higher risk exposures
- Conducting periodic reviews of individual credit exposures and the overall portfolio to eliminate undue risk concentrations
- Ensure adequacy of provisions and effective management of higher risk exposures.
- Developing and maintaining the risk rating systems
- Sanctioning or declining credit proposals above a predefined limit

Managing credit risk

Credit risk accounts for over 80% of Bank's risk weighted assets. Therefore, we manage credit risk on an ongoing basis, which is beyond mere regulatory compliance. Credit risk management is conducted under the credit risk management framework approved by the Board. This includes a risk governance structure including policies, procedures, segregation of authority, risk ratings, collateral management, and credit monitoring.

Robust risk policies and control framework

BECC formulates reviews and updates the credit risk management framework regularly, based on evolving best practices and emerging risks and opportunities. The credit policy approved by the Board, defines the credit culture of the Bank, prudential limits in line with the defined risk appetites and remedial and recovery actions.

Culture of responsible lending

The Group strives to nurture a culture of risk awareness and responsible lending. A comprehensive internal communication process and staff training programmes are conducted to achieve this. Customers are given adequate explanations about the credit on offer and a thorough customer credit evaluation is conducted prior to offering credit facilities or increasing the credit limit. The internal credit rating models represent diverse risk factors and predict the probability of default and loss.

Segregation of authority

The Board of Directors has the final authority and responsibility for all credit risk exposures. Approval for credit authority limits has been delegated to the CEO by the Board. The CEO has the authority to redelegate approval limits to credit committees and business lines. Each business line has clearly articulated and approved risk acceptance criteria and credit approval authority at multiple levels.

Any post-disbursement material changes to a credit facility (such as revision in tenor, covenants or collateral structure) require approval. Responsibility for risk assessment and post-monitoring are clearly segregated, facilitating effective implementation of credit appraisal guidelines and specialisation of skills.

The Bank assigns credit approval authorities to individuals according to their respective grade. Periodic reviews are conducted.

Risk rating of obligors, prudential limits, and minimum authority level

The Bank applies in-house assessment methodologies, scorecards, and the Bank’s nine points rating scale to evaluate the creditworthiness and assign ratings to the borrowers. Different risk rating scorecards have been developed for each category of borrower. These rating scorecards are periodically reviewed and validated by the BIRMC. At the same time Single Borrower Limits (SBL) have been set based on borrower risk profile and the Bank has recently set minimum authority level of Delegated Credit Authority (DCA) for credit approvals based on customer risk profile on risk grades.

Credit risk mitigating and collateral management

The Bank adopts diverse methods to mitigate potential credit losses from any given account, customer, or portfolio. These include rescheduling, restructuring, collateral, netting agreements through credit insurance, credit derivatives, and guarantees. Collaterals are obtained as per the Bank’s collateral policy and the main types of collaterals are movable and immovable property mortgages, cash deposits, plant and machinery, mortgages on stocks, book debts, corporate and personal guarantees.

Credit monitoring and review

We actively monitor and manage our credit risk positions on an ongoing basis. Credit monitoring is performed by the credit officers of the business units in close cooperation with the Credit Control Department. The credit officers have the relevant expertise and experience to manage the credit risks associated with their customers. Every credit officer is responsible to continuously monitor the credit risk of their respective portfolio of borrowers.

BIRMC conducts internal borrower risk rating and review on all exposures exceeding LKR 500,000, annually. Deteriorating credits are identified and monitored closely with quarterly reports submitted to the credit committees. Non-performing assets are identified at an early stage facilitating the Management to take appropriate remedial action.

Impairment

A comprehensive impairment policy is in place to recognise expected/incurred losses on defaulting customers. Impairment provisions for such losses are made in the Income Statement. Cumulative impairment provision is recorded as a reduction of the carrying amount of the loan portfolio in the Statement of Financial Position. Impairment assessments are periodically conducted for all exposures of the Group either on an individual or a collective basis.

As at 31 December	2019	2018	2017	2016	2015
NPL ratio (%)	3.3	2.5	1.9	1.9	2.4
Provision cover ratio – Bank (%)	60.0	72.3	97.5	110.4	98.3
Provision cover ratio – Industry (%)	52.3	57.4	69.9	71.8	62.3

	Up to 3 months		3-12 months		1-3 years		3 – 5 years		Over 5 years	
	2019	2018	2019	2018	2019	2018	2019	2018	2019	2018
Age analysis of loans and receivables (%)	20.0	18.8	24.2	30.6	9.3	8.2	13.1	9.4	33.3	33.0

RISK MANAGEMENT

Credit risk performance review

Net loans and advances has increased marginally by 3.5% YOY basis to LKR 1,310.2 Bn at the end of 2019 which represented 70% of the total assets in the Statement of Financial Position at the end of the reporting period. Asset quality of the loan portfolio deteriorated slightly by the year end with a NPL ratio of 3.3% but still better compared to the industry average of 4.6%. Adverse economic conditions that prevailed during most part of the year too contributed to the slow growth of the loan book which partially caused the increase in the NPL ratio.

Risk rating	Number of corporate customers	
	31 December 2019	31 December 2018
AAA	-	1
AA	11	11
A	50	68
BBB	75	71
BB	84	88
B	70	61
CCC	36	38
CC	20	21
C	17	21

CREDIT MIGRATION RISK

Migration risk is a credit risk that occurs due to the deterioration of the credit rating of a borrower over a period which triggers the decline of creditworthiness. This is evidenced by the down grading of the customer portfolio rating.

Bank closely observes the migration of corporate customer portfolio. The number of corporate customers downgraded over the last three years is given in the table below:

Year	Number of customers in transition	Total percentage of downgraded customers
2017	346	16
2018	322	19
2019	318	20

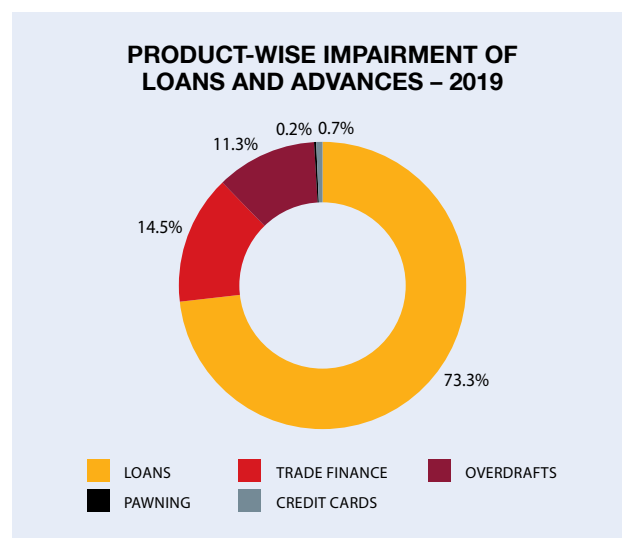

DEFAULT RISK

Default risk is the potential loss arising due to the borrower or counterparty not fulfilling the contractual obligations on a loan agreement.

The Bank maintained a healthy portfolio quality through stringent credit evaluations, post-disbursement monitoring and a high collection ratio. Bank's Non-Performing Loan (NPL) ratio of 3.3% as at 31 December 2019 was well below the industry average of 4.7%.

Managing default risk

We closely monitor all our credit exposures on a continuous basis using risk management tools such as NPL/overdue analysis, rating migration analysis etc. Processes are in place to identify at an early stage, credit exposures which have increased risk of loss. Such exposures are generally placed on a watch list and are managed effectively to maximise recovery.

CONCENTRATION RISK

Concentration risk is the risk arising due to uneven distribution of Bank's loans and advances to individual counterparties, industry sectors, or geographic regions. Being a State-owned bank, People's Bank has acquired exposures to State-Owned Enterprises (SOEs), pawning and housing financing aligned to Government's development agenda.

Concentration of large exposures (over LKR 100 Mn. as at 31 December 2019)

	Number of industry sectors	Number of customers	Direct exposure LKR Bn.	Indirect exposure LKR Bn.	Total LKR Bn.	Direct exposure as a percentage of total assets
With SOE	19	280	736,777	276,879	1,013,657	53.24
Without SOE	18	245	157,319	51,936	209,255	11.37

Position of Bank's Top 20 customers as at 31 December 2019

	Top 3 (%)	Top 5 (%)	Top 10 (%)	Top 20 (%)
Including SOE				
2018	49	56	67	78
2019	58	64	73	82
Excluding SOE				
2018	15	23	38	54
2019	13	20	32	47

Managing concentration risk

The single borrower limit and the Herfindahl-Hirschman Index (HHI) are measures adopted to monitor and control concentrations. HHI is calculated for all exposures (the greater of limit or outstanding) above LKR 100 Mn. (direct and contingent) and is calculated based on counterparty name and sector basis. The Bank's portfolio is segmented into 16 industry sectors. Given below are the tolerance levels for each degree of concentration.

Metric	Low concentration	Moderate concentration	High concentration
HHI	<0.15	0.15 - 0.25	>0.25

People's Bank's quarterly position for the financial year 2019

	31 March 2019	30 June 2019	30 September 2019	31 December 2019
Name concentration (with SOE)	0.10	0.12	0.13	0.13
Name concentration (without SOE)	0.02	0.02	0.01	0.02
Sector concentration (with SOE)	0.19	0.21	0.21	0.21
Sector concentration (without SOE)	0.13	0.13	0.13	0.11

MARKET RISK

Market risk is the potential loss arising due to movement in market driven variables such as interest rates, exchange rates, and equity and commodity prices, all of which have a bearing on the market risk exposure of the Bank.

Bank is exposed to market risk mainly from the interest rate risk arising from trading and non-trading books and exposure to gold prices through its pawning portfolio. There is moderate exposure to foreign exchange risk due to proprietary trading and foreign

currency denoted transactions of the Bank. Exposure to equity risk is limited due to the comparably low trading portfolio.

Objectives of market risk management

- Optimise the risk-reward relationship of business units within the predefined risk appetite
- Prevent exposure to unacceptable losses
- Ensure all operations of the Bank are within the defined risk appetites

Market risk exposure of People's Bank

	2019		2018

RISK MANAGEMENT

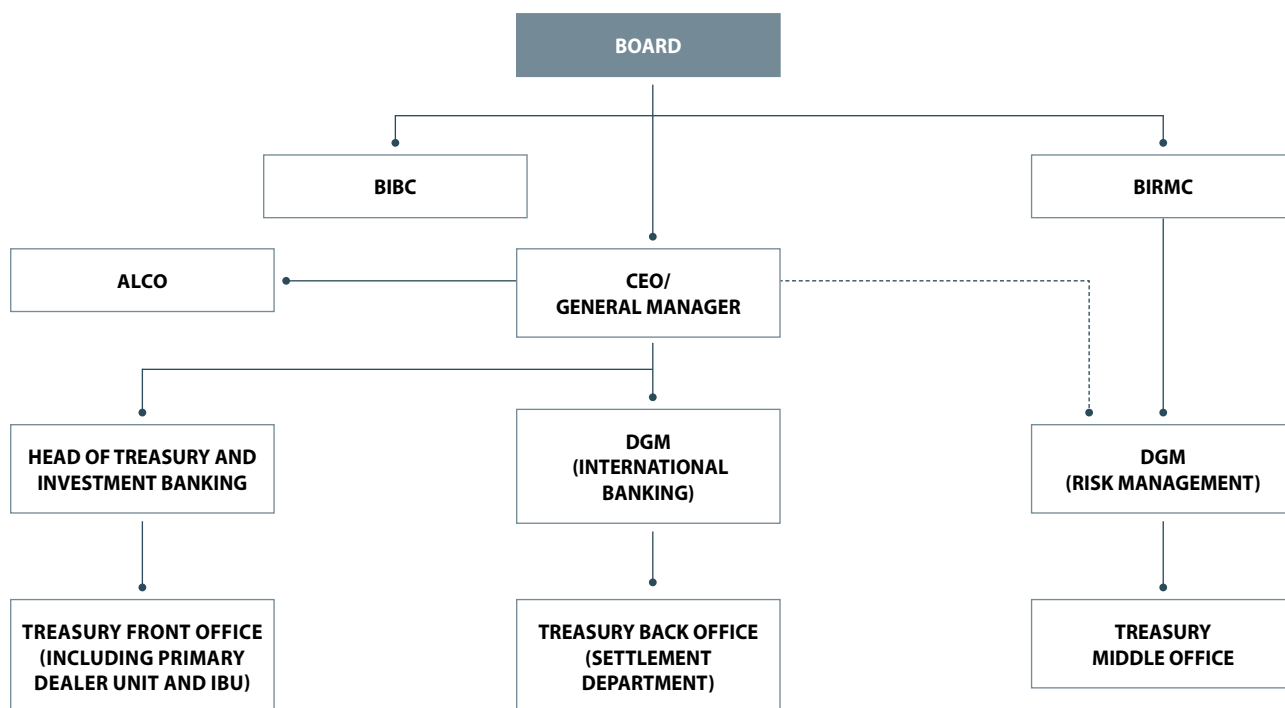

Governance of market risk management

At Board level, BIRMC is responsible for monitoring the Bank's market risk exposure, formulating policies and risk appetite limits and providing recommendations to the Board on the management of market risk.

At executive level, the Asset Liability Management Committee (ALCO) is responsible for implementing the market risk management framework and maintaining the market risk exposures within the defined risk appetite. The Risk Management Department is responsible for the daily risk management activities, including market risk assessment, monitoring and reporting.

The Treasury Middle Office (TMO) was established to measure and monitor Bank's Treasury transactions independently from the Treasury Front Office and Treasury Back Office functions. The TMO ensures compliance to risk limits set by the Board.

Organisational structure for market risk management

Managing market risk

Market risk is managed through a combination of policies, risk assessment measures and, risk limits.

Policies

The Bank's market risk management policy framework includes the asset and liability management policy, treasury management policy, foreign exchange risk policy, and policy on stress testing. These policies provide guidelines for identification, assessment, mitigation, monitoring, and reporting of all market-related risks.

Risk assessment

Value at Risk (VaR), duration gap, sensitivity analysis and stress testing are tools adopted for market risk assessment. The valuation rates and methodologies are subject to independent verification.

Market risk limits

Limits are assessed and recommended to ALCO after Board approval. Open position limits, counterparty limits, and dealer limits are defined based on approved market risk limits. The TMO monitors performance against the limits and reports to ALCO fortnightly. The limits are monitored based on product, sector, credit rating and geography. These limits are regularly reviewed by ALCO and revised to narrower bands if required based on potential market dynamics.

Action trigger points

Risk thresholds that trigger specific management action are specified, to ensure Bank's market risk exposures are within the levels defined by the risk appetite statement.

Market risk review

Ensuring stringent policies and procedures are in place to manage various aspects that contribute to market risk has enabled the Bank to manage and mitigate its market risk properly. Bank's Treasury has complied with approved limits in place throughout 2019, managing the overall market risk in a professional manner.

INTEREST RATE RISK (IRR)

The Bank is exposed to interest rate risk when the Bank's net interest income is affected by extreme fluctuations in market interest rates. This has a potential impact on the underlying interest-earning assets, interest-bearing liabilities and off-balance sheet items.

Subcategories of interest rate risk are:

- Repricing risk – arising from repricing timing differences of Bank's assets and liabilities with varying maturities
- Basis risk – arising from the differences between the actual interest margin and expected interest margin on the banking book and the implied cost of funds.
- Yield curve risk – arising from shifts in the yield curve which has a negative impact on the Bank's earnings/asset values.

Earnings at risk over one-year horizon (net impact of 1%)

	Up to 1 month	1-3 months	3-6 months	6-12 months
Net assets (LKR Mn.)	(114,672)	(58,907)	(84,253)	(438,922)
Loss for change in 1% (LKR Mn.)	(47)	(98)	(316)	(3,292)

Managing interest rate risk

The Board approves the risk appetite for interest rate risk and sets the overall limits for VaR and Earnings at Risk (EAR).

The market risk policy provides guidelines on identifying, measuring, managing, and reporting compliance of all interest rate risk positions in the banking and trading books. The Treasury is responsible for managing the interest rate risk within the risk appetite and the Middle Office is responsible for monitoring the interest rate risk.

Techniques adopted to measure interest rate risk include Duration Gap Analysis, VaR and Earnings at Risk (EAR). Rate sensitive assets and liabilities are grouped based on their maturity period, to ascertain the duration gap and overall exposure to interest rate risk.

The ALCO is responsible for repricing the Bank's asset and liability portfolio and continuously monitoring the maturity mismatches and trends in market interest rates. Regular stress testing is conducted on IRR exposures of the banking and trading books to gauge the potential impact on Bank's earnings and capital due to changing economic indicators.

Exposures are measured individually in Sri Lankan rupees and the totals of all currencies are aggregated after calculating the net total of each maturity band for each currency. Currencies that exceed 25% of total deposit liabilities are reported separately.

Interest rate risk is measured and monitored monthly and discussed at the ALCO.

Asset and liability maturity mismatches for 2018 and 2019

	Up to 1 month LKR Mn.	1-3 months LKR Mn.	3-6 months LKR Mn.	6-12 months LKR Mn.	1-3 years LKR Mn.	3-5 years LKR Mn.	above 5 years LKR Mn.

Revised total CAR (%)	14.17	13.87	13.28

Interest rate risk review

Interest rate risk is the exposure of Bank's financial condition to adverse movements in interest rates. Accepting this risk is an integral part of the banking business and may even be an important source of profitability and shareholder value. However, abnormal levels of interest rate risk can pose a significant threat to Bank's earnings and capital base. Thus, management of interest rate risk is critical for the stability of any bank.

Hence, the Bank has taken adequate measures to identify, monitor, control and reporting the interest rate exposures. Bank carries a significant portfolio of Government Securities and the amount of risk associated with same depends on how sensitive its prices are to interest rate changes in the market. Correctly reading the market and managing the portfolio accordingly has enabled the bank to manage and mitigate the interest rate risk associated with the said portfolio. Interest rate risk emerging due to repricing risk is mitigated by managing the asset and liability mismatches

well within the approved limits. Close monitoring is in place to ensure the adherence to all internal and regulatory risk mitigation initiatives and thereby managing the interest rate risk in a prudent manner.

FOREIGN EXCHANGE RISK

Foreign exchange (FOREX) risk is the potential impact to Bank's earnings and/or capital arising from adverse fluctuations in exchange rates. The Bank's exposure to FOREX risk stems from proprietary trading and foreign currency denoted transactions such as import/export transactions and remittances.

Managing foreign exchange risk

A stringent regulatory framework governs foreign exchange transactions. The approval mechanism and limits are set by the CBSL. The Bank set stringent volume limits, within the regulatory confines and limits defined by ALCO on open positions for individual currency exposures and aggregate exposures. There are forward maturity gap limits to manage risks arising from FOREX maturity gaps within the Bank's risk appetite. The Treasury Department is responsible for the overall management of FOREX risk. The clear segregation of duties between the front, middle, and back offices functions ensure an effective internal control mechanism. The Middle Office independently monitors open position, asset liability maturities, currency exposures, and the aggregate exposure.

The Bank also conducts VaR calculations and stress testing on portfolios exposed to FOREX risk. Parallel VaR calculations are performed by the Bank's Treasury Management System (based on Finacle) and the internationally accepted Bloomberg system. The potential impact on Bank's profitability and capital adequacy levels are assessed through stress testing.

Position as at 31 December 2019:

Currency	Net open position	Overall exposure (LKR Mn.)
US Dollar	610	117,403
Euro	67	9,387
Great Britain Pound	58	3,027
Japanese Yen	(323)	80
Singapore Dollar	42	59
Other	-	1,930
Net exposure as a percentage of shareholders' funds		0.16%

Exchange rate risk stress testing

	Magnitude of shock - 5%	Magnitude of shock - 10%	Magnitude of shock - 15%
2019			
Impact on earnings (LKR Mn.)	137	273	410
Revised total CAR (%)	14.64	14.62	14.60
2018			
Impact on earnings (LKR Mn.)	137	275	412
Revised total CAR (%)	14.45	14.43	14.41

EXCHANGE RISK REVIEW

Foreign exchange risk is a financial risk that exists when a financial transaction is denominated in a currency other than the domestic currency. Bank has imposed several limitations in relation to FX transactions, some of which are in line with the regulatory guidelines as well to mitigate and manage the foreign exchange risk. Ensuring the strict adherence to the stipulated limits by the Treasury Staff and thereby the FX exposure is maintained well within the set limits at all times has enabled the Bank to manage the foreign exchange risk prudently.

EQUITY PRICE RISK

Equity price risk arises due to a decline in market value of a security or a portfolio due to fluctuations in equity prices. Bank's equity price risk exposure stems from its available-for-sale investment portfolio excluding the Bank's strategic investments in subsidiaries. Bank's equity risk exposure is relatively limited due to the low investments in equity shares.

MANAGING EQUITY RISK

The Board Investment Banking Committee formulates policies related to investments and manages the investments within the defined risk appetite. The Board approved Investment Banking Policy Manual, clearly articulates the procedures, tools and techniques for managing equity risk including volume and stop loss limits. The maximum exposure approved for trading equities is LKR 1.0 Bn. The Committee regularly monitors movements in share market prices, performance of the entities and the macroeconomic conditions.

MONTH END FX NOP AND DAILY VAR DURING - 2019

RISK MANAGEMENT

The market risk function operating under the Bank's Risk Management Department independently reviews proposed equity transactions, impairment assessments and exposures against limits. The Department also maintains independent oversight over the non-traded equity risk framework.

STRESS TESTING OF EQUITY RISK

	Magnitude of shock – 5%	Magnitude of shock – 10%	Magnitude of shock – 20%
Max MV of equity portfolio	47	95	189
FV of strategic equities	42	84	169
Total impact	89	179	358

Equity price risk review

Although the equity market is highly vulnerable, the Bank's equity portfolio is insignificant compared to its overall asset portfolio and thus the risk emerging from the equity portfolio is negligible. Continuous follow up of the economic conditions of country/ globe, market perception on equity market etc. has helped the IBU to correctly read the equity market and take strategic equity investment decisions. This, together with ensuring the strict adherence to the limits set by the Board of Directors has enabled the Bank to mitigate and manage the equity risk efficiently.

COMMODITY RISK

People's Bank is exposed to commodity risk through its pawning portfolio which holds gold collateral. Gold is impacted by fluctuations in gold prices. The Bank holds a high market share in the pawning market.

MANAGING COMMODITY RISK

A meticulous process is in place to manage commodity risk. The pre-disbursement measures include, determining the gold content of the pawned articles, conducting due diligence of customers, maintaining prudent loan to value ratios, continuous assessment of gold prices and competitor offerings, and obtaining an insurance cover against losses arising from stolen articles.

Post-disbursement measures include, conducting independent valuation of pawned items regularly, daily verification of a sample of 5%, and regular auctioning of unredeemed articles.

Commodity risk review

The Bank is not engaged in commodity trading at present and its only exposure to commodity risk is associated with the Bank's pawning business. The Bank has been a pioneer of pawning activities and its exposure is backed by gold, which is considered to be readily resalable. 20% risk weight has been assigned for LTV greater than 70% by the regulator to mitigate the risk and the Bank has taken measures to manage and mitigate the inherent risk in pawning by LTV ratio at a comfortable level at all times. In addition, gold market prices are periodically assessed and analysed and is monitored by ALCO along with competitor product features.

The Bank has highly sophisticated equipments in their pawning centres to assess the gold accurately. Although the Bank staff handling pawning are well experienced and have the expertise, regular training is provided to such staff to update their awareness to new technology related to pawning activities and the risk areas to be concentrated on. Insurance coverage is in place for the pawning portfolio. Impairment provisions are made with market gold value while regular auctions are conducted to recover the defaulted advanced. Furthermore, the Bank has facilitated the

customers to affect the repayments monthly basis as well to ease their financial burden and this can be done via our self-banking units as well. All these measures have enabled the Bank to manage and mitigate its commodity risk associated with the pawning activities in prudently.

LIQUIDITY RISK

Liquidity risk arises due to the Bank's inability to meet its contractual obligations as and when they arise without incurring unacceptable losses. This generally occurs due to the inability to convert a security or hard asset to cash without a loss of capital and/or income in the process.

Objectives of liquidity risk management

- Enable the Bank to meet its funding commitments when they fall due
- Withstand liquidity stresses and
- Manage liquidity and funding risks within its risk appetite.

MANAGING LIQUIDITY RISK

The Bank has a well articulated liquidity risk management framework to ensure sufficient liquidity is maintained to meet its contractual obligations on time. The ALCO provides oversight, manage liquidity risks and continuously monitors the Bank's liquidity position to ensure compliance with internal liquidity targets and regulatory liquidity requirements. The Head of Treasury is responsible for the daily management of the Bank's funding and liquidity positions within the stipulated risk limits. The Middle Office independently monitors the Bank's liquidity levels continually and reports any breaches. The Board, BIRMC and the ALCO regularly review the performance of key liquidity indicators to ensure they are within the defined parameters.

Liquidity risk management framework

The key aspects of the liquidity risk management framework are:

Measuring liquidity

Both the flow approach and the stock approach are adopted by the Bank to measure liquidity. The flow approach analyses the mismatches of cash inflows and outflows in different time bands based on the maturity of assets and liabilities. The stock approach, uses key ratios to measure the liquidity. These ratios include the loans to deposits ratio, commitments ratio (unutilised portion of overdrafts/unutilised inter bank lines), statutory liquid assets ratio and cumulative mismatches.

Diversified funding base

The Bank sources liquidity from multiple sources, depending on market conditions, regulatory considerations and trends in interest rate movements. Deposits comprise the largest funding source amounting to 79.6% of the Bank's total funding base, followed by other borrowings (15.3%) and shareholders' funds (5.1%). The Bank has a relatively high proportion of savings, which is considered a quasi-stable source of funds.

Contingency funding plan

The Bank's comprehensive Contingency Funding Plan (CFP) provides guidance on managing liquidity requirements in stressed conditions. This is to protect stakeholder interests and maintain market confidence in the event of a liquidity crisis. The Plan articulates specific trigger points for activation and the responsibilities of the CFP team, comprising the ALCO team and the Head of Marketing and Research. The CFP will be activated in the following scenarios:

- Statutory liquid asset ratio falling below 20% over a month.
- Interbank call money rates increasing by 25% for over seven consecutive days.
- NPL ratio increasing by more than 50%.
- Larger than expected deposit withdrawals.
- Consolidated Loans to Deposits ratio exceeding 105% for more than 15 days.
- Call facilities being withdrawn by market participants or imposing a premium over the market rate for Bank's borrowings.
- Credit rating being downgraded by more than two notches.

Key indicators	Position as at 31 December 2019
Loans to deposits ratio	
LKR	75.7%
Foreign currency	272.4%
Commitments ratio	
Statutory liquid asset ratio	21.7%
DBU	29.5%
OBU	34.6%

Liquid assets ratio after shock	34.61%	31.17%	27.35%	23.07%

Liquidity risk review

Statutory Liquid Assets Ratios for DBU and OBU are at comfortable levels which are above the required ratio of 20%. Liquidity Coverage Ratios for all currency and local currency were also above the required regulatory ratios throughout the year.

Operational risk

Operational risk is the direct or indirect loss stemming from inadequate or failed internal processes, people and systems or from external events such as natural disasters, social or political events. According to Basel II definition, operational risk includes legal risk but excludes strategic and reputational risk. Operational risks exist in the natural course of business activities, products and processes.

The types of operational risk the Bank is exposed to are technology risk, people risk, and legal risk.

Objectives of operational risk management

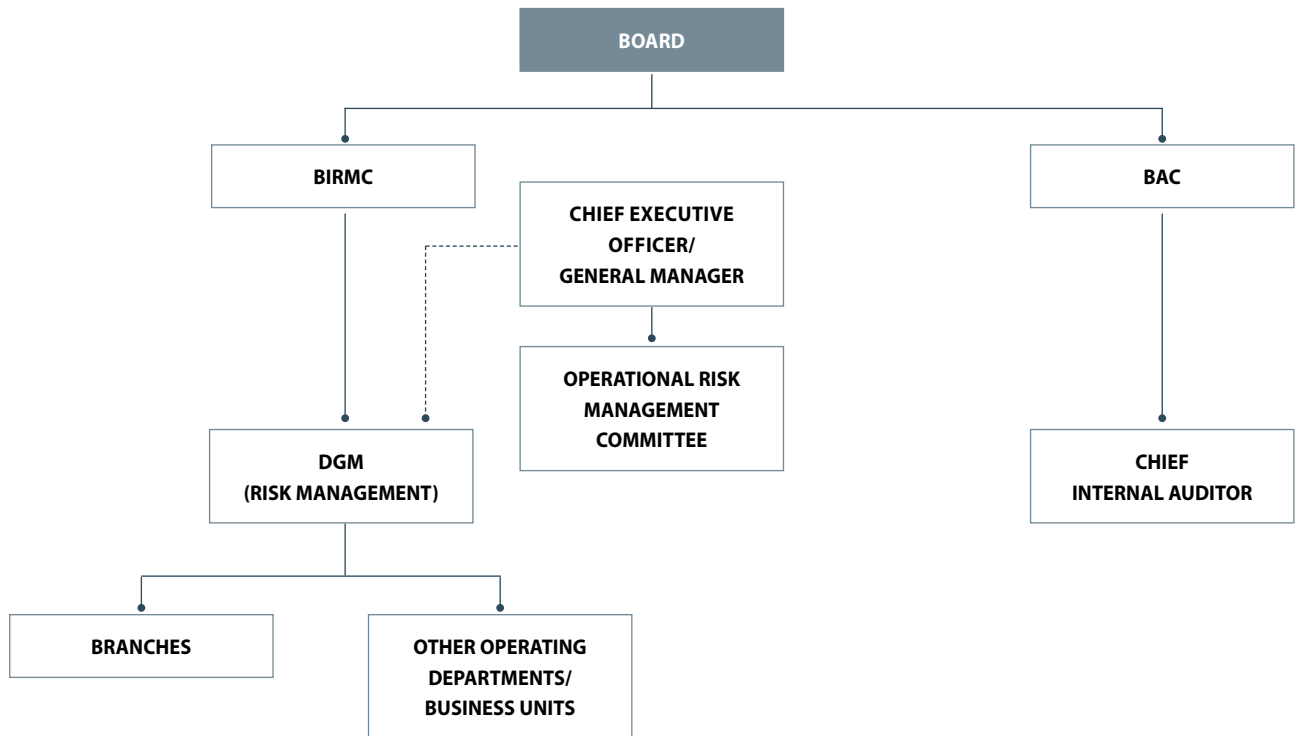

- Minimise losses from operational failure and thereby avoid potentially large risk losses.
- Develop a common understanding of operational risk across multiple functions and business units to manage risk cost-effectively across the Bank.

