Chapter 01 – Institutional Profile/ Executive Summary

The Comptroller General's Office is mainly entrusted with overseeing the assets, material and cost management of the Government. Hence, it is required to maintain an updated comprehensive central data base for Non-Financial Assets of the Government and to formulate and implement Non - Financial Assets management policies, identifying idle resources and ensuring effective use of these assets, to strengthen the development framework of the Government.

2.2 Formulation and implementation of policies on Non-Financial Assets Management of the Government

(a) Proper utilization and timely disposal of government owned vehicles to prevent ruination of public properties and loss of revenue to the government

Asset Management Circular No. 01/2018 issued on 19th March 2018 had given instruction on disposal of vehicles not in running condition, but the progress of taking action as per the said instructions were not satisfactory. Hence, by submitting the information of vehicles not in running condition as reported as of 31st August 2020 to the Cabinet of Ministers, Assets Management Circular No. 05/2020 was issued on 02nd October 2020 instructing all the Heads of the Public Sector Institutions to take action to repair and use or to dispose of such vehicles before 31st December 2020 and submit the relevant information to the Comptroller General's Office before 15th January 2021 to be submitted to the Cabinet of Ministers.

It was observed that, some of the Public Sector Institutions are not committed to take necessary actions with due concern to comply with the repeated circular instructions. As such, progress of the repair and use or disposal of vehicles not in running condition as of 15th December 2021 was submitted to the Cabinet of Ministers and accordingly Assets

Management Circular No. 04/2022 issued on 25th January 2022, instructing to take immediate action to repair and use or disposal of remaining such vehicles, and emphasizing that, taking necessary actions for the proper utilization of vehicles with due maintenance and avoiding careless usage as well as the timely disposal of vehicles as required following the respective circular instructions, is an obligatory function of all the Heads of the Public Sector Institutions, to prevent ruination of public properties and loss of revenue to the Government.

The progress of repair and use or disposal of such vehicles as of 30th April 2023 is as given Table 2.6. Thus, as of 31st August 2020, there were 5,430 vehicles to be repaired and 4,073 vehicles to be disposed and as of 15th May 2023, 2,241 vehicles have been repaired and added to the running vehicle fleet costing Rs. 912 Mn, while 1,742 vehicles have been disposed of, generating revenue of Rs. 634 Mn. In addition, Assets Management Circular No. 08/2022 issued on 04th August 2022 to ensure that vehicles are disposed in the proper manner and earnings from such disposals in Government Agencies are correctly credited to the revenue code 20.06.02.01. Also, with the view of preventing the loss of revenue from vehicle disposal, Assets Management Circular No. 11/2022 was issued on 16th September 2022, providing instructions to ensure that registered ownership of vehicles to be disposed as scrap materials, is cancelled.

(b) Managing the procuring of government vehicles

Since mid-2019, the government suspended from purchasing new motor vehicles excluding utility vehicles, as instructed by the National Budget Circular No. 05/2019 issued on 24th September 2019. Thus, except for utility vehicles required for development activities and other essential purposes and also the vehicles imported for the use of Sri Lanka Police, the existing motor vehicle fleet was utilized to meet the government's

vehicle requirement, thereby incurring no additional costs. Assessing the requirement and economical use of existing utility vehicles of the government, the Comptroller General's Office has recommended to the National Budget Department to grant approval to procure 76 utility vehicles, out of total requests received for purchasing of 137 utility vehicles during the year 2022.

(c) Resolving registered ownership issues of government vehicles

The Comptroller General's Office identified that considerable number of vehicles which are used by some Public Sector Institutions do not have the legal right of such vehicles and the legal possession is owned by another Public Sector Institutions. Therefore, Asset Management Circular No. 02/2017 issued on 21st December 2017 and Asset Management Circular No. 03/2018 issued on 10th October 2018, instructing to resolve registered ownership issues of motor vehicles. Thus, as of 30th April 2023, the Comptroller General's Office has resolved registered ownership issues of 284 vehicles, which includes resolving registered ownership issues of 54 vehicles during the year 2022.

(d) Disposal of scrap materials piled up for a long period of time in public sector institutions

Meanwhile, it was revealed that, there are previously taken decisions by the Cabinet of Ministers on 13th July 2005 and 17th October 2013, instructing to set up a mechanism to provide the metal scrap materials to SME sector manufactures through Industrial Development Board. Considering these concerns, approval of the Cabinet of Ministers was requested to dispose the metal scrap materials as instructed by the above circular, only for the purpose of the completing the disposal of piled up scrap materials as at 15th September 2022. However, the Cabinet of Ministers did not granted the approval for the proposed mechanism. Hence, while informing the progress of disposal of scrap materials as at 15th December 2022 as given Table 2.7, approval of the Cabinet of Ministers was requested, to hand over the task of disposal of metal scrap materials to the Ministry of Industries.

Accordingly, with the approval granted by the Cabinet of Ministers, Assets Management Circular No.03/2023 issued on 30th January 2023, instructing Public Sector Institutions to coordinate with the Ministry of Industries and take necessary actions to dispose metal scrap materials as per the instructions given by the Ministry of Industries. As reported as of 15th December 2022, Rs. 54.4 Mn. earned from disposal of Scrap Materials.

2.4 Challenges and future goals

- I. Comptroller General's Office is making every efforts to establish a comprehensive central online database and asset management system for the management of the Non - Financial Assets of the Government, such as lands, buildings, vehicles, structures, furniture & office equipment and plant & machinery, etc.
- II. Integrated Treasury Management System (ITMIS) includes an asset module to record Non - Financial Asset of the Government Agencies only, and hence, it is required to create a central online asset management system for Public Enterprises, Provincial Councils & Local Governments. Therefore, Comptroller General's Office had discussions with ITMIS Project office and software developer to create Asset Management software for Public Enterprises & Provincial Councils and Local Governments, as well.
- III. It is observed that, value of the Non-Financial Assets of the Government has not been accurately recorded in government accounts due to the non-availability of value of such assets of the Government and this situation has given rise to complicated public accountability issues with regard to the Government assets. Neither the Financial Regulations nor the circulars issued by the General Treasury had provided instructions for valuation of these assets. Hence, Comptroller General's Office has issued Asset Management Circular No. 04/2018, Asset Management Circular No. 02/2019 and Asset Management Circular No. 05/2021 providing a policy for valuation of Non - Financial Assets given in (I) above. Further, it is required to supervise and expedite the valuation process of these assets and create an assets management database with valuation.
- IV. Non-compliance by the Public Sector Institutions for circulars issued by the Comptroller General's Office and prevailing obstacles to establish a central online database and information system for managing the Non-Financial Assets of the Government, have been identified as main challenges.