- Build and improve internal capabilities to effectively respond to critical and catastrophic risks.
- Save costs through better management of internal resources and effectively controlling Bank's operations.

Managing operational risk

Operational risks have been categorised to seven broad areas as projected by Basel II. Bank's operational risk management framework articulates the policies, structures and processes to manage operational risk exposure. The Board is supported by the BIRMC to formulate policy and, ensure a robust operational risk management framework within the Bank. The First Line of Defence to identify operational risks at the point of origination is the branches and business units. They report the operational loss events to the Risk Management Division which maintains a database. Structured mechanisms have been instituted to measure, assess and report operational risks within the Bank. Internal audit periodically reviews the entire operational risk management process across the network to provide an assurance to the Board and Senior Management.

Governance structure of operational risk management function

Identification and assessment of operational risk

The Risk Management Department works with business units to identify potential areas of operational risk. All staff members are trained on operational risk exposures and are engaged proactively to identify and assess these risks.

Risk and Control Self-Assessments (RCSA) are conducted by the branch network and key business units to evaluate exposures according to defined operational risk parameters. In addition to loss events and near misses reported by business units, the key findings of RCSA help to identify and devise action plans for potential gaps in risk management. Operational risk on new products, processes and activities are assessed on an ongoing basis.

Limits and tolerance levels

Specific limits and tolerance levels for operational risk indicators are defined by the Board in the Bank's Risk Appetite Statement. These include the number of internal and external loss events, the total value of operational losses as a percentage of operational expenses and the percentage of branch audits rated less than satisfactory. Regular reporting to the BIRMC and the Board ensures corrective actions are initiated when needed.

Mitigating operational risk

Risk mitigation policies and programmes have been adopted to maintain a sound operating environment within the Bank. These include:

- Comprehensive framework of operational risk policies and procedures
- Disaster recovery plans and crisis management procedures to ensure business continuity
- Segregation of duties
- Transfer of risk through insurance for damages to physical assets due to natural disasters or fire and theft of pawned gold articles
- Adopting stringent criteria to select and monitor outsourced partners
- Creating a culture of risk awareness by providing continuous training to staff
- Conducting a thorough analysis of the potential impact of operational risk of new products and services prior to launch
- Operational risk management system complying to Basel II guidelines

Risk reporting

A database of operational risk events, losses and near misses is maintained by the Risk Management Department. This facilitates systematic identification of root cause, trends, and risk frequency. Quarterly reports are prepared on significant loss events, emerging issues, risk oversight, monitoring, and reviewing of risks. The information is included in the Risk Committee Report which is presented to the BIRMC. Based on its potential impact and frequency, control failures are reported to the Operational Risk Committee and escalated to the BIRMC.

RISK MANAGEMENT

Loss event	2019				2018			
	Number	Percentage of total	Value LKR Mn.	Percentage of total value	Number	Percentage of total	Value LKR Mn.	Percentage of total value

OPERATIONAL RISK REVIEW

The above chart depicts the comparison of operational losses in the past two years under the Basel II loss event type, both in terms of number of events and value. Loss events recorded from external frauds are the most significant sources of operational losses and comprise primarily of pawning spurious articles.

However, as a result of the Bank's tremendous efforts made to mitigate the operational risks such as rigid risk assessments, continuous awareness trainings, etc the overall operational losses of the Bank during the past five years have been drastically reduced averaging to LKR 99.8 Mn. which was over LKR 150 Mn. in the early years.

Overall, the Bank's operational risk management performance is well within the lowest thresholds defined by the Board.

TECHNOLOGY RISK

The Bank is inherently exposed to technology risk given its operations are highly dependent on information technology. The risks include cyber risks such as hacking and theft of information, systems breakdowns and failures, technological obsolescence and inadequate infrastructure to support business volumes.

Technology is a key competitive advantage to achieve operational efficiency, speed, cost savings, and accuracy. The Board IT Committee provides oversight to the Bank's IT management framework and recommends IT strategies, policies and procedures. The Committee determines the need for system integrations within the Bank and the use of new and advanced software and hardware.

The Risk Department and the IT Department regularly monitor key IT risk indicators which is imperative to ascertain the robustness of information systems within the Bank. Corresponding risk thresholds have been defined to direct management attention for appropriate corrective measures.

IT risk indicators of the Bank

Category	Systems	Availability as a percentage of total working hours and thresholds		Actual availability
High critical (online real-time systems)	– Central ATM Switch	>99.9%	Low risk	99.87%
	– NOVUS Switch	99.9%-97.5%	Moderate risk	
	– Core banking system/SIBS interface	<97.5	High risk	
	– SWIFT			
	– Credit/Debit card management system			
Medium critical	– Image capturing and presentment system	>97.5%	Low risk	99.06%
	– Web remittance system	97.5%-95%	Moderate risk	
	– Finacle treasury	<95%	High risk	
	– ATM (individual)			
	– Express banking			
	– Internet banking system			
	– Mobile banking system			
	– SLIPS system			
Low critical	– IHRM system	>90%	Low risk	99.98%
		90%-87%	Moderate risk	
		<87%	High risk	

Mitigating IT risk

- The Bank maintains a well-established IT governance structure
- To prevent risk of data loss, an online real time replication mechanism, disaster recovery systems and a separate back-up system are maintained at an off-site location
- Password and access controls to authenticate user access and activation of necessary validation and verification at information entry level
- Fire protection and smoke detectors at the server rooms and UPS rooms
- Disaster recovery plan to continue operations
- The position of Information Security Officer was segregated from the IT Department to report to the DGM risk management directly
- Obtained the ISO/IEC 27001:2013 certification, the world's highest accreditation for Information Security Management System (ISMS) from the International Organization for Standardisation (ISO) for the Bank's entire information technology systems.

IT risk review

The existence of Board approved Information Security Policy and Procedures which are reviewed periodically ensures up-to-date policies and procedures to manage the IT Risk prudently.

Conducting IT risk assessments periodically and follow up of the findings through Information Security Operations Committee (ISOC) and Information Security Steering Committee (ISSC) has

strengthened the IT Risk Management function in a highly efficient and effective manner as an ongoing process.

Comprehensive reviews of user access privileges of all critical systems are conducted on a regular basis to mitigate the risk associated. Engagement of external security consultants are in place to carry out Vulnerability Assessment (VA) and Penetration Testing (VAPT) on critical banking systems. Furthermore, continuous upgrade of Antivirus/Malware protection has been ensured.

Periodic reviews of the effectiveness of the Bank's Internal IT/IS Management by IS Audit Team of Internal Audit and External Auditors appointed by Auditor General ensure that IT risk is managed by the Bank in a prudent manner.

PEOPLE RISK

People risk is the potential losses arising due to inadequate human resources, inappropriate employee activity and the Bank's non-compliance with employee related regulations. Comprehensive human resource policies and processes have been instituted to manage HR related risks and ensure uniformity in employee practices, effective recruitment practices and continuous focus on enhancing employee value propositions.

Turnover of trained skilled staff leads to deterioration in competency and productivity which impacts the competitiveness of the Bank. Hiring qualified, competent individuals and retaining the high performing employees through a rewarding work environment is a challenge.

RISK MANAGEMENT

As at 31 December	2019	2018	2017	2016	2015
Number of employees	7,836	8,093	8,454	8,249	8,368
Employee turnover (%)	3.5	4.5	3.7	4.5	5.2

People risk review

People are the most important asset in any business and they are also the most vulnerable asset. Thus anticipating and efficiently managing the people risk is highly important to the success of the Bank. Ensuring that viable succession plans are in place especially for the key functional areas that needs specialised skills to run the business has minimised the possible replacement cost to the Bank in case of resignation/retirement/transfer of such personnel. Having HR Development programmes in place as an ongoing process ensures the up-to-date knowledge/skills of the staff, minimising the risk associated to the business due to lack of knowledge/skills of the staff. Furthermore, reducing the disruptions to work, protecting the employees and their families from the financial difficulties etc. are considered as highly important in managing the people risk and the Bank has an approved staff transfer policy in place and lot of staff welfare measures are in place for the benefit of the staff and their families ensuring the staff satisfaction is at a high level while the staff turnover rate is at a minimal level. All these measures/aspects have enabled the Bank to manage the people risk prudently.

LEGAL RISK

Legal risk is the risk of loss due to incurring penalties, fines and, loss of reputation due to non-compliance with applicable regulations. Potential loss to earnings due to non-enforceability of contracts or documents forms a part of legal risk as well.

The legal risk is managed by the Bank's Legal Department. Proper internal procedures are followed when entering into contracts with clients. The business units are responsible to ensure all legally binding agreements are duly signed by the Compliance and Legal Divisions of the Bank.

REPUTATIONAL RISK

Reputational risk is an indirect loss arising from an event or incident that adversely affects the corporate brand. A negative perception or publicity about the Bank results in costly litigation, revenue reduction and a decrease of the customer base.

People's Bank has maintained an impeccable reputation for over five decades as a premier State Bank in Sri Lanka. Therefore, the negative impact on reputation has been low. A sound reputation which reflects the integrity of the Bank, the competence of staff and the high product quality forms the foundation for customer confidence.

The Bank monitors the reputation risk through early warning indicators. The customer complaint handling unit addresses all customer complaints efficiently and effectively. Several methods have been implemented for customers to forward their grievances, such as the Bank's website, Facebook page, the call centre, email and the postal address.

Reputational risk is assessed through a comprehensive scorecard developed by the Bank based on the ICAAP guidelines.

COMPLIANCE RISK

Compliance risk arises due to non-compliance with applicable laws, regulations, codes of conduct and standards of good practice that results in financial loss and reputational loss. Compliance helps to maintain and enhance the reputation of the Bank.

The Bank has established a compliance function and implemented internal policies, procedures and a governance framework to ensure employees comply with the applicable laws and regulations and best practices.

Objectives of managing compliance risk

- Elevate Bank's reputation and brand
- Increase customer confidence and trust
- Facilitate smooth and efficient operations of the Bank
- Drive employee integrity
- Provide products and services of the highest quality
- Augment the strength and stability of the Bank
- Strengthen the sustainability of the Bank

Compliance risk governance

The Board holds highest responsibility to ensure compliance with relevant external regulations and internal guidelines.

The Board is duly supported by the BAC and the BIRMC in its compliance functions. The dedicated Compliance Officer, reporting directly to the BIRMC, ensures that the Bank is fully compliant. Apart from the Risk Management Department and the internal audit function, the Compliance Unit provides assurance to the Board on the Bank's overall level of compliance.

Compliance risk is assessed through a five-point rating scale scorecard which rates Bank's compliance to internal best practices and external regulations. This scorecard is submitted to the BIRMC.

The dedicated Compliance Officer oversees the compliance status of the Bank and regularly assesses the Bank's compliance and reports the status to the BIRMC and Board of Directors.

The duties entrusted to the Compliance Department are two-fold; mandatory compliance functions and ancillary compliance functions.

Mandatory compliance functions

- Develop compliance policies and procedures to eliminate or minimise the risk of non-compliance with regulatory requirements and guard the Bank from reputational risk.
- Develop a code of conduct/ethics for all employees clearly articulating the best practices and monitor and ensure compliance at all levels.
- Develop an Anti-Money Laundering Policy aligned to Know Your Customer (KYC) regulations, to be adhered by all departments of the Bank.
- Maintain regular contact and a good working relationship with regulators based on clear and timely communication and mutual understanding.
- Nurture a culture of compliance within the Bank.
- Keep abreast with new legal and regulatory developments relevant to the Bank and facilitate effective implementation.
- Furnish reports highlighting regulatory developments, changes in laws and any other relevant developments to the Management that could give rise to compliance issues.

- Highlight any breaches in compliance and work with the management to address and rectify them within an acceptable time frame.
- Submit monthly compliance reports to the Central Bank of Sri Lanka on compliance with Central Bank Directives and Guidelines and as stipulated by the law.
- Prepare and submit quarterly compliance reports to the Board Integrated Risk Management Committee (BIRMC) and the Board Audit Committee (BAC).
- Submit monthly compliance reports to the Board.
- Establish a customer charter based on directions issued by the Central Bank of Sri Lanka.
- Prepare a Code of Best Practice on Corporate Governance based on the Central Bank Directive on Corporate Governance for Licensed Commercial Banks and implement and monitor its compliance.
- Establish systems and controls for monitoring transactions and reporting suspicious transactions to the Financial Intelligence Unit to prevent money laundering.
- Train staff members on compliance including Anti-Money Laundering and develop an e-learning module to facilitate training across the branch network.
- Prepare policies and implement procedures to minimise compliance risk and reputation risk including developing a Whistle-blowing Policy and a Code of Conduct.
- Liaise with the Credit Information Bureau to maintain updated credit details of customers.

Ancillary compliance functions

- Provide advisory services to Management and staff pertaining to regulatory, reputational, and ethical matters.
- Promote compliance as a success enabler
- Provide input in structuring new products and systems to ensure compliance with local regulatory requirements, internal compliance and ethical standards.
- Conduct assessments and reviews at regular intervals to assess compliance with internal and external regulations.
- Represent the compliance function in relevant internal and external committees.
- Clearly communicate policies on compliance to Management and staff.
- Liaise with the Bank's internal and external audit function, to address compliance issues.
- Follow up on compliance issues identified through audits.
- Liaise with the Auditors and conduct random compliance audits on risk based assessment.

RISK MANAGEMENT

Compliance reporting

Monthly compliance reports are submitted to the Board by the Compliance Department. These include sign offs from the heads of departments and branches on statutory and mandatory requirements, events of non-compliances, employee training, status of legal cases, suspicious transaction reports filed with Financial Intelligence Unit (FIU), branch assessments, reviews and department assessments. Quarterly reports are submitted to BIRMC and BAC on any special compliance related matters within the particular quarter.

Prevention of money laundering and terrorist financing

The Bank takes every effort to prevent the rising prevalence of money laundering and terrorist financing. All employees are trained on Anti-Money Laundering, Know Your Customer concept, the concept of Customer Due Diligence through structured programmes and e-learning modules. Unusually large and suspicious transactions are analysed, evaluated and reported to the Financial Intelligence Unit.

Compliance risk review

Branch wise compliance assessments are conducted by the Regional Compliance Officers and reviews are conducted by Compliance Department at selected branches. Compliance assessments of head office departments and other units are conducted on a monthly basis.

STRATEGIC RISK

Strategic risk is the potential loss to earnings and viability arising due to unfavourable business decisions, challenging business environment and inadequate response to changes in operating environment.

The Bank manages its strategic risks through the Strategic Plan approved by the Board and the Executive Management. The Strategic Plan is formulated through extensive stakeholder engagement at multiple levels and discussions with business units. In the event a risk materialises, a set of management actions are developed to prevent or mitigate the impact on Bank's earnings. The business performance is tracked on a weekly basis by the ALCO and the Board. The actual performance is monitored against the budgeted targets for each business unit and the strategies are tweaked to suit any changes in the business environment.

Strategic risk is assessed using a scorecard, taking into consideration a range of factors including the Bank's size, complexity, and sophistication of operations, environmental analysis as well as customer profiling. The scorecard is adopted to highlight areas of potential improvements to mitigate strategic risk.

GROUP RISK MANAGEMENT

The Bank's main subsidiaries, People's Leasing & Finance PLC, People's Merchant Finance PLC, and People's Insurance PLC have structured risk management frameworks to identify, assess, and monitor risk exposures. People's Bank oversees the risk management aspects of the Group entities through the following structures and mechanisms:

- The Group's risk appetite and strategy is formulated at Bank level and reporting structures, processes and thresholds are determined by the Bank's Board of Directors.
- Key risk indicators, trigger levels and thresholds have been defined for each Group entity and are reviewed periodically with industry benchmarks.
- People's Bank's Audit Committee and Internal Audit Department, periodically reviews and ensures the adequacy of the internal control mechanisms of the subsidiaries.
- In certain instances, People's Bank nominates Directors to the respective Boards of the subsidiaries.
- People's Bank's BIRMC periodically reviews the risk profiles of the regulated subsidiaries.
- The Bank's Board of Directors has access to the minutes of the Board meetings held in Group companies.

The Group's risk ratings for key categories of risk in 2019

	Credit risk	Market risk	Operational risk	Compliance risk	Strategic risk	Reputational risk
People's Bank	Low	Low	Low	Low	Low	Low
People's Leasing & Finance PLC	Medium	Low	Low	Low	Medium	Low
People's Insurance PLC	Medium	Low	Low	Low	Medium	Low

PEOPLE'S WYN

Performance Reports

- 140 Retail Banking
- 144 Enterprise Banking
- 146 Corporate Banking
- 148 Treasury Unit
- 150 Overseas Customer Services and International Banking

RETAIL BANKING

Retail banking serves over 14 million individuals across Sri Lanka from all walks of life. We provide banking solutions to fulfil the aspirations of customers in every stage of their life cycle. Our range of banking products is delivered with a human touch to customers with services spanning across deposits, pawning, personal loans, and credit cards.

Retail banking accounts for approximately 88.7% of the Bank's total deposits and 35.5% of the Bank's total loans and advances. We are closely aligned to the Bank's strategic agenda and Government's vision of driving financial inclusion and enhancing lives through our customer and community-centric approach and largest branch network in Sri Lanka. Throughout the year, we continued to improve productivity and client experience through driving digitisation, cost efficiencies, and simplifying processes.

We augmented our reach by opening fully-connected branches, self-banking units (SBUs), kiosks and installing ATMs island-wide to serve a wider customer base. In particular, we established 29 SBUs during the year, covering key townships and branches offering our customers an efficient and uninterrupted service, 24 hours a day, 7 days a week. Customers are enabled to conveniently withdraw cash, deposit cash or pay utility bills, pawning redemption all under one roof, without any hassle.

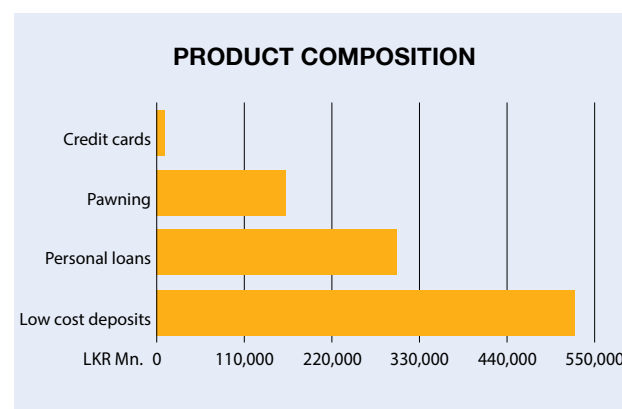

Through our express banking model, customers can open current and savings accounts and deposit money within a short time of approximately 10 minutes without the hassle of documentation. At the end of the financial year 2019, 568,495 customers were acquired through the express banking model.

Taking customer services to an unprecedented height, the Retail Loan Originating System (RLOS) was launched to automate the loan approval process for retail customers. This is a timely move and another industry-first that allow customers to obtain personal loans expeditiously and efficiently. The system facilitates the initiation, submission, recommendation, and approval process via a digital platform by eliminating the cumbersome paperwork. Depending on the loan amount and other implications, loan approval/disbursement can be done within a period ranging from an hour to seven days facilitating greater convenience, faster delivery, and increased efficiency to our customers.

To maintain the quality of our portfolio we have appointed Product Managers for each product category and strengthened our credit evaluation process. As a result we have successfully maintained the NPL ratio at a minimum of 1.5%, as at 31 December 2019.

STRATEGIC PRIORITIES

Strategic priority	Progress in 2019
Launch the Retail Loan Originating System (RLOS) to automate the retail loan approval process	RLOS was launched in 37 branches
Increase the CASA deposit portfolio	CASA portfolio grew by more than 5% YoY
Increase new customer acquisitions	667,349 new customers were acquired in FY 2019
Maintain a healthy portfolio quality	NPL stood at a low of 1.5%

PAWNING

We are the pioneers in pawning business in Sri Lanka and we continued to hold the highest market share. Our pawning portfolio stood at LKR 162.58 Bn. as at 31 December 2019. Pawning contributes the highest to the Division's revenue. Through stringent monitoring and credit evaluation, we have successfully maintained the NPL ratio at a very low level.

RETAIL BANKING

LOW COST DEPOSITS

We provide a range of products covering the entire life cycle of an individual. We have the second highest deposit base in the banking industry in Sri Lanka amounting to LKR 566.3 Bn of low cost deposits as at 31 December 2019. Throughout the year, several deposit mobilisation campaigns were launched to increase the deposit base. We give special emphasis to children, who are the future of the nation. Eight School Banking Units were launched to promote the habit of saving among children during the year. A host of services such as depositing coins and cash to their *Sisu Udana* accounts and making balance enquiries are facilitated using their handy NFC card specially designed with respective school colours and customised with student details. The parents are informed through a SMS alert each time a deposit is made by a student.

Close to 850 palm top machines were launched to collect customer deposits from the door step of the customer during the year, delivering increased customer convenience. We launched Gold-pledged loans to increase our short-term deposit base. Outstation branches continued to be the major contributor to the deposit base. This is evident by the fact that bulk of the deposits were mobilised from outside the Western Province in 2019.

The Bank has reached another milestone by introducing School Cash Deposit Machines (SCDM), a module of a self-banking unit as a part of its massive digitalisation project, in order to bring digitalisation closer to the schoolchildren as a result to promote the *Sisu Udana* account. The Bank has extended the facilities of transacting with a card.

GROWTH IN THE LOW COST DEPOSIT PORTFOLIO

DEPOSITS MOBILISATION FOR 2019 – PROVINCE-WISE

PERSONAL LOANS

We are the market leader with the largest loans and advances portfolio in the banking industry. Our personal loans portfolio escalated to LKR 302.2 Bn. as at 31 December 2019. Personal loan products make a significant contribution to the revenue of the Bank. We offer a range of products to cater to different customer segments, such as institutions, professionals, teachers, nurses, forces, Government servants, and many more. Through stringent monitoring and credit evaluation we have successfully maintained a low NPL ratio of 1.5% for the retail banking sector.

PERSONAL LOANS COMPOSITION 2019

CREDIT CARDS

We have the license to issue both - VISA and Mastercard branded credit cards. Our portfolio includes VISA Classic, Gold, Platinum, and Signature and Mastercard Gold and World.

We have the latest state-of-the-art system to issue and process our credit card operations efficiently. All our credit cards are NFC (Near Field Communication) technology enabled delivering added protection to every purchase made via the credit card to minimise fraud. Further, as per international regulations, all cards are EMV (Electronic Magnetic Verification) enabled as well.

Premier credit card facility consists of three categories as Platinum, Visa Signature and Master World. These premier cards have several benefits such as travel insurance and lounge-key facilities.

We continued to grow our card-spend by launching attractive seasonal and year-long promotions, offering incentives, and other privileges to card holders. During the year, we extensively deployed the merchant acquiring POS machines.

Dharmaraja College School Banking Unit opening

FUTURE FOCUS

- Launch the RLOS system to 100 branches across the island to enable more customers to obtain qualitative personal loans
- Launch the express banking model to all branches
- Launch "People's Power" a special current account for VIP customers
- Increase the low-cost deposit base by launching branded products
- Extend the school cash deposit machine project up to 100 schools
- Facilitate pawned articles to be redeemed by depositing money to kiosks in SBUs island-wide
- Increase the retail customer base

ENTERPRISE BANKING

The enterprise banking arm of People's Bank serves all micro, small and medium enterprises (SME), and commercial businesses, considered as the engine of economic growth of Sri Lanka. We work with the Government of Sri Lanka and global aid agencies to gain access to concessionary funding lines.

Our approach is two-pronged. It includes, conventional lending products such as term loans, trade and working capital facilities, cash margins loans etc, that are designed specifically to cater to the needs of all business enterprises across our nation whilst the other includes special funding lines that promote the concept of development banking through concessional funding lines. Combining both these channels, we offer a unique value proposition that is personalised to provide each client a bespoke world-class banking solution.

As at end December 2019 the enterprise banking loan portfolio amounted to LKR 218 Bn., constituting over 38,521 facilities.

Our credit processing mechanism was decentralised with 24 Regional Credit Units (RCUs) to offer a personalised and efficient service to our clients. The RCU model which is tied to the Bank's long-term sector diversification strategy has freed our branch credit teams to focus solely on business generating activities. This has paved the way to venture into untapped sectors such as Education, Financial Services and ICT. However, we continued to maintain a selective lending approach towards increasing our exposure to these sectors.

During the year under review, priority was given to empowering women by supporting women entrepreneurship. Women form approximately 57% of total population of Sri Lanka and they make a significant contribution to the rural economies. Under the ADB funded Wifi loan scheme, financial support was granted to women led enterprises, providing grants up to 35% of the loan value, based on the location and other conditions. By participating in the Enterprise Sri Lanka exhibitions held in Monaragala, Anuradhapura,

and Jaffna we educate customers on areas such as financial discipline and financial and non-financial schemes available under the "Enterprise Sri Lanka" loan schemes. Many customers who could not obtain facilities from other financial institutions were accommodated during the year.

A significant contribution was made to uplift the tourism industry by supporting entrepreneurs in the tourism industry through our regional branches. Even though, the sector was significantly impacted during the year, the portfolio quality was maintained by extending the credit moratorium granted by the Central Bank of Sri Lanka to the impacted customers in the tourism and other related industries after the Easter Sunday terrorist attacks in 2019. We have also taken prudent measures to rehabilitate the sick industries. Despite the challenging economic conditions during the year, non-performing loans (NPL) were maintained at a healthy rate following a stringent credit evaluation process, nurturing strong customer relationships through Relationship Managers and providing financial advisory and customer education services. During the year several customer education seminars were held in several parts of the island to empower our customers.

OUR CONTRIBUTION TO NATIONAL ECONOMIC DEVELOPMENT

Enterprise banking	2019	2018	2017
Advances (LKR Mn.) (Cumulative)	205,483	195,992	172,778
Non-performing loans (LKR Mn.) (Cumulative)	13,098	7,815	5,911

STRATEGIC PRIORITIES

Strategic priority	Progress in 2019
Development of enterprises	Granted loans, advances and trade facilities to 49,451 enterprises to support entrepreneurship
Promote financial inclusion	Loans channelled to Northern and Eastern Provinces amounted to LKR 2,875.97 Mn.
Support women entrepreneurship	Granted 13 loans to the value of LKR 18.1 Mn. under the Wifi loan scheme
Support environmental sustainability	Granted 124 solar loan facilities under the solar power scheme
Enhance customer experience	Strengthened customer relationship management by establishing RCUs
Maintain a healthy portfolio quality	Despite the challenges faced by the customers due to adverse operating environment, the NPL was maintained at a healthy level which was below the industry average

REFINANCE LOANS

These facilities carry low interest rates with comfortable tenures extending up to 10 years. During the year we granted refinance facilities to empower 1,105 customers amounting to LKR 4.86 Bn. Highest number of loans were granted to the Western Province.

INTEREST SUBSIDY LOANS

The main product under this category was the Enterprise Sri Lanka Loan Scheme, an initiative by the Government to stimulate investment and expansion by entrepreneurs. In our commitment to partner Government’s national development agenda, we became a key lender of the scheme. We actively participated in more than 20 loan schemes offered under the initiative with the maximum loan amount extending up to LKR 700 Mn. and the tenure up to seven years. By end December 2019 we disbursed over 15,893 facilities with a total value of LKR 7.76 Bn. under this scheme.

CREDIT GUARANTEE SCHEME

These facilities are granted without collateral and up to 60% of the loan is guaranteed by the Government. We disbursed over LKR 461 Mn. facilities in 2019 under the new comprehensive rural credit scheme aimed to uplift the socio-economic conditions of micro and small-scale farmers who engage in cultivation of paddy and short-term crops.

FUTURE FOCUS

- Develop enterprises, drive financial inclusion, provide counselling and improve financial literacy
- Develop home grown sustainable growth strategies for self-sufficiency and export oriented economy
- Support use of renewable energy
- Support credit schemes through innovations and technology
- Support food security
- Strengthen the Regional Credit Units (RCU) and creating stronger customer relationships
- Maintain a healthy profitable credit portfolio
- Revive sick business units and reduce the non-performing loans portfolio
- Strengthen the customer relationships for long-term business development

CORPORATE BANKING

Corporate banking serves a diverse client base comprising mid to large scale corporates including local, international and off-shore corporates, BOI entities and State-Owned Enterprises (SOEs). We offer a total value proposition to our clients spanning loans, working capital and trade finance, project financing, and cash management facilities. We continue to be in the forefront supporting the national interest of Sri Lanka's socio-economic and infrastructure development.

Despite the challenging environment during the year as evidenced by the decline in imports, exports and remittances and the lackluster investment environment, corporate banking contributed 42.4% to the Bank's operating profit and 45.9% of total loans and advances. By leveraging our expertise, extensive experience in diverse industries and strong local and international networks, we contributed 15.8% to the Bank's net interest income and 24.7% to the Bank's non-funded income during the financial year 2019. Whilst the NPL ratio edged up to 3.3% due to the adverse external environment, the ratio is still below the industry average due to the adoption of prudent risk management practices.

We continued to lay the foundation to achieve growth and increase efficiency by making corporate banking a self-contained unit with dedicated Relationship Managers and industry specialists. We simplified our processes to expedite the loan approval process and offer a total value proposition to our clients. Under the Bank's digitalisation drive, a corporate internet banking and mobile banking platform was launched enabling corporate clients to carry out all their transactions from their office or from anywhere in the world they may be. We are also in the process of digitalising all processes from loan origination to disbursement, resulting in faster delivery and increased efficiency.

We are continuously up skilling our people through certification and training programmes, empowering them to offer exceptional service to our clients.

KPI	2019	2018	2017	2016	2015
Net income (LKR Mn.)	12,465	12,339	9,022	8,752	13,283

Percentage	2019 %	2018 %
Government and SOEs	77	75
Private sector	23	25

STRATEGIC PRIORITIES

Strategic priority	Progress in 2019
To be the top corporate banking solutions provider offering a suite of value-based solutions to all corporates	Corporate banking offers a variety of value-based solutions ranging from import and export financing, project financing, equity financing, syndicate loan facilities and cash management facilities
Diversify more into trade and working capital financing	Value of trade and working capital financing facilities handled for the year 2019 was LKR 116.6 Bn.
Focus on syndicate loans and project financing for Sri Lankan companies going offshore	Syndicate loans amounting to USD 25 Mn. were granted during 2019 to Sri Lankan companies going offshore.
Increase the contribution of corporate banking to the Bank	Corporate banking is a significant contributor to the Bank's performance, accounting to 45.9% of Bank's total loans and advances and 42.4% of Bank's operating profit for 2019

SECTOR EXPOSURE

FUTURE FOCUS

- To continue providing a comprehensive suite of financial solutions leveraging on our digital platform, product range and the expertise of our people. Develop industry specialists and continuously up skill our people.
- Diversify our loan portfolio to private sector and diverse industries including sustainable businesses such as renewables and businesses that promote female entrepreneurship.
- A comprehensive transaction banking solution for cash management, collections and payments.
- By leveraging on our island-wide branch network, launch supply chain financing by extending financial solutions across the value chain. We aim to elevate the life styles of clients and support the national vision of sustainable and inclusive financing.
- Increase our contribution to Bank's bottom line by increasing trade and working capital financing and fee based income.

TREASURY UNIT

Treasury unit, considered as a key division of the Bank, is responsible for the management of funding and liquidity requirements and optimum usage of funds. We also play an important role in managing the market risk of Bank's investment portfolios, foreign exchange, and cash instruments. Treasury unit is responsible for the achievement of overall foreign exchange income, trading income, and realised/unrealised gains of the Bank.

Our investment banking unit which commenced operations in 2012, has become one of the top three investment banks in Sri Lanka within a short period of seven years.

Our main functions include:

- Foreign Exchange Desk – dealing in foreign currency (FX) corporate transactions, FX interbank transactions, management of FX liquidity, FX Money Market transactions, and quoting rates for foreign currency fixed deposits and transactions in USD denominated Sri Lanka Development Bonds.
- Money Market Desk – managing the Bank's Statutory Reserve Ratio, management of Sri Lankan rupee liquidity, Repurchase and Reverse Repurchase transactions and quoting of rates for local currency fixed deposits
- Primary Dealer Unit – trading in Treasury Bills and Treasury Bonds to earn capital gains and management of Sri Lankan rupee denominated Government Securities portfolios.
- Investment Banking Unit – management of Bank's equity portfolio, structuring and placement of short and long-term corporate instruments including IPO's, management of equity and debt IPO's, providing of trustee and placement agent services

OUR ROBUST OPERATIONS

We continue to set the benchmark in raising funds from foreign banks. In a landmark development in the Sri Lankan financial services sector, we signed a USD 200 Mn. 8 year, bilateral funding facility with a foreign bank in 2019. This is one of the largest ever and the longest tenor bilateral funding facility secured by any commercial bank in Sri Lanka to date. This partnership is a clear reflection of the confidence placed on our Bank, our governance structure, expertise and impeccable track record relating to financing complex and nationally significant projects such as infrastructure development, power, energy etc.

We continue to build strong relationships with our foreign banking partners across the world, mainly in the Gulf region, Japan, China, Taiwan, India and North America by maintaining cordial bilateral relations and, a high level of engagement at all times. We have been successful in securing substantial short and long-term foreign currency funding facilities to the Bank. It is noteworthy to mention that a 225 year old North American bank conducted their first-ever transaction in the South East Asian region with People's Bank recently.

Our Investment Banking Arm successfully raised LKR 10 Bn. to increase the Tier II Capital of the Bank by issuing five and eight year unlisted subordinated debentures at very attractive levels through a private placement in November 2019. This debenture issue was closed on the opening day itself, which is a strong testament of the investor confidence in our Bank. The Investment Banking Unit acted as the Manager to the Issue for the aforesaid debenture issue.

Our governance, compliance and the risk management aspects remain strong with the main functions of the Department segregated into three independent areas – Front Office, Back Office, and Middle Office, independently managed by three Deputy General Managers.

Several operational improvements were effected in 2019, most noteworthy among them being the upgrade of the Treasury system. Investment Banking Unit was integrated to the Treasury system and the upgrade has a host of new value added features such as the online limit monitoring module.

PERFORMANCE

Compared to 2018, the operating environment was less conducive in 2019 due to the lower volatility in the US Dollar exchange rate and decreased volatility in Sri Lankan Rupee interest rates. However, we successfully achieved all our key performance indicators, making a significant contribution to the Bank's income whilst effectively managing the liquidity position.

KPI	2019	2018	2017	2016	2015
Net income (LKR Mn.)	10,728	11,417	9,100	10,121	8,371
Net profit after tax (LKR Mn.)	7,547	8,125	8,089	5,796	3,418
Assets (LKR Mn.)	563,980	512,031	446,219	388,746	446,650

FUTURE FOCUS

- Consolidation of present activities
- Launch fund management services

OVERSEAS CUSTOMER SERVICES AND INTERNATIONAL BANKING

The Overseas Customer Services (OCS) engages in foreign currency (FX) accounts, FX related transactions, facilitating remittances, and currency repatriation. International banking engages in trade transactions, guarantees and other international banking related activities.

OVERSEAS CUSTOMER SERVICES

With over three decades of expertise in handling inward remittances of the Bank, we are one of the most trusted banking partners to thousands of Sri Lankans living and working overseas. Leveraging our digital expertise, we facilitate speedy and smooth inward remittances through our People's Remittance web product, via our correspondent agents.

Our expertise, reliable and efficient service has enabled us to secure a considerable market share in the inward remittances market. We have continued to nurture strong relationships with a vast network of global partners across the world. New partners were onboarded during 2019, including new tie-ups with several exchange companies.

Investments were also made in staff training, to enhance the product knowledge and service quality. On-the-job training sessions and training sessions for front line employees were conducted by OCS during the year.

INTERNATIONAL BANKING

Our global transactions are facilitated through our network of over 1,000 overseas correspondents in 110 nations. We engage in the whole gamut of trade products including offshore transactions, loans and deposits.

Leveraging on our years of expertise, we are the first point of call for overseas investors and for local exporters registered with the Board of Investment (BOI).

By joining the Asian Development Bank's (ADB) Trade Finance Programme (TFP) in 2011, we have successfully provided attractive pricing to our clients by securing guarantees to support trade. Backed by the ADB guarantee, we are able to tap foreign banks which may not have provided funding facilities to Sri Lanka. As a result, the offer rates of funding facilities have become more competitive.

Considering the number of transactions done with ADB, we were named the leading partner bank of the Asian Development Bank Trade Finance Programme for 2019.

During the year under review 2,970 trade guarantees were issued.

In recognition of the quality of our trade services products, which ensure the security and efficiency of the import/export services offered by us, we were awarded the SLS ISO 9001:2015 accreditation by the Sri Lanka Standards Institute.

Training was conducted for branch staff to enhance trade product knowledge and service quality – on-the-job training sessions and - training sessions for front line employees were conducted by International Division during the year.

HIGHLIGHTS

- Import financing grew by 9% to LKR 5,765 Mn. in 2019 compared to LKR 5,286 Mn. in 2018
- Export financing recorded a 47% decrease to LKR 527 Mn. from LKR 997 Mn. in 2018
- Awarded the SLS ISO 9001:2015 accreditation by the Sri Lanka Standards Institute
- Leading Partner Bank of the Asian Development Bank Trade Finance Programme for 2019

PERFORMANCE – INTERNATIONAL BANKING

KPI	2019	2018	2017	2016	2015
Import financing (USD Mn.)	5,765	5,286	4,392	3,440	830
Export financing (USD Mn.)	527	997	596	487	108
Import turnover (USD Mn.)	76	83	53	32	26
Fee and commission income (USD Mn.)	17	18	16	15	16
Average LC processing time (hours)	4	4	4	4	5
Number of trade guarantees	2,970	2,939	3,167	3,141	2,865
Inward remittances (USD Mn.)	2,419	2,565	1,622	1,013	609
Outward remittances (USD Mn.)	5,659	4,642	3,378	3,098	1,294

FUTURE FOCUS

- Leverage on our extensive correspondent banking network to increase trade turnover
- Expand our global partner network to facilitate remittances.
- Accelerate the ongoing trade product awareness among staff of network to promote more trade transactions and financing of trade
- Promote digital solutions to further enhance trade services value proposition to customers

PEOPLE'S WEB

OUR INTERNET BANKING PORTAL LAUNCHED IN MAY 2018 WHICH IS IN SYNC WITH THE PEOPLE'S WAVE MOBILE APP. OVER 350,000 CUSTOMERS USE THIS PORTAL TO CONDUCT THEIR BANKING TRANSACTIONS WITH CONVENIENCE, AND WITH UTMOST SECURITY.

Governance Reports

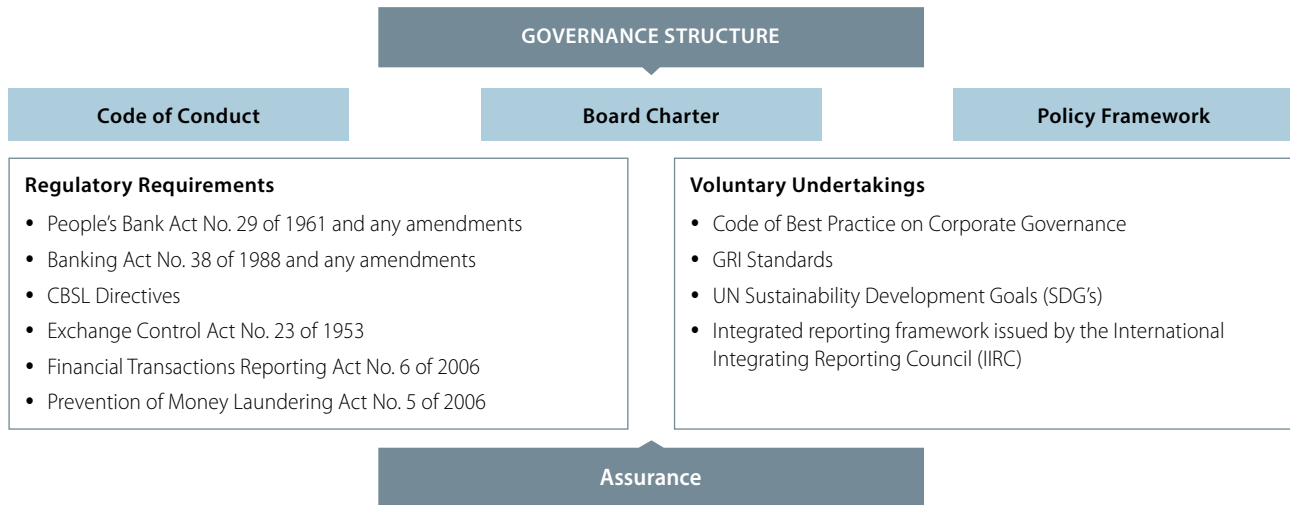

- 153 Corporate Governance
- 172 Board Audit Committee Report (BAC)
- 173 Board Subcommittee Reports
- 177 Directors' Statement on Internal Controls
- 179 Auditor General's Assurance Report on Internal Controls

CORPORATE GOVERNANCE

Corporate governance is the framework by which the Bank is directed and controlled. The Board of Directors of the Bank are responsible for the governance of the Bank. Bank's approach to corporate governance is to promote strategic decision-making to achieve its long and short-term objectives while creating sustainable shared value for its stakeholders and the wider society.

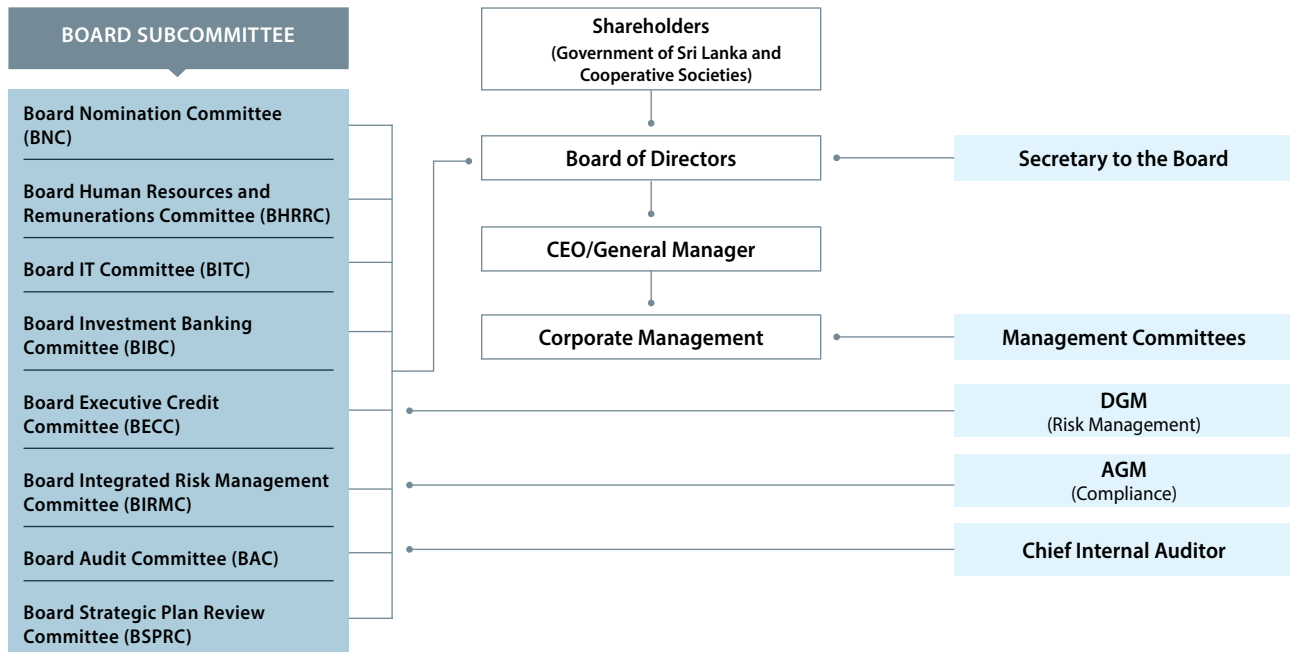

▼ GRI 102-18, 102-22

PEOPLE'S BANK'S CORPORATE GOVERNANCE FRAMEWORK

GOVERNANCE STRUCTURE

Bank's corporate governance structure consists of several layers. The Board provides oversight and deliberates with the Executive Management about the Bank's strategic direction, financial goals, resource allocation and risk appetite. The management is responsible to execute the policies of the Board to create shared value for all its stakeholders.

CORPORATE GOVERNANCE

KEY FOCUS FOR 2019:

- Establish/roll out the industry revolutionary Self Banking Unit Concept (SBU) to further expand customer reach and facilitate 24/7, all day Banking for the benefit of all customers.
- Review and approve the Bank's policies, procedures, key metrics and realign them as and where necessary in line with the Bank's Strategic Plan.
- Focus to drive its business with efficiency, innovation and technological advancement as part of its progressive strategy.
- Creating a highly secured technological environment comprising advanced electronic delivery channels, with features and services that are available in today's fast growing world.
- Maintain high level of Customer Service Quality (CSQ)

ASSURANCE

The Auditor General provides assurance on the Financial Statement of the Bank and on the Directors' Statement on Internal Controls over Financial Reporting which are published on pages 183 to 184 and 177 to 178 respectively. He also certifies the level of compliance with the Banking Act Direction No. 11 of 2007 on Corporate Governance for Licensed Commercial Banks issued by the Central Bank of Sri Lanka.

▼ GRI 102-22, 102-23, 102-24

COMPLIANCE WITH THE CODE OF BEST PRACTICE FOR CORPORATE GOVERNANCE The Board (Principle A.1)

Board of Directors of People's Bank are appointed by the Minister of Finance. The current Board comprises the Chairman, and Non-Executive Directors. All Directors are eminent professionals of the State and private sector. The Chairman, is a well experienced professional with over 30 years experience especially in the finance field. The diverse range of skills and experience of the Non-Executive Directors enrich the Bank's risk management and control process. Profiles of the Directors are given on pages 26 to 27.

▼ GRI 102-33

Holding of Regular Board Meetings (Principle A. 1.1)

The Board meets at least once a month and additional meetings are convened based on necessity. The Board met only 10 times during the year 2019, and all Board meetings were characterised by high attendance, active participation and constructive and open discussions.

Directors are required to attend all Board meetings and Committee meetings of which they are members. Instances of non-attendance at Board meetings were generally due to prior engagements, personal commitments or illness.

In addition, non-Board members of the Senior Management and the advisory members may, by invitation, attend meetings to address specific items in the agenda. Members of the Corporate Management and/or external experts are allowed to make presentations to the Board and Subcommittees on a regular basis on matters pertaining to the Bank's strategy.

The attendance of each Director at Board meetings and respective committee meetings in 2019 are detailed below:

Name of Director	Status	Board meeting	BAC	BHRRC	BIRMC	BECC	BNC	BIBC	BITC	BSPRC
Ms Sujatha Cooray	Independent Non-Executive	1/1		1/1

Mr Lahiru Pathmalal	Independent Non-Executive	8/8		2/2		15/15		4/4	11/11	
Mr M S A Mutumala	Independent Non-Executive	5/5			4/2		1/1			

Role of the Board (Principle A. 1.2)

The Board is responsible to provide leadership, oversight, control, development and ensure long-term success of the Bank. They also facilitate value creation to shareholders in accordance with applicable laws and regulations. The Board is also responsible for nurturing the right culture, instilling values and promoting ethical behaviour throughout the Bank.

There is a formal schedule of matters reserved for the Board, which are reviewed regularly to ensure it remains current. Matters reserved for the Board include the items summarised in the table below:

Governance	Strategy and directions	Risk management accountability and control
<ul style="list-style-type: none"> Review of governance arrangements Terms of reference for and membership of Board Committees 	<ul style="list-style-type: none"> Approval of strategy and annual budgets Authorisation of acquisition and disposal activity Affirmation of risk management strategies and risk appetite 	<ul style="list-style-type: none"> Approval of financial statements, other updates to market and recommendations on dividends Approval of authority levels, financial, and treasury policies Review of internal control and risk management Approval of health and safety policies

The Board has delegated some of its responsibilities to Committees of the Board. The scope of work assigned to each Committee along with the progress made during the year is given on pages 172 to 176 of this Report.

Monitoring the effectiveness of the Bank's risk management and internal control systems has been delegated to the Board Risk Management Committee and Audit Committee. The Board retains ultimate responsibility for determining the Bank's 'risk tolerance'. The Risk Management Report is reviewed by the Board, and this includes, monitoring, controlling and reporting of identified risks and uncertainties. In addition, the Board reviews reports referred by the Chairman of the Risk Committee and Audit Committee pertaining to risk management.

Compliance with Laws of the country as applicable to the business and procedure to obtain independent professional advice. (Principle A. 1.3)

The Board of Directors collectively and severally, are expected to act in accordance with the laws of the country, applicable to the business conducted by the Bank. Therefore, the Board is responsible for ensuring all relevant procedures and controls are in place to maintain compliance with all applicable laws and regulations.

The Board acknowledges the need to obtain independent judgement from time to time, on certain matters. Accordingly, Board members are entitled to seek independent professional advice (including but not limited to legal, accounting and financial advice) at the Bank's expense on any matter connected with the discharge of his/her duties and responsibilities.

Company Secretary (Principle A. 1.4)

All Directors have access to the Board Secretary. The Board Secretary is responsible to the Board for ensuring all agreed procedures and applicable rules and regulations are observed. In addition the Board Secretary serves as the Secretary to all Committees and maintains the minutes of all Board meetings and Committee meetings. Other responsibilities of the Board Secretary include:

- Coordinating matters pertaining to the conduct of Board meetings and Subcommittee meetings
- Conducting proceedings in accordance with the People's Bank Act and relevant legislation
- Facilitating adoption of best practice on corporate governance including assisting the Directors with respect to their duties and responsibilities, in compliance with relevant legislation and best practice
- Acting as the communication liaison between Non-Executive Directors and Management
- Ensuring appropriate disclosures on related parties and related party transactions in line with regulatory requirements
- Obtaining legal advice in consultation with the Board on the People's Bank Act and other relevant legislations in ensuring Bank's compliance with all applicable laws and regulations

Independent judgement of Directors (Principle A. 1.5)

Directors are required to bring an independent judgement to bear on decisions of the Bank. As experienced professionals, their duties are performed without any influence from other persons. The Board promotes dynamic, and constructive contribution from Non-Executive Directors.

CORPORATE GOVERNANCE

Dedication of adequate time and effort by the Directors (Principle A. 1.6)

Directors are expected to dedicate sufficient time before a meeting to review Board papers and call for additional information and clarification and to follow-up on issues.

Directors are also expected to ensure sufficient time is dedicated at every meeting to ensure all responsibilities are discharged satisfactorily.

Training for Directors (Principle A. 1.7)

All Directors are entitled to receive relevant training for continuous development. To ensure Directors' contribution to the Board/Committees remains relevant, ongoing trainings and updates are provided for Directors to regularly refresh their knowledge, skills and understanding of the business and markets in which the Bank operates. This includes written reports and presentations by senior executives or consultants, on Bank's operations, corporate governance, legal and regulatory developments.

Chairman and CEO (Principle A. 2)

Whilst the Chairman and Chief Executive Officer (CEO)/General Manager (GM) are collectively responsible for the leadership of People's Bank and for promoting the highest standards of integrity and probity, there is a clear and effective division of accountability and responsibility between the Chairman and the CEO/GM. Each play a distinctive role which complements each other to ensure balance of power and authority and avoid unfettered powers of decision and control for one individual.

The Chairman is responsible for leading, directing and managing the Board to ensure effective operations and fully discharging its legal and regulatory responsibilities. The primary role of CEO/GM is to manage the day-to-day operations of the Bank.

A decision to combine the posts of Chairman and Chief Executive Officer in one person should be justified and highlighted (Principle A. 2.1)

The position of the Chairman and the CEO/GM are clearly separated, preventing unfettered powers for decision-making by one person.

The Chairman and the CEO/GM have been identified on pages 26 and 30 of the Annual Report.

▼ GRI 102-23

Chairman's role (Principle A. 3)

The Chairman is responsible for ensuring the CEO/GM and the Management effectively implement the strategies and policies agreed by the Board. The Chairman also provides stewardship for the adoption good governance practices and provides oversight to ensure effective communication with shareholders and other stakeholders.

Conducting Board proceedings in a proper manner (Principle A. 3.1)

The Chairman is responsible not only for providing leadership but also for overseeing the functioning of the Board to safeguard the best interest of the Bank and its shareholders. Accordingly, the Chairman is responsible for:

- Ensuring Board meetings are planned and conducted effectively
- Setting the agenda for each Board meeting, taking cognisance of the matters proposed by other Directors, members of various subcommittees or the Board Secretary
- Ensuring the Board members receive accurate, timely and clear information
- Ensuring minutes of Board meetings are accurately recorded and circulated among the Directors
- Providing leadership and governance to the Board to create a conducive environment for the Board and individual Director's to discuss issues in a timely manner
- Promoting a culture of transparency and encouraging Non-Executive Directors to engage in constructive and healthy exchange of views pertaining to matters of the Board and thereby facilitating contribution to the effective functioning of the Board
- Ensuring the Board plays a full and constructive role in developing and assessing Group's strategies and policies, and ensuring Board decisions are taken in the best interest of the Bank and fairly reflect Board's consensus
- Proving leadership for self-assessment to generate meaningful feedback to further improve the effectiveness of the Board

Financial acumen (Principle A. 4)

The People's Bank Board comprises members with sufficient financial acumen and knowledge. In addition to the Senior Chartered Accountants and Chartered Management Accountants who provide guidance on the financial matters, the rest of the Directors have sufficient financial acumen acquired through their extensive professional experience.

Board balance (Principle A. 5)

The People's Bank Board is well balanced with eight Non-Executive Directors, of whom seven function in an independent capacity. This is above the minimum stipulated by Code of Best Practice for Corporate Governance issued jointly by the Securities Exchange Commission and The Institute of Chartered Accountants of Sri Lanka.

All Independent Non-Executive Directors are independent of management and free from any business or other affiliations that could materially interfere with or could reasonably be perceived to materially interfere with the exercise of their unfettered and independent judgement.

Every Non-Executive Director submits a signed declaration of independence/non-independence against the specified criteria and they are evaluated to ensure compliance with the criteria for determining independence.

In the year under review, there were no circumstances that warranted the appointment of alternate Directors. The need to appoint a Senior Independent Director did not arise either due to the segregation of positions of the Chairman and the CEO/GM.

Supply of information (Principle A. 6)

Board meetings are scheduled well in advance, giving adequate notice to Directors. Prior to every Board or Committee meeting, the Bank Secretary ensures all relevant papers including the agenda, content and a summary of management presentations are made available to all the Directors seven working days prior to the meeting. The Directors who are unable to attend the meetings are updated through the documented minutes, which are tabled at the next meeting with the matters to be followed-up from the minutes.

Monthly accounts for a given month are prepared and circulated among Directors in the following month along with key financial performance indicators of each division/subsidiary. If the Board feels the information provided is insufficient or not clear, they are entitled to request for further clarification or additional information. The respective management personnel can be called for the meetings when deemed necessary to provide further details.

▼ GRI 102-24

Appointments to the Board (Principle A. 7 and A. 8)

In accordance with the People's Bank Act, a maximum of 10 Directors are appointed by the Minister in charge of the portfolio of which two Directors are nominees of the respective Minister handling the subject of cooperatives. Appointments are made for a period of three years subject to a maximum term of nine years and an age limit of up to 70 years, whichever comes first in line with the provisions of the Banking Act Direction No. 11 of 2007.

All appointments for directorships are submitted to the Central Bank of Sri Lanka for assessment under the Fit and Proper Criteria for Directors.

Appraisal of Board performance (Principle A. 9)

Every member of the Board conducts a self-assessment of his/her own effectiveness as well as the Board as a team annually, incorporating all criteria specified in the Board performance evaluation checklist of the Code. The responses are collated by the Board Secretary and submitted to the Board as a summary report.

Disclosure of information in respect of Directors (Principle A. 10)

Information specified in the Code in relation to Directors is disclosed in this Annual Report as follows:

- Name, qualifications, brief profile and the nature of expertise on pages 26 and 27.
- Number of Board and Committee meetings held in year 2019 and attendance on page 154.
- Names of committees in which the Director serves as the Chairman or a member on page 153.
- Related party transactions on pages 265 to 269.

Appraisal of the CEO (Principle A. 11)

The evaluation of the CEO/GM is one of the most important responsibilities of the Board. The evaluation process provides a formal opportunity for the Board and CEO/GM to have a constructive discussion regarding the performance and the leadership of the CEO/GM. The set of KPIs for the CEO/GM formulated under Strategic Planning and Performance Management is reviewed monthly by the panel who submits the review to the Board monthly for their review. These goals are confirmed by the Board and are used as the basis for the annual CEO/GM's appraisal process.

The CEO/GM is responsible to provide the Board with explanations for any adverse variances along with corrective action to be taken.

CORPORATE GOVERNANCE

Director's and Executive remuneration procedure (Principle B. 1. B.1.1, B. 1.2, B. 1.3)

Board remuneration is decided according to guidelines set by the Ministry of Finance. No Director is involved in determining his/her own remuneration. The BHRRC makes recommendations to the Board pertaining to the remuneration and benefits of the CEO/GM and Key Management Personnel within agreed terms of reference and in accordance with the remuneration policies of the Bank and the Collective Agreement. Remuneration is designed to attract, retain and motivate high performing, qualified and experienced employees of the Bank. The Board in turn makes recommendations to the Minister of Finance who is the final authority for approval of their remuneration under the collective agreement.

The BHRRC seeks professional advice externally, when deemed necessary, in discharging their responsibilities. The report of the BHRRC, disclosing the Statement of Remuneration Policy and the names of the Chairman and members of the BHRRC is given on page 173. The aggregate remuneration paid to the Directors is given on page 212.

Relations with shareholders (Principle C. 1, C. 2)

As a State Bank, with the Government of Sri Lanka being the main shareholder, People's Bank comes directly under the purview and the Ministry of Finance. The Board liaises with the Ministry to ensure alignment with the socio-economic development goals of the country.

The Annual Report is printed in English, Sinhala and Tamil and is circulated through the Ministry of Finance to the Parliament. The Bank liaises with the Ministry of Finance for matters concerning the Ministry.

Major and material transactions (Principle C. 3)

There were no transactions which would materially alter the Bank's or Group's net asset base, other than those disclosed in the Note 46 to the Financial Statements, Related Party Disclosures on pages 265 to 269.

Financial reporting (Principle D. 1)

The Annual Report presents a balanced review of the Bank's financial position, performance and prospects. Both narrative and visual elements have been used in presenting the information, to increase comprehension and clarity. We have provided a balanced view on our performance in this report and other communications presented to relevant authorities including the Ministry of Finance and regulators. The Bank takes every effort to ensure compliance with statutory requirement in the Annual Report and in the issue of interim communications on financial performance.

The following disclosures as required by the Code are included in this Report:

- Statement of Directors' Responsibility on page 182 includes a statement setting out the responsibilities of the Board for the preparation and presentation of financial statements
- Independent Auditors Report on pages 183 to 184 includes a statement of their responsibilities
- Directors' Statement on Internal Control over Financial Reporting on pages 177 to 178
- Management Commentary on pages 40 to 58.
- Statement of going concern of the Company is set out in the Statement of Directors' Responsibility on page 182.
- Related Party Transactions are disclosed on pages 265 to 269 of the Directors' Report and in Note 46 in the Financial Statements

Internal control and Audit Committee (Principle D. 2 and 3)

The Board is cognisant of its responsibility for formulating and implementing appropriate and adequate processes for risk management and sound internal control systems to safeguard shareholder interests and assets of the Bank. BAC assists the Board in relation to risk managements while BIRMC assists the Board in discharge of its duties with regard to risk management. Their roles and responsibilities are provided in the committee reports given on pages 172 and 176, respectively.

BIRMC is supported by the Risk Management Department of the Bank. A comprehensive report on Bank's risk management process is included on pages 110 to 138. BAC is supported by the internal audit function of the Bank. The Internal Audit Department reviews the adequacy and effectiveness of the internal control systems and reports to the BAC on a regular basis. Duties of the BAC include keeping under review the scope and results of such audits and its effectiveness. BAC also plays a primary role in liaising with the Auditor General, who conducts the external audit of the Bank.

Code of Business Conduct and Ethics and Corporate Governance Report (Principle D. 4 and D. 5)

The Bank has two Codes of Business Conduct and Ethics, one applicable to the Directors and the other to the employees. BHRRC is responsible to regularly review the respective codes to ensure they remains relevant and adequate considering the evolving business operations of the Bank. The Codes of Business Conduct and Ethics are in compliance with the requirements of the Schedule I of the Code of Best Practice on Corporate Governance.

This Corporate Governance Report from pages 159 to 171, complies with the requirement to disclose the extent of compliance with the Code of Best Practice on Corporate Governance as specified in Principle D 5.

Shareholder relations (Principle E and F)

The relevant provisions of the Code are not applicable, because the main shareholder of People's Bank is the Government of Sri Lanka.

▼ GRI 102-18, 102-19, 102-32

Sustainability report (Principle G)

The Board approved a Sustainability Policy for the Bank and has set in place a governance structure to ensure its philosophy, objectives, and strategic goals for social and environmental development are implemented. Accordingly, triple bottom line

values have been embedded throughout the Bank's operations in all geographic areas. The sustainable business initiatives of the Bank are described in line with the Principles of the Code, as follows:

Principle 1 – Economic Sustainability – Financial Capital on pages 63 to 68.

Principle 2 – Environment – Natural Capital on pages 106 to 109

Principle 3 – Labour Practices – Human Capital on pages 78 to 88

Principle 4 – Society – Social and Relationship Capital on pages 89 to 105

Principle 5 – Product Responsibility – Social and Relationship Capital: Customer on. Pages 89 to 95

Principle 6 – Stakeholder identification, engagement and effective communication – Stakeholder Engagement on pages 60 to 62

Principle 7 – Sustainable reporting to be formalised as part of the reporting process and to take place regularly – About this Report on pages 01 to 03.

The Banking Act Direction No. 11 of 2007 and subsequent amendments thereto on Corporate Governance for Licensed Commercial Banks in Sri Lanka issued by the Central Bank

Section	Principle	Compliance and Implementation	Complied
3. (1)	Responsibilities of the Board		
		The Board has strengthened the safety and the soundness of the Bank in the following manner:	
a.	Setting strategic objectives and corporate values	Board approved Strategic Plan 2016 - 2020 is in place and strategic objectives have been communicated to the Business Unit Heads and to the operational level staff. Monthly progress of Strategic Plan 2016 - 2020 has been reviewed by the Board. Board has granted approval to the tactical actions to be implemented under Phase II of the Tactical Plan 2019-2020. Budget 2019 has been presented by Head of Finance and the Board has granted approval for the Scenario I.	Complied with
b.	Approval of overall Business Strategy including Risk Policy and Management	Strategic Plan includes strategic objectives and overall business strategy of the Bank. Risk management procedures and mechanisms are in place. Board has reviewed the Risk Management Policy of the Bank. BOARD SUBCOMMITTEE REPORTS

BOARD AUDIT COMMITTEE REPORT (BAC)

The Board Audit Committee (BAC) of the Bank was constituted in accordance with the provisions of Banking Act Direction No. 11 of 2007, Corporate Governance for Licensed Commercial Banks in Sri Lanka. Proceedings of BAC were based on the charter adopted by the Board of Directors for the functioning of the Committee.

The committee comprises of 3 non executive independent directors as at the end of the year.

- Mr A M P M B Athapattu (Chairman)
- Ms K D N Ranjith Asoka
- Mr Naomal Fernando

The quorum for a BAC meeting is two (02) members.

The Actg. Board Secretary functions as the Secretary to the BAC. Chief Internal Auditor, Deputy General Manager (Risk Management) and Assistant General Manager (Compliance) attend the BAC meetings on invitation. The Superintendent of the Government Audit also attends these meetings.

The BAC in particular

- Reviews the financial reporting process to ensure the compliance with financial reporting requirements under the statute.
- Examines the system of internal control and management of business risks.
- Reviews the audit processes, both external and internal.
- Reviews the procedures in place for monitoring compliance with laws and regulations and in particular the guidelines of the Central Bank of Sri Lanka.

The Committee during the year under review attended to the following:

- a. Approved the annual audit plan prepared based on risk profiles of the areas of the Bank for the year 2019.
- b. Reviewed and discussed the Management Letter and the Report of the Auditor General issued in terms of Section 13 (7) (a) of the Finance Act No. 38 of 1971 for the year 2018 and the management responses thereon.
- c. Reviewed quarterly financial performance of the Bank for the year 2019 and recommended to submit the same to the Board.

- d. Reviewed and discussed issues raised at CBSL Statutory Examinations and follow-up examinations in 2017/18 and monitored the progress of rectification.
- e. Periodic review of internal audit reports and the performance of the Internal Audit Department.
- f. Reviewed Information System Procedures and recommended appropriate changes and monitored the progress of their implementation.
- g. Reviewed the special reports such as Root Cause Analysis over deficiencies of Branch Operations and Non performing Loans.

Four (04) meetings were held during the financial year ended 31 December 2019. The BAC considered the internal audit reports, the deficiencies observed therein, responses given by the respective DGMM/Heads of the Departments and monitored corrective actions taken to rectify deficiencies observed. The minutes of the BAC meetings are reported to the Board for information.

The BAC also followed up on corrective measures taken by the management during the year 2019 on matters raised by CBSL Statutory Examination Reports and by the Auditor General in the report for the year ended 31 December 2018.

The BAC ensured the provision of all information and documents required by the Auditor General for the purpose of audit and compliance with Sri Lanka Accounting Standards in preparation and presentation of Financial Statements. The BAC is of the view that adequate controls and procedures are in place and Charter of the BAC were complied with all material aspects.

BOARD HUMAN RESOURCES AND REMUNERATION COMMITTEE (BHRRC) REPORT

Scope

The BHRRC is responsible for formulating human resource (HR) and remuneration policies and initiating strategies in relation to human resource management. The Committee ensures these policies are reviewed regularly and are adhered to in all circumstances.

The Committee plays a key role in recruitment and determining salaries and other employee benefits. It has vested authority to consider service extensions of the Executive Management and make recommendations to the Board. The Committee reviews employment contracts of the members of the Corporate and Executive Management as well.

Composition

The Committee consists of at least two Directors of the Board and the Chief Executive Officer/General Manager (CEO/GM). The previous members of BHRRC were:

- Mr Nissanka Nanayakkara – Chairman (From 18.2.2019 to 27.11.2019)
- Mr Hemasiri Fernando – Director (From 28.1.2019 to 12.10.2019)
- Mr Lahiru Pathmalal – Director (From 7.2.2019 to 12.12.2019)
- Mr Rasitha Gunawardana – CEO/GM

Present members of BHRRC are:

- Mr Sujeewa Rajapakse – Chairman
- Mr Malindu Ranasinghe – Director
- Mr Manjula Wellalage – Director
- Mr M A B Silva – Acting CEO/GM

SDGM (HR) and DGM (HR) attends meetings on invitation and any other officer of the Bank may be present at meetings by invitation.

Committee meetings

The Committee meets once in two months to address matters within its scope and report to the Board. The quorum for the BHRRC meeting is two Directors of the Board and the CEO/GM.

SHYAMA WIJEKON
Acting Secretary to the Board

24 March 2020

BOARD INTEGRATED RISK MANAGEMENT COMMITTEE (BIRMC) REPORT

Scope

The BIRMC is responsible for implementing the risk strategy of the Bank as stipulated by the Board of Directors. The Committee has been given the responsibility to approve frameworks for efficient functioning of the business units and monitoring of risks.

The Committee is responsible for reviewing the risk profile of the Bank within the risk parameters determined by the Board.

The Committee is responsible for the assessment of all risks pertaining to credit, market, liquidity, operational, and strategic risks, using appropriate risk indicators and management information and make recommendation to the Board.

Among other responsibilities related to risk management, the Committee monitors risk oversight, implementation and risk management in relation to credit, finance, operations and legal/compliance and takes corrective action promptly to mitigate the risks.

Composition

The Committee consists of at least three Directors of the Board and the CEO/GM. The previous members of BIRMC were;

- Mr A M P M B Atapattu – Chairman (From 14.2.2019 to 13.12.2019)
- Mr K D N Ranjith Asoka – Director (From 9.11.2018 to 27.11.2019)
- Mr M S A Muthumala – Director (From 4.4.2019 to 27.11.2019)
- Mr Rasitha Gunawardana – CEO/GM

Present members of BIRMC are:

- Mr Sudarshan Ahangama – Chairman
- Mr K A Vimalenthirarajah – Director
- Mr Isuru Balapatabendi – Director
- Mr M A B Silva – Acting CEO/GM

DGM (Risk Management) and any other officer of the Bank may be present at meetings by invitation.

Committee meetings

The Committee meets quarterly to address matters pertaining to risk management and makes recommendations to the Board. The quorum for the BIRMC meeting is two Directors of the Board and the CEO/GM.

SHYAMA WIJEKON
Acting Secretary to the Board

BOARD SUBCOMMITTEE REPORT

BOARD EXECUTIVE CREDIT COMMITTEE (BECC) REPORT

Scope

The BECC is authorised to approve all credit proposals over the limit of CEO/GM and to the members of the staff above the grade of Assistant General Manager grade.

The BECC is also empowered to consider credit rescheduling proposals and lump sum settlement.

Composition

The Committee consists of at least two Directors of the Board and the CEO/GM. The previous members of BECC were:

- Dr Aminda M Perera – Chairman (From 24.4.2019 to 27.11.2019)
- Mr Nilanka M Pieris – Director (From 28.1.2019 to 29.11.2019)
- Mr Lahiru Pathmalal – Director (From 7.2.2019 to 12.12.2019)
- Mr Rasitha Gunawardana – CEO/GM

Present members of BECC are:

- Mr Kumar Gunawardana – Chairman
- Mr Keerthi Goonatillake – Director
- Mr Manjula Wellalage – Director
- Mr M A B Silva – Acting CEO/GM

Any other officer of the Bank may be present by invitation.

Committee meetings

The Committee meets at least twice a month. The quorum for the meeting of BECC is three members including two Directors of the Board.

SHYAMA WIJEKON
Acting Secretary to the Board

24 March 2020

BOARD NOMINATION COMMITTEE (BNC) REPORT

Scope

Main function of the BNC is to implement a procedure to select/appoint a CEO/GM and Key Management Personnel. The Committee sets the eligibility criteria for appointment or promotion to the post of CEO/GM and the key management positions.

The Committee is also responsible for consideration and recommendation of the requirement for additional/new expertise and the succession arrangements for retiring Key Management Personnel.

Composition

The Committee consists of at least three Directors of the Board. The previous members of BNC were:

- Mr Nissanka Nanayakkara – Chairman (From 18.2.2019 to 27.11.2019)
- Mr Hemasiri Fernando – Director – (From 28.1.2019 to 12.10.2019)
- M K D N Ranjith Asoka – Director (From 9.11.2018 to 27.11.2019)
- Mr M S A Mutumala – Director (From 4.4.2019 to 27.11.2019)

The CEO/GM attends the meeting on invitation.

Present members of BNC are:

- Mr Sujeewa Rajapakse – Chairman
- Mr Sudarshan Ahangama – Director
- Mr Malindu Ranasinghe – Director

Acting CEO/GM attends the meetings on invitation.

Committee meetings

The Committee meets at quarterly intervals and reports to the Board. The quorum for the meetings of BNC is three Directors of the Board.

The previous members of BSPRC were:

- Mr Nissanka Nanayakkara – Chairman (From 18.2.2019 to 27.11.2019)
- Mr A M P M B Atapattu – Director (From 14.2.2019 to 13.12.2019)
- Mr Naomal Fernando – Director (From 31.1.2019 to 28.11.2019)
- Mr Rasitha Gunawardane – CEO/GM

Present members of BSPRC are:

- Mr Sujeewa Rajapakse – Chairman
- Mr Isuru Balapatabendi – Director
- Mr Keerthi Goonatilake – Director
- Mr M A B Silva – Acting CEO/GM

DGM (Strategic Planning and Performance Management) and any other officer of the Bank may be present at meetings by invitation.

Committee meetings

The Committee meets quarterly and the quorum for the meeting is two members.

SHYAMA WIJEKON
Acting Secretary to the Board

24 March 2020

DIRECTORS' STATEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

RESPONSIBILITY

In line with the Banking Act Direction No. 11 of 2007, Section 3 (8) (ii) (b), the Board of Directors presents this Report on Internal Controls over Financial Reporting of the People's Bank ("The Bank").

The Board of Directors ("Board") is responsible for the adequacy and effectiveness of the internal control mechanism in place at the Bank. In considering such adequacy and effectiveness, the Board recognises that the business of banking requires reward to be balanced with risk on a managed basis and as such the internal control systems are primarily designed with a view to highlighting any deviations from the limits and indicators which comprise the risk appetite of the Bank.

In the light of foregoing, the system of internal controls can only provide reasonable, and not absolute assurance, against material misstatement of financial information and records or against financial losses or frauds.

The Board has established an ongoing process for identifying, evaluating and managing the significant risks faced by the Bank and this process includes enhancing the system of internal control over financial reporting as and when there are changes to business environment or regulatory guidelines. The process is regularly reviewed by the Board and in accordance with the "Guidance for Directors of Banks on the Directors Statement on Internal Control" issued by the Institute of Chartered Accountants of Sri Lanka. The Board has assessed the internal control over financial reporting taking into account, principles for the assessment of internal control system as given in that guidance.

The Board is of the view that the system of internal controls over financial reporting in place is sound and adequate to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes is in accordance with relevant accounting principles and regulatory requirements.

The management assists the Board in the implementation of the Board's policies and procedures on risk and control by identifying and assessing the risks faced, and in the design, operation and monitoring of suitable internal controls to mitigate and control these risks.

KEY FEATURES OF THE PROCESS ADOPTED IN APPLYING IN REVIEWING THE DESIGN AND EFFECTIVENESS OF THE INTERNAL CONTROL SYSTEM OVER FINANCIAL REPORTING

The key processes that have been established in reviewing the adequacy and integrity of the system of internal controls with respect to financial reporting include the following:

- Establishment of Board subcommittees to assist the Board in ensuring the effectiveness of the Bank's daily operations and that the Bank's operations are in accordance with the corporate objectives, strategies and the annual budget as well as the policies and business directions that have been approved.
- The Internal Audit Department of the Bank checks for compliance with policies and procedures and the effectiveness of the internal control systems on an ongoing basis using samples and rotational procedures and highlights significant findings in respect of any non-compliance. Internal audit assignments are carried out on all units and branches, the frequency of which is determined by the level of risk assessed to provide an independent and objective report. The annual audit plan is reviewed and approved by the Board Audit Committee. Findings of the Internal Audit Department are submitted to the Board Audit Committee (BAC) for review at their periodic meetings.
- The BAC of the Bank reviews internal control issues identified by the Internal Audit Department, regulatory authorities and management, and evaluates the adequacy and effectiveness of the risk management and internal control systems. They also review the internal audit functions with particular emphasis on the scope of audits and quality of same. The minutes of the BAC meetings are tabled at the meetings of the Board of Directors of the Bank on a periodic basis. Details of the activities undertaken by the BAC of the Bank are set out in the Board Audit Committee Report (refer page 172)
- In assessing the internal control system, identified officers of the Bank continued to review and update all procedures and controls that are connected with significant accounts and disclosures of the Financial Statements of the Bank. The internal audit department of the Bank continued to verify the suitability of design and effectiveness of these procedures and controls on an ongoing basis.

DIRECTORS' STATEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

- In adopting Sri Lanka Accounting Standards comprising LKAS and SLFRS progressive improvements on processes to comply with requirements of recognition, measurement, classification and disclosure are being made whilst further strengthening of processes will take place pertaining to impairment of loans and advances, credit card operations, management information system and financial statement disclosures related to risk management and related parties. The assessment was not included the subsidiaries of the Bank.
- The Board took necessary steps to implement requirements of the Sri Lanka Accounting Standard – SLFRS 9 (Financial Instruments) in 2018. The required models have been implemented and processes and controls have been designed. The Board will continuously strengthen the processes and controls over management information system and reports required for validation and compliance in line with SLFRS 9.
- The Board took necessary steps to implement requirements of the Sri Lanka Accounting Standard – SLFRS 16 (leases) which become effective from 1 January 2019.
- The Internal Audit Department carried out data analysis on certain selected processes of the Bank using computer aided audit techniques/tools covering the entire branch network. All significant findings identified by the Internal Audit Department were submitted to the Board Audit Committee for review at their periodic meetings.
- The comments made by the external auditors in connection with the internal control system during the financial year 2018 were taken into consideration and steps have been taken to incorporate them where appropriate. Further appropriate measures have been initiated to develop procedures to improve the controls documentation on identification of related party transactions in the ensuing year.

CONFIRMATION

Based on the above processes, the Board confirms that the financial reporting system of the Bank has been designed to provide a reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes and has been done in accordance with Sri Lanka Accounting Standards and regulatory requirements of Central Bank of Sri Lanka.

REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS

The external auditors have reviewed the above Directors' Statement on internal control included in the Annual Report of the Bank for the year ended 31 December 2019 and reported to the Board that nothing has come to their attention that causes them to believe that the Statement is inconsistent with their understanding of the process adopted by the Board in the review of the design and effectiveness of the internal control system of the Bank.

The Assurance Report of the External Auditors in connection with internal control over financial reporting is appearing on pages 177 and 178 of the Annual Report.

For and on behalf of the Board.

ASSURANCE REPORT OF THE AUDITOR GENERAL TO THE BOARD OF DIRECTORS ON THE DIRECTORS' STATEMENT ON INTERNAL CONTROL OF PEOPLE'S BANK

Introduction

This Report is to provide assurance on the Directors' Statement on Internal Control over Financial Reporting ("Statement") of People's Bank included in the Annual Report for the year ended 31 December 2019.

Management's responsibility

Management is responsible for the preparation and presentation of the Statement in accordance with the "Guidance for Directors of Banks on the Directors' Statement on Internal Control" issued in compliance with the Section 3(8) (ii) (b) of the Banking Act Direction No. 11 of 2007, by the Institute of Chartered Accountants of Sri Lanka.

My responsibility and compliance with SLSAE 3050 (Revised)

My responsibility is to assess whether the Statement is both supported by the documentation prepared by or for directors and appropriately reflects the process the directors have adopted in reviewing the design and effectiveness of the internal control of the People's Bank.

I conducted this engagement in accordance with Sri Lanka Standard on Assurance Engagements (SLSAE) 3050 (Revised), Assurance Report for Banks on Director's Statement on Internal Control, issued by The Institute of Chartered Accountants of Sri Lanka.

This Standard required that I plan and perform procedures to obtain limited assurance about whether Management has prepared, in all material aspects, the Statement on Internal Control. For the purpose of this engagement, I am not responsible for updating or reissuing any reports, nor have I, in the course of this engagement, performed an audit or review of the financial information.

Summary of work performed

I conducted my engagement to assess whether the Statement is supported by the documentation prepared by or for Directors; and appropriately reflected the process the Directors have adopted in reviewing the system of internal control over financial reporting of the Bank.

The procedures performed were limited primarily to inquiries of Bank personnel and the existence of documentation on a sample basis that supported the process adopted by the Board of Directors.

SLSAE 3050 (Revised) does not require me to consider whether the Statement covers all risk and controls, or to form an opinion on the effectiveness of the Bank's risk and control procedures. SLSAE 3050 (Revised) also does not require me to consider whether the processes described to deal with material internal control aspects of any significant problems disclosed in the Annual Report will, in fact, remedy the problems.

The procedures selected depend on my judgement, having regard to my understanding of the nature of the Bank, the event or transaction in respect of which the Statement has been prepared.

I believe that the evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Conclusion

Based on the procedures performed, nothing has come to my attention that causes me to believe that the Statement included in the Annual Report is inconsistent with my understanding of the process the Board of Directors have adopted in the review of the design and effectiveness of internal control system over the financial reporting of the Bank.

W P C WICKRAMARATHNE

DIRECTORS' RESPONSIBILITIES FOR FINANCIAL REPORTING

The Board of Directors of the Bank has responsibility for ensuring that the Bank keeps proper books of account of all the transactions and prepares Financial Statements that give a true and fair view of the state of affairs and of the profit/loss for the year.

Accordingly, the Board of Directors oversees the Managements' responsibilities for financial reporting through their regular meeting reviews and the Audit Committee. The Audit Committee Report is given on page 172.

The Board of Directors has instituted effective and comprehensive system of Internal Control. This comprises Internal Checks, Internal Audit and the whole system of financial and other controls required to carry on business of banking in an orderly manner, safeguard its assets and secure as far as practicable the accuracy and reliability of the records. Directors consider that they adopted appropriate accounting policies on a consistent basis and supported by reasonable and prudent judgement and estimates in preparing the Financial Statements for the year 2019 exhibited on pages 185 to 296.

The Board of Directors ensure the compliance with prudential requirements, regulations, laws and internal controls, and measures have been taken to rectify any material non-compliances.

The Bank's Financial Statements for the year ended 31 December 2019 prepared and presented in this Report are in conformity with the requirements of Sri Lanka Accounting Standards and the Banking Act No. 30 of 1988, the amendments thereto. The Financial Statements reflect a true and fair view of the state of affairs of the Bank and the Group as at that date as per the External Auditors' Report.

SHYAMA WIJEKOON
Acting Secretary to the Board

REPORT OF THE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS AND OTHER LEGAL AND REGULATORY REQUIREMENTS OF THE PEOPLE'S BANK AND ITS SUBSIDIARIES FOR THE YEAR ENDED 31 DECEMBER 2019 IN TERMS OF SECTION 12 OF THE NATIONAL AUDIT ACT, NO. 19 OF 2018

1. Financial Statements

1.1 Opinion

The audit of the financial statements of the People's Bank ("Bank") and the Consolidated Financial Statements of the Bank and its Subsidiaries (Group) for the year ended 31 December 2019 comprising the statement of financial position as at 31 December 2019 and the income statement, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, was carried out under my direction in pursuance of provisions in Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka read in conjunction with provisions of the National Audit Act No. 19 of 2018.

The Bank has been exempted from the provisions of Part II of the Finance Act, No. 38 of 1971 by an Order of then Minister of Finance published in the Government Gazette No. 715 of 14 May 1992 by virtue of powers vested in him by Sections 5(1) of the said Finance Act. My report to Parliament in pursuance of provisions in Article 154 (6) of the Constitution will be tabled in due course.

In my opinion, the accompanying financial statements of the Bank and the Group give a true and fair view of the financial position of the Bank and the Group as at 31 December 2019, and of their financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

1.2 Basis for Opinion

I conducted my audit in accordance with Sri Lanka Auditing Standards (SLAuSs). My responsibilities, under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

1.3 Responsibilities of Management and those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's and the Group's financial reporting process.

As per Section 16 (1) of the National Audit Act No. 19 of 2018, the Group is required to maintain proper books and records of all its income, expenditure, assets and liabilities, to enable annual and periodic financial statements to be prepared of the Group.

1.4 Other Information Included in the Bank's 2019 Annual Report

Other information consists of the information included in the Bank's 2019 Annual Report, other than the financial statements and our Auditors' Report thereon. Management is responsible for the other information. The Bank's 2019 Annual Report is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

ජාතික විගණන කාර්යාලය
 தேசிய கணக்காய்வு அலுவலகம்
 NATIONAL AUDIT OFFICE

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

1.5 Auditor's Responsibilities for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the

financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

2. Report on Other Legal and Regulatory Requirements

National Audit Act, No. 19 of 2018 includes specific provisions for following requirements.

- I have obtained all the information and explanation that required for the audit and as far as appears from my examination, proper accounting records have been kept by the Bank as per the requirement of Section 12 (a) of the National Audit Act, No. 19 of 2018.
- The financial statements presented is consistent with the preceding year as per the requirement of Section 6 (1) (d) (iii) of the National Audit Act, No. 19 of 2018.
- The financial statements presented includes all the recommendations made by me in the previous year as per the requirement of Section 6 (1) (d) (iv) of the National Audit Act, No. 19 of 2018.s

Based on the procedures performed and evidence obtained were limited to matters that are material, nothing has come to my attention;

- to state that any member of the governing body of the Bank has any direct or indirect interest in any contract entered into by the Bank which are out of the normal cause of business as per the requirement of Section 12 (d) of the National Audit Act, No. 19 of 2018;
- to state that the Bank has not complied with any applicable written law, general and special directions issued by the governing body of the Bank as per the requirement of Section 12 (f) of the National Audit Act, No. 19 of 2018;
- to state that the Bank has not performed according to its powers, functions and duties as per the requirement of Section 12 (g) of the National Audit Act, No. 19 of 2018;
- to state that the resources of the Bank had not been procured and utilised economically, efficiently and effectively within the time frames and in compliance with the applicable laws as per the requirement of Section 12 (h) of the National Audit Act, No. 19 of 2018.

W P C WICKRAMARATNE
 Auditor General

NOTES TO THE FINANCIAL STATEMENTS

▼ GRI 102-5

1. REPORTING ENTITY

1.1 Corporate information

People's Bank ("The Bank") is a Government-owned Bank, established under People's Bank Act No. 29 of 1961 on 1 July 1961 and is domiciled in Sri Lanka. The registered office of the Bank is at No. 75, Sir Chittampalam A Gardiner Mawatha, Colombo 02. The Consolidated Financial Statements of the Bank for the year ended 31 December 2019, comprises the Bank and its Subsidiaries (together referred to as the "Group").

People's Bank is the ultimate parent of the Group.

1.2 Principal activities

Bank

The Bank's business comprises, accepting deposits, granting credit facilities, personal banking, development banking, pawn brokering, international trade, dealing in Government Securities, credit card operations, Investment Banking and Off-Shore Banking Unit for foreign currency banking, *inter alia*.

Subsidiaries

The principal activities of the Bank's Subsidiaries are as follows:

Name of company	Principal activities
People's Leasing and Finance PLC	The principal business activities are providing finance leases, hire-purchase assets financing, term loans, Islamic finance, margin trading, share trading, issue of debt instruments, factoring, gold loans and mobilisation of public deposits.
People's Travels (Private) Limited	Arrangement of tours and air ticketing (travel agent).

Sub subsidiaries

The principal activities of the Bank's Sub subsidiaries are as follows:

Name of company	Principal activities
People's Leasing Fleet Management Limited	Fleet management, vehicle valuation, sale of vehicles, insurance assessment, and vehicle repairing
People's Leasing Property Development Limited	Carrying out a mixed development projects and property development activities
People's Insurance PLC	Carrying out general insurance business

Name of company	Principal activities
People's Micro – Commerce Limited	Providing non-bank financial services to low income earners and micro enterprises.
People's Leasing Havelock Properties Limited	Construct and operate an office complex.
Lankan Alliance Finance Limited	Providing leasing of movable and immovable properties and to provide loans

Associate

The principal activities of the Group's Associate is as follows:

Name of company	Principal activities
People's Merchant Finance PLC	Providing leasing, hire purchase, trade finance, real estate, short term investments and corporate financial Services

2. BASIS OF PREPARATION

2.1. Statement of compliance

The Consolidated Financial Statements of the Group and the Separate Financial Statements of the Bank which comprise with the Income Statement, Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, and Statement of Cash Flow have been prepared in accordance with Sri Lanka Accounting Standards (LKAS and SLFRS) as issued by The Institute of Chartered Accountants of Sri Lanka. The preparation and presentation of these Financial Statements are in compliance with the requirements of the People's Bank Act No. 29 of 1961. The presentation of the Financial Statements is also in compliance with the requirements of the Banking Act No. 30 of 1988.

2.2 Directors responsibility for financial statements

The Board of Directors is responsible for the Consolidated and Separate Financial Statements in compliance with the requirements of the People's Bank Act No. 29 of 1961, Banking Act No. 30 of 1988 and its amendments and Sri Lanka Accounting Standards (LKAS and SLFRS).

2.3 Approval of financial statements

The Consolidated and Separate Financial Statements for the year ended 31 December 2019, were authorised for issue on 25 March 2020 by the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS

2.4 Basis of measurement

The Financial Statements have been prepared on the historical cost basis and applied consistently with no adjustments being made for inflationary factors affecting the Financial Statements, except for the following items in the Statement of Financial Position:

- Derivative financial instruments are measured at fair value (Note 20)
- Financial instruments at fair value through profit or loss are measured at fair value (Note 21)
- Equity instruments at fair value through OCI are measured at fair value (Note 25)
- Debt instruments at fair value through OCI are measured at fair value (Note 26)
- The liability for defined benefit obligations are actuarially valued and recognised as the present value of the defined benefit obligation less the net total fair value of the plan assets (Note 38)
- Land and buildings are measured at cost at the time of acquisition and subsequently at revalued amounts less accumulated depreciation of buildings and any impairment losses (Note 30)

2.5 Functional and presentation currency

The Consolidated and Separate Financial Statements are presented in Sri Lanka Rupees, which is the Bank's functional currency. Financial information presented in Sri Lanka Rupees has been rounded to the nearest thousand unless indicated otherwise.

2.6 Materiality and aggregation

As per Sri Lanka Accounting Standards – LKAS 1 – “Presentation of Financial Statements”, each material class of similar item is presented separately in the Financial Statements. Items of dissimilar nature or function are presented separately unless they are immaterial.

2.7 Cash flow statement

The Cash Flow Statement has been prepared using the “Indirect Method” of preparing cash flows in accordance with the Sri Lanka Accounting Standard – LKAS 7 – “Statement of Cash Flows”. Cash and cash equivalents comprise short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. The cash and cash equivalent include cash in hand, balances with banks and, money at call and short notice.

2.8 Comparative information

The comparative information is reclassified wherever necessary to conform with the current year's presentation in order to provide a better presentation.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In the process of applying the Group's accounting policies, Management has exercised judgement and estimates and assumptions in determining the amounts recognised in the Financial Statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about judgements, assumptions and estimates made in applying accounting policies that have the most significant effects on the amounts recognised in the Consolidated and Separate Financial Statements are set out below.

3.1 Going concern

The Directors have made an assessment of the Group's ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, Management is not aware of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern. Therefore, the Financial Statements continue to be prepared on the going concern basis.

3.2 Defined benefit obligations

The value of the defined benefit obligations are determined using actuarial valuation technique. The actuarial valuation involves making assumptions on discount rates, expected rates of return on assets, future salary increases, and mortality rates. All assumptions are reviewed at each reporting date. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty. See Note 38.1.5, 38.2.1 and 38.3.5 for the assumptions used.

3.3 Fair value of property, plant and equipment

The freehold land and buildings and the buildings on leasehold land of the Group are reflected at fair value at the date of revaluation less any accumulated depreciation and impairment losses. The Group engaged independent valuation specialists to determine fair value of such properties. When current market prices of similar assets are available, such evidences are considered in estimating fair value of these assets.

3.4 Useful life time of property, plant and equipment

The Group reviews the residual values, useful lives and methods of depreciation of property, plant and equipment at each reporting date. Judgement of the management is exercised in the estimation of these values, rates, methods and hence they are subject to uncertainty.

The Group is subject to income tax and judgement is required to determine the total provision for current, deferred and other taxes due to the uncertainties that exist with respect to the interpretation of the applicable tax laws, at the time of preparation of these Financial Statements.

3.5 Commitments and contingencies

All discernible risks are accounted for in determining the amount of all known liabilities. Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is

not probable or cannot be reliably measured. Contingent liabilities are not recognised in the Statement of Financial Position but are disclosed unless they are remote. Details of commitments and contingencies are given in Note 44.

3.6 Classification of investment properties

Management requires using its judgement to determine whether a property qualifies as an investment property. The Group has exercised its judgement consistently to recognise a property that is held to earn rentals or for capital appreciation or both and which generates cash flows largely independently of the other assets held by the Group are accounted for as investment properties. On the other hand, a property that is used for operations or in the process of providing services or for administrative purposes and which do not directly generate cash flows as a standalone asset are accounted for as property, plant and equipment. The Group assesses on an annual basis the accounting classification of its properties taking into consideration the current use of such properties.

3.7 Critical accounting assumptions and estimates

Assumptions made at each reporting date are based on best estimates at that date. Although the Bank has internal control systems in place to ensure that estimates are reliably measured, actual amounts may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The accounting policies which are most sensitive to the use of judgement, estimates, and assumptions are specified below:

(i) Fair value measurement

A significant portion of financial instruments are carried at fair value as of the financial reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Where the classification of a financial asset or liability results in it being measured at fair value, wherever possible, the fair value is determined by reference to the quoted bid or offer price in the most advantageous active market to which the Bank has immediate access. An adjustment for credit risk is also incorporated into the fair value as appropriate.

Fair value for a net open position that is a financial liability quoted in an active market is the current offer price, and for a financial asset the bid price, multiplied by the number of units of the instrument held or issued.

Where no active market exists for a particular asset or liability, the Bank uses a valuation technique to arrive at the fair value, including the use of transaction prices obtained in recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques, based on market conditions and risks

existing at reporting date. In doing so, fair value is estimated using a valuation technique that makes maximum use of observable market inputs and places minimal reliance upon entity-specific inputs.

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Bank recognises the difference between the transaction price and the fair value in profit or loss on initial recognition (i.e. on day one).

(ii) Impairment charges on loans and advances

Judgement is required by management in the estimation of the amount and timing of future cash flows when determining an impairment loss for loans and advances. In estimating these cash flows, the Bank makes judgements mainly about the borrower's financial situation and the net realisable value of collateral. These estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the impairment allowance.

A collective assessment of impairment takes into account data from the loan portfolio (such as credit quality/levels of arrears, credit utilisation etc.), and concentrations of risk and economic data (including levels of unemployment, Inflation, GDP Growth Rate etc.).

4. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

4.1 New standards and interpretations

In these Financial Statements, the Bank/Group has applied SLFRS 16, effective for annual periods beginning on or after 1 January 2019, for the first time. The nature and effect of the changes as a result of adoption of this new accounting standard are described in Note 30.2 to these Financial Statements.

4.2 SLFRS 16 – Leases

SLFRS 16 – Leases supersedes LKAS 17 – Leases. The standard sets out the principles for the recognition, measurement, presentation, and disclosure of leases.

The Bank/Group adopted SLFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively and thereby the comparative figures were not restated and reported under LKAS 17.

Upon adoption of SLFRS 16, the Bank recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases. The right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease

NOTES TO THE FINANCIAL STATEMENTS

payments, discounted using the incremental borrowing rate at the date of initial application.

Additionally, the Bank/Group applied the following practical expedients permitted by SLFRS 16 to leases previously classified as operating leases under LKAS 17:

- Applied a single discount rate to a portfolio of leases with reasonably similar characteristics.
- Excluded the initial direct costs from the measurement of the right-of-use assets at the date of initial application.

5. SIGNIFICANT ACCOUNTING POLICIES

Group has consistently applied the accounting policies as set out from Note 5.1 to Note 5.22 to all periods presented in these consolidated and Separate Financial Statements.

5.1 Basis of consolidation

The Financial Statements of the Bank and Group comprise the Financial Statements of the Bank and its Subsidiaries for the year ended 31 December 2019. The Financial Statements of the Bank's Subsidiaries for the purpose of consolidation are prepared for the same reporting year as that of People's Bank, using consistent accounting policies.

5.1.1 Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date – i.e. when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in Income Statement immediately. Transaction costs are expensed as incurred, except if they are related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in Income Statement.

5.1.2 Non-controlling interests ("NCI")

NCI are measured at their proportionate share of the acquirer's identifiable net assets at the acquisition date. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

5.1.3 Subsidiaries

"Subsidiaries" are investees controlled by the Group. The Group "controls" an investee if it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to

affect those returns through its power over the investee. The Financial Statements of subsidiaries are included in the Consolidated Financial Statements from the date on which control commences until the date when control ceases.

5.1.4 Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in Income Statement. Any interest retained in the former subsidiary, is measured at fair value when control is lost.

5.1.5 Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the Consolidated Financial Statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

5.2 Foreign currency translation

Transactions in foreign currencies are initially recorded at the spot rate of exchange ruling on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the spot rate of exchange on the reporting date. All differences arising on non-trading activities are taken to "Other operating income" in the Income Statement.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition. Non-monetary items measured at fair value in a foreign currency are translated using the spot exchange rates at the date when the fair value was determined.

5.3 Financial instruments – Initial recognition

5.3.1 Date of recognition

A financial asset or financial liability is recognised in the Statement of Financial Position when the Bank becomes a party to the contractual provisions of the instrument, which is generally on trade date. Loans and receivables are recognised when cash is advanced (or settled) to the borrowers.

Financial assets at fair value through profit or loss are recognised initially at fair value. All other financial assets are recognised initially at fair value plus directly attributable transaction costs.

Non-regular purchases of financial assets and liabilities are recognised on the trade date, i.e. the date that the Bank becomes a party to the contractual provisions of the instrument.

A regular purchase is a purchase of a financial asset under a contract whose terms require delivery of the assets within the timeframe established generally by a regulation or convention in the market place concerned.

5.3.2 “Day 1” difference for staff loans

All staff loans are granted at below market interest rates and were recognised at fair value. The difference between the fair value and the amount disbursed were treated as day one difference and amortised as staff cost in the Income Statement over the loan period by using the effective interest rate. This amount is shown as interest income as well. Hence the net effect on the Income Statement is zero.

5.4 Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments, as described in Notes 5.4.1 and 5.4.2 below. Financial instruments are initially measured at their fair value except in the case of financial assets and financial liabilities recorded at FVPL, transaction costs are added to, or subtracted from, this amount.

5.4.1 Business model assessment

The Group’s business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Group’s business model does not depend on Management’s intention for an individual instruments. Accordingly, the Group’s business model is not an instrument-by-instrument approach to classification, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of a business model and the financial assets held within that business model are evaluated and reported to the Group’s Key Management Personnel;
- The risk that affect the performance of the business model (and the financial assets held within the business model) and, in particular, the way in which those risks are managed;
- How managers of the business are compensated (whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)

The business model assessment is based on reasonably expected scenarios without taking “worst case” or “stress case” scenarios into account. If cash flows are realised in a way that is different from the Group’s original expectations, that neither give a rise to a prior period error nor change the classification of the remaining financial assets held in that business model. However, when the Group assesses the business model for newly originated or newly purchased financial assets, it considers information about how cash flows were realised in the past, along with all other relevant information.

5.4.2 Contractual cash flow assessment – Solely Payments of Principal and Interest (SPPI test)

The Group assesses contractual cash flows of the basic lending arrangement to identify whether they meet SPPI test. That is whether they are solely payments of principal and interest on the principal amount outstanding.

For this purpose “Principal” is defined as the fair value of the financial asset at initial recognition. However, that principal amount may change over the life of the financial asset.

For this purpose “Interest” consist of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin. Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

5.5 Measurement categories of financial assets and liabilities

All financial assets, except equity instruments and derivatives, to be assessed based on a combination of the entity’s business model for managing the assets and the instruments’ contractual cash flow characteristics measured at either –

- Amortised cost (Note 5.5.1)
- Fair value through Other Comprehensive Income (Note 5.5.2)
- Fair value through profit or loss (Note 5.5.3)

5.5.1 Financial instruments measured at amortised cost

Debt instruments

Investments in debt instruments are measured at amortised cost where they have:

- Contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on the principal amount outstanding; and
- Are held within a business model whose objective is achieved by holding to collect contractual cash flows.

These debt instruments are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at amortised cost. The measurement of credit impairment is based on the three-stage expected credit loss model described below in Note 5.6 Impairment of financial assets.

Loans and advances to banks, loans and advances to other customers

The Group measures loans and advances to banks and loans and advances to other customers including leases and hire purchase contracts at amortised cost since both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

NOTES TO THE FINANCIAL STATEMENTS

5.5.2 Financial assets measured at fair value through other comprehensive income**Debt instruments**

Investments in debt instruments are measured at fair value through other comprehensive income where they have:

- Contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on the principal amount outstanding; and
- Are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

These debt instruments are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in Other Comprehensive Income within a separate component of equity. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in Other Comprehensive Income is reclassified from equity to the Income Statement.

The measurement of credit impairment is based on the three-stage expected credit loss model as applied to financial assets at amortised cost. The expected credit loss model is described below in Note 5.6 Impairment of financial assets.

Equity instruments

Investment in equity instruments that are neither held for trading nor contingent consideration recognised by the Bank in a business combination to which SLFRS 3 – “Business Combination” applies, are measured at fair value through Other Comprehensive Income, where an irrevocable election has been made by Management. For portfolios where Management does not consider an irrevocable election of adopting fair value through Other Comprehensive Income, by default such investments shall be measured at fair value through profit and loss.

Amounts presented in Other Comprehensive Income are not subsequently transferred to profit or loss. Dividends on such investments are recognised in profit or loss.

5.5.3 Financial assets at fair value through profit or loss

Items at fair value through profit or loss comprise:

- Items held for trading;
- Items specifically designated as fair value through profit or loss on initial recognition; and
- Debt instruments with contractual terms that do not represent solely payments of principal and interest.

Financial instruments held at fair value through profit or loss are initially recognised at fair value, with transaction costs recognised in the Income Statement as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the Income Statement as they arise.

Where a financial asset is measured at fair value, a credit valuation adjustment is included to reflect the credit worthiness of the counterparty, representing the movement in fair value attributable to changes in credit risk.

(a) Financial instruments held for trading

A financial instrument is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking, or it is a derivative not in a qualifying hedge relationship.

Trading derivatives and trading securities are classified as held for trading and recognised at fair value.

(b) Financial instruments designated as measured at fair value through profit or loss

Upon initial recognition, financial instruments may be designated as measured at fair value through profit or loss. A financial asset may only be designated at fair value through profit or loss if doing so eliminates or significantly reduces measurement or recognition inconsistencies (i.e. eliminates an accounting mismatch) that would otherwise arise from measuring financial assets or liabilities on a different basis.

A financial liability may be designated at fair value through profit or loss if it eliminates or significantly reduces an accounting mismatch or:

- If a host contract contains one or more embedded derivatives; or
- If financial assets and liabilities are both managed and their performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Where a financial liability is designated at fair value through profit or loss, the movement in fair value attributable to changes in the Bank's own credit quality is calculated by determining the changes in credit spreads above observable market interest rates and is presented separately in other comprehensive income.

5.5.4 Derivative financial instruments and hedge accounting

Derivative financial instruments are contracts whose value is derived from one or more underlying price, index or other variable, and typically comprise of instruments such as swaps, forward rate agreements, futures and options.

All derivatives are recognised in the Statement of Financial Position at fair value and are classified as trading except where they are designated as a part of an effective hedge relationship and classified as hedging derivatives. The carrying value of a derivative is remeasured at fair value throughout the life of the contract. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

5.5.5 Reclassification of financial assets and liabilities

With the adoption of SLFRS 9, the Bank reclassifies its financial assets subsequent to the initial recognition when an only when the business model for managing such financial asset is changed. Such reclassification is applied prospectively from the reclassification date. Financial liabilities are never reclassified.

5.6 Impairment of financial assets

The Bank/Group applies a three-stage approach to measuring expected credit losses (ECLs) for the following categories of financial assets that are not measured at fair value through profit or loss:

- Debt instruments measured at amortised cost and fair value through other comprehensive income;
- Loan commitments; and
- Financial guarantee contracts.

No ECL is recognised on equity investments.

Financial assets migrate through the following three stages based on the change in credit risk since initial recognition:

Stage 1: 12 months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised.

Bank determines 12-month ECL from customers whom are not significantly credit deteriorated (i.e. less than 30 days past due).

Stage 2: Lifetime ECL – Not credit impaired

For exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired, a lifetime ECL (i.e. reflecting the remaining lifetime of the financial asset) is recognised.

In consistent with the policies of the Bank, significant deterioration is measured through the rebuttable presumption of 30 days past due other than the credit facilities categorised under Stage 3, in line with the requirements of the standard.

Bank also have considered all restructured loans, which are restructured up to two times, other than credit facilities/exposures upgraded credit facilities from a higher stage to a lower stage consider under Stage 2 as per the guidance issued by the Central Bank.

Stage 3: Lifetime ECL – Credit impaired

Exposures are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

Bank determines credit facilities where contractual payments of a customer are more than 90 days past due which are subject to the rebuttable presumption as stated in SLFRS 9 together with all NPL classifications as per Central Bank classification, all restructured loans which are restructured more than twice and all rescheduled loans other than credit facilities/exposures upgraded credit facilities from a higher stage to a lower stage and all credit facilities/customers classified as non-performing as per CBSL Directions under Stage 3.

5.6.1 Determining the stage for impairment

At each reporting date, the Bank assesses whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Bank considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and also, forward-looking analysis.

An exposure will migrate through the ECL stages as asset quality deteriorates. If, in a subsequent period, asset quality improves and also reverses any previously assessed significant increase in credit risk since origination, then the provision for doubtful debts reverts from lifetime ECL to 12 months ECL. Exposures that have not deteriorated significantly since origination, or where the deterioration remains within the Bank's investment grade criteria, or which are less than 30 days past due, are considered to have a low credit risk. The provision for doubtful debts for these financial assets is based on a 12-month ECL. When an asset is uncollectible, it is written off against the related provision. Such assets are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off reduce the amount of the expense in the Income Statement.

The Bank assesses whether the credit risk on an exposure has increased significantly on an individual or collective basis. For the purposes of a collective evaluation of impairment, financial instruments are grouped on the basis of shared credit risk characteristics, taking into account instrument type, credit risk ratings, date of initial recognition, remaining term to maturity, industry, and other relevant factors.

5.6.2 Measurement of ECLs

ECLs are derived from unbiased and probability-weighted estimates of expected loss, and are measured as follows:

- **Financial assets that are not credit-impaired at the reporting date:** as the present value of all cash shortfalls over the expected life of the financial asset discounted by the effective interest rate. The cash shortfall is the difference between the cash flows due to the Bank in accordance with the contract and the cash flows that the Bank expects to receive.
- **Financial assets that are credit-impaired at the reporting date:** as the difference between the gross carrying amount and the present value of estimated future cash flows discounted by the effective interest rate.

NOTES TO THE FINANCIAL STATEMENTS

- **Undrawn loan commitments:** as the present value of the difference between the contractual cash flows that are due to the Bank if the commitment is drawn down and the cash flows that the Bank expects to receive.
- **Financial guarantee contracts:** as the expected payments to reimburse the holder less any amounts that the Bank expects to recover.

ECLs are recognised using a provision for doubtful debts account in profit and loss. In the case of debt instruments measured at fair value through other comprehensive income, the measurement of ECLs is based on the three-stage approach as applied to financial assets at amortised cost. The Bank recognises the provision charge in profit and loss, with the corresponding amount recognised in other comprehensive income, with no reduction in the carrying amount of the asset in the Statement of Financial Position.

5.7 Derecognition of financial assets and financial liabilities

5.7.1 Financial assets

The Bank derecognises a financial asset when the contractual cash flows from the asset expire or it transfers its rights to receive contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership are transferred. Any interest in transferred financial assets that is created or retained by the Bank is recognised as a separate asset or liability.

5.7.2 Financial liabilities

A financial liability is derecognised from the Statement of Financial Position when the Bank has discharged its obligation or the contract is cancelled or expires.

5.7.3 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is presented in the Statement of Financial Position when the Bank has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously.

5.8 Leases

5.8.1 Finance lease income

Assets leased to customers to whom the Group transfers substantially all the risks and rewards associated with ownership other than the legal title are classified as finance leases. Amounts receivable under finance leases are included under "Lease Rental Receivable". Leasing balances are stated in the Statement of Financial Position after deduction of initial rentals received.

The excess of aggregate rentals receivable over the cost of the leased assets constitutes the total unearned income. The unearned income is taken into revenue over the term of the lease, commencing from the month in which the lease is executed in proportion to the remaining receivable balance of the lease.

5.9 Cash and cash equivalents

Cash and short-term funds include cash in hand, balances with banks, placements with banks and money at call and at short notice. Details of the cash and short-term funds are given in Note 17 to the Financial Statements.

5.10 Derivatives held for risk management purposes

Derivatives held for risk management purposes include all derivative assets and liabilities that are not classified as trading assets or liabilities. Derivatives held for risk management purposes are measured at fair value in the Statement of Financial Position.

5.11 Investment properties

Investment properties are properties held either to earn rental income or for capital appreciation or both but not for sale in the ordinary course of business, used in the production or supply of goods or services or for administrative purposes.

5.11.1 Basis of recognition

Investment property is recognised if it is probable that future economic benefits that are associated with the investment property will flow to the Group and cost of the investment property can be reliably measured.

5.11.2 Measurement

An investment property is measured initially at its cost. The cost of a purchased investment property comprises its purchase price and any directly attributable expenditure. The cost of a self-constructed investment property is its cost at the date when the construction or development is complete.

The Group applies the cost model for investment properties in accordance with Sri Lanka Accounting Standard (LKAS 40) – "Investment Property". Accordingly, land classified as investment properties are stated at cost less any accumulated impairment losses and buildings classified as investment properties are stated at cost less any accumulated depreciation and any accumulated impairment losses.

5.12 Intangible assets and goodwill

5.12.1 Goodwill

Goodwill represents the excess of the cost of acquisition over the fair value of Group's share of the net identifiable assets of the acquired Subsidiary at the date of acquisition. Goodwill acquired in a business combination is tested annually for impairment or more frequently if events or changes in circumstance indicate that it might be impaired and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed.

5.12.2 Software

Software acquired by the Group is measured at cost less accumulated amortisation and any accumulated impairment losses.

Expenditure on internally developed software is recognised as an asset when the Group is able to demonstrate its intention and ability to complete the development and use the software in a manner that will generate future economic benefits, and can reliably measure the costs to complete the development. The capitalised costs of internally developed software include all costs directly attributable to developing the software and capitalised borrowing costs, and are amortised over its useful life. Internally developed software is stated at capitalised cost less accumulated amortisation and any impairment.

Subsequent expenditure on software assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

5.12.3 Amortisation

Software is amortised on a straight-line basis in Income Statement over its estimated useful life, from the date on which it is available for use. The estimated useful life of software for the current and comparative periods is five years.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

5.13 Impairment of non-financial assets

5.13.1 Basis of recognition

The Bank assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Bank estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs to sell and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available-fair-value indicators.

5.13.2 Measurement

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Bank estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that

the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Income Statement.

Impairment losses relating to goodwill are not reversed in future periods.

Goodwill is reviewed for impairment annually, or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Bank's CGUs or group of CGUs, which are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit to which the goodwill is allocated represents the lowest level within the Bank at which the goodwill is monitored for internal management purposes, and is not larger than an operating segment in accordance with SLFRS 8 – "Operating Segments".

Where goodwill forms part of a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

When subsidiaries are sold, the difference between the selling price and the net assets plus cumulative translation differences and goodwill is recognised in the Income Statement.

▼ GRI 201-3

5.14 Pension benefits

5.14.1 Defined benefit pension plans

5.14.1.1 Pre-1996 – Pension Trust Fund

The Bank operates a defined benefit pension plan, for the permanent staff members who have joined the Bank prior to 1 January 1996, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined separately using the projected unit credit method.

The defined benefit asset or liability comprises the present value of the defined benefit obligation less past service costs not yet recognised and less the fair value of plan assets out of which the obligations are to be settled directly, less actuarial losses not yet recognised. The value of any asset is restricted to the sum of any actuarial losses and past service cost not yet recognised and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan.

The latest actuarial valuation was carried out as of 31 December 2019, by Mr Piyal S Gunatilleke FSA (USA), Member of the American Academy of Actuaries and Consulting Actuary.

NOTES TO THE FINANCIAL STATEMENTS

The Bank provides a pension to retiring staff on the following basis; Staff are eligible to draw a pension after 10 years of service and after reaching normal age of retirement of 55 years. The quantum of pension paid is dependent on the length of service as follows:

Length of service	Quantum of pension
i. 10 to 20 years	80% of last drawn gross salary
ii. 21 to 29 years	80% plus 1% for each additional year in excess of 20 years of last drawn gross salary
iii. 30 years and above	90% of last drawn gross salary

The Financial Statements of the Pension Trust Fund are maintained separately and are subject to annual audit by Independent External Auditors. The Financial Statements as well as the Auditor's Report are tabled and reviewed by the Board of Trustees. These Financial Statements and Auditor's Report are also submitted for review of the disclosure of the Bank, as the Bank has an obligation of ensuring that funding is made at required levels. Pension is payable monthly as long as the participant is alive.

5.14.1.2 Post-1996 – Pension Fund

As approved by the Ministry of Finance the Bank has almost finalised a new pension fund for permanent employees who joined the Bank post 1 January 1996. Since the Bank has concluded this as a define benefit plan, the surplus/deficit has been recorded as per LKAS 19. The latest actuarial valuation was carried out as of 31 December 2019, by Mr Piyal S Gunatilleke FSA (USA), Member of the American Academy of Actuaries and Consulting Actuaries.

5.14.1.3 Gratuity

Employees who joined the Bank on or after 1 January 1996 will be eligible for Gratuity under the Payment of Gratuity Act No. 12 of 1983, or if opted can join the proposed new post-1996 pension fund and if so such employees will forfeit their right to gratuity.

Other employees whose services are terminated other than by retirement are eligible to receive Terminal Gratuity under the Payment of Gratuity Act No. 12 of 1983 at the rate of one-half of gross salary applicable to the last month of the financial year in which employment is terminated, for each year of continuous service, for those who have served in excess of five years.

If a participant who has completed five years of services becomes totally and permanently disabled, he is eligible for disability gratuity. Further, if an active participant with minimum of five years of service, dies while in service, a gratuity benefit will be paid to his heirs.

The Bank makes a monthly provision towards such Gratuity Payment Liabilities and this value is reflected in the Statement of Financial Position of the Bank, the Bank made a provision based on the Actuarial Valuation. However, as per Sri Lanka Accounting Standards the Bank has provided for gratuity liability based on an Actuary Valuation.

The Subsidiary and Associate Companies of the Bank provide for gratuity under the Payment of Gratuity Act No. 12 of 1983. Provision for Gratuity has been made for employees who have completed one year of service with the companies. These liabilities are not externally funded.

5.14.2 Defined contribution plans

The Bank also operates a defined contribution plan. The contribution payable to a defined contribution plan is in proportion to the services rendered to the Bank by the employees and is recorded as an expense under "Personnel expenses". Unpaid contributions are recorded as a liability.

The Bank contributes to the following Schemes:

5.14.2.1 Employees' Provident Fund

The Bank and employees contribute 12% and 8% respectively of the employee's monthly gross salary (excluding overtime) to the Provident Fund. The Bank's Provident Fund is an approved fund under the Employees' Provident Fund Act and is maintained internally.

5.14.2.2 Employees' Trust Fund

The Bank contributes 3% of the employee's monthly gross salary excluding overtime to the Employees' Trust Fund maintained by the Employees Trust Fund Board.

5.14.2.3 Widow's/Widowers' and Orphans Pension Plan (Pre 1996-Post 1996)

A separate fund is maintained by the Bank to meet future obligations under the scheme, based on the advice of a qualified actuary.

5.15 Provision

Provisions are recognised when the Bank has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the Income Statement net of any reimbursement.

5.16 Commitments and contingencies

All discernible risks are accounted for in determining the amount of all known liabilities. The Bank's share of any contingencies and capital commitments of a Subsidiary or Associate for which the Bank is also liable severally or otherwise are also included with appropriate disclosures.

5.16.1 Basis of recognition

In the ordinary course of business, the Bank gives financial guarantees, consisting of letters of credit, guarantees, and acceptances. Financial guarantees are initially recognised in the financial under commitments at facility value.

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is not probable or cannot be reliably measured. Contingent liabilities are not recognised in the Statement of Financial Position but are disclosed unless they are remote.

5.16.2 Measurement

Any increase in the commitment relating to financial guarantees is recorded in the Statement of Financial Position. The premium received is recognised in the Income Statement in "Net fees and commission income" on a straight-line basis over the life of the guarantee.

5.17 Taxes

5.17.1 Current taxation

Current tax assets and liabilities consist of amounts expected to be recovered from or paid to the Commissioner General of Inland Revenue in respect of the current as well as prior years. The tax rates and tax laws used to compute the amount are those that are enacted or subsequently enacted by the Statement of Financial Position date. Accordingly, provision for taxation is made on the basis of the profit for the year as adjusted for taxation purpose in accordance with the provisions of the Inland Revenue Act No. 24 of 2017 at the rates specified in Note 14 to the Financial Statements.

5.17.2 Deferred taxation

Deferred tax is provided using the liability method on temporary differences at the Statement of Financial Position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose.

5.17.2.1 Deferred tax liability

Deferred tax liabilities are recognised for all temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and at the time of transaction, affects neither the accounting profit nor the taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will reverse in the foreseeable future.

5.17.2.2 Deferred tax assets

Deferred tax assets are recognised for all deductible differences. Carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- Where deferred tax assets relating to the deductible temporary differences arise from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time

of the transaction, affects neither the accounting profit nor the taxable profit or losses; and

- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which temporary differences can be utilised.

The carrying amount of a deferred tax asset is reviewed at each Statement of Financial Position date and reduced to the extent it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax asset are reassessed at each Statement of Financial Position date and are recognised to the extent that it is probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that are expected to apply in the year when the assets are realised or the liabilities are settled, based on tax rates and tax laws that have been enacted or subsequently enacted at the statement of financial position date.

5.17.3 Value Added Tax on Financial Services (FSVAT)

Bank's total value addition was subjected to a 15% Value Added Tax as per Section 25A of the Value Added Tax No. 14 of 2002 and amendments thereto.

5.17.4 Value Added Tax (VAT)

Value Added Tax is calculated in accordance with Value Added Tax Act No. 14 of 2002 and subsequent amendments thereto. VAT is payable at the rate of 15% from 1 January 2019 to 30 November 2019 and at the rate of 8% from 01 December 2019 to 31 December 2019.

5.17.5 Economic Service Charge (ESC)

As per the provisions of the Economic Service Charge Act No. 13 of 2006, ESC is payable on the liable turnover at specified rates. ESC paid is deductible from the income tax liability. Any unclaimed liability can be carried forward and set-off against the income tax payable in the four subsequent years.

5.17.6 Withholding Tax on dividends (WHT)

Dividend distributed out of taxable profit of the local subsidiaries attracts a 14%, deduction at source and is final tax liability for of the Bank.

5.17.7 Crop Insurance Levy (CIL)

As per the provision of the Section 14 of the Finance Act No. 12 of 2013, the Crop Insurance Levy (CIL) was introduced with effect from 1 April 2013. Accordingly, Bank is required to pay 1% of the profit after tax for a year of assessment to the National Insurance Trust Fund.

NOTES TO THE FINANCIAL STATEMENTS

5.17.8 Nation Building Tax (NBT)

As per the provisions of the Nation Building Tax Act No. 9 of 2009 and the subsequent amendments thereto, Nation Building Tax should be payable at the rate of 2% with effect from 1 January 2011 on the liable turnover as per the relevant provisions of the Act. Nation Building Tax has been abolished with effect from 1 December 2019.

5.17.9 Nation Building Tax on Financial Services (FSNBT)

With effect from 1 January 2014, NBT of 2% was introduced on supply of financial services via amendment to the NBT Act No. 09 of 2009. This Tax has been abolished with effect from 1 December 2019.

5.17.10 Debt Repayment Levy (DRL)

The Debt Repayment Levy (DRL) has been imposed by the Section 36 of Finance Act No. 35 of 2018. A levy of 7% is charged on the value addition attributable to the supply of financial services under the provisions of the Value Added Tax Act No. 14 of 2002 and subsequent amendments thereto.

5.18 Recognition of income and expenses

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Bank and the revenue can be reliably measured. The specific recognition criteria for each type of income are given in Notes 6 to 10.

5.18.1 Income from Government Securities and Securities Purchased under Resale Agreements

Discounts/premium on Treasury Bills and Treasury Bonds are amortised over the period to reflect a constant periodic rate of return. The coupon interest on Treasury Bonds is recognised on an accrual basis. The interest income on securities purchased under resale agreements is recognised in the Income Statement on Effective Interest Rate (EIR) over the period of the agreement.

5.18.2 Rental income

Rental income arising on operating leases is accounted for on a straight-line basis over the lease terms on ongoing leases and is recorded in the Income Statement in "other operating income".

5.19 Segmental reporting

The Bank's segmental reporting is based on the following operating segments: Retail Banking, Corporate Banking and Treasury, and Primary dealer unit, Leasing, Insurance Finance and Travels. Information relating to above is disclosed in Note 48.

5.20 Deposit insurance scheme

In terms of the Banking Act Direction No. 5 of 2010 – "Insurance of Deposit Liabilities" issued on 27 September 2010 and subsequent amendments there to, all Licensed Commercial Banks are required to insure their deposit liabilities in the Deposit Insurance Scheme operated by the Monetary Board in terms of Sri Lanka Deposit

Insurance Scheme Regulations No. 1 of 2010 issued under Sections 32A to 32E of the Monetary Law Act with effect from 1 October 2010. Deposits to be insured include demand, time and savings deposit liabilities and exclude the following:

- Deposit liabilities to member institutions
- Deposit liabilities to Government of Sri Lanka
- Deposit liabilities to Directors, Key Management Personnel, and other related parties as defined in Banking Act Direction No. 11 of 2007 on Corporate Governance of Licensed Commercial Banks
- Deposit liabilities held as collateral against any accommodation granted
- Deposit liabilities falling within the meaning of abandoned property in terms of the Banking Act and dormant deposits in terms of the Finance Companies Act funds of which have been transferred to Central Bank of Sri Lanka.

Licensed Commercial Banks are required to pay a premium of 0.10% on eligible deposit liabilities if the Bank maintains a Capital Adequacy Ratio (CAR) of 14% or above as at the end of the immediately preceding financial year and a premium of 0.125% on eligible deposit liabilities for all other Licensed Commercial Banks (with CAR below 14%) calculated on the total amount of eligible deposits as at the end of the quarter payable within a period of 15 days from the end of the quarter.

5.21 Subsequent events

Events occurring after the reporting date are those events, favourable and unfavourable, that occur between the reporting date and the date of the Financial Statements are authorised for issue.

All material and important events which occur after reporting date have been considered and disclosed in Note 45 to the Financial Statements as adjusted as applicable.

5.22 Policies specific to insurance sector

5.22.1 Significant accounting estimates and assumptions

Non-life insurance contract liabilities

For non-life insurance contracts, estimates have to be made both for the expected ultimate cost of claims reported at the reporting date and for the expected ultimate cost of claims incurred but not yet reported at the reporting date (IBNR). It can take a significant period of time before the ultimate claims cost can be established with certainty and for some type of policies, IBNR claims form the majority of the liability in the Statement of Financial Position.

The ultimate cost of outstanding claims is estimated by using a range of standard actuarial claims projection techniques, such as Chain Ladder and Bornheutter–Ferguson methods and Frequency/Severity method.

The main assumption underlying these techniques is that a Company's past claims development experience can be used to project future claims development and hence ultimate claims costs. As such, these methods extrapolate the development of paid and

incurred losses, average costs per claim and claim numbers based on the observed development of earlier years and expected loss ratios. Historical claims development is mainly analysed by accident years, but can also be further analysed by geographical area, as well as by significant business lines and claim types. Large claims are usually separately addressed, either by being reserved at the face value of loss adjuster estimates or separately projected in order to reflect their future development. In most cases, no explicit assumptions are made regarding future rates of claims inflation or loss ratios. Instead, the assumptions used are those implicit in the historical claims development data on which the projections are based.

Additional qualitative judgement is used to assess the extent to which past trends may not apply in future, (for example to reflect one-off occurrences, changes in external or market factors such as public attitudes to claiming, economic conditions, levels of claims inflation, judicial decisions and legislation, as well as internal factors such as portfolio mix, policy features and claims handling procedures) in order to arrive at the estimated ultimate cost of claims that present the likely outcome from the range of possible outcomes, taking account of all the uncertainties involved.

Similar judgements, estimates and assumptions are employed in the assessment of adequacy of provisions for unearned premium. Judgement is also required in determining whether the pattern of insurance service provided by a contract requires amortisation of unearned premium on a basis other than time apportionment.

5.22.2 Revenue recognition

Gross written premium

Non-life insurance gross written premium comprises the total premium receivable for the whole period of cover provided by contracts entered into during the accounting period and are recognised on the date on which the policy commences.

Reinsurance premium

Non-life gross reinsurance premium written comprises the total premium payable for the whole cover provided by contracts entered into the period and is recognised on the date on which the policy incepts. Premium includes any adjustments arising in the accounting period in respect of reinsurance contracts incepting in prior accounting periods.

Unearned reinsurance premium is the proportion of premium written in a year that relates to periods of risk after the reporting date. Unearned reinsurance premium is deferred over the term of the underlying direct insurance policies.

NOTES TO THE FINANCIAL STATEMENTS

6. GROSS INCOME**▶ Accounting policy**

Revenue is recognised to the extent that it is probable that the economic benefit(s) will flow to the Bank/Group and the revenue can be reliably measured. The specific recognition criteria for each type of income are more fully set off in respective income notes.

		197,039,605	181,283,878	235,529,351	214,663,964

7. NET INTEREST INCOME**▶ Accounting policy**

The Bank/Group calculates interest income/expense by applying the effective interest rate (EIR) to the amortised cost of Financial Assets/Liability other than credit impaired assets.

The effective interest rate method

Under SLFRS 9, interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost, financial instruments measured at fair value through profit or loss (FVPL) and interest bearing financial assets measured at fair value through other comprehensive income (FVOCI). Interest expense is recorded using the effective interest rate (EIR) method for liabilities recorded such as due to banks, due to other customers and other borrowings.

EIR is the rate that exactly discounts estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the said financial instrument and includes any fees or incremental costs that are directly attributable to the instrument which are an integral part of the EIR, but excludes future credit losses.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

8. NET FEE AND COMMISSION INCOME

► Accounting policy

The Bank/Group earns fee and commission income from a diverse range of services it provides to its customers. Fee and commission income are recognised when the service is performed. Fees earned for the provision of services over a period of time are accrued over that period.

NOTES TO THE FINANCIAL STATEMENTS

9. NET GAIN/(LOSS) FROM TRADING**► Accounting policy**

Net gains/(losses) from trading comprises foreign exchange gain(s) or losses arising from trading activities, realised gains or losses from investment in equities and fixed income securities classified as "Financial Assets - at fair value through profit or loss" and unrealised gains and losses due to changes in fair value of such instruments.

Gains and losses arising from changes in fair value of the said instruments are recognised in the Income Statement in the period in which they arise and derivative financial instruments are fair valued at each reporting date.

10. OTHER OPERATING INCOME**▶ Accounting policy****Profit/(loss) from sale of property, plant and equipment**

Profit/(loss) from sale of property, plant and equipment is recognised as and when the control of the property, plant and equipment has passed to the other party.

Dividend income from investment

Dividend income is recognised when the Bank's/Group's right to receive the payment is established.

Recovery of bad debts written-off

Recovery of amounts once written-off as bad debts are recognised, as and when such amount has received.

Net earned premium

Net earned premium refers to the gross written premium less premium ceded to reinsurance and net of any unearned premiums change in reserve unearned, which is more fully described under Note 5.22 to these Financial Statements.

11. IMPAIRMENT CHARGE**▶ Accounting policy**

The Bank/Group recognises impairment losses on financial assets by applying the three-stage approach to measure expected credit losses (ECLs) under Sri Lanka Accounting Standard – SLFRS 9 – “Financial Instruments” of which details are more fully given under Note 5.6 – Impairment of financial assets.

Further, the Bank/Group recognises an impairment loss when the carrying amount of a non-financial asset exceeds the estimated recoverable amount of such asset through use or sale, as per Sri Lanka Accounting Standard – LKAS 36 – “Impairment of Assets”. Details relating hereto are more fully given under Note 5.13 to these financial statements.

12. PERSONNEL EXPENSES

▶ Accounting policy

Personnel expenses include staff salaries, bonus, contribution to defined contribution/benefit plans and other staff related expenses. Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus in the event the Bank/ the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

12.1 Contribution to defined benefit plan – pension funds

▶ Accounting policy

The Bank operates two defined benefit pension plans, for the permanent staff members who have joined the Bank prior to 1 January 1996 and after 1 January 1996, which requires contributions to be made to a separately administered funds. The Bank recognises all actuarial gains and losses arising from these pension funds in the Other Comprehensive Income (OCI) and the expenses related to these funds recorded under personnel expenses in the Income Statement. Details of these defined benefit plans are given in “Employee retirement benefit plans” (Note 38.1 and Note 38.3).

Depreciation of investment property	29	1,707	1,707	749	1,707
Amortisation of intangible assets	32	168,959	107,329	185,247	154,414
Total		3,995,031	1,765,824	4,606,557	2,105,934

¹This amount has been disclosed in accordance with Sri Lanka Accounting Standard – SLFRS 16 – “Leases” for the year ended 31 December 2019, whereas the prior period amount has not been restated.

²Upon the adoption of Sri Lanka Accounting Standard - SLFRS 16 dash – “Leases” with initial application at 1 January 2019, prepaid leases also made part of right-of-use assets and hence the amortisation of the same for the year ended 31 December 2019 is included in amortisation of right-of-use assets.

14. TAX EXPENSES

▶ Accounting policy

Current taxation

As per Sri Lanka Accounting Standard – LKAS 12 – “Income Taxes”, tax expense is the aggregate amount included in determination of profit or loss for the period in respect of current and deferred taxes. Income tax expense is recognised in the Income Statement, except to the extent it relates to items recognised directly in Other Comprehensive Income (OCI), in which case it is recognised in OCI.

Accordingly, the provision for taxation is made on the basis of the profit for the year as adjusted for taxation purpose in accordance with the provision of the Inland Revenue Act No. 24 of 2017. Detailed disclosure of accounting policies are given in Note No. 5.17 to these Financial Statements.

Deferred taxation

Deferred tax is provisioned for using the liability method on temporary differences at reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Detailed disclosure of accounting policies and estimate of deferred tax is more fully available in Note 5.17 to the Financial Statements.

For the year ended 31 December	Note	Bank		Group

People's Micro Finance Limited	28	28
People's Fleet Management Limited	28	28

The tax liabilities of the Group are computed at the above rates except for the following companies which enjoy exemptions and concessions.

People's Leasing Property Development Limited

Pursuant to the agreement dated 3 December 2008 entered into by People's Leasing Property Development Limited with the Board of Investment under Section 17 of the Board of Investment Law, for the business of setting up and operating a mixed development project, the Inland Revenue Act relating to the imposition payment and recovery of income tax shall not apply for a period of five years reckoned from the year in which the Company makes profit or any year of assessment not later than two years reckoned from the date of commencement of its commercial operations whichever is earliest. The Company is eligible for a 10% concessionary tax rate for a period of two years immediately succeeding the last date of tax exemption period and a 20% concessionary tax rate after the expiration of the 10% concessionary tax period.

People's Leasing Havelock Properties Limited

Pursuant to the agreement dated 16 December 2010 entered into by People's Leasing Havelock Properties Limited with the Board of Investment under Section 17 of the Board of Investment Law, for the business of setting up and operating a mixed development project, the Inland Revenue Act relating to the imposition, payment and recovery of income tax shall not apply for a period of five years reckoned from the year in which the Company makes profit or any year of assessment not later than two years reckoned from the date of commencement of its commercial operations whichever is earliest. The Company is eligible for a 10% concessionary tax rate for a period of two years immediately succeeding the last date of tax exemption period and a 20% concessionary tax rate after the expiration of the 10% concessionary tax period.

15. EARNINGS PER SHARE**15.1 Basic earnings per share**

As per Sri Lanka Accounting Standard – LKAS 33 – “Earnings per Share”. The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted – average number of ordinary shares outstanding during the year.

For the year ended 31 December	Bank		Group	
	2019	2018	2019	2018
Net profit attributable to ordinary equity holders (LKR '000)	12,925,683	17,094,923	14,984,837	19,977,861
Weighted average number of ordinary shares in issue ('000)	1,000	1,000	1,000	1,000
Basic earnings per share (LKR)	12,926	17,095	14,985	19,978

15.2 Diluted earnings per share

As per Sri Lanka Accounting Standard – LKAS 33 – “Earnings per Share”, The calculation of diluted earnings per share has been based on the following profit attributable to ordinary shareholders and weighted- average number of ordinary shares outstanding during the year, after adjustment for the effects of all dilutive potential ordinary shares.

	Bank		Group	
	2019	2018	2019	2018
Net profit attributable to ordinary equity holders (LKR '000)	12,925,683	17,094,923	14,984,837	19,977,861
Weighted average number of ordinary shares in issue (LKR '000)	1,000	1,000	1,000	1,000
Number of ordinary shares in capital pending allotment (LKR '000)	243,040	243,040	243,040	243,040
Total number of shares in issue and pending allotment (LKR '000)	244,040	244,040	244,040	244,040
Diluted earnings per share (LKR)	53	70	61	82

20. DERIVATIVE FINANCIAL INSTRUMENTS

▶ Accounting policy

Derivative financial instruments are contracts whose value is derived from one or more underlying price, index or other variable, and typically comprises instruments such as swaps, forward rate agreements, futures and options.

All derivatives are recognised in the Statement of Financial Position at fair value and are classified as fair value through profit or loss except where they have been designated as a part of an effective hedge relationship and classified as hedging derivatives. The carrying value of a derivative is remeasured at fair value throughout the life of the contract.

Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

The table below depicts the fair values of derivative financial instruments of the Bank/Group, recorded as assets or liabilities, together with their notional amounts:

22. LOANS AND ADVANCES TO BANKS**▶ Accounting policy**

Loans and advances to Banks include Sri Lanka Development Bonds, Restructuring Bonds and securities purchased under resale agreements.

The Group measures loans and advances to banks at amortised cost since the said instruments qualify both contractual cash flow assessment and business model assessment which has been described in Note 5.5.1 to these Financial Statements.

22.3 Government of Sri Lanka Restructuring Bonds

22.3.a In April 1993, the Bank received restructuring bonds amounting to LKR 10,541 Mn., from the Government of Sri Lanka (GOSL) for the following purposes:

	LKR Mn.	
(i)	1,152.0	To achieve the capital adequacy requirement in accordance with CBSL Guidelines
(ii)	1,700.5	To write-off loans granted to Sir Lanka State Plantations Corporation and Paddy Marketing Board for LKR 1,467 Mn. and LKR 233.5 Mn. respectively
(iii)	4,355.0	To finance pension liabilities
(iv)	3,231.0	To provide for loan loss provision
(v)	102.5	For loans to be transferred to Special Recovery Unit (RACA)
	10,541.0	

22.3.b The above value of Bonds granted by GOSL effectively relates to accounting entries that were booked to clear carrying values of advances granted under State recommendation, which were deemed as irrecoverable.

22.3.c The agreement underlying the granting of these Bonds, stipulates the following:

- A tenor of 30 years, where the Bonds could be redeemed through the recovery of any of the specific loan losses for which the Bonds were issued.
As at Statement of Financial Position date, no recoveries have been made of those specific loan losses.
- As per the initial agreement an interest rate of 12% p.a. would apply, with half yearly payment of interest.
- A value of 25% of income derived from (b) above would be refunded to the GOSL annually.

22.3.d As indicated in 22.3.a., a sum of LKR 4,355 Mn. of this tranche of Bonds was assigned to the Pension Fund (LKR 3,218 Mn.) and to the W & OP Fund (LKR 1,137 Mn.).

Accordingly, the carrying balance of Bonds reflected on the Statement of Financial Position does not include the value assigned to the Pension Fund, which is managed as an Independent Trust Fund.

22.3.e The financial implications of these Bonds in year 2019 are as follows:

- A value of LKR 7,689 Mn. is reflected on the Statement of Financial Position as Loans and Advances to Banks.
- A value of LKR 879 Mn. is received during the year as income and is reflected under Interest Income.

23. LOANS AND ADVANCES TO OTHER CUSTOMERS

▶ Accounting policy

Loans and advances to other customers include non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than:

- The Bank intends to sell immediately or in the near term and those that the Bank, upon initial recognition, designates as at fair value through profit or loss
- Those that the Bank, upon initial recognition, designates as fair value through OCI
- Those for which the Bank may not recover substantially all of its initial investment, other than because of credit deterioration

The Bank/Group measures loans and advances to other customers at amortised cost since both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

24. DEBT INSTRUMENTS MEASURED AT AMORTISED COST

▶ Accounting policy

Investments in debt instruments are measured at amortised cost where they have:

- Contractual terms that give rise to cash flows on pre-specified dates, that represent solely payments of principal and/or interest on the principal amount outstanding; and
- Are held within a business model whose objective is achieved by holding such assets to collect contractual cash flows.

27. INVESTMENTS IN SUBSIDIARIES**▶ Accounting policy**

Subsidiaries are entities that are controlled by the Group. Control as referred to here is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect the returns of those investees through its power over such investee. Specifically, the Group controls an investee if, and only if, the Group has:

- power over the investee
- exposure or rights to variable returns from its involvement with the investee
- the ability to use its power over the investee to affect its returns

The Financial Statements of subsidiaries are included in the Consolidated Financial Statements from the date that control commences, until the date that control ceases. Where subsidiaries have been sold or acquired during the year, assets, liabilities, income and expenses of the said subsidiary are included in the Consolidated Financial Statements, from the date the Group gains control until the date the Group ceases to control the subsidiary.

When necessary, adjustments are made to the Financial Statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of Group are eliminated in full on consolidation.

Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries, not owned directly or indirectly by the Bank. The non-controlling interest is presented in the Consolidated Statement of Financial Position within equity, separately from the equity attributable to the equity holders of the Bank. Non-controlling interests in the profit or loss of the Group, is disclosed separately in the Consolidated Statement of Profit or Loss.

A change in the ownership interest of a subsidiary without a loss of control, is accounted for as an equity transaction. Upon the loss of control, the Group derecognises the assets (including goodwill) and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control, is recognised in the Statement of Changes in Equity. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or in accordance with the Group's accounting policy for financial instruments depending on the level of influence retained.

The Bank's investments in subsidiaries are carried at cost in the Separate Financial Statements.

Total			4,950			4,950

27.3 Impairment loss on People's Merchant Finance PLC

During 2018, the Bank recognised an impairment loss of LKR 298,223,627 pertaining to its investment in People's Merchant Finance PLC on the basis of its carrying value exceeding the estimated recoverable amount. The recoverable amount being the higher of its fair value less cost of disposal and value in use. In this context, it must be pointed out that the fair value of the said investment was derived based on the purchase consideration per share as agreed to with the prospective investor.

27.4 People's Merchant Finance PLC

Forming an integral part of its restructuring exercise on May 2019 People's Merchant Finance successfully secured a new investor as a part of its recapitalisation exercise. This will reduce the Bank controlling stake from 50.16% to 16.06% and the Groups controlling stake from 77.95% to 24.96%. Pursuant to such dilution the Bank has categorised its investment in People's Merchant Finance under equity investments at fair value through OCI (Note 25.2) at Bank level and as an Investment in Associate (Note 28) at the Group Level.

NOTES TO THE FINANCIAL STATEMENTS

27.5 Investments in subsidiaries**Non-controlling interests**

The following subsidiary has a material NCI:

Name	Principal place of business/country of incorporation	Operating segment	Ownership interest held by NCI

Net increase in cash and cash equivalents	1,654,875	(1,498,056)
Dividends paid to NCI during the year	404,996	593,707

28. INVESTMENTS IN ASSOCIATES

▶ Accounting policy

Associates are those entities in which the Group has significant influence. Significant influence is referred to here is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over such policies. Significant influence is presumed to exist when the Group holds 20% or more of the voting power of another entity.

The investments in associates are carried in the Statement of Financial Position at cost plus post-acquisition changes in the Group's share of net assets of the associates. Goodwill relating to an associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. After application of the equity method, the Group determines whether it is necessary to recognise any additional impairment loss with respect to the Group's net investment in the associate.

At each reporting date Group determines whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the share of results of equity-accounted investees' in the Income Statement.

When the Group's share of losses exceeds its interest in an equity-accounted investee, the carrying amount of that interest, including any long-term investments, is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equal the share of losses not recognised previously.

Date when the Group ceased to have significant influence it discontinues the use of the equity method and accounts for such investments in accordance with the Sri Lanka Accounting Standard – SLFRS 9 on – “Financial Instruments”.

29. INVESTMENT PROPERTIES**▶ Accounting policy**

An investment property is recognised if it is probable that future economic benefits associated with the investment property will flow to the Group and cost of the said investment property can be reliably measured. The Group applies the cost model for investment properties in accordance with Sri Lanka Accounting Standard 40 – LKAS 40 – “Investment Property” of which details are more fully set out in Note 5.11 to these Financial Statements.

30. PROPERTY, PLANT AND EQUIPMENT AND RIGHT-OF-USE ASSETS

30.1 Property, plant and equipment

▶ Accounting policy

Property, plant and equipment is stated at cost or valuation excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the depreciation period or method, as appropriate, and treated as changes in accounting estimates.

Cost model

Plant and equipment are stated at cost, excluding the cost of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Such cost includes the cost of replacing part of the plant and equipment when the cost is incurred, if the recognition criteria are met.

Revaluation model

The Bank applies the revaluation model for the entire class of freehold land and buildings and leasehold building. Such properties are carried at a revalued amount, being their fair value at the date of revaluation, less any subsequent accumulated depreciation and impairment charged subsequent to the date of the revaluation.

Revaluations are performed every three years to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Any revaluation surplus is credited to the revaluation reserve included in the equity section of the Statement of Financial Position, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in Income Statement, in which case the increase is recognised in profit or loss. A revaluation deficit is recognised in Income Statement, except that deficit directly offsetting a previous surplus on the same asset is directly offset against the surplus in the asset revaluation reserve.

Subsequent cost

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within that part will flow into the Group and its cost can be reliably measured.

Restoration cost

Expenditure incurred on repairs or maintenance of property, plant and equipment in order to restore or maintain future economic benefits is charged to the Income Statement as incurred.

Capital work-in-progress

These are expenses of a capital nature directly incurred in the construction of building, major plant and machinery and system development, awaiting capitalisation. These are stated in the Statement of Financial Position at cost.

Depreciation

Depreciation is calculated using the straight-line method to write-down the cost of property and equipment to their residual values over their estimated useful lives. Leased assets under finance leases are depreciated over the shorter of either lease term or its useful life, which is limited to maximum tenor of 50 years. Freehold land is not depreciated. The estimated useful lives are as follows:

Category of asset	Period of depreciation*
Freehold buildings	Estimated useful life
Leasehold building	Shorter of lease term or its useful life, which is limited to maximum tenor of 50 years
Furniture, equipment and machinery	20% p.a.
Freehold and leasehold motor vehicles	25% p.a.
Prepaid leases	Over the period of lease
Self-Banking Units (SBU)**	Over the period of 3 years

* These depreciation rates are applied consistently over the period

** Self-Banking Units (SBU) are classified under machinery and equipment

NOTES TO THE FINANCIAL STATEMENTS

Derecognition

Property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in "other operating income" in the Income Statement in the year the asset is derecognised.

NOTES TO THE FINANCIAL STATEMENTS

30.2 Right-of-use assets**▶ Accounting policy**

The Bank has lease contracts for its branches, service centres, select machinery etc. Prior to 1 January 2019, payments made for such contracts under operating lease arrangements had been recognised in Income Statement on a straight-line basis over the term of the lease.

The Bank adopted SLFRS 16 using the modified retrospective approach of adoption with effect from the date of initial application of 1 January 2019. Under this approach, the Standard is applied retrospectively and thereby the comparative figures were not restated which were reported under LKAS 17. Further the Bank applied the Standard only to contracts that were previously identified as leases, by applying LKAS 17 at the date of initial application.

Upon adoption of SLFRS 16, the Bank recognised such leases as right-of-use assets and lease liabilities for those leases previously classified as operating leases. The right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

30.2.1 Lease liabilities as at 1 January 2019 and the transition were as follows:

	Bank 2019	Group 2019
Operating lease commitment as at 31 December 2018 (LKR '000)	10,227,864	11,456,613
Weighted average incremental borrowing rate as at 1 January 2019 (%)	11.0	11.0-12.0
Discounted operating lease commitments as at 1 January 2019 (LKR '000)	7,921,884	8,875,021

30.2.2 Right-of-use asset

	Note	Bank 2019 LKR '000	Group 2019 LKR '000
Discounted operating lease commitments as at 1 January 2019	30.2.1	7,921,884	8,875,021
Prepaid rentals/Advance payments	30.2.4	151,611	284,222
Right-of-use asset as at 1 January 2019		8,073,495	9,159,243

30.2.3 Lease liability

	Note	Bank 2019 LKR '000	Group 2019 LKR '000
As at – 1 January effect of adoption of SLFRS 16	30.2.1	7,921,884	8,875,021
Additions during the year		633,223	836,266
Accretion of interest		810,108	915,328
Payments during the year		(2,338,139)	(2,704,360)
Balance as at 31 December		7,027,076	7,922,255

30.2.4 Pre paid rentals/advance payments had been classified under other assets in the previous year.

30.2.5 Prepaid rentals on leased lands, had been previously classified as Prepaid leases in Note 31 of which details are summarised as follows as of 1 January 2019.

	Bank 2019 LKR '000	Group 2019 LKR '000
Cost	1,013,208	1,101,105
Accumulated amortisation	552,165	555,231

As of 1 January 2019, Upon the adoption of SLFRS 16 – Leases, these prepaid leases have been classified as right of use assets.

31. PREPAID LEASES

► Accounting policy

Prepaid Leases represent the leasehold interest in the lands held for own use. The value of buildings situated in the leasehold land is shown separately under Property, Plant and Equipment. The interest on leasehold land is stated at cost less accumulated amortisation.

As at 31 December	Bank		Group	
	2019 LKR '000	2018 LKR '000	2019 LKR '000	2018 LKR '000
Cost				
Balance as at 1 January	–	1,013,142	–	1,013,142
Additions	–	66	–	87,963
Balance as at 31 december	–	1,013,208	–	1,101,105
Accumulated amortisation				
Balance as at 1 January	–	529,256	–	529,256
Charge for the year	–	22,909	–	25,975
Balance as at 31 december	–	552,165	–	555,231
Net book value	–	461,043	–	545,874

Upon the adoption of SLFRS 16 – “Leases” as at 1 January 2019, these prepaid leases have been transferred to right-of-use assets. Refer Note 30.2.5 for details.

32. INTANGIBLE ASSETS AND GOODWILL

► Accounting policy

Intangible assets include all computer software costs incurred, licensed for use by the Group. Software acquired by the Group is measured at cost less accumulated amortisation and any accumulated impairment losses. Software is amortised on a straight-line basis in Income Statement over its estimated useful life, From the date on which it is available for use.

Goodwill represents the excess of the cost of acquisition over the fair value of Group’s share of the net identifiable assets of the acquired Subsidiary at the date of acquisition.

Detailed policies of goodwill and intangible assets are set out in Note 5.12 to these Financial Statements.

34. DUE TO BANKS**▶ Accounting policy**

Due to banks include money market borrowings and borrowings from banks. These are initially recognised at fair value. Subsequent to initial recognition, these are measured at their amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on the issue and costs that are an integral part of the EIR.

As at 31 December	Bank		Group	
	2019 LKR '000	2018 LKR '000	2019 LKR '000	2018 LKR '000

38.2 Provision for Gratuity

Employees who joined the Bank on or after 1 January 1996 will be eligible for gratuity under the Payment of Gratuity Act No. 12 of 1983, or if opted can join the proposed new post-1996 pension scheme and if so such employees will forfeit their right to gratuity. An actuarial valuation was carried out using the "Projected Unit Credit Method" in accordance with the Sri Lanka Accounting Standard – LKAS 19 – "Employee Benefits".

As at 31 December	Bank		Group	
	2019 LKR '000	2018 LKR '000	2019 LKR '000	2018 LKR '000
Balance as at 1 January	370,146	314,829	876,509	684,982
Current service cost	35,759	29,372	92,598	90,390
Interest cost	44,861	32,805	101,699	93,822
Benefits paid during the year	(40,281)	(27,143)	(49,523)	(39,355)
Actuarial losses/(gains) on obligations	128,013	20,283	148,063	46,670
Disposal of subsidiary during the year	-	-	(14,978)	-
Balance as at 31 December	538,498	370,146	1,154,368	876,509

38.2.1 The principal financial assumptions used in the valuations are as follows:

	Bank	
	2019	2018
Discount rate	10.25% p.a	12.12% p.a
Gross salary increase for all grades	8.6% p.a	8.6% p.a
Normal age of retirement	55 years	55 years

38.2.2 Sensitivity of assumptions employed in actuarial valuation

The following table demonstrates the sensitivity to a reasonably possible changes in the key assumptions employed with all other variables held constant in the employment benefit liability measures. The sensitivity of the Statement of Financial Position is the assumed changes in discount rate and salary increment rate as follows:

As at 31 December	Bank			
	2019		2018	
	Effect on Statement of Profit or Loss increase/(reduction) LKR '000	Effect on employee benefit obligation increase/(reduction) in the liability LKR '000	Effect on Statement of Profit or Loss increase/(reduction) LKR '000	Effect on employee benefit obligation increase/(reduction) in the liability LKR '000
Increase/(decrease) in discount rate				
1%	43,043	(43,043)	23,559	(23,559)
-1%	(49,783)	49,783	(26,753)	26,753
Increase/(decrease) in salary increment				
1%	(50,619)	50,619	(27,410)	27,410
-1%	44,410	(44,410)	24,485	(24,485)

38.3 Net Employee Benefit Asset – Post-1996 Pension Fund

The Board of Directors of the Bank approved this retirement benefit plan for the employees recruited to the Bank on or after 1 January 1996. An actuarial valuation was carried out using the “Projected Unit Credit Method” in accordance with the Sri Lanka Accounting Standards – LKAS 19 – “Employee Benefits” the results of the actuarial valuation of the post – 1996 employment benefit plan is summarised below:

NOTES TO THE FINANCIAL STATEMENTS

39. SUBORDINATED TERM DEBTS**▶ Accounting policy**

Subordinated term debts represent funds borrowed for long-term funding purposes which are subordinated to the other claims. Subsequent to initial recognition, subordinated term debts are measured at their amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on the issue and costs that are an integral part of the EIR.

All issued shares are fully-paid with the exception of 40 shares which yet remain unpaid.

40.1.2 Principal shareholders of the Bank are as follows

As at 31 December	2019 %	2018 %
Government of Sri Lanka	92.27	92.27
Corporative Societies	7.73	7.73
	100.00	100.00

40.2 Assigned capital (capital pending allotment)

During period 2005 to 2006 and in 2017, the General Treasury – Ministry of Finance infused an aggregate of LKR 12,152 Mn. in People's Bank as New Capital. These amounts were held in the Bank's Capital Pending Allotment/Assigned Capital account pending conclusion of applicable formalities to issue new shares and to transfer to the paid in capital account. Upon conclusion thereto, the General Treasury, Ministry of Finance will own 99.97% in People's Bank whilst the Corporative Societies will have 0.03%.

41. STATUTORY RESERVE FUND

The Statutory Reserve Fund is maintained as required by the Banking Act No. 30 of 1988. Accordingly, the Bank should, out of profits after taxation but before any dividend is declared, transfer to the Statutory Reserve Fund a sum equivalent to not less than 5% until the permanent reserve is equal to 50% of the Bank's paid-up capital and not less than 2% until the Permanent Reserve equals the paid-up capital.

Accordingly, Bank has transferred LKR 646 Mn. for the current year.

NOTES TO THE FINANCIAL STATEMENTS

42. OTHER RESERVES**42.1 Revaluation reserve**

This reserve has been created in accordance with Sri Lanka Accounting Standard LKAS 16 – “Property, Plant and Equipment”

42.2 Capital reserve

This reserve has been created in 1987 and increased in 1998, has no transferred to date.

42.3 Special risk reserve

In terms of Central Bank directives, 25% of Primary Dealer Unit (PDU) profit has been transferred to Special Risk Reserve in order to promote the safety, soundness and the stability of the Primary Dealer System and to build-up Primary Dealer Capital Base.

According to Central Bank Direction 08/11/011/0019/001 dated 14 February 2013 Bank is exempted from the requirement of maintaining the reserve. Therefore, no transfer is made to the reserve this year based on the direction from the Central Bank of Sri Lanka.

42.4 General reserve

This reserve has been created under Section 22 (2) of the People's Bank Act No. 29 of 1961. The General Reserve represents accumulated unallocated retained profits and losses which are available for distribution and for settlement of debentures issued.

42.5 Financial assets at FVOCI reserve

This FVOCI reserve comprises the cumulative net change in Equity instruments at FVOCI and Debt Instruments at FVOCI until such investments are derecognised or impaired.

42.6 Special levy to Treasury/Dividend

Payment of LKR 219 Mn. was made according to the Agreement between the Government of Sri Lanka and the People's Bank, the Bank is required to pay back 25% of the Restructuring Bond Interest to the General Treasury as a Dividend. Additional details relating to this expense is reflected in Note 22.3.C.C

LKR 2,200 Mn. pertains to a dividend/special levy paid to the Consolidated Fund of the Government of Sri Lanka as determined by the Ministry of Finance.

44.5 Assessment received by the Bank

Following assessments were received by the Bank from the Department of Inland Revenue.

Income tax

Income tax for the Years of Assessment 2010/11, 2011/12, 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17 are respectively LKR 2,422.29 Mn. (ITA 13291100319V1), LKR 1,383.83 Mn. (ITA 14271100064V1), LKR 6,054.77 Mn. (ITA 15271100004V1), LKR 7,452.63 Mn. (ITA 16300500108V1), LKR 5,564.82 Mn. (ITA 170106000084V1), LKR 3,891.59 Mn. (201516002), and LKR 3,523.21 Mn. (0201617002).

Value added tax

Value added tax on financial services for the years 2012, 2013, 2014, 2015, and 2016 are respectively LKR 732.27 Mn. (VATFS/BFSU/2015/660), LKR 360.79 Mn. (VATFS/BFSU/2015/661), LKR 404.98 Mn. (VATFS/BFSU/2017/816), LKR 802.82 Mn. (VATFS/BFSU/2018/894), and LKR 1,089.07 Mn. (VATFS/BFSU/2019/1008).

Nation Building Tax

Nation building tax on financial services for the years 2014, 2015, and 2016 are respectively LKR 60.26 Mn. (NBTFB/BFSU/2017/086), LKR 130.32 Mn. (NBTFB/BFSU/2018/239), and LKR 147.96 Mn. (NBTFB/BFSU/2019/442).

44.6 Litigation against the Bank and companies within the Group

In the normal course of business, the Bank is involved in various types of litigation, including litigation with borrowers who are in default under terms of their loan agreements. In certain circumstances, borrowers have asserted or threatened counter claims defences. The Bank is also contesting certain Labour Tribunal cases. In the opinion of Management, based on its assessment and consultation with outside counsel, litigation which is currently pending against the Bank and the Group will not have a material impact on the financial condition or future operations of the Bank and the Group as a whole. The total damage claimed of litigation against the Bank amounts to approximately LKR 7.8 Bn., of which details are given below:

Zone	Region	Total
Legal	Legal Department	422,600,000
Western 1	Western Zone 1	3,000,000
Central	Kandy	332,631,900
	Matale	665,000
Eastern	Batticaloa	1,154,000
North Central	Anuradhapura	1,000,000
Southern	Galle	250,000,000
	Hambantota	5,310,213
	Matara	47,943,700
Uva	Monaragala	2,000,000
Wayamba	Kurunegala	10,500,000
Special Assets Unit/Corporate Banking Division		6,742,341,561
		7,819,146,374

45. SUBSEQUENT EVENTS

No circumstances have arisen since the reporting date which would require adjustments to, or disclosure in the Financial Statements except the following disclosure:

Coronavirus (COVID 19) Outbreak

The outbreak and spread of the Coronavirus ("COVID-19") which originated in Wuhan, China in December 2019 is now a Global Pandemic having caused a disruption to overall global economic activity effecting most industries and sub sectors. Whilst the precautionary and pre-emptive measures taken by the respective Governments have varied, its implications have been felt across many industries and sub-sectors across the Globe.

The necessary COVID-19 containment measures taken by the Government of Sri Lanka has also naturally caused a temporary disruption to overall economic activity including work disruptions to business operations to several sectors thereby having implications on the banking sector as a whole including People's Bank. The negative financial implications are likely to be felt by the Industry including People's Bank in first half of 2020.

The moratorium, the various concessions extended there from and the likely increase in non-performing loans and advances in the post moratorium period are likely to have negative implications on the Bank's earnings and its liquidity position. Management is of the view that the negative implications on earnings are unlikely to unduly stress the Bank's regulatory capital ratios.

In this context, it must be noted that, the ECL at 31 December 2019 was estimated based on a range of forecast economic conditions prevailing as at that date. The impact to GDP and other key indicators will be considered when determining the severity and likelihood of the downside economic scenarios that will be used to estimate ECL during the course of the financial year 2020.

The Bank continues to take requisite precautionary measures to mitigate any potential impacts, to the full extent within its reasonable control and will keep its contingency and risk management measures under close review. As the situation continues to evolve and timelines for a normalization of economic activity remains yet an unknown, the impact to our core markets and the Bank's financial results cannot be reasonably estimated or reliably measured based on reasonable and supportable information that is available without undue cost or effort at the current stage.

46. RELATED PARTY DISCLOSURES

The Bank has carried out transactions in the ordinary course of business on an arm's length basis at commercial rates with parties who are defined as related parties as per the Sri Lanka Accounting Standard – LKAS 24 – "Related Party Disclosures", except for the transactions that Key Management Personnel (KMPs) have availed under schemes uniformly applicable to all staff at concessionary rates. Those transactions include lending activities, acceptance of deposits, off-balance sheet transactions and provision of other banking and finance services.

NOTES TO THE FINANCIAL STATEMENTS

46.1 Parent and the ultimate controlling party

People's Bank is a Sri Lankan Government owned Bank.

46.2 Key Management Personnel (KMPs) and their Close Family Members (CFMs)

Key Management Personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Bank. Such Key Management Persons include Chairman, Executive, and Non-Executive Directors, and Chief Executive Officer/General Manager of the Bank. Close family members of an individual are those family members who may be expected to influence, or to be influenced by, that individual in their dealings with the entity. They may include individual's domestic partner and children, children of the individual's domestic partner and dependants of the individual or the individual's domestic partner.

46.2.1. Compensation of Key Management Personnel (KMPs)

For the year ended 31 December	2019 LKR '000	2018 LKR '000
Short-term employee benefits	41,120	37,172
Post-employment pension	1,955	2,735
Termination benefits	18,052	–

As at 31 December		
b. Items in statement of financial position		
Liabilities		
Deposits	7,073,422	5,691,233

47. FAIR VALUE OF FINANCIAL INSTRUMENTS

47.1 Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date.

Determination of fair value and fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data

NOTES TO THE FINANCIAL STATEMENTS

47.2 Financial instruments recorded at fair value

Following descriptions show how fair values are determined for assets and liabilities that are recorded at fair value using valuation techniques which incorporates the Bank's estimate of assumptions that a market participant would make when valuing the instruments.

Derivatives

Derivative products valued using a valuation technique with market observable inputs are mainly currency swaps and forward foreign exchange contracts. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates.

Financial assets – Fair value through OCI

Financial assets at fair value through OCI are primarily consist of equities and debentures. These assets are valued using models that use both observable data. The unobservable inputs to the models include assumptions regarding the future financial performance of the investee, its risk profile and economic assumptions.

Financial assets – Fair value through profit or loss

Other trading assets valued using quoted (unadjusted) prices in active markets available for each of identical assets.

47.3 Assets measured at fair value – by level of the fair value hierarchy

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

As at 31 December 2019	Bank				Group			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Financial assets

47.5 Fair value of assets and liabilities not measured at fair value

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the Financial Statements.

Assets for which fair value approximates carrying value

For financial assets and financial liabilities that have a short-term maturity (original maturity less than a year), it is assumed that the carrying amount approximate their fair values. This assumption is also applied to demand deposits, call deposits, and savings deposits without specific maturity.

Fixed rate financial instruments

Loans and advances with fixed interest rates were fair valued using market rates end of the reporting period and other variable interest-bearing loans were considered as carrying value equal fair value. Conversely, fixed deposits with original tenor above one year and interest paid at maturity were discounted using current market rates offered to customers end of the reporting period.

Set out below is a comparison by class, of the carrying amount and fair values of the Bank's financial instruments that are not carried at fair value in the Financial Statements. This table does not include the fair values of non-financial assets and non-financial liabilities.

	Bank				Group			
	2019		2018		2019		2018

48. FINANCIAL REPORTING BY SEGMENT

► Accounting policy

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses, (including revenue and expenses that relate to transactions with other components of the Group) whose operating results are reviewed regularly by the chief operating decision-maker to make decisions about resources to be allocated to each segment and assess its performance, and for which discrete financial information is available.

The Group's segmental reporting is based on the following operating segments:

- Retail banking
- Corporate banking
- Treasury and Primary Dealer Unit (PDU)
- Leasing
- Insurance
- Finance
- Travels

NOTES TO THE FINANCIAL STATEMENTS

The following table presents income, profit, total assets, total liabilities of the Group's operating segments:

52. RECLASSIFICATION OF COMPARATIVE FIGURES

Comparative figures have been adjusted to conform to the current year's presentation.

Certain reclassifications have been made to the prior year's Financial Statements to enhance comparability with the current year's Financial Statements. As a result, certain line items have been amended in the Income Statement and the related Notes to the Financial Statements.

The items so reclassified are as follows:

For the year ended 31 December 2018	Bank		Group	
	Previously reported LKR '000	After reclassification LKR '000	Previously reported LKR '000	After reclassification LKR '000
Gross income	185,977,370	181,283,878	219,357,457	214,663,964
Interest income	171,134,700	166,441,208	200,310,780	195,617,287
Net interest income	60,099,778	55,406,286	75,853,591	71,160,098
Total operating income	74,579,006	69,885,514	94,536,826	89,843,333
Impairment charge	(7,317,461)	(2,623,970)	(8,821,027)	(4,127,536)

Reason for the reclassification

During the financial year ended 31 December 2018 - the Bank grossed up interest income by LKR 4.69 Bn. in suspended interest relating to its non-performing loan and advances (i.e. non-performing and suspended interest being in accordance with Central Bank of Sri Lanka Direction 3 of 2008) whilst, simultaneously, increasing its impairment charges for the year by a similar amount. For the avoidance of any doubt, this was no more than a notional accounting adjustment which had no bearing on its net operating income.

However, from 1 January 2019 onwards, in consultation with its External Auditor – the Bank ceased the grossing up of interest income and impairment charges. Hence, the current year Interest income and impairment charges exclude the said grossing up of suspended interest relating to non-performing loans. Accordingly, for a more meaningful comparison, the 2018 corresponding figure was also been adjusted. This has no bearing on the net operating income of the Bank for the year 2018.

53. FINANCIAL RISK MANAGEMENT

Introduction

As a financial intermediary, the Bank is exposed to array of risks through its daily operations. The Bank's key risk exposures include credit, market, liquidity, and operational risks. However, with the rapid technological innovations/IT based products and solutions introduced by the Bank, due consideration should be given to information systems risk as well. Proactive identification of such risk exposures is of high importance to ensure the sustainability and profitability of the Bank. In response to an increasingly dynamic and competitive operating landscape, evolving risks and significant regulatory developments, there is an ongoing imperative to enhance risk management continuously across the Bank. A robust risk management framework in place supports the efficient management and mitigation of the said risk exposure.

Risk management framework

Risk is identified and managed as part of a Group-wide risk management framework. The Group's Board of Directors has ultimate responsibility for the oversight of risk, determining risk appetite levels, formulating risk policies and ensuring the effectiveness of the risk management processes and procedures in place. The Board Integrated Risk Management Committee (BIRMC) assists the Board in the discharge of its risk related duties and provides independent oversight of all risk related aspects by ensuring the adequacy and effectiveness of the implementation of risk governance structures, policy frameworks, standards and processes. Furthermore, the Board Executive Credit Committee (BECC), Board Audit Committee (BAC) and the Board Investment Banking Committee (BIBC) also support the Board in discharging its risk related duties. Executive committees namely, the Assets and Liabilities Management Committee (ALCO) and the Operational Risk Management Committee (ORMC) play a critical role in ensuring the effective implementation of the Bank's risk management processes.

The People's Bank Group risk management framework forms the foundation for managing risk, and sets out the Group's risk universe, risk parameters and assigns executive and Board responsibility for the management and oversight of risk and ensures that growth and risk considerations are appropriately balanced. Policies and systems associated with the risk management framework are reviewed on a regular basis to factorise the adversities in market conditions and the changes in Group's activities.

NOTES TO THE FINANCIAL STATEMENTS

The framework is based on the Three Lines of Defence model specifically, the Business Line, Risk Management, and Internal Audit.

Risk appetite: The term “risk appetite” refers to the broad types and quantum of risk the People’s Bank Group is willing to undertake in implementing its business strategy. It is expressed in the form of tolerance limits and risk trigger points across a range of variables. The Board of Directors has ultimate responsibility for setting the risk appetite of the Group and ensure that the exposures and risks are maintained within that approved levels.

Risk mitigation

As part of its overall risk management, the Bank obtains various types of collateral and establishes maximum prudential limits.

Risk Management and Credit Control Department

The Risk Management and Credit Control Department (RM and CC) holds overall executive responsibility for the Bank’s risk management functions. It is headed by the Chief Risk Officer (DGM-Risk Management) who reports directly to BIRMC and operates independently of business units as well as profit and volume targets. Four separate units have been established under the RM and CC with specific responsibilities for handling credit, market, operational and information systems risks.

Credit risk

Credit risk is the risk of potential loss to the Bank, if a borrower or counterparty to a financial instrument fails to meet their financial or contractual obligations, and arises principally from the Bank’s loans and advances to customers/other banks and investments in debt securities. In addition to the credit risk from direct funding exposures, the Bank would also be exposed to indirect liabilities such as letters of credit, guarantees etc., which would carry credit risk. Credit risk is composed of default risk/settlement risk, concentration risk and counterparty risk.

The Board Executive Credit Committee (BECC) functions as the steering committee holding overall responsibility for implementing the Bank’s credit risk management framework. The Credit Control Unit operates independently from the business lines and drives all credit risk management efforts. The primary responsibility for managing credit risk lies with the business units, complemented by independent review by the Credit Control Unit.

Key aspects of the Group’s credit policies include delegated approval authority at multiple levels, a comprehensive credit appraisal mechanism which includes well-defined credit criteria and prudential limits in line with the defined risk appetite among others. Borrowers are assessed primarily on repayment capacity and internally developed risk rating scorecards and a nine-point rating scale is used for evaluating credit worthiness. Tailor-made scorecards have been developed for assessing corporates, SME borrowers’ financial institutions as well as retail borrowers. The internal credit rating models in place represent diverse risk factors and are able to predict the probability of default and loss given default.

Impairment assessment

Definition of default and cure

The Bank considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past or three instalments in arrears due on its contractual payments or when classified as non-performing loan (NPL) as per directions issued by the Central Bank of Sri Lanka (CBSL). The Bank considers treasury and interbank balances defaulted and takes immediate action when the required intraday payments are not settled by the close of business as outlined in the individual agreements.

Individually-assessed allowances

The Bank determines the allowances appropriate for each individually significant loan or advance on an individual basis if there is any objective evidence of a potential loss. The Bank has currently set individually significant threshold at rupees twenty-five million and every customer having an aggregate exposure above that limit is individually assessed for objective evidence of incurred loss. Items considered when determining allowance amounts include the sustainability of the counterparty’s business plan, its ability to improve performance if it is in a financial difficulty, projected receipts and the expected payout should bankruptcy arise, the availability of other financial support, the realisable value of collateral and the timing of the expected cash flows.

Collectively-assessed allowances

Allowances are assessed collectively for losses on loans and receivables that are not individually significant and for individually significant loans and receivables that have been assessed individually and found not to be impaired. The collective assessment is made for groups of assets with similar risk characteristics, in order to determine whether provision should be made due to incurred loss events for which there is objective evidence, but the effects of which are not yet evident in the individual loans assessments. The collective assessment takes account of data from the loan portfolio (such as loan types, industry codes, and level of arrears).

The Bank applies a three-stage approach to measure expected credit losses (ECLs). Financial assets migrate.

Through the following three stages based on the change in credit risk since initial recognition:

Stage 1: 12-month ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised.

Bank determines 12-month ECL from customers whom are not significantly credit deteriorated (i.e. less than 30 days past due).

Stage 2: Lifetime ECL – not credit impaired

For exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired, a lifetime ECL (i.e. reflecting the remaining lifetime of the financial asset) is recognised.

Inconsistent with the policies of the Bank, significant deterioration is measured through the rebuttable presumption of 30 days past due other than the credit facilities categorised under Stage 3, in line with the requirements of the standard.

Bank also have considered all restructured loans, which are restructured up to two times, other than credit facilities/exposures upgraded credit facilities from a higher stage to a lower stage consider under Stage 2 as per the guidance issued by the Central Bank.

Stage 3: Lifetime ECL – credit impaired

Exposures are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

Bank determines credit facilities where contractual payments of a customer are more than 90 days past due which are subject to the rebuttable presumption as stated in SLFRS 9 together with all NPL classifications as per Central Bank classification, all restructured loans which are restructured more than twice and all rescheduled loans other than credit facilities/exposures upgraded credit facilities from a higher stage to a lower stage and all credit facilities/customers classified as non-performing as per CBSL Directions under Stage 3.

	2019 LKR '000	2018 LKR '000
Individually significant impaired loans		
Amortised cost	89,827,326	103,769,231
Allowances for impairment	(51,048,200)	(47,680,508)
Carrying amount as at 31 December	38,779,126	56,088,723
Collectively assessed loans		
Amortised cost	1,293,963,808	1,230,651,029
Allowances for impairment	(22,592,797)	(21,072,285)
Carrying amount as at 31 December	1,271,371,011	1,209,578,744

PD estimation process

Probability of default is the estimate of the likelihood of default over a given time horizon. PD estimation for loans and advances to other customers under SLFRS 9 is largely based on the days past due (DPD) of the customers which is common for most banks in the country at present. Accordingly, exposures are categorised among five groups based on the DPD as follows.

- Zero days past due
- 1-30 days past due
- 31-60 days past due
- 61-90 days past due
- Above 90 days past due

The exposure at default (EAD)

The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation, addressing both the client's ability to increase its exposure while approaching default and potential early repayments too. The Bank uses credit conversion factors (CCF) which explains the historical utilisation of defaulted facilities at the time of default to calculate the EAD of revolving facilities in which customers have the ability to increase their exposure. For non-revolving facilities, already utilised amount plus any accrued interest over same is considered as EAD.

Loss given default (LGD)

Loss given default (LGD) is the magnitude of likely loss on exposure, and is expressed as a percentage of exposure. These LGD rates take into account the expected EAD in comparison to the amount expected to be recovered or realised from any collateral held.

The Bank segments its retail lending products into smaller homogeneous portfolios, based on key characteristics that are relevant to the estimation of future cash flows. The applied data is based on historically collected loss data and involves a wider set of transaction characteristics (e.g. product type, wider range of collateral types) as well as borrower characteristics.

For each year, closed contracts which have crossed the above 90 days at least once in their lifetime are considered. LGD will factor in all cash flows subsequent to the point of default until the full settlement of the loan. Virtually closed contracts are also added to this data set. Virtually closed contracts are active loans which have been long outstanding. A contract is determined to be virtually closed at the point the Bank determines that the cash flows have dried up.

NOTES TO THE FINANCIAL STATEMENTS

Analysis of the total impairment for expected credit losses

As at 31 December 2019	Note	Stage 1 LKR '000	Stage 2 LKR '000	Stage 3 LKR '000	Total LKR '000

Analysis of inputs to the ECL model under multiple economic scenarios

The Bank obtains the data from third party sources such as CBSL, International Monetary Fund and/or World Bank in all instances where such projections are available. The following tables set out the key drivers of expected loss and the assumptions used for the Bank's base case estimate, ECLs based on the base case, plus the effect of the use of multiple economic scenarios as at 31 December 2018 and 2019.

The tables show the values of key forward-looking economic variables/assumptions used in each of the economic scenarios for the ECL calculations.

As at 31 December 2019

Key drivers	ECL scenario	Assigned probabilities	2020	2021	2022	2023	2024	2025	2026

Collateral and other credit enhancements**Net exposure to credit risk**

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral. We adopt a stringent approach towards collateral valuation, and these are regularly reviewed and updated to ensure that valuations reflect market conditions. Relatively diverse collateral portfolio of the Bank mitigates the impact of potential price drops in a particular asset class.

The main types of collateral obtained are as follows:

- For commercial lending-charges over real estate properties, trade receivables, inventory, corporate and personal guarantees.
- For retail lending-mortgage over residential properties, personal guarantees.

The following tables show the maximum exposure and net exposure (net of fair value of any collaterals held) to credit risk by class of financial asset.

As at 31 December 2019

	Maximum exposure to credit risk LKR '000	Net exposure LKR '000
Cash and cash equivalents	50,703,158	2,067,573
Placements with banks	9,689,132	9,689,132
Derivative financial instruments	90,560	90,560
Financial assets at fair value through profit or loss	79,514,568	79,514,568
Loans and receivables to banks	29,771,919	11,392,437
Loans and receivables to other customers	1,310,150,137	452,112,892
Equity instruments at fair value through OCI	1,997,896	1,997,896
Debt instruments at fair value through OCI	2,573,067	2,573,067
Debt instruments measured at amortised cost	280,935,892	280,935,892
Total	1,765,426,329	869,543,355

As at 31 December 2018	Maximum exposure to credit risk LKR '000	Net exposure LKR '000
Cash and cash equivalents	57,879,933	7,501,166
Placements with banks	4,350,726	4,350,726
Derivative financial instruments	1,163,384	1,163,384
Financial assets at fair value through profit or loss	54,052,435	54,052,435
Loans and receivables to banks	32,167,421	14,151,872
Loans and receivables to other customers	1,265,667,467	400,818,710
Equity instruments at fair value through OCI	1,179,922	1,179,922
Debt instruments at fair value through OCI	4,731,261	4,731,261
Debt instruments measured at amortised cost	201,650,435	201,650,435
Total	1,622,842,984	689,599,911

Concentration of credit risk

Concentration risk stems from high lending exposure to a particular sector, product, region or customer/group. The Bank's risk appetite clearly defines exposure limits for particular sectors and products and such limits are reviewed and modified in the context of emerging risks and opportunities presented by the operating landscape. In addition to adherence to the single borrower limit, the Bank also uses Herfindahl-Hirschman Index (HHI) to monitor and control concentrations. These limits are monitored by the Risk Management Department, BIRMC and Board on a regular basis.

Adherence to credit concentration risk limits

	Q4 - 2019	HHI threshold
Individual customer (with GOSL)	0.13	
Individual customer (with out GOSL)	0.02	0.15
Industry segment (with GOSL)	0.21	
Industry segment (with out GOSL)	0.11	0.20

NOTES TO THE FINANCIAL STATEMENTS

An analysis of risk concentration by industry for the financial assets is given below:

As at 31 st December 2019	Government	Commercial	Financial	Agricultural
Financial assets				
Cash and cash equivalents			50,704,066

NOTES TO THE FINANCIAL STATEMENTS

Liquidity risk

Liquidity risk is the potential loss of earnings/erosion of capital arising from the inability to meet the Bank's contractual financial obligations as and when they fall due. Banks are vulnerable to liquidity and solvency problems resulting from asset and liability mismatches. The management of such risks are a vital element of the Bank's operations.

The Bank's liquidity risk management framework aims to assess/quantify and ensure the availability of funds required to meet Bank's contractual obligations at appropriate times. This is ensured under both normal and stressed conditions. The Bank's Treasury is entrusted to manage the liquidity risk and the Risk Management Department ensures same by monitoring the adherence to set limits/regulatory ratios etc. and performing other related analysis. ALCO on the other hand, oversee the management of same by continuously monitoring the Bank's liquidity position to ensure that compliance to internal targets as well as regulatory requirements is met.

The Bank measures liquidity through the dual approaches of flow and stock. The flow method measures liquidity through analysing the mismatch between inflows and outflows in various time bands based on the maturity of assets and liabilities. The stock method measures liquidity in terms of a set of key ratios such as loans to deposit ratio, commitments ratio (unutilised portion of overdrafts/unutilised inter-bank lines), statutory liquid asset ratio and cumulative mismatches.

EFFECT OF HOT MONEY/RETAIL FUND WITHDRAWALS ON GAP IN UP TO ONE MONTH TIME BAND

Market risk

Market risk is potential losses arising from changes in earnings, market or future cash flows of a portfolio of financial instruments resultant from adverse movements in market variables such as interest rates, share prices, foreign exchange rates and bond and commodity prices. Most of the Bank's operations are exposed to at least one or more elements of market risk. The market risk stems primarily from the interest rate risk of its trading and non-trading books and from exposure to gold prices due to its pawning portfolio.

At Board level, exposure to market risk is monitored by the BIRMC which is also responsible for providing recommendations to the Board on the Bank's market risk management framework, policies and risk appetite limits. The ALCO is vested with the responsibility of implementing the market risk management framework at an executive level and ensures that the Bank's market risk exposures are within the defined risk appetite. Policies governing the Bank's market risk include Treasury policy and policy on stress testing. These frameworks collectively provide guidance on the systems, procedures, tools and techniques for the identification, assessment, mitigation, monitoring and reporting on all market related risks. The policies are reviewed and updated regularly in view of emerging market risks. The management of market risk is entrusted to the Bank's Treasury and risk management ensures the same through its monitoring and analysis.

The principal tool used to measure and control market risk exposure within the Bank's trading portfolio is Value at Risk (VaR). The VaR of a trading portfolio is the estimated loss that will arise on the portfolio over a specified period of time (holding period) from an adverse market movement with a specified probability (confidence level). The VaR model used by the Bank is based on a 99% confidence level and assumes a one day holding period. The VaR model used is based mainly on variance covariance method.

The Bank uses VaR limits to monitor and manage the market risk, specifically foreign exchange and interest rate. The overall structure of VaR limits is subject to review and approval by BIRMC. VaR limits are allocated to trading portfolios. VaR is measured and monitored against its limits at least daily by the Treasury Middle Office, which is attach to the Risk Management Department.

Interest rate risk

Interest rate risk is the potential loss to earnings and capital resulting from the Bank's exposure to interest rate sensitive assets. The market value of such assets fluctuates in line with changes in interest rates and credit spreads. The Bank's exposure to interest rate risk arises from its lending portfolio, trading securities and deposit liabilities.

Techniques used to measure interest rate risk include Duration Gap Analysis, VaR and Earnings at Risk. Rate sensitive assets and liabilities are mapped into time buckets based on their maturity period, in order to ascertain the duration gap and overall exposure to interest rate risk.

Stress test for interest rate risk

Revised CAR	Q1 %	Q2 %	Q3 %	Q4 %
Tier 1 CAR	10.47	10.80	10.64	9.59
Total CAR	13.90	13.22	13.53	13.57

Foreign exchange risk

Foreign exchange risk (FOREX) is the potential impact to earnings and/or capital stemming from adverse fluctuations in exchange rates. Such exposure of the Bank stems from proprietary trading and from undertaking transactions denominated in foreign currency namely, import/export transactions and remittances etc.

The Bank also conducts VaR calculations and stress testing on the portfolios subject to FOREX risk. Parallel VaR calculations are performed by the Bank's Treasury Management System (based on Finacle) and the Bloomberg system. Stress testing is performed by applying rate shocks in order to gauge the potential impact on the Bank's profitability and capital adequacy levels.

NOTES TO THE FINANCIAL STATEMENTS

Exchange rate shock stress test

	Min Reqt – 2019	Actual as at 31.12.2019	Minor	Moderate	Major
Magnitude of shock			5%	10%	15%
Revised CAR%					
Tier 1 capital as a percentage of RWA	9.50%	10.68%	10.66%	10.64%	10.63%
Total capital as a percentage of RWA	13.50%	14.66%	14.64%	14.62%	14.60%

Equity risk

Equity risk arises from exposures to changes in fluctuations in the value of equity investments held by the Bank. This arises primarily from its fair value through profit or loss and fair value through other comprehensive income investment portfolio and excludes strategic investments by the Bank in subsidiaries. The Board Investment Banking Committee (BIBC) is responsible for formulating all investment related policies and ensuring that the Bank’s investment risks are managed in line with its defined risk appetite. The Board approved Investment Banking Policy Manual clearly articulates the procedures, tools and techniques for managing equity risk as well as volume and stop loss limits.

	Min Reqt – 2019	Actual as at 31.12.2019	Minor	Moderate	Major
Magnitude of shock			5%	10%	20%
Revised CAR%					
Tier I capital as a percentage of RWA	9.50%	10.68%	10.67%	10.67%	10.65%
Total capital as a percentage of RWA	13.50%	14.66%	14.65%	14.65%	14.63%

Operational risk

Operational risk is the risk of losses arising from failed internal processes, systems failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. Operational risks exist in the natural course of business activities, products and processes.

The Bank's operational risk management framework clearly articulates the policies, structures and processes in place to manage the different types of operational risk exposures. The Board of Directors, supported by the BIRMC is responsible for formulating policy and ensuring the robustness of the operational risk management framework. Loss events are recorded and periodically reported through the Risk Management Unit to the Operational Risk Management Committee (ORMC). Newly implemented Operational Risk Management System (which is partly rolled out at present) which is a part and parcel of the ongoing Data Ware House Project of the Bank facilitates the management of various aspects of operational risk in prudent manner. Meanwhile, internal audit also provides assurance to the Board on the effectiveness on the operational risk management processes in place.

Capital management

The Bank's capital management framework has been designed taking into consideration regulatory requirements on capital as well as future growth aspirations and funding options available to the Bank.

The Capital Adequacy Ratio (CAR) is calculated based on the CBSL Directions based on the Basel framework. Since 1 July 2017, the Bank is required to comply with Basel III Guidelines. According to Basel III framework the Bank is required to maintain a CAR of not less than 9.5% with core capital (Tier I) and a minimum overall CAR of 13.5% as at 31 December 2019.

The details of the computation of the capital and the ratios as at 31 December 2018 and 31 December 2019 are given below:

As at 31 December	Bank

BASEL III – MARKET DISCIPLINE DISCLOSURE REQUIREMENT UNDER PILLAR III

CAPITAL ADEQUACY

Capital adequacy is one of the key financial indicators which illustrate the soundness and the stability of a Bank. This measures banks ability to withstand in an unexpected loss scenarios during various activities carried out by the Bank.

Basle Committee on Bank Supervision (BCBS) has implemented set of stringent measures of capital, liquidity and, funding reforms. Accordingly, BASLE III accord was issued in December 2010 and it has come into force and effect in Sri Lanka on 1 July 2017 based on the Central Bank Direction 1 of 2016 on capital requirement under BASLE III for licensed commercial banks. This replaces Basel II reforms which were in force and effect in Sri Lanka since 1 January 2008 onwards.

Commencing from 1 July 2017, with the amendment thereto under Direction No. 11 of 2019 on Domestically Systemically Important Banks (D-SIBs) dated 20 December 2019; Bank has to maintain the Capital in three Tiers as mentioned below:

	Minimum requirement
Common Equity Tier I capital ratio (CETI)	8.00%
Total Tier I capital ratio (CET I+ AT I)	9.50%
Total capital ratio	13.50%

Common Equity Tier I (CET I) mainly comprised equity capital, other capital and retained earnings. CET I is the highest quality capital and effective capital in absorbing losses.

Additional Tier I capital includes capital instruments other than the instruments included in CET I capital.

Total capital comprised Tier I plus other qualifying capital instruments (i.e. such as subordinated debentures subject to regulatory deductions, revaluation reserves on property, plant and equipment with a cap of up to 50% and general loan loss provision)

BASEL III has introduced new capital buffers and all banks are required to hold additional capital buffers over and above the minimum CET I and Total Capital Adequacy levels stipulated above.

- Capital conservation buffer
- High Loss Absorbency (HLA) requirement on Domestically Systemically Important Banks (D-SIBs)
- Counter cyclical buffer

Three Pillars introduced by BASEL II is continued to be applied in the BASEL III framework is mentioned below:

- Pillar I – Minimum capital requirements
- Pillar II – supervisory review process
- Pillar III – Market discipline

Pillar I – Minimum capital requirement

Minimum capital requirement shall maintain as a percentage of risk-weighted assets (RWAs) and Bank calculated its RWAs based on following approaches:

- The standardised approach for credit risk
- The standardised measurement method for market risk
- The basic indicator approach for operational risk

Pillar II – Supervisory review process (SRP)

SRP framework assesses the Bank's capital adequacy and determining whether Bank is maintaining additional capital to cover its risks. Bank has developed an Internal Capital Adequacy Assessment Process (ICAAP) framework in this regard, which closely indicates risks and capital assessment processes to support the Bank's current and projected demand for capital under unexpected and stressed conditions.

Pillar III – Market discipline

Pillar III aims to provide consistent and comprehensive disclosure framework which enhances the comparability between banks. It requires number of disclosure requirements to give better understanding of capital adequacy to external share holders by providing an insight into the internal computation procedures followed by the Bank.

Accordingly disclosures required to be published as per the Central Bank Direction 1 of 2016 are set out below:

TEMPLATE 01: KEY REGULATORY RATIO – CAPITAL AND LIQUIDITY

BASEL III – MARKET DISCIPLINE DISCLOSURE REQUIREMENT UNDER PILLAR III

TEMPLATE 06: SUMMARY DISCUSSION ON THE ADEQUACY/MEETING CURRENT AND FUTURE CAPITAL REQUIREMENTS

Overview

- In accordance with CBSL stipulations, the Bank carries out an Internal Capital Adequacy Assessment Process annually. The assessment covers a five (5) year time horizon with the last carried out was for period 2019 - 2023
- In addition, Capital Adequacy levels are monitored at a frequency of at least once every two weeks

Material exposures

- At end 2019, close 45.0% of the Bank's total loan book was composed of exposures to the State and State-Owned Enterprises. Those extended to State are mostly backed by an irrevocable sovereign undertaking by way of either or a Treasury guarantee/indemnity or other form of government assurance
- Leaving aside such sovereign backed, the Bank's single largest exposure to a non-sovereign does not account for over 2% of its total loan book
- The Bank's sector exposures are also fairly diverse

Initiatives taken to bolster regulatory capital during 2017, 2018 and 2019

- During year 2017, 2018 and 2019 - the Bank undertook several initiatives to bolster its regulatory capital and meet Basel III Risk Control measures. These included amongst other.

2017

- a. Raised LKR 5.0 Bn. from General Treasury, Ministry of Finance on 21 July 2017. This was first received over the last eight (8) years.
- b. Reduce its dividend payout to 28.6% in 2017 from 54.8% in 2016
- c. Revalued all its land and buildings on 1 July 2017. This enabled the Bank recognise close to LKR 3.6 Bn. in Tier II Capital with requisite regulatory approval. The next revaluation is set to be carried out on 1 July 2020
- d. Ensured additional facilities extended to State-Owned Enterprises are sovereign backed and, in case of other government assurances, they are routed through the Monetary Board of the Central Bank of Sri Lanka for prior approval.
- e. Carry-out an interim profit certification for the six months period ended 30 June 2017 in view of meeting interim regulatory capital requirements whilst supporting loan book growth
- f. Efforts to amend the People's Bank Act to facilitate the issuance of Debentures in conformity with Basel rules was once again revived with the assistance of Ministry of Public Enterprise Development

2018

- a. The Bank was able to further reduce its dividend payout to 20.0% in 2018 from 28.6% in 2017
- b. Highly risk measured/controlled growth in loan book during 2018
- c. Carry-out an interim profit certification for the six months period ended 30 June 2018 in view of meeting interim regulatory capital requirements
- d. The process in relation to the amendment of the People's Bank Act to facilitate the issuance of debentures continued

2019

- a. The Bank was able to further reduce its dividend payout to 18.7% in 2019 from 20.0% in 2018
 - b. Carry-out an interim profit certifications for the three months ended 31 March 2019, six months ended 30 June 2019 and the nine months ended 30 September 2019 in view of avoiding regulatory capital shortfalls
 - c. The People's Bank Act amendments was finalised in September 2019
 - d. The Bank was thereby able to issue its first Basel III, Tier II compliant debenture issuance. A total LKR 10.0 Bn. was raised on 8 November 2019
- As a result thereto, the Bank was able to successfully meet all Basel III Risk Control measures during both 2018 and 2019 as applicable without any exception whatsoever, be Capital Adequacy Ratio, Liquidity Coverage Ratio, Net Stable Funding and Leverage

2020 plan

- The Bank is in a constant and continuous process of undertaking measures reasonably necessary to bolster its regulatory capital levels
 - Following are slated to be undertaken during 2020
- a. Circumstances permitting, revalue its land and buildings. This will enable the Bank augment its Tier II Capital levels subject to regulatory approvals
 - b. Issue a minimum LKR 8.0 Bn. in Basel III, Tier II compliant Debentures
 - c. Continue to maintain its dividend/levy payout policy during the year

INDEPENDENT ASSURANCE REPORT TO PEOPLE'S BANK

We have been engaged by the Management of People's Bank ("the Bank") to provide reasonable assurance and limited assurance in respect of the Sustainability Indicators as identified below for the year ended 31 December 2019. The Sustainability Indicators are included in the People's Bank's Integrated Annual Report for the year ended 31 December 2019 (the "Report").

The Reasonable Assurance Sustainability Indicators covered by our reasonable assurance engagement are:

Assured sustainability indicators	Integrated Annual Report page
Financial Highlights	14

The Limited Assurance Sustainability Indicators covered by our limited assurance engagement are:

Limited Assurance Sustainability Indicators	Integrated Annual Report Page
Non-financial highlights	15
Information provided on following capitals	
Financial	63 to 68
Manufactured	69 to 72
Intellectual	73 to 77
Human	78 to 88
Social and Relationship	89 to 105
Natural	106 to 109

OUR CONCLUSIONS

Our conclusion has been formed on the basis of, and is subject to, the matters outlined in this Report. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusions.

REASONABLE ASSURANCE SUSTAINABILITY INDICATORS

In our opinion, the Reasonable Assurance Sustainability Indicators, as defined above, for the year ended 31 December 2019 are, in all material respects, prepared and presented in accordance with the Consolidated Set of Global Reporting Initiative Sustainability Reporting Standards Guidelines.

LIMITED ASSURANCE SUSTAINABILITY INDICATORS

Based on the limited assurance procedures performed and the evidence obtained, as described below, nothing has come to our attention that causes us to believe that the Limited Assurance Sustainability Indicators, as defined above, for the year ended 31 December 2019, have not in all material respects, been prepared and presented in accordance with the Consolidated Set of Global Reporting Initiative Sustainability Reporting Standards Guidelines.

MANAGEMENT'S RESPONSIBILITY

Management is responsible for the preparation and presentation of the Reasonable Assurance Sustainability Indicators and the Limited Assurance Sustainability Indicators in accordance with the Consolidated Set of Global Reporting Initiative Sustainability Reporting Standards Guidelines.

These responsibilities includes establishing such internal controls as management determines are necessary to enable the preparation of the Reasonable Assurance Sustainability Indicators and the Limited Assurance Sustainability Indicators that are free from material misstatement whether due to fraud or error.

Management is responsible for preventing and detecting fraud and for identifying and ensuring that the Bank complies with laws and regulations applicable to its activities.

Management is also responsible for ensuring that staff involved with the preparation and presentation of the description and Report are properly trained, information systems are properly updated and that any changes in reporting encompass all significant business units.

KPMG, a Sri Lankan partnership and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

OUR RESPONSIBILITY

Our responsibility is to express a reasonable assurance conclusion on the Bank's preparation and presentation of the Reasonable Assurance Sustainability Indicators and a limited assurance conclusion on the preparation and presentation of the Limited Assurance Sustainability Indicators included in the Report, as defined above.

We conducted our assurance engagement in accordance with Sri Lanka Standard on Assurance Engagements SLSAE 3000: Assurance Engagements other than Audits or Reviews of Historical Financial Information (SLSAE 3000) issued by the Institute of Chartered Accountants of Sri Lanka.

We have complied with the independence and other ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of Sri Lanka.

SLSAE 3000 requires that we plan and perform the engagement to obtain reasonable assurance about whether the Reasonable Assurance Sustainability Indicators are free from material misstatement and limited assurance about whether the Limited Assurance Sustainability Indicators are free from material misstatement.

REASONABLE ASSURANCE OVER REASONABLE ASSURANCE SUSTAINABILITY INDICATORS

The procedures selected in our reasonable assurance engagement depend on our judgment, including the assessment of the risks of material misstatement of the Reasonable Assurance Sustainability Indicators whether due to fraud or error.

In making those risk assessments, we have considered internal control relevant to the preparation and presentation of the Reasonable Assurance Sustainability Indicators in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of the Bank's internal control over the preparation and presentation of the Report.

Our engagement also included assessing the appropriateness of the Reasonable Assurance Sustainability Indicators, the suitability of the criteria, being the Consolidated Set of Global Reporting Initiative Sustainability Reporting Standards Guidelines, used by the Bank in preparing and presenting the Reasonable Assurance Sustainability Indicators within the Report, obtaining an understanding of the compilation of the financial and non-financial information to the sources from which it was obtained, evaluating the reasonableness of estimates made by the Bank, and re-computation of the calculations of the Reasonable Assurance Sustainability Indicators.

LIMITED ASSURANCE ON THE ASSURED SUSTAINABILITY INDICATORS

Our limited assurance engagement on the Limited Assurance Sustainability Indicators consisted of making enquiries, primarily of persons responsible for the preparation of the Limited Assurance Sustainability Indicators, and applying analytical and other procedures, as appropriate. These procedures included:

- interviews with senior management and relevant staff at corporate and selected site level concerning sustainability strategy and policies for material issues, and the implementation of these across the business;

- enquiries of management to gain an understanding of the Bank's processes for determining material issues for the Bank's key stakeholder groups;
- enquiries of relevant staff at corporate and selected site level responsible for the preparation of the Limited Assurance Sustainability Indicators;
- enquiries about the design and implementation of the systems and methods used to collect and report the Limited Assurance Sustainability Indicators, including the aggregation of the reported information;
- comparing the Limited Assurance Sustainability Indicators to relevant underlying sources on a sample basis to determine whether all the relevant information has been appropriately included in the Report;
- reading the Limited Assurance Sustainability Indicators presented in the Report to determine whether they are in line with our overall knowledge of, and experience with, the sustainability performance of the Bank;
- reading the remainder of the Report to determine whether there are any material misstatements of fact or material inconsistencies based on our understanding obtained as part of our assurance engagement.

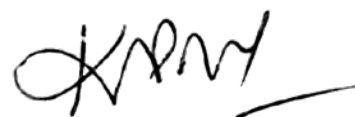

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement, and consequently the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Accordingly, we do not express a reasonable assurance conclusion on the Limited Assurance Sustainability Indicators.

PURPOSE OF OUR REPORT

In accordance with the terms of our engagement, this assurance report has been prepared for the Bank for the purpose of assisting the Directors in determining whether the Bank's Reasonable and Limited Assurance Sustainability Indicators are prepared and presented in accordance with the Consolidated Set of Global Reporting Initiative Sustainability Reporting Standards Guidelines and for no other purpose or in any other context.

RESTRICTION OF USE OF OUR REPORT

Our report should not be regarded as suitable to be used or relied on by any party wishing to acquire rights against us other than the Bank, for any purpose or in any other context. Any party other than the Bank who obtains access to our report or a copy thereof and chooses to rely on our report (or any part thereof) will do so at its own risk. To the fullest extent permitted by law, we accept or assume no responsibility and deny any liability to any party other than the Bank for our work, for this independent assurance report, or for the conclusions we have reached.

GLOSSARY OF FINANCIAL/ BANKING TERMS

A

Accounting policies

Principles, rules and procedures selected and consistently followed by the management of an entity in preparing and reporting the Financial Statements.

Accrual basis

Recognition of the effects of transactions and other events when they occur without waiting for receipt or payment of cash or its equivalents.

Amortisation

Systematic allocation of the depreciable amount of an intangible asset over its useful life. Depreciation and amortisation both have the same meaning.

Actuarial valuation

Fund value determined by computing its normal cost, actuarial accrued liability, actuarial value of its assets and other relevant costs and values.

Amortised cost

The amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectability.

Associate company

A company other than a subsidiary in which a holding company has a participating interest and exercise a significant influence over its operating and financial policies.

Available-for-sale financial asset

Those financial assets that are designated as available-for-sale or are not classified as (a) loans and receivables, (b) held-to-maturity investments, or (c) financial assets at fair value through profit and loss.

B

Bill discounted

A Promissory Note or Bill of Exchange that has been purchased for less than face value, the difference representing interest on the unexpired term of the bill. At maturity, the holder collects the face value of the bill for its own account.

Bill of exchange

A signed, written, unconditional order addressed by one person (the drawer) directing another person (the drawee) to pay a specified sum of money to the order of a third person (the payee). The terms bill of exchange and draft are often used interchangeably.

C

Call deposits or call money

Deposits or funds lent out which are repayable on demand.

Capital adequacy

The ability of a Bank to meet the needs of their depositors and other creditors in terms of available funds. As per requirement of Bank for International Settlements (BIS) and Central Bank of Sri Lanka, local banks should maintain a stipulated minimum capital.

Capital adequacy ratio

The percentage of the risk-adjusted assets supported by capital, as defined under the framework of risk based capital standards developed by the Bank for International Settlements (BIS) and as modified to suit local requirements by the Central Bank of Sri Lanka.

Credit risk

The risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Cash equivalents

Short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Certificate of deposit (CD)

A certificate issued by a Bank against funds deposited with it that specifies the rate of interest payable and the date when the deposit will be repaid to the bearer. CDs are often negotiable.

Commercial paper

Unsecured short-term Promissory Notes issued by banks and creditworthy corporate borrowers.

Commitments

Credit facilities approved but not yet utilised by the clients as at the balance sheet date.

Contingencies

A condition or situation, the ultimate outcome of which, gain or loss, will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events.

Corporate governance

The process by which corporate entities are governed. It is concerned with the way in which power is exercised over the management and direction of entity, the supervision of executive actions and accountability to owners and others.

Correspondent banks

A bank that acts as an agent for another bank. The correspondent Bank will generally provide a wide variety of banking services on behalf of the other banks in the region in which the correspondent bank is located.

Cost income ratio

Operating expenses as a percentage of net income.

Counterparty

The other party (including a bank) with whom a deal is made or closed.

Country risk

The credit risk associated with lending to borrowers within a particular country, sometimes taken to include sovereign risk.

Cross rate

The calculated foreign exchange rate from two separate quotations involving the same currency.

Currency swap

A current exchange of principal amounts in two currencies combined with an agreement to re-exchange the currencies at a later date and to make interest payments, until the re-exchange, on the currency is received.

D

Deferred tax

Sum set aside in the Financial Statements for taxation that may become payable in a financial year other than the current financial year.

Depreciation

The systematic allocations of the depreciable amount of the assets over its useful life.

Derivative

A financial instrument with all three of the following characteristics: (a) Its value changes in response to the change in a specified interest rate, security price, commodity price, foreign exchange rate, index of prices or rates, a credit rating or credit index, or other variable (sometimes called the "underlying"). (b) It requires no initial net investment that is smaller than would be required for other types. (c) It is settled at a future date.

Dealing securities

Securities acquired and held with the intention of reselling them in the short-term.

Defined benefit plan

Retirement benefit plans under which amounts to be paid as retirement benefits are determined by reference to a formula usually based on employees' remuneration and/or years of service.

Disintermediation

The term often used to describe borrowers raising funds directly from the capital markets rather than from the banking sector. This is usually only undertaken by borrowers with the strongest credit ratings.

Documentary bill a Bill of Exchange that is accompanied by various documents, such as a Bill of Lading, an invoice and an insurance policy.

GLOSSARY OF FINANCIAL/BANKING TERMS

Documentary credit

A letter of credit that stipulates the documents that must be produced in order for payment to be made.

Draft

A term generally synonymous with Bill of Exchange but sometimes used specifically in the context of inter-Bank bills. A banker's draft, payable on demand, drawn by or on behalf of a Bank.

E

Effective interest method

The method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period.

Equity instrument

Any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

F

Fair value

The amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fixed charge

A charge on specific property, usually freehold or leasehold property or plant and machinery, given under a legal mortgage.

Financial instrument

Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Floating charge

A charge, taken by a lender to secure an advance upon property, such as stock, debtors, or cash, that permits the Company to continue using and disposing of those assets in connection with its ordinary business. Such a charge becomes fixed in the event of the Company's default.

Foreclosed properties

Properties acquired in full or partial settlement of debts, which will be held with the intention of resale at the earliest opportunity.

Foreign exchange income

The realised gain recorded when assets or liabilities denominated in foreign currencies are translated into Sri Lankan rupees on the balance sheet date at prevailing rates which differ from those rates in force at inception or on the previous balance sheet date. Foreign exchange income also arises from trading in foreign currencies.

Forward contract

A contract that commits two parties to an exchange at a specific future date under terms set out at the contract date.

Forward rate

The price of currency with a maturity beyond the spot date. Forward rates may be either the same in price as spot rates or different. In the first case, the forward rate is flat. In the second case, the price is either higher, at a premium, or lower, at a discount.

Forward rate agreement (FRA)

An agreement to exchange payments at a specified future date based on the difference between a particular interest rate index (e.g. LIBOR) and an agreed fixed rate.

G

Group

A group is a parent and all its subsidiaries.

Guarantees

Primarily represent irrevocable assurances that a Bank will make payments in the event that its customer is unable to perform its financial obligations to third parties. Certain other guarantees represent non-financial undertakings such as bid and performance bonds.

H

Hedging

A methodology used to cover against risk of unfavourable price movements (interest rates, prices, commodities, etc).

Held-to-maturity investments

A financial asset with fixed or determinable payments and fixed maturity that an entity has the positive intent and ability to hold to maturity, other than those that the entity on initial recognition elects to designate as held-for-trading or available-for-sale, or that meet the definition of loans and receivables.

I

Impairment

This arises due to decline in recoverable amount below carrying amount.

Indemnity

An agreement whereby a person agrees to bear any loss that is suffered by a party to a contract to which he himself is not a party. The person giving the indemnity assumes primarily liability, unlike a guarantor who assumes secondary liability.

Interest rate risk

The risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest in suspense

The interest due on non-performing assets.

Interest margin

Net interest income as a percentage of average interest-earning assets.

K

Key management personnel

Those persons who have the authority and responsibility for planning, directing and controlling the activities of the entity.

Key Performance Indicators (KPIs)

KPIs are quantifiable measurements, agreed beforehand that reflects the critical success factors of a company.

L

Letter of credit (LC)

A document issued by a bank, requesting another bank or banks to advance money to a third person, up to a certain amount, in accordance with the terms and conditions set out in the document.

Liquidity risk

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquid assets ratio

Liquid assets expressed as a percentage of total liabilities other than shareholders' funds.

M

Mark to market

The policy to periodically revaluing positions up or down to their current market or fair value.

Market risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks: currency risk, interest rate risk, and other price risk.

Minority interest

The proportion of the profit or loss and net assets of a subsidiary attributable to equity interest that are not owned, directly or indirectly through subsidiaries, by the Parent.

Mortgage

A lien on real property used to secure a borrowing.

N

Negotiable instrument

A security or other financial instrument which can be freely sold to a third party (i.e. negotiated). Bank notes, bearer bonds, Bills of Exchange and cheques are normally negotiable instruments.

Net interest margin

Interest income as a percentage of Average Interest Earning Assets.

Non-performing loan

A loan where principal or interest payments are not being made on the due dates or where the borrower is failing to meet some other term or condition of the loan. Non-performing loans are frequently allocated non-accrual status.

Nostro account

A foreign currency current account maintained with another Bank, usually but not necessarily a foreign correspondent Bank. At the other Bank, the deposit is called a nostro account.

O**Objective evidence**

Information based on facts that can be proved through analysis, measurement, observation and other such means of research.

Off-balance sheet transactions

Transactions not recognised as assets or liabilities in the balance sheet but which give rise to contingencies and commitments.

P**Position**

The netted total commitments in a given currency or interest rate. A position can be either flat or square (no exposure), long (more currency bought than sold overbought) or short (more currency sold than bought oversold).

Prime rate

The interest rate which a bank charges its most creditworthy corporate customers.

Promissory note

An unconditional promise in writing made by one person to another, signed by the promisor, engaging to pay on demand or at a fixed or determinable future time a fixed sum to or to the order of, a specified person or to bearer.

R**Related parties**

Parties where one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions.

Repo

Jargon for sale and repurchase agreement.

Reserve assets

Assets of a financial institution which form part of its reserve requirements with the Central Bank.

Reverse repo

The opposite of a repo, i.e. a purchase and resale agreement.

Revolving credit

A line credit that has terms permitting successive drawings and payments at the borrower's discretion. The funds available to the borrower are replenished by any repayments of principal.

Risk-weighted assets

On-balance sheet assets and the credit equivalent of off-balance sheet assets multiplied by the relevant risk weighting factors.

S**Securitisation**

This involves the transfer of a block of income producing assets to a vehicle company that finances the purchase through the issue of debt (usually notes of commercial paper).

Segmental analysis

Analysis of financial information by segments of an enterprise specifically, the different geographical areas in which it operates. Segment reporting indicates the contribution to the revenue derived from business segments such as banking operations, leasing operations, stock broking and securities dealings, property and insurance.

Settlement date

The date on which a securities transaction is completed by actual exchange of securities for cash.

Short position

An excess of liabilities (and/or forward sale contracts) over assets (and/or forward purchase contracts). A dealer's position when the net of purchases and sales leaves a net sold or oversold position.

Subsidiary company

A subsidiary is an enterprise that is controlled by another enterprise (known as the parent).

Suspense account

An account used to record items temporarily which are held subject to clarification and transfer to the appropriate account.

Syndication loan

A loan arrangement in which a number of banks, in a form of joint venture, provides funds which they would individually be unwilling or unable to provide. Syndications are used for customers whose scale of financing is too great for any single Bank to accommodate without distorting its loan portfolio.

T**Time deposit**

An interest bearing deposit account which is subject to withdrawal only after a fixed term.

Tier I capital (Common Equity Tier I – CET I)

Common Equity Tier I (CET I) is a component of Tier I Capital that consists mostly of stated capital. It is a capital measure that was introduced as precautionary measure to protect the economy from a financial crisis.

Tier I capital (Additional Tier I Capital – AT I)

Additional Tier I Capital (AT I) is a component of Tier I Capital that comprises securities that are subordinated to most subordinated debt, which have no maturity, and their dividends can be cancelled at any time.

Tier II capital

Capital representing revaluation reserves, general provisions and other capital instruments, which combine certain characteristics of equity and debt such as hybrid capital instruments and subordinated term debts.

Total capital

The sum of Tier I capital and Tier II capital. Trading Financial Assets and Liabilities A financial asset or financial liability is classified as held-for-trading if it is: (a) Acquired or incurred principally for the purpose of selling or repurchasing it in the near term; (b) Part of a portfolio of identified financial instruments that are managed together for which there is evidence of a recent actual pattern of short-term profit taking; or (c) A derivative (except for a derivative that is designated and effective hedging instrument).

Transaction costs

Incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability.

Treasury bonds (T-Bond)

A long-dated security issued by the Central Bank of Sri Lanka. T-Bonds carry a coupon rate of interest.

V**Value added**

Value added is the wealth created by providing banking services less the cost of providing such services. The value added is allocated among the employees, the providers of capital to Government by way of taxes and retained for expression and growth.

Value at risk (VAR)

A risk management methodology that estimates the potential loss arising from adverse movement in market interest or exchange rates over a defined holding period.

Vostro account

A local currency current account maintained with a bank by another bank (compare with Nostro account).

Y**Yield curve**

A graph showing market interest rates as a function of maturity. Normally, the yield curve is upward sloping: interest rates increase with the term of the instrument.
